Background: In 2015, the Catholic Pontiff, Pope Francis issued a teaching document (Encyclical) titled *Laudato Si*, “**On the Care of the Earth/Environment**” wherein he provided pastoral and intellectual guidance on the urgent need to address the multiplex of problems facing our common heritage, the Environment.

Submit Objectives: To aggregate the activities of the Catholic Church in Nigeria and its institutions around the aims of Laudato Si; and Build momentum for the seven Laudato Si goals and their operational initiative – Laudato Si Action Platform (www.laudatosiactionplatform).

Methodology: A two-day hybrid (virtual and in-person) participatory summit involving wide range of stakeholders, faith-based, state and non-state environmental actors, development partners, etc.
