Nigeria Mission, the only Religious then, came on board to receive them. The Colonial Superintendent of Police Cpt. Ballantyne brought them lunch and then took them ashore where they landed at the St. Joseph of Cluny Premises now, Holy Child Convent – Calabar Road, at 5:30 pm. precisely, amidst the excitement and flocking down of the adoring and enthusiastic Convent children of Sr. Walker. Then they headed to the Chapel still standing strong today for Adoration after which they were shown round the sensibly built Convent where they would spend the first six months understudying the work of Mother Magdalene (RSC) who was to be retired unceremoniously while they take over. On the following day, September 21, Mother Magdalene took them round on tour of the Calabar Establishments. On October 18,1930 three more Holy Child Missionaries viz. Mother Mary Edith, Mother Mary Joachim of the English Province and Mother Mary Lawrencia of the American Province arrived Calabar in the company of Bishop Shanahan and five newly ordained St. Patrick's Maynooth Fathers from Ireland including Fr. James Moynagh and Fr. Thomas McGettrick. Thereafter Mother MCW wasted no time and promptly took them to the Colonia Office to introduce them and to apply for their registration with the Nigerian Colonial Government. After six months of stay, Mother Amadeus and Mother Genevieve France left for England leaving the last mentioned pioneer three SHCJ to-kick start the taking-over from Mother M. Walker. In November, Mother Magdalene arranged many more other events to get the visiting SHCJ Missionaries on board some of which included the erection of the Calvary Cross by Archbishop Heerey which still stands strong today. Rev. Fathers T. Ronayne, Philippe O'Connor's and Patrick J. Costello of the Sacred Heart Cathedral took part in that Ceremony which took place on the 23rd November. That Cross is a life-size Crucifix and is mounted right at the centre dividing the Convent into four quadrants like a Crossed Road centre. On 8th December with the SHCJ visitors they sailed from Calabar having again crossed over the Cross River to the Mainland and disembarking at IDU sea port a.k.a **ESUK MBEHE IDU.** From there they travelled via Anua by kid-car to Onitsha in order to participate at the first priestly Ordination in the Vicariate which happened to be the Ordination of Bishop, then Rev. Father John Cross Anyogu. There they met the Missionary Sisters of the Holy Rosary and attended the Ordination Ceremony in the presence of Bishop Shanahan, Bishop Charles Heerey Bishop G. Broderick (SMA) of Asaba forty-eight priests from all over Nigeria all white including some French priests from Lyons and the King of Onitsha with his Royal entourage. On their return and on January 17, 1931 Bishop Shanahan laid the Foundation stone on the New Chapel noted above since he was absent from the Vicariate for some years making appeals for Missionaries for the Calabar Mission. Present of course at the Ceremony were the visiting SHCJ Missionaries, Fr. T. Ronayne, Fr. J. Cullen, Fr. J. Kilmartin and Fr. James Moynagh. On the 21st January, Mother MCW invited the entire Chiefs of Henshaw Town seven of them in complete European dress and four in their Royal and Chieftaincy Regalia to meet the visitors while His Royal Highness Etubom George Henshaw, the Head of Henshaw Town addressed them in excellent English. On March 19, they participated at the Solemn Ceremonies officiated by Fr. O'Connor from Anua in the new Chapel to mark the School's Patron Day which was to be renamed afterwards as **"HOLD**

CHILD COLLEGE". On Easter Sunday 5th April, the HHCJ Sisters were given a warm farewell ceremony and they departed on Easter Monday to Liverpool leaving the aforementioned three Rev. Mothers to sort out themselves and take over the administration of St. Joseph of Cluny Convent, St. Philomena's Anua, St. Joseph's Convent Ifuho, St. Theresa's Edem Ekpat, St. Cecilia's Oron, etc. which they afterwards renamed as Holy Child Convents till this day. Afterwards the Holy Child Sisters themselves also established many other Convents and other Institutions including Cornelia Connelly College CCC, Afaha Oku (1942), Holy Child Marian Hill Calabar (1952), Mount Carmel College Ogoja (1962) Holy Child Ikom (1965) etc. During the civil war some of them stayed put and congregated at CCC until the end of the hostilities in 1970. But after the war most of them either decided to leave or their services were no longer required in the Dioceses. However, Archbishop Brian D. Usanga had to compel them to stay put at Holy Child Calabar their foundation Mother House in the first place, till today. To make sure this would happen Rev. Sister M. Eileen remained and later took up appointment as Lecturer at the newly established University of Calabar Campus of the University of Nsukka (UNN) which later became autonomous in 1977 since the Holy Child College had been taken over during the Military regime. In 2002 the Donald Duke Administration in Cross River State returned the Mission Colleges to the founding Missionaries and Archbishop Brian Usanga reappointed SHCJ Sisters again as Principals of the School beginning with Sister M. Amarachi and Sr. Theresa Umana. Today Rev. Sr. Mary Akinwale SHCJ continues to hold fort as the Principal of Holy Child College, Calabar. With her in the Community are Sr. Suzan Igelle, Sr. Agnes Solomon and Sr. Patricia Thomas. Their students Community members studying at UNICAL include Sr. Elizabeth Okwori and Sr. Caroline Mberekpe.

4 Bishop Shanahan decided to found an indigenous Religious Congregation
thern Nigeria though this did not actually materialize in Nigeria. However,
e he needed it for the needs of the Vicariate and as the inspiration and
ng stone in the formation of indigenous Sisters, he founded the Congregation
Holy Rosary at Killeshandra in Ireland with Mgr. Patrick J. Whitney as chief
ter both for funds and the general welfare and establishment thereof. In 1928
t five of SHR professed women arrived Nigeria and he sent them to Mother
lene for brief tutorials and grooming. Within the ensuing years many Holy
y Sisters were professed to join their group in Onitsha and they quickly
ook the establishment of schools, training colleges, social centres and
als to fulfill Bishop Shanahan's vision to give the Nigerian women an
unity to play their rightful role in society and become good Christian wives and mothers of a new generation. It was after their expulsion in "Biafra" at the end of the civil war that an indigenous Novitiate was opened at Nsukka. Later they established a regional house at Enugu from where they went out to spread the Faith in Kenya, Sierra Leone, Cameroun and Zambia where they now work with the Holy Rosary Sisters from other parts of the world **(Cf. Centenary Commission, 1985)**. For obvious reasons and as stated elsewhere the Congregation never took up any Apostolate in the Archdiocese of Calabar, but as commented above, it took root and was groomed in Calabar, grace Ü la the tutorage of Mother Magdalene Charles Walker (RSC).

5. ORIGINS OF THE SISTERS OF THE MEDICAL MISSIONARY OF MARY

Similarly, then, and because God's inscrutable ways were always at work, it happened that when the Cluniac Sisters of St. Joseph left after the First World War 1, Marie Helena Martin, an Aid Defence nurse or Red Cross member during the war as mentioned above, remained behind to look after the St. Joseph's Cluniac College at Calabar. Marie Martin who later was to become the Foundress of the Medical Missionaries of Mary (MMM) together with Miss Veronica Hassan who later became the Founding and Superior General of the Holy Rosary Sisters (HRC) were the two women that Bishop Shanahan used to found the two Religious Congregations in Nigeria. Bishop Shanahan had previously cabled Marie Martin after she had gone back to Ireland with the arrival of Mother MCW in order to intimate her of his yet to be unfolded plans. It was during that 1st World War in 1918 that he told her she was urgently needed back in Nigeria if she did not mind facing things alone ie. the difficult situation in Nigeria then. **(Cf. MMM Silver Jubilee Publication 1962, 32)**. She it was who on the arrival of Mother Magdalene Charles Walker (SRC) together with another colleague Agnes Ryan who later also became a nun and the first Superior General of the Holy Rosary Sisters, assisted Bishop Shanahan in the Cluniac School work. On this moot point, Miss Marie Martin who became both the foundation member and Foundress as also Superior General of the Medical Missionaries of Mary (MMM) was a product of a misadventure. Mother MCW was to resign and leave Nigeria with all the work she had started including the 12-bed Clinic/Dispensary at Anua. Meanwhile Miss Martin who had returned to Ireland with the sack of MCW had begun within her to nurse the inspiration of founding a Religious Congregation in order to go back and serve in the Calabar Mission. Bishop Shanahan himself though "retired", gave her the necessary encouragement and fillip by writing the letters of recommendation with which she, Miss Marie Martin applied to Rome to get approval Rescript for the founding of the Medical Missionaries of Mary Congregation (MMM). Soon after, Bishop Heerey became very anxious about launching a medical apostolate, he persuaded the Holy Child Sisters to become involved in the training and supervision of the Candidates who had come out to join the Congregation. In Ireland M. Martin was able to promptly recruit two nurses Miss Powel and Miss D'Arcy. She also recruited a medical doctor, a pharmacist and a nurse as the nucleus staff for the foundation. Fr. Vincent Davey who is mentioned below, had returned to a Parish in Northern Ireland also helped through the auspices of the Apostolic Work Society in Belfast to solicit for money in addition to equipments needed for the hospital which was built beside Mother Magdalene's Anua 12-bed Clinic. In 1933 Bishop Heerey blessed the hospital and medical services resumed at Anua once more. This became the first of its kind in the province. But no sooner than the hospital began to pick up than another problem ensued. This time it was an alleged complaint about the Holy Child Sisters who were also working there. Bishop Heerey promptly closed the hospital and everything went back to square one until another "miracle" ensued in the return of Marie Martin, sound and healthy, but this time as a candidate to become a Rev. Sister of the Missionaries of Mary.

Meanwhile Marie Martin was recuperating in St. Vincent's Hospital Dublin from an injury she incurred sometime after she had departed from Nigeria with the exit of Mother Magdalene Walker. Even here, she still was nursing the idea of returning to the Calabar Mission, but this time as Religious. She was able as commented above, to recruit two nurses, Nurse Powell and D'Arcy from there. Then Fr. Kilmartin also secured the services of Dr. Dunleavy, a middle-aged widower from Foxford and Fr. Larry Leavy. The three of them arrived Calabar in November 1936. But in December Fr. Leavy died of yellow fever. On January 19, 1937 Marie Martin together with Moynagh's sister Mary Moynagh and Birdie O'Burke, arrived Calabar en route Anua where they were to begin their Novitiate under the direction of the Holy Child Sisters (SHCJ) who were her School classmates in England not knowing there was going to be another set-back waiting for her. She soon fell ill and was attended to by Dr. Patrick Dunleavy. Then the doctor also took ill and died. On hearing this, a German doctor at Emekuku, Dr. Noeth sent her to the European hospital at Port Harcourt. Very providentially in February, Mgr. Riberi the Apostolic Delegate to West Africa, a family

friend of M. Martin since his early years in Dublin as Apostolic Delegate to Ireland then, arrived Calabar from the Cameroons, and with Moynagh prepared the necessary Documents for Rome to request for the Canonical establishment of the new Congregation which was to become the Medical Missionaries of Mary (MMM). During that Easter as she was still lying sick, she got the Rescript from Rome to start the Medical Missionaries of Mary. There and then, Bishop Moynagh who by now had become the Prefect Apostolic dispensed her from the mandatory three months Novitiate which he had planned for her, and she made her Religious Vows before him on hospital bed with the Religious name of Sister Mary of the Incarnation. There and then the Congregation of the Medical Missionaries of Mary was born. These were the humble beginnings of the foundation of the Medical Missionaries of Mary, MMM with only a single member. Then she was sent back to Ireland to recuperate, meanwhile her companions Miss Mary Moynagh and Birdie O'Burke were sent to the Holy Child Sisters at Ifuho for their Canonical and normal six months Novitiate. After her recovery, Cardinal McRoy validated her Vows in the Diocese of Armagh. On December 15, 1937 the two girls Mary Moynagh and Birdie O'Burke were professed Mary Joseph and Mary Magdalene at Ifuho **(Cf. Kiggins Thomas, Gil and Macmillan, 1991, 130)**.

There in Ireland after her recovery, Marie Martin was joined by Miss Norah Leydon who took the Religious name Mary Patrick and with a few other girls they opened the Mother House at Drogheda, Ireland. Soon afterwards they were joined by Miss Keane who hoped to do her Postulancy in Nigeria and return to Drogheda for her Novitiate. But instead she stayed on and was professed with the new name of Sr. St. John. Then Norah Leydon now Sr. Patrick with another girl, Honora Murphy professed. Sr. Oliver who qualified both in Midwifery and Paediatrics also came in 1939 to join them in Nigeria. This was the foundation of the Medical Missionaries of Mary and the birth of St. Luke's Hospital Anua named after the Biblical Doctor and Evangelist St. Luke. Dr. Dunleavy who died was replaced by Dr. Duffy and his wife. Again the two were forced to return to Europe when the Second World War broke out and the hospital was closed again. In 1942 Dr. Gerry Connolly from Cavan arrived Anua and the hospital came alive again. After the war, more women joined the Congregation and this also had contributed in no small way to make St. Luke's Hospital famous throughout the length and breadth of Eastern Nigeria, and later the entire country. In 1945 on the invitation of Bishop T. McGettrick who was the Parish Priest of Anua at the foundation of the hospital, the MMM Sisters went to Ogoja to aid thousands of people suffering from the **"Hansen disease"** a.k.a **leprosy** which was prevalent in the area. They first opened up stations at Abakaliki and later at Afikpo, Obudu and Ikom through the establishment of segregated villages for leprosy patients.

Then with the MMM Sisters they continued to hold an out-patient unit, ante-natal clinic as well as visiting women in their homes. Still later on, a young Dublin architect who did most of the designs of the once famous St. Luke's Hospital and John Turner, a middle-aged laboratory technician also from Dublin arrived at Anua. He it was who spent twelve years there till 1954 training many of the locals including Nurses Philip and Paul from Anua, Dominic Ikpe of Use Offot. Thereafter he was transferred to Kenya where he worked with the Franciscan Sisters. He retired in 1960 and died at St. Patrick's Douglas in March 1971. The MMMs also succeeded in training thousands of indigenous nurses and medical technicians to work in the Nigerian hospitals. Finally, the MMMs promoted vocations to the Congregation by attracting a good number of Nigerian girls to join the Congregation with Rev. Sisters Veronica Akpan (MMM) from Eniong Offot and Agnes Essien (MMM) as the first indigenous products of the Congregation.

Between 1945-67 the St. Luke's hospital manned by the Medical Missionaries reached its apogee with the arrivals of Sr. Dr. Margaret Mary Nolan fondly called by her admirers **SR. DR. UNWA IDIONG** – a title that endeared her especially to those in difficult cases on account of how she so tenderly and motherly attended to them as **"SWEET MOTHER UNWA IDIONG**". Then came the likes of Srs. Dr. Christine, McSweeney and Anne Ward who stayed put in the thick and thin of the war and afterwards opened the V.V.F. Centre at Mbribit Itam. Later, Sr. Dr. Anne Ward moved the Convent thither with the Government take-over of Mission schools and hospitals. While Sr. Dr. Christine returned to Ireland and never came back after the war, Sr. Dr. McSweeney was co-opted in Ondo State where she founded the famous Natural Method of child selection and **"SAFE PERIOD"** after ovulation – **THE BILLINGS METHOD,** which has since spread through the length and breadth of Nigeria through her film shows and formation of pilot trainees in most of

the Dioceses of Nigeria. Today the MMM Sisters are still working at the Mbribit Itam Centre after closing Urua Akpa, Ikot Ene, Akpa Utong, Use Abat and the famous St. Luke's Hospital, Anua.

6. ORIGINS OF THE CONGREGATION OF THE IMMACULATE HEART OF MARY

Bishop Shanahan's successor, Archbishop Charles Heerey (CSSP) also founded at Ihiala the Congregation of the Immaculate Heart of Mary, Mother of Christ on October 7, 1937 after his Pilgrimage to Lourdes in 1937 with Mother M. Bernadette Anyogu and M. Magdalene Oranu as the foundation members. Mother M. Bernadette Anyogu became the first Superior General and Vicar General while M. Magdalene Oranu served as Vicar General thereof. The Congregation was groomed by the Irish Holy Rosary Sisters just the same way as the Handmaids were groomed by the Holy Child Sisters. The Congregation is an indigenous African Institution canonically erected as was the case with the Handmaids of the Holy Child Jesus and today there are almost a thousand members (1000) serving in different parts of the world. To his memory, the erstwhile Archbishop had while establishing the Congregation expressed his intentions as follows: "The Congregation of the native Sisters of the Most Pure Heart of Mary is established for the greater Glory of God, the greater sanctification of the Members and special care of the sick in maternities and hospitals of the Vicariate, the care of children in orphanages, the training of women for marriage and other Sacraments and the education of children in schools…towards the authentic and prophetic witnessing to Christ in the World". Then in 1943 the Immaculate Heart Sisters opened their Novitiate House in Urualla from where it was later transferred to Nkpor in 1972. Here the Novices as part of their training have helped in the teaching of the Catechism and the preparation of Candidates for the Sacraments, an Apostolate which most Congregations now undertake in parishes of their domain from their various Convents. Apart from teaching, the primary apostolate of the Immaculate Sisters is work in the hospitals. Since their inauguration many of the Sisters have trained as qualified medical doctors in specialized fields and nursing.

After the civil war under the leadership of Mother Mary Joseph Uzoigwe as Superior General, the Immaculate Heart Sisters reactivated most of the Convents and hospitals formerly run by the Holy Rosary Sisters just as in Calabar and Ogoja where the Handmaids also took over all those Holy Child Convents earlier established and manned by the SHCJ except the Holy Child and foundation Convent at Holy Child College, Marian Hill – Calabar. As noted above, not only in teaching but also in the field of hospital work and training, the Immaculate Sisters have since launched an ambitious programme for members to train and specialize in both Catechetical and Social work. In the former Novitiate Centre at Urualla, the Sisters have opened their Juniorate and the Postulancy Centre at Onitsha. These centres are always filled to capacity with prospective Candidates for sisterhood during their recruitment exercise.

Today Immaculate Heart Sisters' convent are scattered throughout Nigeria. They are to be found in Lagos, Ibadan, Makurdi, Jos, Kaduna and especially in Dioceses of the former Eastern Region and the Archdiocese of Lagos. Till today, the Congregation has not been established in the Archdiocese of Calabar because the thinking then of the Bishops was that it would be a duplication of resources just as it was so reasoned out in the case of the founding of the Handmaids and the Holy Rosary Congregations to serve the needs of the Onitsha and Calabar Missions respectively. However, another but more poignant thinking was that since there were more vocations coming from Igbo indigenous girls it could dwarf and make it unappealing and nearly difficult for indigenous girls to join the two Congregations in Calabar, Experience is the best teacher; for once the Religious Communities whether of the Handmaids or of the Immaculate Heart Sisters would be full to the seams which would be mostly Igbo girls, then there would be reduction in in-takes resulting in apathy and lack of vocations among the indigenous Calabar girls. Worse still, should by Divine Providence they show up, there would be limited or no vacancies at all for them. Even in the Archdiocese of Calabar at present, there are very few indigenous Calabar priests and Rev. Sisters. In fact, the non-indigenes and those from other areas of Nigeria are more than doubled the indigenous clergy. Therefore, such a situation could leave them at a disadvantage and shortchanged because this is exactly the situation in Calabar today. Think of that. The situation of the foundation of the Franciscan Sisters of the Immaculate Conception is a case in point as commented elsewhere in this Chapter.

7. ORIGINS OF VINCENTIAN FATHERS (CM) IN THE CALABAR MISSION

The Congregation of the Mission – **CONGRGATIO MISSIONIS** (CM) a.k.a the Vincentian Fathers, was founded by a French man; St. Vincent de Paul on 25 January, 1625AD in Folleville, France as an Apostolic Society. It was to be a Religious Congregation for men who would carry on both as a Ministry of ordained priests and an Apostolate society with the aim of evangelizing the poor and the needy through giving sustenance to the poor, giving popular Retreats or "Missions) in the countryside as well as training the diocesan Clergy. The coming of the Congregation into Nigeria was really an act of Divine Providence because it really showed Almighty God working in His way, which is inscrutable. In 1959, Bishop James Moynagh (SPS) of Calabar Diocese in Nigeria while observing the noble work carried out by the Vincentians in his native Ireland, decided to invite the Congregation to send a few of their members for missionary work in Calabar.

THE LIFE AND TIMES OF ST. VINCENT DE PAUL, FOUNDER OF CM CONGREGATION

St. Vincent de Paul, the third child of the six children in a peasant family was born in Gascony France and educated by the Franciscans at Dax. He was ordained a priest at the age of 19 and five years later he was captured and enslaved by Turkish pirates but made good his escape with his renegade Christian Master whom he had converted after two years. In 1619, King louis XIII made him General Almoner, whereby he was able to improve the pitiful lot of prisoners in the jails and the slaves in the Royal Galleys. Taking advantage of this appointment, he was able to establish hospitals and by way of bodily and spiritual ministrations won their hearts while converting many besides.

In 1626, he founded the Congregation of Priests of the Missions, whereby he gathered at Saint Lazare in Paris as Mother House, a number of zealous secular priests who were ready and willing to bound themselves "to live in community and devote themselves to the salvation of the poor country people". From here they held regular Retreats for both Priests and lay people, thereby developing the spirituality of the masses further. At the request of certain Bishops, the Congregation also undertook the direction of Seminaries and this proved so success full that at the outbreak of the French Revolution, they were placed in charge of one third of the Seminaries and Religious Institutes in France. Moved by this spirit of practical Charity, St. Vincent helped simultaneously to stimulate the social consciousness of many women of the Nobility and organized them into the "Ladies of Charity" by using their enormous contributions to operate the great General Hospital of Paris where thousands of destitute were sheltered and given useful work to do. Thereafter, he started an orphanage, an old people's home, an asylum for the insane and an institution for the care of lepers.

Then in 1633, he entrusted the actual nursing of all these unfortunates to the **DAUGHTERS OF CHARITY** with he co-founded with St. Louise de Marillac. Here hundreds of young women were sheltered from the roving soldiery. At his personal direction and instructions regarding the nourishing ingredients to be used, the Sisters established bakeries and soup kitchens, gave seeds and money to needy peasants, maintaining that these Sisters "whose Convent is the sick room, whose Chapel is the Parish Church and whose Cloister is the streets and of the city of Paris," are those who have loved the poor and will meet death without fear." After some time, he sent his Vincentian Priests and Brothers to over 30,000 Christian slaves held in Bizerta, Tunis and Algiers. Their work in addition to giving missions and seeing to the spiritual needs of these slaves was to also act as agents and messengers for their families. During his lifetime, St. Vincent paid over $ 6,000,000 (six Million Dollars) in ransom for the release of 1,200 slaves in North Africa. Under the influence of Cardinal Pierre de Béruile, St. Francis de Sales and St. Frances de

Chantal, prayer, meditation, ascetical exercises continually nourished St. Vincent's ardour and boundless Charity. He was so humble that he shunned all veneer of publicity by placing his eminently practical mind to the unlimited trust of the Divine Providence. And complete distrust of himself. His prayer life and piety were practised in simplicity and Christo-centric orientation. St. Vincent DePaul died on September 27, 1660 in Paris and his body was enshrined in the Mother House of his Congregation at Saint Lazare. In 1729 he was beatified and canonized in 1737 by Pope Clement II. During his Pontificate, Pope Leo XIII declared him Patron of all Sciences devoted to Works of Charity.

THE CONGREGATION OF THE MISSION (CM) IN THE ARCHDIOCESE OF CALABAR

The coming of the Vincentian Fathers (CM) to Nigeria typifies the peculiar and mysterious instance of Divine Providence doing His Own Work among men in His own way. From available records, and in the Archives of the Calabar Church, in 1957-1962, Bishop James Moynagh (SPS), the erstwhile Bishop of then DIOCESE of Calabar having come in contact on several occasions with the Vincentian Fathers in his native Ireland, was so captivated and pleased by their Apostolate that he decided to put a call to Fr. Matthew McGrath (SPS) while on leave to make contacts with the Headquarters in Ireland with a view of inviting them to come and assist his Mission in what is now called the Metropolitan Archdiocese of Calabar – an ecclesiastical territory covering the Diocese of Port Harcourt including the Bayelsa territory, Ogoja Diocese including Abakaliki territory, Ikot Ekpene Diocese, Uyo Diocese and of course Calabar Archdiocese. Bishop Moynagh's request yielded fruit and following the example of their Founder which aims at downright practical, zealous, intelligent and sensible ways of doing everything according to the Divine Will. Being moved by the spirit of Charity and dedication to the poor and for their salvation three Vincentian priests viz. Frs. Francis Mullen, Harry Morrin and Patrick Hughes Calabar arrived Nigeria in July 1960 to support the Calabar Mission and soon embarked on their Missionary assignment giving mission and Retreats all over the Diocese of Calabar and beyond as far as Enugu and Onitsha.

On their arrival, Bishop Moynagh assigned them to different parishes in the Diocese appointing Fr. Harry Morrin to Anua Mission as his first Parish of choice, Fr. Patrick Hughes to Ututu now in Abia State, but formerly as part of Calabar Diocese then, while Fr. Frank Mullan wa to remain at Ifuho as his preferred Parish of choice, Ifuho being his first Parish of assignment on his arrival in Nigeria in 1930. Recalling their assignment in Nigeria, Fr. Mullan then back to his native Ireland had written in 1990 to the effect that they were to go to Nigeria "specifically, for the purpose of giving mission and Retreats throughout the Parishes and Mission Stations, preach on Recollection Days to the Priests of the Diocese as well as the Communities of Religious Sisters". These were their mission then in Nigeria. But as the mission progressed, their counterpart, the Daughters of Charity (DC)were also invited to join in the evangelical and educational work of the Diocese. In 1963, the Sisters set sail from Dublin and arrived Calabar to join the Vincentian Fathers' team as collaborators in the Ministry to the poor. It was that same year that Fr. Mulan and his team kick started the construction of the first Vincentian House in Nigeria and invariable at their first Parish of choice which happened to be Ik?t Ekpene in Ifuho, where they afterwards also constructed the beautiful St. Vincent's Church, Ikot Obong Edong, IK. That very year too on March 1, the Vatican announced the erection of the new Diocese of Iko Ekpene to be excised from the Archdiocese of Calabar with Dominic Cardinal, then Auxiliary Bishop Ekandem as first Bishop residential thereof.

With these developments, but most especially with the domicile of the Vincentian Fathers firmly rooted in Ikot Ekpene, the Vincentian Apostolate in Nigeria necessarily fell to the new Diocese of Ikot Ekpene. As the Vincentian Fathers started settling down in Ikot Ekpene, some of them like Fr. C. O'Riordan naturally became the first Lecturers of the newly established Bigard Campus Regional Major Seminary also situated in Ikot Ekpene. Due to the Vincentian charisma of forming the native Clergy it became

logical to transfer the Vincentian House nearer to the Seminary, and Cardinal Ekandem in 1980 transferred the Mother House to Abiakpo Ntak Inyang, the very locus where the then Bigard Campus Seminary, now St. Joseph's Major Seminary is situated. There at Abiakpo, the Vincentian Fathers would continue their ministries of teaching and giving Spiritual Direction to the Seminarians at the same time also carrying out their Apostolate in the Diocese of Ikot Ekpene, their place of domicile which included serving as Chaplains to the prison inmates at Ikot Ekpene and Abak, serving as Spiritual Directors and Confessors to both to both St. Joseph's Major Seminary and the Minor Seminary Afaha Obong and to the various Religious Sisters' Congregations.

This was the situation for a long time until quite in the late 1990's when on account of the volte-face of the Claretian Fathers (+cmf) at which Archbishop Brian D. Usanga was greatly miffed as recounted below, then he promptly and dutifully applied to the Provincial Superior General of the Vincentian Fathers in Nigeria inviting them to establish their Communities both in Calabar and Uyo. Here they fixed Recollection days for priests as well as the Rev. Sisters. They also give Spiritual Direction. In January 2000, Rev. Fr. Victor Nyoroh (CM) released to take up appointment in the Archdiocese of Calabar. On his arrival, he was appointed by Archbishop Brian Usanga to inspect and explore the possibility of the Vincentian Fathers taking over the administration of the two existing St. Vincent de Paul Parish, Mbukpa and St. Joseph's Chaplaincy CRUTECH both under St. Mary's Pro-Cathedral Deanery. Meanwhile Fr. Nyoroh who also came in as Post Graduate Student of the University of Calabar was to settle in the Sacred Heart Cathedral while carrying out the assignment. When to his satisfaction, he saw the facilities adequate for the establishment of the Vincentian Community in the Archdiocese, he promptly informed his Superiors of the development. In Calabar they were assigned two Parishes viz. St. Vincent de Paul Parish Mbukpa and the St. Joseph's Chaplaincy, Cross River State University of Technology. Thereafter, Rev. Fr. Augustine Iwok (CM) was appointed Fr. In-Charge of St. Vincent de Paul Parish taking over from Fr. Bernard Okokon while Fr. Victor Nyoroh took charge of St. Joseph's Chaplaincy CRUTECH. Today, Very Rev. Fr. Evarestus Igwe is the Local Superior and directs the entire work of the Vincentians in Calabar Ecclesiastical Province. In the intervening years the following Fathers have served as Parish Priests of St. Vincent de Paul till date:

8. ORIGINS OF DAUGHTERS OF CHARITY IN THE CALABAR MISSION

The Congregation of Daughters Charity of St. Vincent de Paul is an international Women's Organization of Consecrated Women Religious (Nuns) founded in France by St. Vincent de Paul and St. Louise de Marillac in 1633 AD. It is the first uncloistered Congregation in the Church noted for their work among the poor, the sick, the aged and the afflicted to come to Nigeria. In 1961 Bishop Moynagh wrote to the Provincial Daughters of Charity, DC. in London requesting her to consider establishing the Organization in his Diocese of Calabar, Nigeria. In 1963. Three Rev. Sisters with Sr. M. Xavier as Superior were appointed and assigned to the Calabar Mission. Consequently, they set sail and arrived Calabar and established their first Convent at Eniong Offot, Uyo and Adiaha Obong Secondary Commercial thereat. From Calabar the Congregation spread its activities all over the country but now base their

Headquarters at Eleme, Port Harcourt. The Congregation apart from teaching also specializes in medical work and services including care of the disabled, and those with sight, hearing and other disabilities. They also extend their services to the poor and needy through their Charitable Networks. They are to be found in all the Dioceses in Nigeria.

As observed above, it was Bishop James Moynagh (SPS), the erstwhile Bishop of Calabar who established the first Daughters of Charity (DC) Convent in the old Diocese of Calabar at Eniong Offot, Uyo which still stands strong till this day. But with the creation of Uyo Diocese by St. Pope John Paul II in 1989, the Congregation had then reverted to Uyo Diocese as its Headquarters. At the moment no Daughters of Charity Convent has been established in the parent Calabar Mission to wit, the Archdiocese of Calabar.

9. ORIGINS OF HOLY FAMILY SISTERS OF THE NEEDY IN THE CALABAR MISSION

LOGO, A REV SR. (HFSN) & CHAPEL, CALABAR

Between 1980 and 1983, Fr. Denis Mary Joseph Ononuju (CSSP) had been frequenting Archbishop's Residence, Calabar almost on monthly basis and sometimes weekly, and one might be tempted to ask what for and why? The answer is not too far to seek because he had in his sleeves the heavenly desire to found a Religious Congregation of Diocesan Right having himself been instrumental to the mid-wifing and founding of the Claretian Congregation in Igbo land. However, his problem was that of sponsorship towards the materialization of this his dream project. Archbishop Brian Usanga who also in a way was instrumental to the establishment of the Clarentian Order having known Fr. Christian Iheduru (+CMF), the first ever Superior General of the Claretian Congregation in Nigeria for a long time and in sync towards the founding of the Claretian Order in Nekede, was also the most senior Bishop in the Nigerian Hierarchy then. He was often seen as the game changer to be approached especially in difficult situations such as that in which Fr. Denis found himself. That was why Fr. Denis had been a regular visitor to Calabar in the first place. Having intimated the Archbishop of his problem to wit: that his Igbo Bishops did not seem to be willing to assist him in the realization and establishment of his pet Congregation of the Holy Family Fathers and Sisters of the Needy, the Archbishop gave him fillip and hope that he would personally present the matter before the Episcopal Conference of Nigeria of which he remained a potential figure and official thereof. Having done his background homework, especially among the other Bishops of Nigeria, he approached his junior Bishops in Igbo land and appealed to them to see reason by encouraging Fr. Denis in his laudable project with their maximum support. It was a fait accompli sort of, and mission fulfilled. It so happened that when the Calabar Archbishop presented the matter before his colleagues at the Catholic Secretariat Lagos, then venue of their Conference, it was a unanimous acceptance of and acquiescence to the request of Fr. Denis as also of unalloyed cooperation and goodwill

on the part of the Nigerian Bishops to help found the Congregation of Diocesan Right. The logic of the benevolent and enthusiastic Bishops was that if Fr. Denis M. J. was such a docile and captivating factor in the establishment of Bishop Unegbus's Congregation in Igbo land, how much more would he not be so meticulous and inexorable in the foundation of his own laudable pet and audacious God-directed project? This would only go to confirming the words of the Lord Jesus in reverse to the effect that "if you can be faithful to what does not belong to you, how much more would you be faithful to what is yours (**Cf Lk. 16:12**). That was how Fr. Denis M. J. Ononuju was able to found the Congregation first, of the Women Religious of the Holy Family Sisters of the Needy based in Owerri in 1983 and later the Congregation of the Holy Family Fathers for priests at Okija. The rest they say is history.

Just in recapitulation, in 1970, Bishop M. Unegbu who took over from Bishop Joseph Whelan (CSSP), following his unfortunate repatriation in the events brought about by the Nigeria-Biafra fratricidal war (1967- 1970), sent Fr. Denis Mary Joseph Ononuju, CSSp to understudy the management of the Carmelite Order in Ireland. The result was the foundation of the Claretian Congregation on September 1973 at Nekede, Owerri with Fr. Christian Iheduru (+cmf) as first Superior General as commented above. Thereafter, and following his God-given desire to found a new Religious Congregation for men and women in his native Igbo land having had first-hand knowledge of the **modus operandi** and the means to set about it, Fr. Ononuju later went about on his own to found an indigenous Congregation of the Holy Family Sisters and Fathers of the Poor and Needy for men and women with Owerri and Okija respectively as Mother Houses thereof. The Holy Family Sisters of the Needy Congregation which Fr. Denis Ononuju (CSSP) first founded on March 19, 1983 at Owerri was a Religious Institute of Women with Diocesan Right. The Congregation was meant to be indigenous and missionary in character whose apostolic Charisms are an all-embracing Charity works geared towards the Christian Faithful and other children of God, Catholic and non-Catholic, young and old – men and women, but most specifically, to cater for the less-privileged in society – the needy and the poor.

THE HOLY FAMILY SISTERS CONGREGATION IN CALABAR

In 1990 to be precise and owing to the abrupt departure of the Franciscan Sisters (CFSIM) as commented elsewhere, Archbishop Brian D. Usanga, having got wind of the successful foundation at Owerri and progress of the Holy Family Sisters of the Needy (HFSN) by Fr. Denis Mary Ononuju (CSSP) his protégée, arranged to invite the Congregation to begin work in the Archdiocese of Calabar. As a temporary measure and since the Claretian Congregation had also packed out from the Calabar Mission within that same period, Archbishop Usanga had no reservations in deciding that the HFSN Congregation should inherit the compound earlier occupied by the Claretian Fathers by taking over their premises adjacent to and within the Bishop Moynagh Avenue Catholic Secretariat on the Muritala Muhammed Highway left behind by the Clarentian Missionaries. The HFSN Congregation had no difficulty in accepting the offer since preparations were on-going towards the completion of their permanent Convent to be built for them at Target Road including the Hostels christened **'THE GOOD SAMARITAN HOME FOR THE POOR AND NEEDY".** The Institution was the first ever Archdiocesan Project aimed at providing sanctuary and succour for the in-mates who would be the primary subjects and beneficiaries of the Congregations' Apostolate in Calabar. It was also within the plan and objective of the Institution to also make it a "Home and Social Centre" for genuine needy and stranded travelers into the metropolis. This moot point is significant because that aspect of the Project never materialized although the type of blocks which the Author personally got molded having being appointed by the Archbishop to take full charge of the establishment of the Institution were meant for storeyed buildings. Nevertheless, the latter completed project stopped short of this objective. It wasn't actually owing to lack of funds because the Vatican was interested in the Project **ab initio**. As part of the Institution's profile, it was to also to contain a hostel for retiring Archbishops and Apostolic Vicars of the Archdiocese. However, the

Author was subsequently appointed Chaplain of the newly arrived Congregation members. For and towards the maintenance of the Institution and up-keep of the Congregation, the Archdiocesan Pastoral Council decided among other things that a special 2nd Tray Collection be taken from the Faithful in all the Parishes on every third Sunday of the month and was to be known as "**DIOCESAN MONTHLY COLLECTION FOR THE GOOD SAMARITAN HOME".**

Consequent upon this and even before the buildings were completed, the Target Road premises which originally was part of the Hostels built for "Tutors" teaching at the Holy Child Secondary School in the 1950s was acquired and handed over to the 1984 newly arrived Claretian Sisters of the Mary Immaculate Congregation from the Equatorial Guinea Foundation, Bata. Those Rev. Sisters had been invited for Missionary work in the Archdiocese since the 1980s. Having completed their Hostels at Batteba Street Off Marian Road Calabar, they vacated the premises for the Holy Family Sisters to move in from their Bishop Moynagh Avenue temporary base. From then on, and with the taking over of the vacated "Target Convent", work continued in earnest towards the completion of the Good Samaritan new Home. To be candid and brief, it should be of interest to readers of this book to know that the Claretian Sisters also had left the Archdiocese unceremoniously as commented elsewhere regarding that Congregation in this Chapter. But following upon their vacating the Batteba Convent, Archbishop Joseph Edra Ukpo who then took over from Archbishop Brian Usanga directed that some of the Holy Family Sisters should move into the Batteba Convent to take over the abandoned Project of the Claretian Sisters. The Project was no other than the Day Care for abandoned babies picked in gutters known as the **"MOTHERLESS BABIES' HOME"**. On this, the Author can still recall an occasion when early on a certain morning when he was the Administrator of St. Bernard's Parish Marian Hill, which is quite close to the Batteba Convent, he overheard the cries of a baby right inside the Church but while going to find out he also heard the cries of another baby at the entrance of the Church. He ran outside to check on the second baby who was wrapped in a polythene bag and abandoned in the gutter along Marian Road. Faced with the dilemma he crossed over to the Holy Child Convent on the opposite side of the Church on the other side of Marian Road to alert the Sisters and get them to pick up the babies as they must have been abandoned to their fate since the Batteba Sister's Convent was much further away, off Marian Road. Yes, that was what the new Rev. Sisters were to witness and take control of almost on weekly basis and the care of such babies was to be one of the main preoccupations of the Holy Family Sisters.

It should also be interesting for the records to intimate readers how it all started with the arrival of the Holy Family Sisters specifically at Target Road because this was to be their primary post and assignment point in the first place. Just before the Rev. Sisters moved in from their Bishop Moynagh Avenue base, a grand launching function was organized in 1991 to raise funds for the completion of the hostels and Chapel. It was a great ceremony at which Ukandi Dr. Gabriel A. Ogar, the former SMG of old Cross River State and currently then, an Official of OMPADEC representing Cross River State was the Chairman thereof. It was a very grand Function with pomp and pageantry. It is also heart-warming to know that the Function masterminded by the Catholic Corpers brought so many personalities especially the Igbos from and outside the Cross River State. Before the Function, the Catholic Youth Corpers Association (NACC) headed by then Mr. now Fr. Richard A. Ogedengbe (OP) who after his Service and working for a few years decided to apply for the priesthood. He was admitted at the prestigious SS Peter & Paul Seminary Ibadan. After his Ordination and Ministry at St. Dominic's Yaba, he became the Secretary General of the Dominican Congregation in Nigeria and currently has been elected Superior General at their recent Chapter to the greater Glory of God. That shows what a charismatic and indefatigable young man he has been and such a pragmatic and hardworking leader I have ever worked with as Chaplain of NACC in Cross River State since its foundation nationwide in 1989. It speaks volumes of such a magnetic leader. He had organized a miniature function before this grand launching to equip the sitting room of the Convent as well as provide some beds and mattresses for the in-mates. It was a well-planned project, trust

the erstwhile Archbishop B. D. Usanga and the Youth Corpers under now Fr. Richard (OP) as also the Laity Council under the indefatigable Architect Dr. Maurice E. Archibong (KSG). Just this year, the Knights of St. Mulumba (KSM) under the auspices of the Sancta Maria Sub-Council have repaired and refurbished the entire Batteba Convent for the benefit of the Sisters and motherless in-mates. Meanwhile the following Sisters viz. Sr. Chinemerem Anyaebosim - Superior, Sr. Gratiakristi Aninyoku, Sr. Maria Udokristi Okwaraku are taking care of the **INFANT JESUS ORPHANAGE HOME**, while Sr. Innocentia Emenogu - Superior, Sr. Chimtuo Eluwa, Sr. Maria Ugonna Udoha, Sr. Yvonne Maria Nwankwo and Sr. Mary Monica Obidinala take charge of the **POPE ST. JOHN PAUL II GOOD SAMARITAN HOME**. To God be the Glory!

10. ORIGINS OF THE CLARENTIAN SISTERS OF MARY IMMACULATE THE LIFE & TIMES OF VEN. MARIA ANTHONIA PARIS – A PROFILE

Mother Maria Antonia Paris (MMI) was born on June 28, 1813, in a small town called Valmoll, near the Northeastern Mediterranean Coast of Spain. Her mother fled from Tarragona to Valmoll, to escape the French invasion during the Napoleon wars. Her father was a farmer and died three months before she was born. Her mother sought to provide her two daughters (Teresa and Antonia) a good education in a Christian family setting. Then Mother Maria when at her early age, only but 13 or 14 years old felt drawn to prayer when a Franciscan Fathers preached a Retreat in her parish. That Retreat had such a tremendous impact on her that she decided to dedicate her life to God. On October 23, 1841, feeling that in generous openness to God's plan for her, that God was calling her to consecrate her whole life to His service, she entered the Convent as a Postulant in the Company of Mary, a community dedicated to Prayer and the Education of the young. At this time the Spanish Church was under persecution by the Government of the day. This was because in an attempt to diminish the strength of Religious Orders, the Government had issued an Ordinance prohibiting the admission of Novices. For this reason, she had to remain as a Postulant for nine years. Finally, on April 21st of 1850, she was able to begin her Novitiate. Yet, God seemed to have other plans for her.

While still a Postulant and since 1842, she felt the Lord was beginning to show her a totally new horizon. She had constantly prayed for the situation in the persecutions the Church was experiencing in Spain but to her surprise, God led her to understand that the ultimate cause of all those troubles did not lie in the Governments, but in the Church's lack of faithfulness to the Gospel. Thus, God wanted the Church and the Religious Orders of the time within it to return to the lifestyle of the Apostolic Times. Government's opposition of the Church was because the Church Authorities coveted the power and possessions the Church had accumulated over the centuries. In fact, Church leaders of the time were behaving as Potentates and Lords of the Manor in their various Dioceses. Then after being confronted with this challenge and being filled with the desire to live the Religious Life of the Gospel with total faithfulness, she asked God: "How will I do this?" But the Lord responded: "A new Order I want, not new in its Doctrines, but in its Practices." Faced with such a difficult situation regarding the enterprise the Lord had set before her, she came to understand that God did not want her to go about it alone. Fr. Anthony Mary Claret, a well-known Missionary Priest in Northern Spain, was going to be the one to help her. And in 1850 she went to meet Fr. Anthony. After listening to her, Fr. Anthony Mary Claret agreed to support her in this project, which he saw as coming from God. He had just recently founded his own Congregation, an Order of Missionary Priests he christened: "Sons of the Immaculate Heart of Mary, known today as the Claretian Missionary Fathers and Brothers.

However, and a few months later after a painful discernment, she decided to leave the Company of Mary. She was in the midst of great confusion because Claret had then been appointed Archbishop of Santiago de Cuba and had left already for the new World of South America. From Cuba, he invited her to come to Cuba and start the new Congregation there. On February 22, 1852, she left for Cuba with other young women who had decided to join her in the adventure of crossing the Atlantic to begin the new Congregation. Then Fr. Claret's Missionary insight, coupled with Maria Antonia's desire for a life of radical faithfulness to the Gospel converged into a new form of religious life in the Church - The New Order at the service of Renewal, so the new Congregation was destined to unfold. Thereafter both Founders saw the need for renewal at all levels of the Church, and they began to design a plan for the "**RENEWAL"** in order "to help the Church restore its beauty." The new ORDER was to be an essential element in this work of renewal, with its testimony and work of evangelization. Mother Mary Antonia went as far as sending Pope Pius IX the draft of her vision of **RENEWAL** for the Church, which for her was rooted in a life of simplicity, joyful poverty, community life, prayer, and proclamation of the Gospel by all baptized, but especially by those consecrated to the service of God. One hundred years later, the Second Vatican Council has spoken in similar terms about the renewal of the Church.

Consequently, on August 25, 1855 the new Congregation of the Religious Sisters of Mary Immaculate Claretian Missionary Sisters was officially founded in Santiago de Cuba, as the first Religious community founded on the Island. There was a great need to educate and promote women, so the new Congregation began to open schools for girls in Cuba, especially for the socially and economically disadvantaged. Soon after, new communities sprang up in Spain and other parts of Cuba. The Missionary vision of both Founders had to adjust to the conditions of the times whereby the Apostolate for women was almost restricted to the field of Education. As a Religious Society, the Church has allowed women to practise other forms of evangelization. Thus, their dreams for the Congregation have become a reality. Mother Mary Antonia spent the last years of her life in Spain keeping alive the foundational spirit of poverty and unity in the new order. She died on January 17, 1885. The Church solemnly proclaimed her heroic virtues on December 23, 1993. Her remains now rest in the Chapel crypt in Reus, Spain, where she died. The life and message of Mother Maria Antonia Paris has continued to be a gift for the Church today. Her insight into the needs of her time and her evangelical and courageous response are sources of inspiration for every one of us, as will continue to make Christ's work respond to the challenges of our time.

Then in the early 1970s ie. the not-to-be-forgotten reign of President Francisco Macias Nguema brought about a reign of terror in the former Spanish Island of Fernando Poo with Headquarters at Santa Isabel, which he then renamed as Malabo. During the political turmoil which involved the indigenous schemers of the long expected political Independence of the West African Island, after his being declared winner at the polls of that year, President Nguema changed the name of Fernando Poo to the Republic of Equatorial Guinea. Then the Ecclesiastical Authorities there had no choice but to send their Claretian Sisters to Spain where they acclimatized as it were, and later returned to the country after the turbulent period and the hostilities had subsided. It is to one of these returnees Sisters, Rev. Mother Elizabetha that Archbishop Brian D. Usanga appealed to come to the Calabar Mission.

THE CONGREGATION AND PROFILE IN THE ARCHDIOCESE OF CALABAR

In 1984 following the Invitation of Archbishop Brian D. Usanga to the Superior General of the Clarentian Sisters of the Congregation of Mary Immaculate (MMI), requesting her to send her Sisters for Missionary Apostolate in Calabar with the approval of the Charge d'Affairs of the Embassy of the Equatorial Guinea resident in Calabar, two Rev. Sisters, Sr. Josepha MMI, a native of Equatorial Guinea and Sr. Anna MMI, a Nigerian born MMI professed Sister, together with their Superior General Mother Thecla Maria arrived the Margaret Ekpo International Airport Calabar to launch their Apostolate in the Archdiocese. They

were received at the Nigerian Airways Terminal Calabar by the Archbishop with a team comprising of the Clergy, the Archdiocesan Laity Council and CWO members, School children and Catechists, the Holy Child and Handmaid Rev. Sisters serving in the Archdiocese. It will be recalled that ever since his Ordination in 1956 and prior to the advent of these Clarentian Sisters, Archbishop Brian D. Usanga had in previous years often visited this Island of Colonial Spanish territory of Spanish-speaking folks a.k.a **"Panya-Español"** ie. the former Fernando Poo, He was always there on a brief Missionary Apostolate under the Colonial Spanish Administration, ditto Dominic Cardinal Ekandem, Rev. Fr. Isidore P. Umana as also Mgr. Godwin P. Akpan, all of blessed memory. During those visits and most poignantly before the Nigeria – Biafra War (1967 - 1970), most of the Administrators at Santa Isabel, Headquarters of Fernando Poo then, were Nigerians including now Samuel J. Effiong Esq. cousin of His Royal Highness Edidem Peter J. Effiong, Paramount Ruler of Northern Uruan who is the husband of Rev. Fr. Aloysius J. Isua's Sister, and brother in-law of Justice Nkem Isua, the former Chief Judge of Akwa Ibom State. Samuel was Principal and Expatriate Teacher and Educationist in the Ministry of Education and the Education Inspector of the Colonial Colleges of former Equatorial Guinea – a.k.a "Panya", 'España'. He was also sort of Catholic Ambassador representing Nigeria – a quasi-Plenipotentiary, and was instrumental to those special invitations given to the Cardinal & co. for Pastoral Ministry in the island. They were officially always quartered and taken care of at the Embassy under his charge. He was a well-known figure among the Colonial Spanish Authorities and oftentimes would accompany their Officials to 'España' on civic duties. During the crises and take-over of Government by Francisco Macias Nguema, he had returned to Nigeria in 1978 and was absolved as a high profile Administrator in Gowon created South Eastern State Administration before his sudden demise in 1970. However, His cousin P. J. Effiong Esq. on application to join the newly established University of Calabar (UNICAL) was appointed Deputy Registrar and later transferred his services to the newly established University of Cross River State (UNICROSS) as that Institution's substantive Registrar. Also in the "Panya administration was Denis E. Inyang Esq. the brother of Rev. Fr. Dominic E. Inyang, Administrator of Sacred Heart Cathedral during the civil war years. Mr. Denis Inyang manned the Radio Santa Isabel in those Golden years of Spanish Administration when Nigerians were held in high esteem, ditto John James Una Esq. the senior brother of Mgr. Francis X. Una & co. who were equally absorbed in the South Eastern State Military Government. Una was the Director of Budget at the Cabinet Office under Chief Michael Ani the father of Patrick and Anthony, the one a Senator and the other a Minister of the Federal Republic of Nigeria. The Cabinet Office then was adjacent to what are now the Total filling station and the GTMB Bank. All of them were important Officials in the Colonial Spanish Government. On their return to Nigeria after the Nigeria – Biafra war, they were absorbed into the top echelon of the Civil Service of South Eastern State in Calabar as commented above. There was a very strong presence of Old Calabar citizens in the Island ditto Northern Cross Riverians and Rivers peoples. The authority of the Ibibio State Union was effective and equally felt as their representatives monitored all the goings-on in ancient Fernando Poo. But things changed shortly in the early 1968 when Francisco Macias Nguema Mbasogo toppled the former Spanish Colonial Powers and took over power until he was equally toppled by his soldier nephew President Teodoro Obiang, Nguema, the then strong man of the new country renamed the "**REPUBLIC OF EQUATORIAL GUINEA"**. He held on to power (1978 -2016) until he was similarly toppled by his cousin in 2016. He it was who sacked the United Nations workers but most poignantly Nigerian workers in the "Malabo" plantations in the 1970s.

On their arrival, these MMI Missionaries were received into the St. Mary's Pro-Cathedral, Efut Abua Rectory by the Author, then the Pro-Administrator standing in for Very Rev. Fr. Vincent Hannigan SPS, who was then on leave in Ireland. The Sisters remained there at St. Mary's until their Convent was made functional at the Holy Child College Marian Hill Staff quarters at Target Road. Here they continued their Apostolate of Education, care and visitation of the sick and poor, laundry, cooking and care of sacred

vessels. These sisters could polish Chalices, Ciboria, water filters etc. and people would marvel because the vessels would look as good as completely new ones. The MMI Sisters were experts at Mathematics, cuisine, laundry, sewing, embroidery, home visitation, teaching of the Catechism and what have you. That was part of their charisms. In 1990 and with increase in their numbers, the Author as then General Manager of Schools had no qualms in appointing some of them to teach Mathematics in the Sacred Heart Intl. School. One of them, Rev. Sr. Andrea was appointed the School Bursar. That same year with Archbishop Usanga's experimental recommendation, the new Superior General Rev. Mother Elizabetha at their Convent base at Bata, Equatorial Guinea, sent their young but mature Aspirants and Postulants under the leadership and direction of Rev. Sr. Rosanna MMI to learn English with a view to promoting their sphere of Education in the Archdiocese. But in fact, the main idea the Author could surmise, was to promote Vocations into the Congregation. Up to this no single girl in Calabar opted to join the Congregation despite several Appeals and Promotions. This strategy indeed proved effective because with the arrival of these young Rev. Sister a.k.a **"BATA GIRLS",** many girls in the Archdiocese and beyond, even the "Calabar" girls including Rita Okon, Francesca Michael became so excited and ready to go. One of the aspirants Margaret A. Eyo, the younger sister of Rev. Fr. Joseph Eyo, also joined and rose to the rank of Religious Superior and Rectress as well as Acting Principal of MMI Girls' Juniorate Iwuru, after bagging her B. A. Honours from the University of Calabar. It was a dream come true and "mission accomplished". Archbishop Usanga became greatly enthused and galvanized thereat. He treated the Sisters as "eggs."

The first girl to be professed in that Marian Year of 1987 was Sr. Immaculata Nyong and was sent to Rome for Further Studies, but unfortunately she decided later to do something else. It was a great blow to the MMI Authorities because this was the first fruit and product of their Calabar Mission. That was not all, there was another setback and unhappy state of affairs when some of the young Aspirants and Postulants on their long vacation back in Malabo decided to "take taxi" and move on. One of them even became a beautiful bride on arrival, pronto. But this did not deter or break down the spirit and fervor of the amiable Superior General and her Council. They decided to forge ahead depending on Divine Providence not discerning what was lurking ahead. Many more Postulants were sent in and this resulted in a boon to the newly established Marian Villa Intl. Girls Secondary School when also some girls of Junior College age from Equatorial Guinea as also from the Cameroun Republic were admitted into the College, grace Ü la the MMI Congregation and Lady Femina E. Medang, a Petroleum marketer in Calabar and grandchild of Equatorial Guinea father but whose mother hails from St. Luke's Ikot Effanga, Calabar. This had greatly boosted the status of Marian Villa as an International School. The rest is history as they say. In 1990, Archbishop Usanga at the CLCN of September that year announced the people that the Holy Family Sisters of the Poor and Needy (HFSND) would soon arrive to begin their Apostolate in the Archdiocese. Using some of the staff at the Cathedral and the Nursery School when the Author was serving there as Administrator after the sudden demise of Rev. Fr. Emanuel O. Akpan, they quickly and hurriedly completed and furnished the buildings for the new MMI Convent at Batteba Street off Marian Road, Calabar in order to prepare for the MMI Sisters to vacate their Target Premises and move in there before 1992. That meant the Target Convent was to be ceded to the HFSND Sisters because it had been earlier earmarked for the **ST. POPE JOHN PAUL II GOOD SAMARITAN HOME FOR THE POOR AND NEEDY**. The premises were also to incorporate the envisaged home for retiring Bishops and the Vicars in tow. True to their style and Charism, the MMI Sisters cooperated and everything was completed on schedule for them to move in. Their new home among others things was also to be dedicated for the upkeep of motherless and abandoned infants. So the hands of the MMI Sisters were already full, and they accomplished all these with gracious abandon.

In summary and most unfortunately, it so fell out that later at the turn of the 2000s, things began to take a different turn as the Bata MMI Authorities in Calabar became so disenchanted with their Calabar

Apostolate despite the booming number of Vocations. It was a complete fiasco midstream, as they decided to call it quits in 2010. Their reasoning for disserting the Calabar Mission was that most of the girls "lacked the spirit of Religious life". Well, one has to discern the spirit to understand this. But as far as this Author is concerned the MMI position was only an alibi to save face except that he would like to understand and see the whole thing from a parallel in one of the Annang Proverbs to the effect that **"Anyie ?kp? ama apa, ?kp? amem? apa adiana// Enyene kp? akpade, kp? esie akpa etiene"** = when the owner of a property/establishment dies, his/her property etc. dies with him/her. Archbishop Usanga had died and his establishments must follow suit. Come to think of it, as long as Archbishop Usanga was alive, the MMI were treated like "eggs" because they really changed the lifestyles and mien of the women folk in Calabar in their Apostolic Charisms. They cooked, they washed, they sewed. They were working not only in the household chores but also those of the Altar. The Archbishop and even some of us always went with one or two of them to stations to celebrate Mass or administer to the people while they arrange and set things in their proper places. However, the new Ecclesiastical Authorities of the Archdiocese of Calabar should do well to consider it of prime importance by inviting the MMI Congregation back again to resume their Apostolate as the SRC Sisters have since returned to resume their Apostolate in Nigeria as discussed above. This is my prayer and it is not a misplaced wish. The coming of the MMI Sisters to Calabar must not be seen as a misadventure. Well, the indigenous Calabar MMI Sisters have since gone their separate ways, some have sought admission in others Congregations including Rev. Sr. Margaret Eyo who found sanctuary in one of the Convents in South Africa but still has the nostalgia about the Calabar MMI, praying with the Author that one day the Bata MMI Sisters will return to carry out the Apostolate of their saintly Founder, Venerable Maria Antonia Paris.

11. ORIGIN OF THE CLARETIAN CONGREGATION

THE LIFE & TIMES OF ST. ANTHONY MARY CLARET – A PROFILE

The universal Congregation that Bishop Anthony Mary Claret dreamt of is slowly becoming a reality, and to think of the Claretian Mission today, we must think about the whole Congregation as a harmonious unit of varying diversity, not without its tensions, which is born of a common past history and which projects itself forward into the future with strength and vigour. Born on December 23, 1807, son of a small manufacturer of wool in Catalonia, Spain. He started off as a weaver before studying for the diocesan or secular priesthood. In 1835 he was ordained priest and began his priestly ministry principally in his home State and later in the Canary Islands. During his missionary work, he laid great emphasis on the Eucharist as also devotion to the Immaculate Heart of Mary. He also exhibited great love for the ministry among the poor. In 1849 he gathered a group of dedicated young priests and formed them into a Religious Community he called "Missionary Sons of the Immaculate heart of Mary" which later became known as Claretians. Thus the Claretian Congregation was born. In 1851 he was appointed Bishop of Santiago in Cuba in the Americas and there he reformed the Seminary and re-organized clerical discipline. In 1857 he was recalled to Spain and appointed Confessor of Queen Isabella II. The Revolution of 1868 saw him exiled with the Queen by the envious anti-clerical politicians in Spain and Cuba. He also founded the great Religious Printing House at Barcelona which guaranteed millions of low-cost copies of the best –selling Catholic works of both ancient and modern times including his over 130 works. He was one of the "**periti"** a.k.a Theologian expert at the Vatican I Ecumenical Council and died on October 24, 1870 at the Cistercian Monastery of Fontfroide, France. On February 25,1834 he was beatified by Pope Pius XI and canonized by Pope Pius XII on May 7, 1950.

At the root of the Missionary Charism of the Claretian Order is the special charism in the Church of their contribution to the fundamental rationale of the Church towards Evangelization which is defined in their Constitutions. Many section numbers could be quoted, but only these two will be taken viz.: A. "The aim of our Congregation is to seek in all things the glory of God, the sanctification of the members and the salvation of people of God throughout the world, in keeping with their Missionary Charism in the Church." 2. As the Sons of the Immaculate Heart of the Blessed Virgin Mary, they have also received a calling like that of the Apostles and have been granted the gift to follow Christ in a communion of life and to go out into the whole world to proclaim the Good News of the Kingdom of God to all and sundry.

THE CONGREGATION AND PROFILE IN THE ARCHDIOCESE OF CALABAR

Precisely in June, 1995 while acting in my second coming as the Chaplain of St. Paul's Chaplaincy, University of Calabar **(1975- 1984; 1995-1996)**, I had invited Very Rev. Fr. Christian Iheduru (+cmf), then National Superior General of the Claretian Congregation in Nigeria to preside both as Retreat Master and Chief Celebrant at the Closing Ceremonies of the 1994/95 **CATHOLIC WEEK** according to tradition. As the custom was, I would either often invite one of the Bishops of the then Onitsha Ecclesiastical Province, or the Rectors of the Major Seminaries or even Superiors General of Men Religious Congregations of the Province as men of Academics to perform this duty for the benefit of the St. Paul's academic worshipping Community annually. At the close of that Academic Mass and to round up the Catholic Week Ceremonies, I had to introduce the Superior General, a well-known Ecclesiastic to Archbishop Brian D. Usanga. During our chat, the issue of establishing a Claretian Community in a virgin parish of primary evangelization which Archbishop Usanga termed as a**" gold mine**" cropped up and pronto, the visiting Claretian Superior General acquiesced and was ready and willing to kick start the founding of his Claretian Community in the Archdiocese of Calabar before the year rolled over. To this end and perhaps ostensibly because it was my brain child, the Archbishop gave me marching orders for the commencement of the project and also to make the necessary repairs and refurbish one of the storyed buildings, the property of the Archdiocese along the Calabar High Way at the Catholic Secretariat on Bishop Moynagh Avenue. I was also instructed to use my salaries and Stipends to get the site ready for the Claretian Missionaries to move in by October as dead line. But of course this was not the first time I was to use my resources to do such like ventures viz. the Marian Villa Girls International, the Good Samaritan Home, the Sacred Heart Intl. Nursery/Primary, ditto St. Vincent's International, etc. were all constructed through like process. I promptly set down to the task of refurbishing the premises beginning with putting up a gigantic security iron gate, painting of the buildings, changing the doors and windows with iron doors and louvres, providing furniture, utensils, cutleries etc. with also a befitting Chapel and an Altar to boot.

By September 1995 and before the site and furnishings were ready, I could remember notifying the Archbishop on the fact that we already had amongst us in the Archdiocese two Clarentian Graduate Students of the University of Calabar being assigned pastoral duties viz. Fathers Anthony P. Essien and Marcus Chukwu(+cmf). The former, a very senior priest had been assigned as Assistant Priest to St. Bernard's Parish Marian Hill, the latter being assigned as Acting Chaplain to St. Paul's Parish. UNICAL. He was later to be re-assigned as Acting Parish Priest of St. Peter's Parish Ediba, Qua Town. Whereas these were also to join the Clarentian Community once the Superior of the Calabar Mission would had been appointed, both the Claretian Superior General and the host, the Archbishop of Calabar meantime had hitherto inspected the facilities. As it fell out, they were completely satisfied that everything was adequate for the take-off the Clarentian Community in Calabar, so it seemed. However, the Clarentian Priests of the Congregation appointed to occupy the facility were to be the Claretian Priests appointed by the Superior General from the Claretian Generalate at Maryland, Nekede Owerri in Imo State. However,

they were expected to move in during the first week of October as provisionally scheduled. Three Claretian priests including the Ag. Superior of the new Calabar Community and Rev. Fr. Ebenezer Okoro (+cmf) a Post Graduate Student in the Department of Religious Studies & Philosophy, UNICAL as we were soon to discover, moved in on Thursday October 3, 1995 to take up residence at their new Claretian Community in the Archdiocese of Calabar.

The Memorandum of Understanding (MOU)signed by the Ordinary of the Archdiocese of Calabar and the Nigerian Superior General of the Claretian Congregation, Very Rev. Fr. Iheduru (+cmf) carried among others:

(1) The administration of the autonomous St. Vincent de Paul Parish Mbukpa with a parish area equiperated almost as coterminous with the entire Calabar South Local Government Authority, an area as large as if not larger than the entire territory of Owerri Archdiocese or the Catholic Diocese of Ikot Ekpene which extends as far as the Anantigha River to the south of the **EFUTS** nation in Cross River State. The territory at the time described as a "**GOLD MINE",** was a teeming resort with hundreds of refugees of the civil war now permanently and conveniently settled there. There were to be found in the area multitudes of Alladura and Pentecostal churches, Secondary Schools and a number of both Government Approved and unrecognized Primary/Nursery and Secondary Schools. But sadly enough, there was little or no Catholic presence there except St. Mary's Pro-Cathedral, Efut Abua and the St. Vincent de Paul Parish later described as a "miserable Church" by the Clarentian Fathers at the time as discussed above.

(2) Serving as Chaplains to the Community of the Claretian Religious Sisters of the Congregation of Mary Immaculate International (MMI) from the Equatorial Guinea, Bata with Headquarters in Spain who were already resident in the Archdiocese of Calabar. This is the Women Religious counterpart of the Claretian Congregation just as the Daughters of Charity Congregation (DC) is the Women Religious counterpart of the St. Vincentian Congregation (CM).

(3) Appointment of one of the Claretian Fathers as Tutor at the Mary Immaculate Juniorate, Iwuru manned by the Claretian MMI Sisters as also serving as the Chaplain with Rev. Dr. (Mgr.) Emmanuel Umoetok as Ag. Principal thereof. The Memorandum also mooted the fact that one the priests would later be promoted Principal since Fr. Umoetok was a substantive lecturer at the College of Education, Akamkpa, now Cross River State University of Technology Campus as also Parish Priest of St. Anthony's Parish Iwuru.

(4) Opening up of the entire territory of the said area popularly tagged **"NEW AIRPORT** "which had earlier been opened up by the indefatigable erstwhile Military Governor of the South Eastern State, Brg. U.J. Esuene for both primary Catholic community of evangelization with the further mandate to establish new schools, both primary and secondary in the area, an area Archbishop designated as a **"GOLD MINE".**

(5) Carrying out any other assignments which the Archbishop of Calabar would call upon them from time to time to undertake.

But not long after their taking residence and administering the St. Vincent de Paul Parish cropped up a sort of Complaints galore coming from the newly arrived Claretian priests. Most of the complaints the Archbishop was to soon find out centred on the inadequacy of the provisions offered by the Archdiocese.

When it was explained to them that no one had expected the Archdiocese to be able to supply them with everything to their hearts content. But when it was further remonstrated that they were being offered what the Archdiocese could afford and which was considered adequate and sufficient for their up-keep and take-off. But they however replied if they would have been expected to bring along all their household paraphernalia and other equipments supposing for example their mission was to South Africa or America or Europe? Nobody could fathom this sort of argumentation because the usual custom worldwide was that the beneficiary of a **BENEFICE**, according to **(Cf. C.J.C. 158; 265; 1272 and 1275)** ie. **Codex Judici Canonici** a.k.a Code of Canon Law jargon of the Church denoting an appointment to a job with all the juicy benefits appertaining, would have to use his benefice in such a way that he/she would develop it, mingle with his/her/their labour and make his/her living therefrom. Nobody is ever provided with everything at a go; people expect he/she/they would have to develop it with the labour of his/her/their hands. Nevertheless, both the recipient and donor Authorities had already considered the deal as adequate as discussed above. In fact, with this Author, as then the Chancellor and Episcopal Vicar of the Archdiocese in-Charge of Administration, both the Catholic Faithful and admirers had concluded that "the chicks had come to roost" with the kind of appointment offered. Everybody thought this was indeed a gold mine donated to the new Missionaries the likes of which the legendary Bishop Shanahan together with the indefatigable Founding Father of the Calabar Mission, Fr. Louis Lena (CSSP) had never got it so good in the Canaan City of Calabar. Come to think of it, with the teaming Igbos in Calabar metropolis both Catholic and non-Catholic, one would have expected the Claretian Missionaries to hit the ground running by organizing a grand Rally to signal their coming into town with immediate effect, dead on their arrival. Indeed, their first Tray Collection had hit the roof as it was soon discovered because it almost doubled what was ever collected when the Author was Parish Priest of the said St. Vincent's Parish, a significant reminder that they were now in town. Again one would have expected that at the first Annual Parish Harvest, Bazaar, or whatever, they would extend their Invitations far and wide including their base in Imo State. One also had expected that they would liaise with their fellow Igbo priests in the city to learn the proper **modus operandi**. On introspection, they would have discovered the marvelous and admirable success of Rev. Dr. Emmanuel Iwagwu, who was posted to the Archdiocese from Okigwe Diocese right after his Ordination in 1994 and within months he had earned the enviable title of "**Fr. Eti-owo"** from the Calabar admiring Catholic and non-Catholic community. For example, on taking over from the Author, **Fr Eti-owo** was able to build from scratch the magnificent Parish Church at the St. Joseph's Catholic Chaplaincy, Cross River State University of Technology, **(CRUTECH)** although with the Grants from Rome handed over by the Archbishop from the visiting Apostolic Nuncio, Archbishop Carlo Maria Vigano in 1987. On transfer to Queen of Angel's, Airport Parish, Edim Otop in 2005, he **Fr Eti-owo,** had executed and completed another magnificent Church project there while at the same time studying part time and garnering his Masters and Doctorate Degrees therefrom the prestigious University of Calabar a.k.a. **UNICAL**. This is what is meant by mixing a benefice with labour to reap maximum results. This is what the Archdiocese of Calabar had expected from her newly arrived Claretian Missionaries.

Therefore, the argument could not hold water because they had even enthusiastically opted to take up residence in the first week of October after inspecting the facilities themselves. But rather their dissatisfaction was that they would have to start from scratch as it were whereas they had expected everything with a certain state of the art accommodation and facilities put in place. It was not exactly the line-up to the of Religious Congregations and what was expected of the Inmates of the Clerical Order of the Church's design and expectations in the following of Christ by "leaving everything for the sake of the kingdom of Heaven" in their Vows of Poverty and Obedience. It was certainly not the designs and expectations of worldlings – a far cry from and a sad commentary to the mind and designs of the Lord Jesus' demands of Clerical Orders of the Church's design and expectations. No, it was also a sad commentary of the good intentions and plan of the legendary generous Archbishop Usanga to bestow his **"GOAL MINE"** to the amiable big hearted and frank Fr. C. Iheduru (+CMF), the first ever Superior General of the same novel Men Religious Claretian Congregation in Nigeria after the St. Patrick's Missionaries (SPS), the singular premier Men Religious Community after the inimitable Holy Ghost Congregation of over a hundred years incarnation in the African soil and by implication Calabar

12. ORIGINS OF CONGREGATION OF DAUGHTERS OF MARY, MOTHER OF MERCY (DMMM)

Before the beginning of the civil war, Bishop Anthony Gogo Nwedo who was ordained on May17, 1959 as the first Bishop of the newly created Diocese of Umuahia, had appealed without success to the Sacred Congregation for the Evangelization of Peoples for personnel for his Umuahia Diocese and the reply from Rome was: "Why not start your own?". After planning and praying he founded a new Congregation of Daughters of Mary, Mother of Mercy (DMMM) which later brought in the Men's wing for Rev. Fathers viz. Sons of Mary, Mother of Mercy (SMMM) with the first professions in 1968 and 1970 respectively. This Congregation is of Diocesan Right and it was founded to help in running and developing the new Diocese. He as it were copied the position of Josef Shanahan who had similar challenges in his Southern Nigeria Mission since he had established numerous Schools, Hospitals, Orphanages and other social Institutions. But his problem was, who would manage these Institutions? He was unable to answer that question! That was why he tried to invite the Religious Congregation Overseas and they told him to go and found his own. The rest is history. He then applied to the Sacred Congregation of Prop Fide and the result was heartwarming. Archbishop Pietro Sigismond sent him the Rescript **"NORMA"** granting the Bishop approval to establish the Congregation. Then on December 29, 1961 he gathered the first group of 18 young girl candidates at Corpus Christi Mission, Etitiulo – Bende and prepared them as the first batch of Aspirants to kick-start his new Congregation.

On January 17, 1962 the Feast of St. Anthony his patron Saint, at Mercy Secondary School Nbawsi grounds, more girls had given up their virginity to serve Christ and with now 29 girls he celebrated the Open-Air Mass attended by a mammoth crowd of both Catholics and non-Catholics, priests and Women Religious Sisters within the Ecclesiastical Province to admit them into the Postulancy and dress them up with the Habit of the Congregation. Thus was born the Congregation of the Daughters of Mary Mother of Mercy. The Sisters of Peter Claver in Rome were drafted to undertake the training of these first group of Postulants. They were first sent for the training at the St. Peter Claver Sisters' Convent at Ibadan where they began their first Novitiate. On December 1964, they were sent to Rome for their Investiture and six of them returning on the 8th to make their first Religious Profession. It was to be a Congregation for the Institutes of Consecrated Life and Societies of Apostolic Life. Bishop Nwedo's main reason for erecting a Religious Congregation aimed at the spreading of the Congregation throughout Umuahia Diocese and to most of the Dioceses in Nigeria especially in the Igbo speaking Diocese of Owerri, Okigwe, Orlu, Aba, Awka, Enugu etc.

This Congregation has spread like wild fire with Convents scattered especially throughout Igbo land and also established in many Dioceses in Nigeria. As a matter of fact, this moot point should not be lost to readers why the Congregation should be treated herein whereas it has not been established in the Archdiocese of Calabar in the first place. Yes, of course it is not one of the Religious Orders working in

the Archdiocese of Calabar. During the life time of the Canonical Founder, Bishop Anthony G. Nwedo, Archbishop had made moves to invite the Bishop to establish the Order as the first ever indigenous Congregation in Nigeria. This is true because as both the Archdiocesan Secretary and later the Chancellor of the Archdiocese, the Author was privy to most of the decisions and programmes envisaged by the erstwhile Archbishop B. D. Usanga. With the event of the civil war but most poignantly due to the demise of Bishop Nwedo on February 12 2000, the Archbishop seemed to have shelved it. But considering that it was meant to be of a Diocesan Right he decided to keep it within his chest until the elevation of the Order to the Pontifical Status. Unfortunately, this had never materialized, but for the records the Author considered it pertinent to include the Congregation among the list herewith. On Feb 2, 1994, his successor, Most Rev. Dr. Lucius Iwejuru Ugorji raised it to an Institute of Pontifical Right.

13. ORIGINS OF THE CONGREGATION OF DAUGHTERS OF DIVINE LOVE (DDL)

The Congregation of DDL is a Pontifical and International Order of Religious Women founded by his Lordship, Most Rev. Dr. Godfrey Mary Paul Okoye (CSSP) on July 16, 1969 during the Nigerian Civil War. In 1969 Bishop Geoffrey Mary Okoye founded the Congregation of Daughters of Divine Love (DDL) with the Mother House at Enugu. The Congregation's most valued Apostolate is hospital work and has spread to almost all the Dioceses in Nigeria and to many parts of the world especially Europe and America.

In 2013 His Grace Most Rev. Dr. Joseph Edra Ukpo, with the departure of the Claretian Sisters of the Congregation of Mary Immaculate – Equatorial Guinea from their Convent at Mary Immaculate Girls Secondary School, Iwuru – Biase, invited the D. D. L Congregation to the Archdiocese to take over the administration of the College. Today, the main apostolate of the DDL Sisters is education and they have concentrated their attention towards the training of the girls in character, etiquette, domestic science and the teaching of Catechism to the young. Since Iwuru is a very rural area, they also engage themselves in social work among the natives. Four Rev. Sisters of the D L Congregation including the Superior of the Community are taking full control of the situation both in their Community and in their Missionary Apostolate here.

In keeping with to spirit of the Founder, the Sisters are involved in the education of the young and co-ordination of pious Organizations within and outside the Juniorate such as the Legion of Mary, the Blue Army of Our Lady of Fatima, the Cadets of the Blue Army, the Holy Childhood Association under the Pontifical Missionary Societies and the Promotion of vocations, etc. Meanwhile the following Sisters viz. – Sr. Laetitia Anakwue - Superior, Sr. NgoziChukwu Njoku, Sr. Mary Collette Uche, and Sr. Christine Nze are on the teaching Staff of the Mary Immaculate Juniorate Iwuru.

14. THE FRANCISCAN SISTERS OF THE IMMACULATE CONCEPTION ORIGINS OF THE CONGREGATION OF THE FRANCISCAN ORDER (CFSIM) THE LIFE AND TIMES OF ST. FRANCIS OF ASSISI – FOUNDER

The coming of the Congregation of the Franciscan Sisters in Calabar in Calabar of the Immaculate Conception which is the Third Order Regular of the Franciscan Order, OFM climaxes Archbishop Brian D. Usanga's vision in seeing to it that the women of the area get the full care, training and direction necessary to the fulfilment of their duties as wives and mothers, not of course forgetting the girl child. But how did it all begin? The answer lies in the Life and Times of the Great St. Francis of Assisi. Born in 1181 in Assisi, Italy St Francis whose original nmame was Giovanni given by his mother Giovanna, his wealthy father Piedro di Bernardone later gave him the name Francesco a.k.a Francis at his Baptism because he was away on business at his birth. In his dulthood and in keeping with the trend in aristocratic families, Francis passionately sought to be a Knight and in 1202 when Assisi went to war with Perugia he was captured as prisoner of war. In 1205 he joined the Papal Forces against Frederick II and with the vision he had at Spoleto to await a new form of Knghthood, he was called to serve the "Master" rather than the "man". It so happened that in the solititude of prayer and fasting he started his new-found concern for the poorest of the poor in the land. At its peak, he dismounted his horse to give arms to wayside lepers. Again in response to a divne command at San Damiano's Church to "go repair my house falling into ruins", he instantly set about reparing the dilapidated San Damiano's and began to even begin disposing of his father's silk stock to get funds for the work. This so angered his father that he brought him before their Bishop to revover the money. Francis obliged and began to strip himself of everything he owned turning himself into a begar overnight "for the sake of the Great Master". On February 24,1208 while at Mass at the Chapel of St. Mary of the Angels, he saw his plan for him in **(Mtt 10:5-14)**, and started preaching passionately to all and sundry the herald of the "Great King". Before long, both the preachings and the very simplicity of his life drew thousands of people around him incuding men of prominence in the society. On April 16, 1209 with the enrobing of Peter of Cattaneo, a Cannon of the Cathedral, the Order of **"FRATRES MINORES – LITTLE BROTHERS"** a.k.a . **Friars Minor** was born. With the entry in 1210 of an immensely wealthy Angelo di Ugone into the Order, St. Francis applied and obtained Papal Approval from Pope Innocent III for the new Congregation.

Attired in brown, the Friars moved North and South beyond Italy preaching with such zeal and fervour that thousands were added to their number which had started with foundation 12 members. On Pentecost Sunday 1219 at Portiuncula 5000 attended the General Chapter and this prompted Pope Honorius III to formally introduce a year of Novitiate in the Congregation and granting approval for the final Draft of the "Rule of the Order". Meanwhile on Palm Sunday 1212, a young maiden Clare, from the Nobility received the Veil of Religious Life and thus was born the the **"SECOND ORDER OF ST. FRANCIS"** known as **"THE POOR CLARES"** for women. In 1221 Francis further founded the Third Order of Brothers and Sisters of Penance a.k.a **"THIRD ORDER OF ST. FRANCIS".** On November 29, 1223 St. Francis gradually withdrew from the Administrative Affairs of the Order and also declined priestly Ordination out of reverence for the Priesthood of Christ considering himself unworthy of such dignity thereof. ON Christmas Night 1223 he recreated the Nativity scene complete with ox and ass hay manger. As if to sanction this noble act the Lord crowned him with the Gift of Stigmata ie. the imprint of the **FIVE SACRED WOUNDSOF CHRIST** on the Feast of the Exaltation of the Cross on September 14, 1224. On October 3, 1226 he breathed his last at Postiuncula, the very place where he had the revelation of his Mission and the Birthplace of the Order. Canonized on July 16, 1228 by Pope Gregory IX, Pope Benedict XIV later declared him the **"MOST PERFECT IMAGE OF CHRIST"**, and in 1916 declared him Patron of Catholic Action. In 1926, Pope Pius XI declared him **"ALTER CHRISTUS**" and in 1939, Pope Pius XII declared him Patron of Italy.

THE CONGREGATION OF THE FRANCISCAN SISTERS OF THE IMMACULATE CONCEPTION

This Third Order of St. Francis was established in the Archdiocese of Calabar in 1989 with the arrival of the Regional Superior General in Nigeria accompanied by the Provincial and Sr. Mary-John Etta (CFSIM), but as the saying goes: 'the best way to the understanding of history is to trace it from its genesis" What then is the origin and history of the Congregation of the Franciscan Sisters of the Immaculate Conception? This Order is an active and contemplative Religious Order of Women. The Congregation was founded in 1847, in Glasgow Scotland, by Sister Adelaide Vaast and Sister Veronica Cordier who came from the Franciscan Monastery of Our Lady of the Angels, Toucoing. It was founded in response to the plea from the Church in Glasgow for Rev. Sisters to teach the poor children of their parishes. Adelaide's premature death from Cholera left Sr. Veronica as the sole remaining Foundress of the Congregation.

The Congregation was established as an Apostolic Institute and follows the Rule and Life St. Francis of Assisi. The title: **THE IMMACULATE CONCEPTION,** was added by Pope Pius IX in 1854, when he approved the first Constitution of the Congregation while proclaiming the Dogma of the Immaculate Conception that year. As Sisters of the penitential tradition, the Franciscan Sisters commit themselves to live out their public profession of Chastity, Poverty and Obedience both in their various Communities as also ever striving to give fuller expression of their Baptismal call to conversion. To be a Francisan is to be a missionary and so the mission of the Franciscan Sisters of the Immaculate Conception in the Church is to live the Gospel life in the spirit of St. Francis of Assisi. In so doing the pioneer Sisters have carried out their missionary activities in Scotland, England, Ireland, U.S.A, North America, the Carribbean, Italy, Kenya and here in Nigeria especially throught teaching, Nursing, medical work, teaching, pastoral and and other aspects of social works. They also undertake the vocational training of the young. The Congregation also carries out the teachimng of Catechism and preparing Catechumens for the reception of the Sacraments. They equally engage in Communications using the Social Media and in whatever they are called upon to do in order to serve the needs of the Church.

In 1949, the area now known as the Dioceses of Oyo and Osogbo was carved out of the Diocese of Lagos, and put into the pastoral care of the White Fathers (W/F). The SMA Fathers withdrew from the area and Monsignor McCoy was appointed Prefect Apostolic of the New Prefecture of Oyo. It was shortly after his appointment that he came to Britain looking for the Religious Community ready and willing to undertake the educational, medical, social as well as the pastoral development of Oyo Prefecture. Having appealed in vain to the already existing Missionary groups in the United Kingdom, he was advised by Bishop Walsh WF to approach the Congreation of the Franciscan Siters of the Immaculate Conception in Scotland. Bishop Walsh himself accompanied the request with a letter to Mother Bernadine, the Abbess of the Order at the time. The letter dated October 10, 1949 was to request her to come to the help of Msgr. McCoy. This led to an invitation to him from the Scottish Community to personally visit Mother Merryleen in November and address the assembled Community about his Prefecture and needs. When he learnt of this decision, Bishop Walsh wrote: "Truly, history was repeating itself because a little while ago, Mother Veronica sitting among her Sisters in Toucoing and listening to a similar plea, her heart was moved to respond to the call to Scottish Mission". It did not take long before Mother Merryleen Bernardine, many of her daughters and her Council members decided to accede to the request and open a foundation in Nigeria. Thereafter, many of the Rev. Sisters in Merryleen Benardine Council decided to make a foundation in Nigeria. When he learned of this decision, Bishop Walsh wrote:

> **"I know that we have in the Glasgow Franciscans, firm faith, great love of our Lord, Our Lady, St. Francis and the spirit of self-sacrifice. May your spirit mingle with that of Cardinal Lavigerie, for the Glory of God, for the**

happiness of Africa, and for the advancement of your Congregation" (Cf. Letter of Bishop Walsh describing the Charisms of the Franciscan Order)

Soon after this, Msgr. McCoy hurried back to Nigeria with the good news and immediately set to lay the foundatrion stone of the first Franciscan Sisters'Convent at Osogbo. Meanwhile, with great excitement and enthusiasm, preparations began at home for the great venture. Hope ran high when the names of the first four Religious Missionaries for the Nigerian Mission were announced. They were, Sr. M. Patrica Coyle, Sr. M. Agela McFaul. Sr. M. Immaculata Leonard, and Sr. Fidelis McCrossan. On the eve of their depature, it must have caused quite a stir in the central Station of Glasgow. On the morning of August 12, 1950 many of the Sisters gathered to wave good bye to the unknown. For the Order, it was a momentous occasion, it was the affirmation of the missionary Charism of the Foundress. From Liverpool where they stayed overnight with the White Sisters, the four continued their journey by Cargo Boat to Nigeria. It was a long, rough passage to Lagos when they arrived on the 17th of September, the Feastday of the Stigmata of St. Francis. After a brief stop in Lagos, the Headquarters of Archbishop Taylor, the group travelled inland, via Ibadan to Ile Ife where they stayed, untill they would receive a message that they could proceed to Osogbo where the jubilant and enthusiasiastic towns people were waiting to welcome them in the traditional Yoruba manner. It was a dream fulfilled.

Here in Nigeria, the CFSIM Sisters work in the Lagos Regional Headquarters of the Congregation in the Archdiceses of Lagos and Ibadan as also in Oyo, Osogbo, Ijebu-ode, Abeokuta Diocceses, They also have Convents in their Regional Head quarters of Asaba and work in Warri and Issele-Uku Dioceses. In their Northern Regional Headquarters at Otukpo, they work in the Dioceses of Makurdi, Otukpo and Minna.

THE CFSIM CONGREGATION IN THE ARCHDIOCESE OF CALABAR

As noted above, prior to the arrival of the Franciscan Sisters (CFSIM) in Calabar, Archbishop Brian D. Usanga who had previously contacted the Superior General of the Order at Ibadan explained to them that apart from the presence of the premier Women Religious Congregations in the Archdiocese viz. the Sisters of the Holy Child Jesus (SHCJ), Handmaids of the Holy Child Congregation (HHCJ), Sisters of the Medical Missionaries of Mary (MMM), and the Vincentian Daughters of Charity (DC), he still needed other Women Religious to swarm the vast territory of Calabar with a view to seeing to it that the women of the area get the best and full care in training and direction necessary towards the fulfilment of their duties as wives and mothers, not of course excluding the girl child. True to their promise, the Regional Superior General in Nigeria accompanied by the Provincial and Sr. Mary-John Etta a.k.a Sr. Immaculata (CFSIM), arrived Calabar in September 1989 in order to establish the Women Order of St. Francis (CFSIM) in the Archdiocese of Calabar. They informed the enthusiatic women of Calabar that they had come to stay among them and that was was why they came in full swing together with one of their daughters Rev. Sr. Mary John Etta of the St. Mary's Pro-Catholdra, herself a proud pioneer of the Mary League Girls Association established by the Author in the early 1980's. The Superior General and the Vicar would stay on for two weeks while Sr. Mary would stay on, promising to come back to see the progress of the Order in the Archdiocese. It was a most pleasant and welcome adventure to say the least.

However, the Superior General had given the condition that if within a month there were no prospective Candidates who were ready and willing to join the Congregation, they would have no option but to review their coninuous stay in Calabar. Before this, the Author who was then the Chaplain of the Mary League and Catholic Girls Association had arranged a Retreat for the girls to intimate them about the impending arrival and establishment of the Congregation in the Archdiocese. Although the girls were very enthusiastic, nevetherless they wanted to see thimngs for themselves before making their individual decisions. At the expiry of two weeks, the Superior General and her Vicar returned to Ibadan while Sr. Mary was left behind to sort out herself and the prospective volunteers. Meanwhile the Women

Organization (CWO) were up and doing organizing Seminars to conscientize the girls. But as often happens things are not what they seem. Most of the girls who had attended the Seminars with the Congregation team did not seem to amire the Uniform **"Habit"** of the Order a bit because as it fell out, the URUAN-EFIK girls to single them out, were not impressed by the brownish outfit of the Order, so it seemed. In October 1989 and with ongoing Devotion to the BVM and St. Joseph, it was expected that Heaven would look kindly on and touch the hearts of these young women to consider giving themselves for the Kingdom of Heaven. But there seemed to be no such signs in the horizon of the girls. While some of the girls said they needed time to think and pray about it, the majority had rejected the Congregation of court. It should be noted that apart from this conditionality, Archbishop Usanga had made it clearly known that he wanted the pioneer prospective Candidates to be bona fide indigenes of Calabar to preempt the Order beeing hijacked by other nationalities with the result that they could arise a situation of not having aspirants from the area at all. Sadly and because these minimum conditions and requirements were not met, the Congregation folded up till this day; dead on arrival, they would say. But not to worry! Just as the Archbishop was wonderimng "when and where the rain started beating the Archdiocesan women folk as it were, Very Rev. Fr. Ononuju came calling with the news that the Women Religious Congregation the Archbishop had assisted him to found was considering kick starting their Apostolate in Calabar if the Archbishop would grant his approval. That was how the Holy Family Congregation came to Calabar to join hands with the Mary Immaculate Sisters of Equitoriarial Guinea. It was left for the Author to tidy up the Convent premises earlier abandoned by the Claretian Fathers at the No. 1 Bishop Moynagh Avenue, Muritala Muhammded Highwey and make preparations for the Holy Family Sisters (HFSND) to move in without further ado and to the greater Glory of God. Therefore, with the new enthusiasm and upsurge in vocations, the Author strongly recommends that the situation be reviewed and the CFSIM Congregation invited back to the Archdiocese of Calabar without further delay, Deo Volente!

15. REV. FATHERS OF THE CONGREGATION OF REDEMPTORISTS (CSSR)

The Redemptorists (CSSR) are the latest Congregation to come to the Archdiocese of Calabar, barely two years ago in 2016. The Congregation of the Most Holy Redeemer – a.k.a **"CONGREGATION DU SACRE REDEMPTOR"** is a Religious Order which was founded in 1732 by St. Alphonsus Giuseppe Liguori of Naples, Italy as a Religious Society of Priests who would among others devote their lives for the evangelization of the poor and the most abandoned in society and most importantly, the study of Moral Theology with a view to living moral lives for according to him, knowledge without piety and holiness is useless and renders one arrogant. The Congregation also emphasizes that sanctity and learning should always go together.

THE LIFE & TIMES OF ST. ALPHONSUS LIGUORI – A PROFILE

Born on September 27, 1696 the eldest of the seven children into the an upper – class Italian family of Giuseppe de Liguori and Anna Cavalier in Marianella, a suburb of Naples, Alphonsus Maria Liguori always accompanied his father yearly while yet a boy for Retreats in some Religious Houses. Being extraordinarily brilliant he was awarded a Doctorate Degree in Civil and Canon Law at the age of 16. Thereafter he rapidly achieved success in his law practice. At 27 he resigned his practice of law and studied for the Catholic priesthood while seeking to discover God's will in prayer and works of charity. Soon after, he joined the "Neapolitan Propaganda" helping the priests who were giving admirable inspiring missions among the poorest of the poor in society. He was ordained priest in 1726. Ardent and of delicate sensibility, he became profoundly intelligent being downright practical in his approach to issues.

He sought with all the capacities of his intellect and will to do the will of God insisting that "the most perfect charity consists in zeal about our neighbours' spiritual good".

In 1732 he founded the Congregation of the Holy Redeemer, the "Redemptorists" and for twenty years travelled extensively through the provinces of Italy beginning with Naples gaining numerous conversions through his "Mission Apostolate". From 1752 onwards he devoted himself to writing. One of his great Works in Moral Theology includes the Golden Mean between the "excessively lenient" and the "exaggeratedly rigorous" Schools of Thought. This "Prince of Moral Theology" in addition had a remarkable devotion to the BVM and the Blessed Sacrament and this spurred him up into composing many Dogmatic and Ascetical Works including the" **GLORIES OF MARY"**, "**THE WAY OF SALVATION**" and "**THE TRUE SPOUSE OF CHRIST"**. He devoted himself towards promoting Missions by organizing Retreats everywhere in order to eliminate liturgical aberrations and all forms of debauchery and delinquency in Italy. He also taught that people should be prepared for contradictions, sickness, interior and exterior torments and to put on the breastplate of tolerance and forgiveness. While touring the entire territory he encouraged sincerity of purpose in everything we do. He wrote altogether about 111 Books and Treatises from his pen teaching by words and example that" Sanctity and Learning can in fact go together". In 1762 he was appointed Bishop of St. Agatha dei Goti and in 1775 ie. within 13 years he had perfected the reform of the entire Diocese. He died on August 1, 1787 (which is now his Feast day) and was beatified by Pope Pius VII in 1816 and canonized by Pope Gregory XVI on May 29, 1839, the first and only professional "Moral Theologian" to have been so canonized. Pope Pius IX declared him "Doctor of the Church" on March 23 1871. During the Holy Year of 1950, Pope Pius XII officially declared St. Alphonsus Patron of Moralists and Confessors due to his love for preaching of the Gospel to the poor and abandoned shepherds on the hills of Scalas.

As Founder, St. Alphonsus has passed on that missionary zeal and vision of preaching the Gospel to the poor and the most abandoned. Thus "strong in faith, rejoicing in hope, burning with charity, on fire and with zeal, in humility of heart and persevering in prayer, Redemptorists worldwide and as Apostolic men and genuine disciples of St. Alphonsus, follow Christ the Redeemer with hearts full of joy, denying themselves and always ready and willing to undertake whatever is demanding and to share the mystery of Christ by proclaiming the Gospel in the simplicity of life and language, so that they may bring plentiful redemption to people of the world" **(Cf. Redemptorists Cost., 20)**. The Congregation's tag **"CSSR"** which follows the name of every member is actually coined from the Latin: **CONGREGATIO SANCTISSIMI REDEMPTORIS** a.k.a "Congregation of the Most Holy Redeemer". It is also interesting and in fact instructive to learn that at the beginning, St. Alphonsus founded this Congregation with the assistance of very few contemporaries including Bishop Facoia his one-time Spiritual Director and St. Marie Celeste Crostarosa, Foundress of the female Counterpart of the Congregation – **REDEMPTORISTINES**. Most of his early companions deserted him except Bro. Vito Curzio and his inchoate Religious Order. That is why St. Alphonsus later added the **"OATH OF PERSEVERANCE"** to the list of Vows to be taken by anyone wishing to be a perpetual member of the Congregation. In the aftermath of this in 1747, about 36 Redemptorists were famously being demanded to preach the missions in the kingdom of Naples alone precisely on account of their solid style of preaching both at the pulpit and their merciful pastoral approach in the Confessionals. On February 25 1949, Pope Benedict XIV solemnly approved both the Institute and the Constitutions and Statutes of the Congregation.

Just like the St. Patrick's Missionaries who never expanded their Order beyond the Irish fold, the Redemptorists never spread beyond Italy but God in His inscrutable way did raise an Apostle of expansion in the person of St. Clement Mary Hofbauer who joined the Congregation in 1784 was sent to Warsaw the Capital City of where he founded the Congregation there. Thereafter he was inspired to preach the Gospel and also establish the Congregation in Vienna, Prussia, Switzerland and Romania. It should also be interesting to note that the Author throughout his years of Study abroad, stayed in the

Pontifical Hostels manned by the Redemptorists who had spent the greater part of their lives in the Far East. By divine Providence two of them were his German Spiritual Directors viz. Fr. P. Hartwich and Josef Schneider (CSSR) who also assisted him in his Deutsche Language Studies as knowledge of German was a requirement for the award of the PHD Degree in MORAL at the Lateran University a.k.a. **ALPHONSIANUM** where he studied.

In Nigeria the CRRS Congregation Missionaries berthed here as it were, precisely on September 30, 1987 where the first team of arrivals from the Redemptorists' Denver Province of America namely, Father William Cleary, Fr. William Peterson together with Brothers A. Fisher and Dan Hall as pioneers took over the pastoral charge of the Parish of the Archangels at Satellite Town, Lagos and made it its Headquarters thereof. In 1990 the team was beefed up with the arrival of Fr. J. P. O'Riordan, Fr. Alphonsus Doran, Fr. Patrick Scott, Fr. Robert Wirth, Fr. Andrew Szorc and Fr. Gilbert Enderle. That same year the Novitiate Programme headed by Fr. Gilbert Enderle was started and on July 18, 1992 seven young men from Nigeria became the first Nigerian Redemptorists with Fr. Fr. Richard Thiele who took over from Fr. Gilbert Enderle as the Novice Director. Within the 28 years of its existence in Nigeria the Congregation has spread to Ughelli in Delta State, Benin City in Edo State Onitsha, Enugu, Ogun State, Kaduna, Abuja and Calabar. Here in the Archdiocese of Calabar, Fr. John-Cross Nkanta (CSSR) who has been appointed to the new Parish of Church of the Ascension Nyahassang and ably supported by his Assistant Fr. Raphael Koleade is working tirelessly to administer to the people of the newly created Parish, the first Parish ever to be created by Archbishop Joseph Edra Ukpo since taking over from Archbishop Brian D. Usanga on March 14 2004, to the Greater Honour of God and for the upliftment and the progress people of ancient Calabar Mission.

16. ORIGINS OF THE CONGREGATION OF THE BENEDICTINES OSB THE LIFE & TIMES OF ST. BENEDICT (480-547) - A PROFILE

St. Benedict, the father of Western and by implication Roman and modern Monasticism was born at Nursia – Spoleto in Umbria, Italy of noble parents in 480 AD. At the age of 19, seeing the socio-political and immoral situation in Italy under the reign of the Arian and Visigoth King Theodoric, his heart was moved and he was prompted to abandon his noble estate, in fact, everything in order to seek salvation for his people by going to the cave high above the mountains of Subiaco in the Apennines to live there as a hermit and to pray and live a solitary life of sacrifice. Seeing his way and sanctity of life many people began to abandon the city in droves and go stay with him in order to practice the life of virtue. After some time, he organized a sort of communal monastery – comprising of twelve monks each, about twelve of them to cater for the number of people that had flocked to the mountains to stay with him. In 529 he decided to leave Subiaco and move on to found a large and world-acclaimed Monastery of Monte Casino which became the Motherhouse of the Benedictine Order. Monte Casino then became a beacon on a mountain-top half way between Rome and Naples. In 520 AD, he wrote his Monastic Reform Rules known as **"THE RULE OF ST. BENEDICT**" which formed the universal Rule for Monks of all times and places. The text of this "**RULE**" contained great revelations of the early literature of Monasticism, Works of the Fathers Sacred Scripture and the preceding previous Egyptian and Eastern brands of knowledge as well as commentaries on lives of Saints. All these works formed the basis of the formulations which not only listed the spiritual maxims and prohibitions for monastic life but also, and for the first time, an ordered practical Code of Conduct covering every aspect of monastic life. In recognition of this, Pope Pius XII adorned him with the soubriquet of **"FATHER OF EUROPE"** and on October 24, 1964 Pope Paul VI added to him **"PATRON SAINT OF ALL EUROPE.** The **RULE** also among others aimed at the moral and spiritual training and upliftment of monks in the

adoption of the Evangelical Counsels whereas up to this, the monk's life was to be modelled after the tradition and personality of the Founder/Foundress to wit:

1. Each Monastery from henceforth was to be governed by an Abbot (an equivalent of Bishop) elected for life and his word is to be final in all matters – His duty is to apply the Rule therein.
2. Both Abbot and Monks are to live under the laws of the Rule. The Abbot is to consult with all the Monks in matters of great importance and with the senior Monks in lesser maters before taking decisions.
3. Monks are bound to the Monastery for life and are therefore not free to move from monastery to monastery. They are to regard themselves as Members of a Family.
4. Life in the Monastery is to be regular and disciplined but not necessarily austere and overbearing with physical sufferings, hence definite hours are to be set aside for religious exercises, meals, study, sleeping, work etc. a.k.a **"OPUS DEI"**. The food is to be sufficient, the Psalms to be recited slowly such that even the sluggard can join.
5. No corporal punishments. No self – inflicted sufferings and over-rigorous penance or scourging. No private feats other than what is in the **COMMON RULE.** No rivalries. Everything is to be done in moderation.
6. Monks are to renounce their own will and walk by another's judgement ie. the Abbot's or Superior's". They are to be commended to strive more earnestly to strip themselves of all slavery to self but give themselves wholly to God **(CF. Ekarika J. P. From Benedict to Martin Luther, Wussen Press, 1991; D'Souza, L. L. 252-3)**.

Indeed, St. Benedict' Monastery was to be seen as a School of Divine Service such that St. Benedict himself also further went on to establish "Schools for the Christian Education of the Young". The Rule of St. Benedict was not that of a Regiment but that of an ordered Christian Family for the realization of the Gospel Ideal. It was the Vow of stability that the monk pledged himself/herself to live by for live in the Monastery that had received him/her. According to J. Bossuet, the Rule of St. Benedict is "an epitome of Christianity", a learned and mysterious abridgement of all the Doctrines of the Gospel, all the Institutions of the Fathers and all the Counsels of Perfection".

The success of this venture attracted numberless curious visitors from Rome and environs into the monasteries to the envy and hostility of other monks in Italy and elsewhere. Many even left everything and joined because of the Order's moderation and adaptability to every clime and age, the reasonableness of the programmes especially the emphasis on the importance of community life and complete cheerful obedience to the Superiors. This consequently led to the reclamation and regeneration of the entire continent of Europe for Christ especially on account of the monks now "re-vesting" manual labour with a new dignity. To prayer was added the **"OPUS DEI**" which implied the humble acknowledgment of God's presence throughout the day. In the end St. Benedict's Monastery was not only self-supporting but was in a position to give succour to the poor, the sick, the harbourless without homes shelter, the afflicted and malnourished masses who flocked to the Monastery to pray with and in turn obtain sustenance from the monks as well. Again by their studying, teaching and copying the MSS of Greco-Roman world, the Benedictines were able to preserve the Greek and Roman Literature, Philosophy and Learning especially the Classics through the era of the Dark Ages (500 AD – 1000 AD). Bishops, Abbots, the Nobility, and even simple folks often came to consult this Holy Founder and were impressed and inspired by his quiet, dignified and balanced views and his way of life. St. Benedict taught that Superiors General should be imbued with the Charity of Christ to love rather than be feared by their subjects. St. Benedict bears the seal of Roman wisdom and that adaptation to Western customs, a masterpiece of clearness and discretion. He died on March 21, 547 in his Abbey Church with hands raised heavenwards in prayer after having received the Viaticum. He was buried beside her sister St. Scholastica in the Oratory of St. John the Baptist. Today he Benedictine Congregation alone has given the Church 24 Popes, 4,600 Bishops and over 5000 Saints. To God be the Glory!

CONGREGATION OF THE BENEDICTINE MONASTIC ORDER (OSB)

According to tradition, 529 AD is considered to be the Foundation year of the Benedictine Congregation accepted worldwide because it coincides with the year St. Benedict established his first Monastery at Monte Cassino where he died and was also buried there in 547 AD. But some decades later, the monastery was destroyed and was only rebuilt after a long time. The monastic community and the living tradition of Benedict seemed to be the modified one we have today because copies of his Rule survived in Roman libraries. In 594 AD, Pope St. Gregory the Great praised this Rule and its Author, increasing the popularity of both. Later, the Monastic Rule spread to some monasteries in Southern Gaul ie. France and elsewhere. The **"RULE**" was normally used by the Abbot together with rules written by other monastic fathers to help him to guide the community. In the early 8th century, English monks also proudly proclaimed that they were following only the Rule of St. Benedict – hence they were the first genuine "Benedictines ". They went to every length to popularize this **"RULE**" further through their Missions in Continental Europe. Eventually in 817 AD an important Synod was convened at which St. Benedict's Rule was declared binding for all monks throughout Europe especially throughout the Carolingian empire which today covers modern France, Belgium, Holland Switzerland, Germany, parts of Italy and Austria. Hundreds of monasteries of monks and nuns therefore came under the Rule of Benedict. Simultaneously, the observances of these monasteries were unified, even in areas where the Rule left details to the discretion of the Abbot. In the Latin West, religious life was now mostly Benedictine. The monasteries became not only important centers of religious life, but also of political administration, economic development and learning, both theological and secular such that monastic locations began to metamorphose into great universities and centres of learning throughout Europe, viz, Osborne the premier University of France in Paris, Oxford and Cambridge, the premier Universities in London, England, etc. Books were written and copied in the **SCRIPTORIA** (writing rooms) of monasteries and Abbeys which were regarded as schools for the training of the clergy and the ruling elite. The monks dedicated themselves mainly to liturgical prayer, which amount gradually increased. The monasteries owned farms and sometimes whole villages, whose peasants sustained the monks with part of their produce and labour. In the ninth century the Popes started to protect the monasteries from the interference of Noblemen and local Bishops. The Monastery at Cluny in Burgundy, founded in 910, eventually established a huge family of monasteries under one Abbot.

In the 12th century several hundreds of houses built belonged to the monasteries. In the Middle Ages, St. Benedict's Rule, the wealth and social roles of the monasteries attracted criticisms and several reform movements were put in place to try to return the monasteries to simpler ways of life and a more original understanding of the Benedictine Rule. The Cistercian monasteries which evolved at this time had the greatest impact such that within a short period several hundreds of monasteries of **"WHITE MONKS** "were founded with a clearly defined order and efficient organization that balanced the unifying elements of General Chapters. All the Abbots were to be guided by clear and common principles and with local autonomy and supervision through their visitations to the monasteries under them. Between 1215 and 1336 the Papacy made attempts to give a similar structure to the remaining **"BLACK BENEDICTINES"** though initially with little success. Meanwhile, life in Europe had shifted from the countryside to the cities which had developed within the monasteries as noted above in the case of Oxford and Cambridge etc. Newer Orders like the Franciscans and the Dominicans began to respond to the spiritual and intellectual needs and desires of city dwellers. While the Benedictines continued to be found all over Europe nevertheless, they were no longer the main protagonists of religious life among the people.

From the 15th century onwards, monasteries tried to protect themselves against interference by secular and Ecclesiastical overlords by forming Congregations. The most influential of these was the Congregation of Saint Justina in Italy. It later became known as the **"CASSINESE**

CONGREGATION". It remained for many centuries as a model from which other Congregations were to copy. New forms of personal Prayer and Meditation were now introduced into the lives of the monks in order to complement the Divine Office and **LECTIO DIVINA**. A new emphasis on the personal needs of the individual monk also led to the introduction of cells, replacing the dormitories in use until then. Then came the so-called the **REFORMATION** of the 16th century which turned against religious and monastic life of any kind. Protestant Sovereigns used theological justifications to suppress the monasteries and confiscate their property. Many Abbots and monks were killed, others simply retired from monastic life and either returned to their families or accepted to work in Parishes. In England, Northern Germany, the Netherlands and Scandinavia monastic life disappeared. But in countries that remained Catholic however, Benedictine Monasticism began to flourish again. Benedictine Abbeys were being rebuilt in the splendid baroque styles, and many monasteries became centres of scholarship, culture and education. And for the first time Benedictine life went beyond Europe when the first abbeys of the New World were established in Brazil.

In the 18th century, new philosophical and political trends threatened monasticism. Faith came under attack, and monasteries were seen as useless places of superstition and backwardness. In the decades after 1760, more than 95% of the monasteries in Europe were suppressed either by governments or were destroyed in the course of revolutions and wars. Churches were turned into factories, Monastic buildings were even used as quarries while their lands and treasures were either confiscated or destroyed or sent to new National Libraries. But Monasticism refused to die. In the mid-19th century, a romantic rediscovery of medieval Christianity and monastic life took place. In several countries old monasteries were re-established and new communities created. Monastic life changed and the communities no longer depended on rich endowments. The monks now began to work for their upkeep while the Abbots ceased to be **"LORDS OF THE MANOR"** and began to live much closer with their brother monks. Then Monasteries began to fulfil important roles in the Church by running Major Seminaries and Schools/Colleges, sometimes Parishes and foreign Missions. Because the Benedictines were still without any central organization, Pope Leo XIII established a study house in Rome, and in 1893 created the Benedictine Confederation with an Abbot Primate at its head. Benedictine scholars rediscovered the Liturgical life of the early Church. They influenced the Liturgical Movements which prepared the Reforms promulgated by the Second Vatican Council to wit: (a) Singing in the Vernacular by most communities and no longer in Latin. (B) The distinction between Priests and Brothers disappeared. (c) Most Monasteries continued to attract Christians who wanted to spend a quiet time in prayer and those who sought Spiritual advice or simply wanted to live alongside the monks for a few days in their Monasteries. (d) Today the life of the monk is simple: just prayer and work in common and mutual charity guided by the Abbot. Yet, down the centuries, their contribution to the Church and civilization has been enormous.

There are Benedictines in every culture of the world today. Here, in Nigeria, apart from Ewu – Ishan/Esan, Edo State, there are Benedictines at Onitsha, Enugu and Ozubulu. The Major Superior is Very Rev. Fr. Vincent Mordi, OSB, Prior of the St. Benedict Monastery Ewu-Ishan, Edo State. The Ewu community was founded by monks from an Irish Benedictine Monastery (Glenstal Abbey). In 1973 when these monks first arrived in Nigeria, they were settled at Eke, near the city of Enugu in 1973 by Bishop Godfrey Mary Okoye, the then Bishop of Enugu Diocese. Soon afterwards, they started receiving indigenous Nigerian candidates. However, after four years at Eke, it was discovered that the location was unsuitable in many ways. Above all, the land was not fertile. The Monks finally decided that it was not the right place and began the search for a new and more suitable location. Finally, they agreed that the best place for the new Benedictine Monastery was the village of Ewu in the Diocese of Benin in the then

Bendel State, now Auchi in Edo State. The site of the new monastery is only two kilometres from the village, and comprises forty acres of good agricultural land. In keeping with St. Benedict's maxim in his Rule: "then are they truly Monks when they are able to live by the work of their hands". Also, "Let them prefer nothing whatever to the Work of God ie. the Divine Office." And may God bring all alike to everlasting life. Amen.

In keeping with this tradition, the Ewu Monks do a lot of subsistent farming as well as keeping poultry and fishponds. Some of their other activities include the Herbal Center for Alternative (traditional) Medicine for numerous ailments. The Ewu Monks also do bee keeping. They, run a bakery and a candle making industry as well. They have a shop for Religious Articles and that is perhaps why Monsignor Francis X. Una established one at the Catholic Secretariat Centre, Uyo. There is a Guest House here too which caters for the stream of Retreatants both the Clergy and Laity that pour in from all walks of life and from almost all States of the Federation.

ST. BERNARD'S MONASTERY IWURU-ARCHDIOCESE OF CALABAR

ORIGIN OF ST. BERNARD'S BENEDICTINE MONASTERY IWURU- ARCHDIOCESE OF CALABAR

CHAPEL AND RESIDENCES

ORIGINS OF HOW THE UTUKS BECAME BOTH GRAND PATRONS OF CKC AND SOME CATHOLICS & CHAMPIONS OF THE CATHOLIC CHURCH

FOUNDER – ST. BERNARD MONASTERY

MONSIGNOR FRANCIS XAVIOUR UNA

The Benedictine Congregation of St. Bernard Monastery, Iwuru in the Archdiocese of Calabar was founded by the indefatigable Rt. Rev. Msgr. Francis Xavier Una with Archbishop Brian D. Usanga as Canonical Founder, following the successful completion of his Postulancy and Novitiate in 1987 at the famous Benedictine Monastery Ewu – Esan in Auchi Diocese of the Archdiocese of Benin in Edo State. Consequent to that event, he was appointed to take charge of the Catholic Bookshop at Brooks Street, now Dominic Utuk Avenue Uyo. Dominic Utuk Avenue often brings to me the Reminiscences of my Odyssey with the "**UTUKS BROS"** viz. Asuquo Udo Utuk a.k.a **AU** ie. **UTUK Snr.,** Okon Udo Utuk a.k.a **OU** and Dominic a.k.a **DU,** all of whom I happened to meet as a child in the 1950s and then as it were bonded with them as an Item till their demise in the 1980s and 1990s. Yes, talking about the **UTUKS BROS**, in the early 1950s, and on one occasion precisely in 1950, I happened

to go to the famous Holy Family College, Oku Abak in the company of my uncle, Prince Effanga Edem Okon of ESSIET UMO ANYA Royal House to collect my Prospectus after having passed both the Entrance Examination and Interview for Admission into the College.

This was a special Scholarship Entrance Examination conducted nationwide for Entry into the College and only twenty-five Candidates who qualified were to be admitted directly into Class II on Admission in order to complete the required number then promoted to Class II that year including the likes of Professor Edward B' Attah, Chief Emmanuel Oscar Odiong, Arch (Dr.) Maurice Effanga Archibong, to mention but a few whom we met there. The usual General Entrance had been previously conducted for Class I Candidates. Meanwhile, I had already gained Admission into Class 1 at the prestigious sister Institution, the famous St. Patrick's College, Calabar, grace ã la my Mum's insistence to study there and her arrangement and paying the Entrance Fees to that effect. I have commented on this in Chapter ONE of this book and this should not detain us further. But back to the **UTUKS BROS**: For while collecting my Prospectus from the Office I noticed a charming young man coming out of the Principal's Office and thinking that he was one the Tutors, we courteously saluted him and he responded accordingly and went his way. But what happened thereafter led to my association with the **UTUKS BROS** later on. On another occasion while a student at Holy Family College a.k.a then **HFC**, I was visiting home for something and while waiting at the College Gate for **"PASSENGER"** which at the time was the popular designation for a commercial **"CYCLIST"**, a **"7 Ton"** lorry loaded with palm produce from Ibagwa was passing by èn route IDU, a.k.a **NWANIBA**, my home town. I instinctively flagged it on for a ride, and the driver promptly applied the brakes and the lorry screeched to a halt. The young man I met that day at HFC was sitting at the **"Owners Seat"** and must have noticed me and beckoned on me to come on board and sit beside him. I tried to reminisce when and where I had met him, but noticing my confused state he explained that he had met me one time at the HFC Office and that he was an Alumni and that he was heading to the **PZ** at Nwaniba. From then on any time and even later on whenever and wherever the **UTUKS BROS** Motors were heading to Nwaniba, we would flag off and the driver would pick us because along the line he happened to introduce me to his elder brothers one of whom was Okon U. Utuk, alias **OU** whom I later regarded as the **MD** because he was always the man to be met at their Oron Road Office HQ. while Ete **AU**, the benign and magnanimous gentleman was often met at their Abak Road home, and **DU**, "the Colonial master and **DO**" as the man on the move, the business tycoon but all of them with humanitarian, philanthropic touch and mien. That was my impression of them as a child.

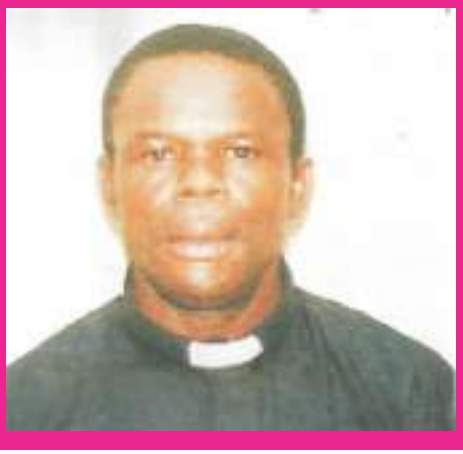
But what exactly cemented us together as it were, was that when Uyo fell to the Federal Troops in March 1968, after I had recently returned home from Owerri Nkuorgi where I was Chaplain at the Biafran Military Headquarters, words came to me to use my good offices "and intervene" because the **UTUKS BROS** were among those going to face the firing squad within hours together with the likes of Chief S. S. Obot of Afaha Offiong, my bosom friend and colleague, Dr. Christopher Ekong, husband of Chief (Mrs.) Elizabeth Ekong, a one-time Commisioner for Health in Old Cross River State, etc. By then I was both the Administrator of Christ the King Parish, Uyo where I had brought the CKC Church building project to roofing level with the fixing of the iron rafters and the Catholic Education Secretary in the then South Eastern State. Providentially then, I was also known to Col. Benjamin Adekunle, the Commander of the Federal Army which liberated the South Eastern Flank of the Eastern Region of Nigeria now comprising of Cross River, Akwa Ibom and Old Rivers States and also to both the Commander of the 14th Brigade ie. the Front-line Fighting squad of the Federal Army and later to the Commander of the 13th Brigade **grace ã la Major Boderin** who introduced me to the new Brigade Commander of the mopping-up operations Army while the 13th Brigade had marched on for the liberation of the Port Harcourt sector. Space does not however permit me to say much about how and why, but to God be the Glory because suffice to say that the above condemned persons out of envy and brazenness, were accused of being **"Saboteurs"** and the trumped-up Association with Biafra which accusation was masterminded by Chief (Hon) E. O. Eyo the

self-acclaimed **"Leader"** of what later became known as Akwa Ibom State and the COR State Movement. Consequently, I immediately drove down with my body guard from the CKS Catholic Education HQ. now Dominic Utuk Catholic Secretariat to the Brigade Quarters now Akwa Ibom State Government Secretariat and Governor's House/Office grounds down Old Barracks Road a.k.a Bassey Wellington Ave.

On arrival, I proceeded straight to and prostrated before the Commander who promptly ordered me to get up and make the request. The long and short of it was that I was able to debunk the accusations and the above condemned "**convicts"** were released with immediate effect except Chief Obot and Dr. Chris Ekong from their Oron Road Gulag where they were incarcerated after identifying them because everything was politically motivated. Regarding the **UTUKS BROS**, everybody knew that they never belonged to any Political Group talkless of association with Biafra, they were simply the popular Uyo rich and outstanding business men and patriots as observed above. Chief Obot was an arch-political rival of E. O. Eyo hailing from the same area. Dr. Ekong was a big figure in Pfizer Aba which easily gave him away and my readers can readily understand why he was framed up as a Biafran. Thereafter, the situation all over the area was tense and the **"Leader"** to save face masterminded the Joint Non-Denominational Christian Service of Peace and Reconciliation as Col. Adekunle became easily convinced of the need for the Joint Service. He therefore promptly acquiesced and the Service was held at Elder **AU's**, Apostolic Church along Oron Road to which the Commander appointed my humbleself both the Presiding Pastor and Moderator. The Service which was also attended by the legendary Pastor E. E. Okon who became the first African National President of the Apostolic Church was very beneficial, to say the least.

Another most significant event which endeared me to the **UTUK'S BROS** was that following the above, all their property and Holdings were confiscated and they were reduced to penury overnight. To be brief, **AU** came to me on his knees and providentially, since one of our **SAFE'S** could not be bombed, I discovered more than £ 100 in cash (shillings) inside which I handed over to enable them restart off life and re-organize both their Company and themselves. Another event that same year, was that I was the officiating Priest at the Solemnization of Marriage between Kgt. **DU** (KSM) and Princess Philomena Utuk of Anua with the **"Leader"**, Chief O. E. Eyo as Chairman of the occasion. The event took place at the prestigious **TEACHERS' FEDERATION HALL**, now St. John's Catholic Parish Church, Abak Road. That Hall was built from the yearly £1:0: 0, £1:0: 0 Fund and Contributions from Catholic Teachers which was also meant for **"sending and training"** well qualified and dedicated teachers Overseas. I could also recall that after the demise of Kgt DU, Princess Philomena brought Victor, her first son to stay with me an attend Lectures at UNICAL. Suffice to conclude that the **UTUKS BROS** dedication and contributions to the Catholic Cause as well as the development of what is now AKS in general and Uyo in particular were unstoppable and also unquantifiable. Though not all of them were Catholics eg. **AU** was an Elder in the Apostolic Church while **OU** was a Deacon in the Qua Iboe Church, they were ever ready to assist whenever the occasion arose and even their children followed suit. **AU's** son Anthony, later became a Catholic manning the General Office at Oron Road when his father became the Sole Trustee and Administrator while **OU** and **DU** moved on to build their Enterprises and Holdings including UTUK'S Motors with a Peugeot Assembly Plant to boot together with the **"Destiny Insurance"** House at Ikot Ekpene Road. Today Ini, **OU's** son has moved on as a business man and politician ditto Victor, **DU's** son. In recognition of their contributions to the development of Uyo metropolis etc. especially those of **DU,** Brooks Street, off former Barracks Road had been renamed **DOMINIC UTUK AVENUE** by the Akwa Ibom State Government to the Greater Glory of God and to their services to humanity.

Then continuing with the matter at issue, Mgr. F. X. Una was also placed charged of the production of the Complete EFIK Catholic Bible as well as the Archdiocesan Annual Liturgical Calendars as also the Publications of the Archdiocese by Archbishop Brian D. Usanga. But after the creation of Uyo Diocese in 1989, he was transferred to St. Paul's Parish Uyanga, the newly created Parish detached from St. John the Baptist Parish, Akamkpa, by the legendary Archbishop Brian D. Usanga.



17. ORIGINS AND ESTABLISHMENT OF MISSIONARIES OF ST PAUL(MSP)

When Msgr. Godwin Pius Akpan was transferred from St. Andrew's Parish Ikot Okure to take over from me at Christ the King Pro-Cathedral Uyo while I was to take over from Very Rev. Fr. D. Dolan (SPS, a.k.a AKPAN URUAN) then Parish Priest of the Church of the Assumption – Ndon Ebom, he never had the premonition or revelation that one day he would be the first Superior General of the first all Nigerian Indigenous Congregation for Priests founded by Dominic Cardinal Ekandem and established by the Episcopal Conference of Nigeria CBCN to provide Missionary priests where they are most needed. But from this moot point a number of issues have emerged. **Grace Ü la** the indefatigable and charismatic Dominic Cardinal Ekanem, Msgr. Akpan was also to become the first Rector of **"CARDINAL EKANDEM SEMINARY COLLEGE"** a.k.a Cardinal Ekandem Seminary Uyo, the second Minor Seminary of the Archdiocese of Calabar. All these were hidden from us but clearly written from eternity by the inscrutable mind of Him who can do all things by His own power alone. The reason is that while Msgr. G. P. Akpan was to oversee the completion of the roof of CKC after I had earlier put on the metal rafters etc. of the Church, Cardinal Ekandem and the Ordinary of the Archdiocese of Calabar, Archbishop Brian D. Usanga had other plans for him. He was to kick start preparations for the take-off of the premier National Seminary of St. Paul using part of the premises of now defunct St. Mark's Higher Elementary Teachers Training College, Iperu Remo, Ijebu Ode in Ogun State. This is the arbiter and harbinger of Missionary Society of St. Paul which began as an idea in the mind of its founder, Dominic Cardinal Ekandem. He first conceived the idea in 1950, but it took about 27 years for it to mature and see the light of day. According to Cardinal Ekandem himself whom I providentially served as houseboy at Holy Family College that very year when he was the College Chaplain as also the Fr. In-Charge of St. John's Parish Abak. Later, I also became his Sacristan at St. Joseph's Anua 1956 – 1957. When he as the President of the Episcopal Conference of Nigeria (1976 – 1986) laid his plan before the Catholic Bishops Conference of Nigeria, they finally acquiesced and made the decision to establish the National Missionary Seminary of St. Paul in its meeting at Kaduna in September 1976. The timely prophetic call of Pope Paul VI in Kampala, Uganda, for Africans "to be Missionaries to themselves" had offered the impetus and created the needed momentum to make the idea a reality. For the institution to take off, Most Rev. Dr Anthony Sanusi, the Bishop of Ijebu Ode Diocese then graciously donated part of the the grounds of the former St. Mark's Teacher Training College at Iperu Remo, Ogun State to be used as its first Seminary home. On September 12 1977, the St. Paul's Senior Seminary of St. Paul, a name given by the Cardinal himself, was opened on this temporary site in Iperu-Remo with Msgr. Godwin Akpan, erstwhile Vicar General of Calabar Archdiocese as the Rector thereof and Fr. John Lalor, a St. Patrick's Missionary Priest and erstwhile Rector of Queen of Apostles Junior Seminary Afaha Obong, as sole Lecturer.

There were nine pioneer students viz. Dominic Ekandem and Sylvester Ibuot, Archdiocese of Calabar; Sylvester Ibuot and John Osom, Diocese of Ikot Ekpene, John Giges and Philip Dung from Jos Archdiocese, Anthony Ojakaminor, Warri Diocese; Andrew Toyinbo, Oyo Diocese and Lawrence Okafor from Benin Archdiocese. Meanwhile during the intervening weeks, these nine boys worked tirelessly every day to make this semi-jungle habitable for civilized living amidst intensive Spiritual Formation followed by a thirty days Retreat. Then on Mission Sunday, October 15, 1977, the official opening of the Seminary was slated for that day and many Bishops, Priests and the Christian Faithful from many Dioceses far and near attended the grand opening ceremony. In 1978 three new St. Patrick's Priests were added to the number of resident Formators viz. Fr. James Sheerin erstwhile Principal of St. Joseph's T.T.C. Igbeagu – Abakaliki in the Diocese of Ogoja who became both the Bursar, Vocation Director, Editor and Promotions Manager of the Ambassador National Magazine, Fr. Hugo McBride erstwhile Rector of Immaculate Conception Seminary Mfamosing and Fr. Jeremiah Curran both from the Archdiocese of Calabar. Others coming from the

Dioceses around viz. Fr. M. Prat from the Archdiocese of Lagos, Fr. Gabriel Ayankoya from Ijebu-Ode Diocese were appointed as part-time Formators. Following these developments, the Bishop's Conference of Nigeria in that same 1978 erected the Seminary as a Pious Union of the Missionary Society of St Paul with same Rev. Msgr. Godwin Akpan as the first Acting Superior General of the Society MSP (1988-1995). Gradually more physical structures were erected and many more Staff also joined the Seminary Formation team. But incidentally during one of the "Internal Free Days" when the students were granted a lecture free day, but expected to remain on Campus, one of them, Sylvester Ibuot the Seminary Sacristan, sneaked out on a visit "to know Lagos" and being caught in the Lagos traffic could not return to Campus in time to prepare for for Benediction. He was expelled instanter for breaking school bounds leaving only 8 of them on the roll call of remaining students.

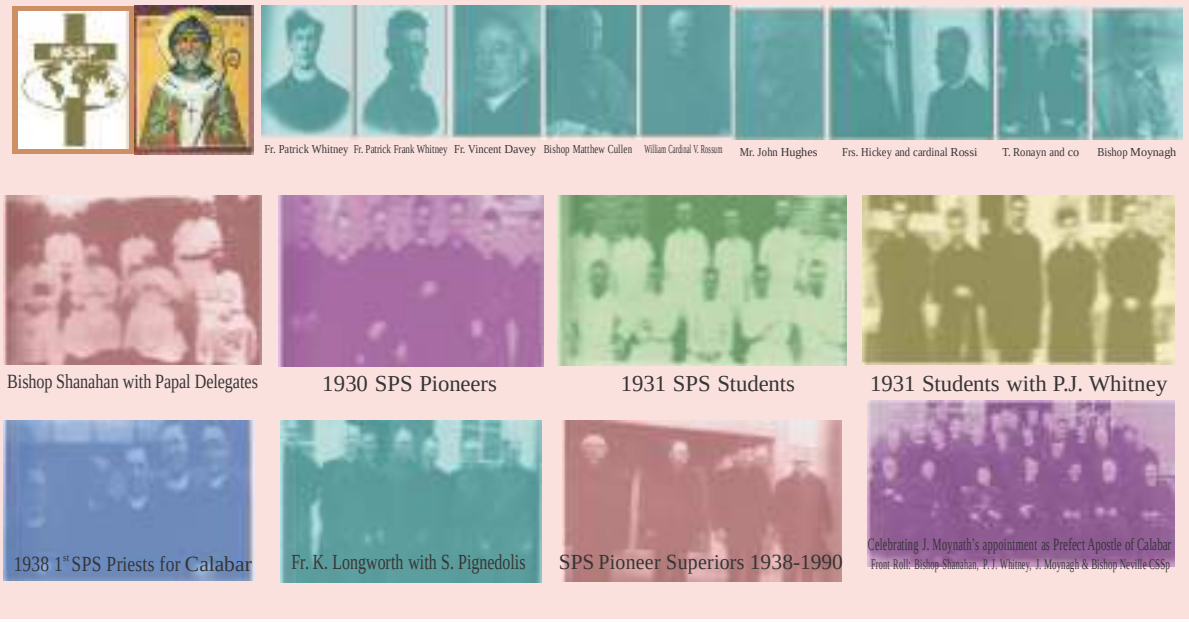
REV. FR. (DR.) JOHN OSSOM & MSGR. G. P. AKPAN, 1ST RECTOR & SUPERIOR GENERAL MSP

In October of the following year 1979, when the eight had completed their Spiritual Year Formation, four of the students had to go back to the Junior Seminary at Ibadan to retake the West African Examination Certificate Exam (WASC) without which they could not continue in the Seminary. That meant that out of the eight students remaining in the pioneer class, four of them were qualified to begin their First Year Philosophy Programme. Within their first year of Philosophy, Dominic Ekandem also had to leave and only three students left to continue Philosophy 2. At the end of that year two students decided to leave on their own, leaving only Rev. Mr. John Osom to begin Theology 1 at SS Peter and Paul Seminary Ibadan in October 1981 since there was no Theology Faculty in the Iperu-Remo Campus then. In 1983, he had to return to Iperu-Remo to join the new Theology Students of Theology Faculty and complete his studies on June 16, 1984 when he was ordained Deacon. In that same month, precisely on June 22 1984, he took his first Oath of Permanent Membership in the St. Paul's Missionary Society, Nigeria. That meant that technically, the Missionary Society of St. Paul came into being that year.

Meanwhile in 1982, Dominic Cardinal Ekandem, the Superior of the newly erected Abuja Mission and Archdiocese of Abuja had acquired a large and magnificent piece of land from the Nigerian President, Alhaji Shehu Shagari at a strategic site in Gwagwalada District Abuja. It was here that he kick-started the construction of Hostels, Lecture Halls and other Seminary facilities for the Main Philosophy/Theology Campus of the Seminary masterminded by the indefatigable Mgr. Dominic Ekeng Inyang, erstwhile Director of the Social Commissions of Catholic Secretariat Lagos (1974-1980). On October 13, 1984, the new permanent Abuja site of the Seminary Campus at Gwagwalada was opened for the Students of Philosophy and Theology while the Iperu Campus was to remain as a Two-Year Spiritual Formation House a.k.a. "**SPIRITUAL YEAR"** and the Department of Publications and Promotions. Accordingly, the Headquarters of the MSP Society was moved to Abuja as well. The first and only remaining member of the

pioneer Class of the Society trained in the Iperu Remo Seminary Campus, Fr. John Osom, was ordained on June 22, 1985. He was subsequently sent by the Cardinal for further Studies at the Urban University Rome where he bagged his Doctorate in Moral Theology in 1989. Eleven other members were ordained following year including Frs. Anthony Ifen, A. Inameti, Emmanuel Effiong etc. all from the Old Archdiocese of Calabar then. Since then, Priestly Ordinations have become a yearly event in the MSP Society. The lucky and providential pioneer MSP Priest, Fr (Dr.) Joh Osom was later on his return from Further Studies appointed Lecturer in Theology at his Alma Mater Seminary, Abuja. In 1998 he was posted along with two others to open a new MSP Mission in Grenada in the West Indies. In 2002, he returned to Nigeria and was appointed Catholic Chaplain to the Law School, Abuja. In 2006 he was again appointed to the United States Mission in the Archdiocese of Alabama and later in 2007 to St. Benedict the Moor Church.

So far, the Society has ordained an average of nine priests a year. The **MOTTO** of the Congregation is taken from St. Paul's Second Letter to the Corinthians: "We are Ambassadors for Christ" **(Cf.2Cor.5:20),** thus members of the MSP Congregation take on missionary activities to all nations of the world in accordance with the mandate given to the apostles by the Lord Jesus. Like St Paul, the members are driven by the love of Christ (Cf 2Cor. 5:14) to "be all things to all people" (1Cor 9:22). Though primary evangelization is its central mission, the Society is also committed to New Evangelization and the Apostolate of the printed word hence the establishment of the **AMBASSADOR MAGAZINE** and other Publications including the National Liturgical Calendar/ Directory which were championed and fashioned by the premier Editor, Rev. Fr. James Sheerin, SPS. The close partners of the priest members of the Society are the Associate Missionaries of St Paul. These are generous lay Faithful who support the work of the Society with their time, talents, resources and prayers. Since 1986, the MSP Fathers have been sent on foreign Missions for the first time to Cameroon and Liberia, then to the United States of America. Since then, in addition to those countries and Nigeria, the MSP Fathers now work in Botswana, Gambia, Malawi, Chad, South Africa, South Sudan, UK, Ireland, Italy, Liberia, Sweden, Grenada, Kenya and the Bahamas.



On March 17, 1994, the Congregation of the Propagation of the Faith gave approval for the Canonical erection of the Society as a **SOCIETY OF APOSTOLIC LIFE OF DIOCESAN RIGHT.** The erection officially took place in 1995. Since then the Society has had four General Chapters; 1995, 2001, 2007 and 2013, with one extraordinary Chapter in 2008. At those General Chapters the following pioneer and subsequent members were elected viz; Very Rev. Fr Felix Elosi, MSP-1995; Very Rev. Fr Hyacinth Egbebo, MSP–2001 and 2007 re-elected; Very Rev. Fr. Anselm Umoren, MSP–2008 and Very Rev. Fr Victor Onwukeme, MSP-2013, as Superiors General. Three members of the Society are now Bishops in Nigeria: Most Rev. Dr. Anthony Adaji, MSP, of Idah Diocese, Most Rev. Dr. Hyacinth Egbebo, MSP, Bishop of Bomadi Vicariate and Most Rev. Dr. Anselm Umoren, MSP, Auxiliary of Abuja Archdiocese. As at June 2018, the Congregation has ordained a total of 268 priests. The Society which began as an act of faith and trust in God, has continued to be guided by Divine Providence and has grown into a large Missionary Family. It has been a symbol of unity in diversity in Nigeria, and has continued to meet the needs of the Church in Nigeria and the Universal church. This indeed is God's doing, and it is marvelous in our eyes.

In the 1980s when the first Society Priests were being ordained, a number of them used to be sent to the Calabar Mission. It was the custom to post them to Dioceses within Nigeria and to Lagos Parishes in particular for on-the-spot Ministry. After some time, they were not being posted any longer to the Archdiocese of Calabar. In 2012, the first set of MSP Missionaries to assume permanent Ministry in Calabar and to be assigned to a designated Parish as a Benefice was undertaken by erstwhile Archbishop Joseph Edra Ukpo. They were first posted to St. Anthony's Parish, Iwuru. But when St. Dominic's Akpet Central, Biase was excised and created a new autonomous Parish, they were re-assigned there beginning with Rev. Father Emmanuel Etim, MSP. In 2017 with the transfer of Fr. Emmanuel Etim, his new MSP successor, Rev. Fr. Vincent Ubom has been appointed and re-assigned to St. Anthony's Iwuru. Of course everybody knows that the MSP Congregation is the brain-child of the Calabar Mission masterminded by Cardinal Dominic Ekandem and Archbishop Brian D. Usanga, hence MSP should not so soon forget "the Hen that lays the Golden Egg". Ad Majorem Dei Gloriam, Amen!

18. ORIGINS AND ESTABLISHMENT OF ST. PATRICK'S MISSIONARY SOCIETY

SPS FOUNDED AS "SOCIETAS SANCTI PATRITII PRO MISSIONIBUS AD EXTEROS"

MGR. PATRICK WHITNEY AND HIS TEAM OF VOLUNTEERS FOR THE CALABAR MISSION 1920 -1938

HISTORICAL AND AGGRESSIVE APPEALS FOR THE ESTABLISHMENT OF THE SPS

The story of the origins and evolution of St. Patrick's Society began when Bishop Shanahan strut the length and breadth of Ireland but most importantly and significantly went to the All Hallows National Seminary, Maynooth to plead with the final year diocesan theological students to volunteer coming to Southern Nigeria for an agreed period of temporary service to evangelize the people and save souls. The appeals made by Shanahan for priests- missionaries yielded fruit. It led to the formation of St. Patrick's Society of Volunteer priests and the founding of the Sisterhood Congregation of the Holy Rosary. The genesis of the foundation of SPS sums up the mystery of God's providence when we trust in His power to save and His readiness to come to our aid. Yes, those Appeals yielded fruit when on December 15, 1920 two of them Fr. Thomas Ronayne ordained in 1910 with five years missionary work in the USA but then working in a parish in Ireland and Fr. Patrick Whitney previously ordained with Shanahan in attendance on June 20, in the company of seven Holy Ghost Missionaries five of whom were coming back to Southern Nigeria after a holiday and two new comers set sail for Calabar in Nigeria.

The most important event which preceded this was the appointment and consecration of Shanahan as Bishop and Prefect of Southern Nigeria on June 6, 1920. On their arrival at the steamy sea port of Calabar Fr. Patrick was sent to Emekuku while Ronayne was to remain in Calabar with two other Holy Ghost priests and man the schools. The stay of the diocesan volunteers took an unexpected turn in 1923 when Shanahan saddled Fr. Patrick with the task of raising funds for the establishment of a new Congregation of the Missionary Sisters of the Holy Rosary he was going to found for Missionary work in

Southern Nigeria. But this task was a blessing in disguise because it opened the eyes of Fr. Patrick Whitney and prepared him for the task ahead viz. the founding of a separate Missionary Society for priests like that of the Holy Rosary Sisters and this turned out to be the founding of St. Patrick's Society for the Calabar Mission in the Prefecture of Calabar as we are going to see.

ST. PATRICK'S MISSIONARY PIONEERS FOR CALABAR MISSION

The St. Patrick's Missionary Society was founded as a result of the appeals made by Shanahan to newly ordained priests as also Seminarians studying at the Maynooth National Seminary, Ireland to consider coming out to Nigeria for Missionary Work if even for a few years, and with genuine remunerations attached thereto. Shanahan was in charge of the huge Vicariate of Southern Nigeria with over six million people at the time. Since he was very short of priests his appeal to the students at Maynooth was for them to make a temporary commitment of five years, before they would return to their own dioceses. This was not unusual at the time because there was an abundance of priests in Ireland, and most importantly, similar arrangements had been made for those who opted to go to India and China for a short period of missionary service.

St. Patrick's Society for the Foreign Missions ie. **"SOCIETAS SANCTI PATRITII PRO MISSIONIBUS AD EXTEROS**" is therefore an Irish Roman Catholic Missionary Society of Apostolic Life composed of Missionary Priests, sometimes known as the **"KILTEGAN FATHERS"** ostensibly because its headquarters is at Kiltegan, County Wicklow, Ireland. Its members use the post-nominal initials of S.P.S. The Latin motto of the Society is **"CARITAS CHRISTI URGET NOS" (Cf. 2 Corinthians 5:14)** ie. "The love of Christ compels and urges us on". That appeal yielded fruit when on December 15, 1920 two of them Fr. Thomas Ronayne ordained in 1910 with five years' missionary work experience in the USA but then working in a parish in Ireland and Fr. Patrick Whitney previously ordained with Shanahan in attendance on June 20, in the company of seven Holy Ghost Missionaries five of whom were coming back to Southern Nigeria after a holiday and two new comers. These young priests set sail for Calabar in Nigeria for the unknown, as it were, but with sure and certain hope for a prosperous trip to the West Coast of Africa. Their enthusiasm was not misplaced as we are going to see.

Then, the Society was officially founded on St. Patrick's Day, 17 March 1932 by Monsignor Patrick Whitney (1894 – 1942) at Kiltegan, County Wicklow, Ireland. Its original aim was the Christian evangelization of Nigeria. In the 1950s the society expanded by establishing a new University College Hostel in Kiltegan and opened a House of Studies in Sutton House, Rochestown, Douglas in Cork, with the SPS Seminarians attending lectures in the University College Cork, the same University Bishop Moynagh had trained the first batch of St. Joseph's League Teachers including Chief Leo E. Essien, Prof. Sylvester J. Una, Mr. Fabian Essiet the father of Rev. Fr. James F. Essiet, Mr. Malachy Paul Essien, the brother of Rev. Fr. John Paul Essien who was the first indigenous priest to die in the Old Vicariate of Calabar in 1968. Other teachers trained at Cork were Mr. Simon Etim, a.k.a Akpan Annang, etc. That ancient Church Organization viz. **ST. JOSEP'S LEAGUE** has now been rechristened the **"CATHOLIC LAITY COUNCIL OF NIGERIA"** (**CLCN**) in line with Vatican II. According to Fr. Patrick Whitney, right from the outset Bishop Shanahan was very "hopeful of the success of his volunteer Movement". He was also optimistic with the suggestion that the Vicariate of Southern Nigeria & the Cameroons might one day be divided in favour of the Irish secular priests which turned out to be the Prefecture of Calabar as we are going to see. He was preoccupied with the responsibility of evangelizing the entire area and had no desire to hold on to it for

his CSSp Congregation because at the time, it seemed impossible that the Holy Ghost Fathers would ever be able to supply enough priests being mostly French coupled with language difficulties. For the present, he was happy and wanted that the Holy Ghost Fathers and Volunteer Irish Fathers would work together, sharing fully the responsibilities of the Mission together. Similarly, the Volunteers had paid close attention to the organization of the proposed Missionary Society in Ireland to be established in Ireland. Bishop Shanahan had great hopes for the Irish Priests' Movement which he had earlier initiated and concluded that it was not possible for their Holy Ghost Congregation to provide sufficient priests needed in the Vicariate, but rather the possibility of establishing a new and independent Society was obvious. A "Declaration of Intent" was drawn up and signed by Bishop Shanahan and Fathers Patrick Whitney, Vincent Davey and John Finnegan on behalf of the "Volunteers". The Declaration reads in part:

> **The best means to attain this two twofold end – the evangelization of the eight million souls in the Vicariate and the temporal and spiritual safeguarding of the Maynooth priests – is the formation of a new Society. His Lordship the Most Rev. Dr. Shanahan undertakes to form this with the approval of Rome. It is essential that the nucleus of it be found among the Maynooth priests now in the Missions. The new Society with the approval of Propaganda would undertake full responsibility for the evangelization of the Vicariate. His Lordship would ask for transition period during which the members of the Holy Ghost Order presently on the Missions would remain on. They would be welcome, God willing, to remain on for life (Cf. Kiggins T. 48 ff)**

Thereafter, on June 21, 1928 Pope Pius XI through Cardinal Van Rossum gave approval, and Bishop Shanahan proposed that the Mother House be set up in Ireland as a Missionary Centre since some of the volunteer priests already working in Nigeria were willing to become the first set of members. With the coming to Calabar of Archbishop Arthur Hinsley, the Apostolic Delegate to Africa earlier referred to, Fathers Ronayne and Davey pressed upon him to use his influence to promote the establishment of the new Society. In August 1929 and through the invitation of the Apostolic Delegate, Fr. Patrick Whitney arrived Rome to present the Request to Cardinal Van Rossum of the Propaganda Fide. On February 6, 1930 Rome gave formal approval and a few days later, John Hughes Esq., an Irish rich man living in Liverpool but who later returned to Ireland made over his large estate at High Park near his house in Kiltegan to Fr. Patrick for the erection of the new Society as **"MOTHER HOUSE'**. His only condition was that Archbishop Cullen would have to give permission to have the Society established in his Diocese, which he wholeheartedly did subject to approval by Rome. The erection of the Society was announced in Irish, English and American papers, and on March 7, 1930 formal possession was taken of the house in Kiltegan. Meanwhile Father Patrick had taken over the High Park property, Kiltegan County Wicklow. It was at this estate donated by Mr. John Hughes that the foundation for the establishment of the new Society of St. Patrick's Missionaries was laid. On May 24, Cardinal van Rossum sent the communication that the new Society would among other things "take charge of the Colonial Administrative Provinces of Calabar and Ogoja in Nigeria". To God be the Glory!

HISTORICAL AND AGGRESSIVE APPEAL FOR THE ESTABLISHMENT OF SPS ? N MARCHE AND ARRIVAL OF THE FIRST SPS VOLUNTEERS TO THE CALABAR MISSION AGGRESSIVE APPEAL BY FR. PATRICK WHITNEY IN ALL HALLOWS' UNIVERSITY PROMOTION WORK AND ESTABLISHMENT OF ST. PATRICK'S MOTHER-HOUSE IN IRELAND

With this huge success, Fr. Patrick Whitney embarked on his historic appeal to the Final Year Class in Maynooth which resulted in five of the newly ordained priests in June that year viz. James Moynagh, Ciaran Ryan, Patrick Costelloe, Cornelius Plunkett and Thomas McGettrick, volunteering to

come to Nigeria and even willing to become members of the new Society. Two priests Michael Kilmartin ordained in Rome in 1921 and Hugh Conlon ordained in Maynooth in 1927 also expressed interest to come to the Calabar Mission. Then Fr. Patrick Whitney set out to establish a **PROMOTION NETWORK** just as he did in Killeshandra for the founding of the Holy Rosary Congregation. In July the Volunteers came to Kiltegan for briefings by Fr. Whitney towards the take-off in the presence of Bishop Shanahan. Then they left for Dublin where they were supplied with motor cycles, mostly the BSA motor cycles manufactured in Birmingham, mosquito boots, camp beds and mosquito nets. Mass boxes, tropical outfits and white soutanes sewn by the Sisters of the Sodality of St. Peter Claver were also supplied them. This Sodality was a Society founded by Marie Therese Ledochowska, an Austrian noblewoman in 1854 that was to become an indispensable part of the support system on which Missionaries going out from Kiltegan would depend. In our time newly ordained priests were always kitted with these. Some of us at our First Masses who were ordained in the 1950s and 1960s were often kitted with the same Mass outfits vouchsafed by the Irish MMM and Holy Child Sisters on the Mission. I remember my mother bought me an English-made camp bed because in those days it was the custom for parents, family relations, parishes, Church associations and well-wishers to make donations and kit their newly ordained children with necessary outfits and personal effects. Most of the camp beds to be donated were usually made in Aba from tarpaulin.

Meanwhile the new Volunteers were given August and September to spend with their families. On October 1, 1930 in the company of Bishop Shanahan, the seven Volunteers mentioned above and other Missionaries viz. five Holy Ghost Fathers, three Holy Child Sisters namely, Mother Mary Edith, Mother M. Joachim and Mother M. Lawrencia (SHCJ) and a Rev. Brother set sail from Liverpool and arrived Calabar on October 18, 1930. Eight of the priests including the five of them, James Moynagh and co., three Holy Ghost Fathers all of them in their mid-twenties were excited beyond description by this their first foreign trip as they arrived at the shores of West Africa. Never before was there such a number of Missionaries together on board any ship sailing to West Africa. According to Bishop Shanahan, all the people in the ship were admiring this vigorous, healthy, happy group of Irish Missionaries when they disembarked at Free Town – Sierra Leone and touched down on West African soil for the first time. There Bishop John O'Gorman of Free Town entertained them at the Mission House and after a few hours they re-embarked for Lagos. At Lagos, Bishop Heerey joined them èn route Calabar and at Port Harcourt disembarked to Onitsha. They steamed up the Estuary of the Cross River admiring its banks crowded with mangroves and canopies of tall oil palm trees. Soon the town of Old Calabar situated along the Calabar River above the Confluence of the Cross River came into view. Then on that Saturday which was the Eve of Mission Sunday – 18th October, 1930 they arrived Calabar into the waiting hands of Mother Magdalene Charles Walker and Mother Amadeus Atchison, Superior of the Holy Child Nuns together with Mother Genevieve France, the Vicar General who were on a visit to Mother Magdalene, this being their first time also in West Africa, as also Fr. Thomas Ronayne together with an enthusiastic Calabar citizens and well-wishers. The following day, Mission Sunday, they celebrated the Pontifical High Mass **coram Pontifice** officiated by Fr. James Moynagh flanked by Fathers Phillip O'Connor and Patrick Costeloe as Deacon and Sub-deacon. At the Mass, Fr. Ronayne the Fr. In-Charge nick-named Fr. D.O. by his Efik admirers on account of his actions with the strong arm of a colonial District Officer status, lined up some recalcitrant Efik Church members - weak Christians as they were called in those days - to be disciplined. One of them was Mr. Thomas Asuquo, a school teacher who also taught my father at Sacred Heart School was excommunicated instanter. It is worthy of note that years after, his daughter Magdalene, was the one who donated her father's piece of land along Ekeng Abia Street for the building of the Bishop's Residence first occupied by the late Archbishop Brian Usanga.

Over the weekend, the new comers were told their immediate assignments and plans. In fact, some of them were given their appointments right on board the ship after departing Lagos for Calabar. Originally Fr. Whitney had assured the new comers that they would work with four senior secular

Volunteer priests already in the Vicariate ie. at Eke and Emekuku as Curates before being re-assigned. But he had lost the battle for the two stations which were to be under the proposed territory of the Calabar/Ogoja Mission under Mgr. Moynagh as Prefect Apostolic – a territory co-terminus with parts of Old Owerri Diocese and Old Umuahia so as to be almost equal as what would have been Onitsha Vicariate under Bishop Heerey because that was the projected territory of the Calabar Mission. Even the new comers themselves had also hoped they would be joining the four secular priests already stationed in the Vicariate. But in fact Fr. Thomas Ronayne was the only secular priest stationed in the Calabar Mission at the time of their arrival. The reason for this assumption was that because of its civic and administrative importance as the colonial outpost, Calabar it was presumed, would also become the centre for Missionary activity on the eastern bank of the Niger of what came to be known as the Vicariate of Southern Nigeria. However, that was not to be because Shanahan himself was convinced that with the singular response of the Igbos to the mission, the Catholic Mission enterprise would be best served from Onitsha and he accordingly directed his attention thereto.

The Efiks of Calabar on the other hand were greatly miffed by this and resented their demotion, feeling that they were not given their just share of Missionary personnel and fabric. In general, they equally felt let down by the Colonial administration in that many of the positions in both civil and commerce had been taken away from them and given to "foreigners among them", namely the "coasters" from Lagos and Sierra Leone. It was equally a great let down to the new comers and their high expectations.

ARRIVAL ANUA OF THE SPS PIONEERS AT IDU ANCIENT SEA PORT

LANGUAGE /ORIENTATION PROGRAMME FOR THE NEW ARRIVALS AT ANUA

During the week, the Holy Ghost Fathers in Calabar were to leave for Onitsha and Owerri while the new comers would depart for Anua for Mission Orientation and Language Course. Father Phillip O'Connor (CSSP) who had worked for many years both in Calabar and Anua was to accompany them to Anua and direct the Orientation. Meanwhile the three Holy Child Nuns would have to stay in Calabar Convent with Mother Magdalene until April 1931 before concluding their visit that had begun in September whereas they had only wanted to stay for three months. What an act of Divine Providence! This was God's work and wonderful in our eyes. Thus the bond of friendship between the young priests and the Holy Child Sisters forged during their voyage out and the coincidence of their stay with the Holy Child Authorities in particular during the short period ahead would remain with them in the years that were opening up before them. Then within two days, they were loaded on a ferry to ancient IDU port a.k.a. **NWANIBA** where they disembarked en route Anua for their language and pastoral Course. At Nwaniba the mission kit car was waiting at hand to bring them to Anua. But come to talk of it, they had only one month for the Course, and Father Steigler a very practical man thought about what a month's intensive course could achieve with "strangers" the majority of whom were to be using interpreters for preaching and instruction whereas the priests needed to be proficient enough to read certain services and prayers in the Vernacular, have enough competency for the Sacrament of Penance in Confessional practice as also be able to examine the Candidates prepared for admission to the Sacraments with the help of Catechist-teachers. At Anua another Alsatian priest, Father Anthony Steigler, a World War I veteran was on hand to assist in directing the Efik Language Course. He was also to introduce them to Ibibio culture and tradition. Then to provide relief, boredom and distraction Fathers O'Connor and Steigler would take them out on tour of the area in an old Ford truck – with an open cap front and wooden-built body, the only motorized transport in the whole territory at the time. They were to visit most of the Mission Stations around Ikot Ekpene, Essene-Opobo, Oron, and back to Anua through the only two or three Km paved IDU – Uyo Road ie. the road paved 20 years before in 1906 up to Nsukara. This was the road they had previously taken when they disembarked from Calabar on their way to Anua. During the tour Father

Phillip O'Connor was introducing them to the people as the new Fathers who had come to live among them. But this scenario of the "only motorized transport" was not lost to me, because as a child when I first opened my tiny eyes, the only type of such a vehicle was the one owned by Mr. John Humbert, one of the Colonial Officers residing at Anwa Mbakara IDU at the time and thereafter renamed Ifiayong Obot/Hill. Every morning on our way to school, we could see them driving to Uyo, the Colonial District Headquarters, and on our return from school by 1.30 pm, we would also see them returning thither for lunch break.

After the month's course, these major out-posts viz. Ifuho, Essene and Oron were immediately converted into "Residential Missions" with Fathers In-Charge as resident Parish Priests. Father James Moynagh was posted to Ifuho under Fr. Anthony Steigler CSSP as Superior who would subsequently sooner or later hand-over to him. Father Thomas McGettrick was posted to Oron directly as Superior and Father In-Charge, ditto Father Cornelius Plunkett to Essene. Fr. Ciaran Ryan remained at Anua under Father Phillip O'Connor as temporary Superior just like in the case of Father Moynagh and Father Steigler at Ifuho. Father Patrick Costeloe returned to Calabar as Curate to Father T. Ronayne. Meanwhile Father Steigler was to alternate between Ifuho and Essene to oversee Father C. Plunkett while Father O'Connor would do same by alternating between Calabar and Anua when Father T. Ronayne would be in the Out-stations on bush trek. In the interim, they were taught to do a certain number of bush stations whereby they were expected to learn a little bit more of the language, Administration and Ministry.

Father Patrick Whitney described Anua Central Mission built by Father Biechy (CSSP) as the most beautifully laid and perfectly built in the whole region with symmetry and completeness difficult even to equal. It had a beautiful drive bordered with low evergreens leading up the 2-storeyed bungalow of modern type with a Church on the left side capacious enough for 4,000. At right angles at either side were pupils **Boarders' Houses**, houses for Mission boys and Teachers' Residences. In the background was an extensive carpenter's workshop for the workmen together with two football fields with neatly laid out flower beds in front of the Fathers' Residence "giving the impression that here the Fathers have a home to be desired" **(Cf. Whitney P. J. Diary 1926, Kiltegan Archives**). As a child, I always noticed many Europeans and Supercargoes berthing at IDU and often coming here for rest and relaxation. Similarly, Fr. Thomas McGettrick has also described their experiences and the residential buildings at Oron, Essene and Ifuho also built by Father Biechy: To him the mud-brick identical houses of pan roofs were altogether different from those in Ireland with no familiar landscapes or animals; no cows and milk except intolerable heat and humidity and loneliness of not having the company of those who could speak English with them. All these houses according to Moynagh were meant by Biechy to be temporary Mission Rest Houses for priests coming from Onitsha, Emekuku, Anua, Calabar or even Ogoja to do bush treks in the Out-stations. Father Moynagh and co. were the first to occupy them as permanent residences but according to him, they were reasonably comfortable though extremely hot since there were no-through breeze because they were four bed-room flats with a central place for the dining room
(Cf. McGettrick T. Sligo, 1988; See also Whitney P. J. Diary 1926, Kiltegan Archives; Moynagh J. Reminiscences, 12).

FINAL DEPARTURE OF THE HOLY GHOST FATHERS TO IGBO COUNTRY DRAMATIC TAKE-OVER OF THE CALABAR MISSION BY THE SPS PIONEERS

Within a few months, the two Holy Ghost priests at Calabar and Anua were recalled to Onitsha and the young New comers had to fend for themselves as Fathers In-Charge. Father Moynagh soon learnt the history of the Out-Stations most members of which were converts from the Methodist Church before being attracted to Catholicism by this extraordinary charismatic white bearded man, Father Paul Biechy (CSSP) who used to go round the villages "talking to Chiefs in Efik language and sharing gin and dashing them tobacco". The new comers too had wished that the other bearded French Holy Ghost Fathers at least, Father Steigler would be allowed to remain longer enough to mentor them. Readers of this Book can only

appreciate the predicament of these young Irish New comers to a territory which was soon to become a near forlorn and abandoned Missionary land owing to the sudden departure of the Holy Ghost Missionaries. Their prayers against loneliness were answered with Fr. Whitney's visit from April - June 1931 when he promised them support and reinforcements that would arrive later in the Year. Meanwhile Bishop Shanahan who had hitherto been retired continued to seek for support abroad for them. He was even responsible for the visit of Father Whitney whose voyage bill and travelling expenses he paid with the sum of £600:0:0. Later in the year, they were greeted with the arrival of Fathers Edward Curran from Elphin, Peter Boylan from Kidare, Thomas McDonald from Armagh, James Walsh from Achonry and Charles Meehan from Dublin (**Father ? s? -?kp?-ub?k**), the only one specifically ordained for the Calabar Mission. Father Meehan soon started work on the building of the Sacred Heart Cathedral. He was reputed for his prowess because he was noted for casually lifting a BSA motor cycle with one hand not to talk of other equally heavy objects. He was of ebullient and herculean built and mien and was appointed Manager of Schools and took charge of the Sacred Heart School Football team as the Goalkeeper. This act of Divine intervention when all hope was lost was an unbelievable boost for the new men staffing the new Missions including ancient Anua. It was one of those inscrutable ways of God and Almighty Father, and these happened to be the very companions who had been their colleagues at Maynooth. Significantly Father Phillip O'Connor on Shanahan's retirement was appointed Pro-Vicar Apostolic In-Charge of the Territory in Bishop Heerey's absence since at the time around April 1932, he was due home on leave.

With this development Father Boylan was posted to Ifuho as Moynagh's co-worker, Father J. Walsh, the man who was later to be in my young and little child's mind and estimation, the "big boss and Commander In-Chief of the Almighty Immaculate Conception Parish Afaha Obong in the 1940s – 50s' was posted to Essene as Curate to C. Plunkett. Father Curran was appointed Curate to Oron under Father McGettrick and Father McDonald as Assistant to P. J. Costeloe in Calabar because T. Ronayne soon resigned and joined the CSSP as we are going to see. To him Calabar would ever owe the credit of the success of the Catholic Schools within the new Colonial Directives and Regulations while J. Meehan was to concentrate on Parish Administration. With this set-up there were no longer any "one-man" Missions in the Old Calabar Province and this was a long-desired and long-awaited hope realized in God's good time. To Him be the Honour and Glory! Moynagh and Boylan worked very well together and with Father Boylan's sister as one of the Pioneers of the Legion of Mary – **Legio Mariae,** earlier founded in 1921 by the legendary Frank Duff, the scene was set for the establishment and take-of the Legion of Mary in the entire African region as we have seen in Chapter I.

ST. PATRICK'S MISSIONARIES AND THE ANUA MAINLAND MISSIONARY EFFORT: THE SITUATION IN NIGERIA WITH THE NEW VOLUNTEERS

A few days after the official opening of St. Luke's Hospital at Anua discussed earlier, four more Volunteers arrived from Ireland bringing the number of SPS Priests both in Ogoja and Calabar to eighteen. In 1934 which as observed elsewhere was indeed a very auspicious year, seven more new priests, the largest number so far, also arrived **(Cf. Moynagh J. Reminiscences, 8)**. This was indeed as a result of the momentous recruitment work of Father Whitney who continued to appeal annually to the Final Year Students in the University of Maynooth. For this the SPS arranged their Passages to Nigeria, took care of their Medical bills, provided them with Tropical clothings and other equipments including small allowances while in the Missions. They were always welcome to the Society's Headquarters at Kiltegan during their coming home on leave and sometimes they would be given temporary assignments while in Ireland. All these made them happy and satisfied especially with the great autonomy they enjoyed. However, Bishop Heerey had neither the time nor the interest to supervise them very closely. Nevertheless, they were ready and willing to bear the difficulties encountered during their stay in Nigeria although the absence of older men to advise and direct them was a great worry for the Society and Father

T. McGettrick remarked on this near absence of supervision and direction to the effect that it would be very much for the welfare of the SPS to have some of the older and more experienced men viz. the white bearded Holy Ghost Missionaries on the Mission fields as their Directors and Instructors. Father Whitney's inspired choice was certainly Father J. Moynagh and when Father Moynagh was later appointed Prefect Apostolic, he gave stability and a sense of identity without which the Society could never have survived the turbulent years that lay ahead. When he returned home in May 1934 accompanied by Father Ciaran Ryan, he looked a man of considerable experience.

JAMES MOYNAGH AS PREFECT APOSTOLIC AND NEW HEAD OF THE CALABAR MISSION
SPS FOUNDING FATHERS TOOK THE OATH OF THE NEW MISSIONARY SOCIETY

With the Calabar Mission in the capable hands of Moynagh, it was possible now to concentrate attention on the further development and needs of the SPS at home – Ireland, while the Volunteers in the Missions would take care of themselves yonder. In March 1935, three Founder Members including Father Whitney took their Perpetual Oath while Brother John Bermingham had become a Temporary member and was sent to Calabar. Father Patsy Kivlehan who had come to the end of his Probation while in the Calabar Mission enrolled as a Permanent member but Father Charles Meehan did not renew his Oath and continued as a Volunteer to complete the building of the Sacred Heart Cathedral. In September 1935, ten more students joined the SPS in Maynooth and were admitted into the Probation Year. By now almost forty students were studying in various Seminaries in Rome while James Lane and Michael O'Reilly studied in the Irish College Rome and in Ireland to become SPS priests. With the World Recession of the 1930s, it was becoming a financial strain and a great burden to cater for these students scattered in the various Universities and Seminaries. On the advice of one Father John Blowick of the St. Columban's Missionary Society, all the students were to be brought together under one roof in order to foster unity and growth in the spirit of the Society and to save costs. Before October they got down to a formidable task of providing accommodation, staff etc. to get the Seminary ready to admit Theology students. Father Whitney took charge of the work and with Mr. Desmond Martin the Architect brother of Sr. Mary Martin, new buildings were designed and erected in such a way that they formed a quadrangle with the existing buildings at Kiltegan.

On 8 October,1935 twenty students registered for Theology some of them in Year I while others who started in the Universities and Seminaries were at various stages along the way ie. Years 11- IV Divinity. Father Whitney himself served as the Rector while Fr. Francis Hickey was Bursar as also Fr. James Walsh who was back in the country serving as the Spiritual Director. The Academic Staff consisted of Father Hugh McGrath who also came back on leave. Fathers Gerald Montague and Thomas Campbell both specifically volunteered to work in the College. The other Students in Philosophy were still to continue to attend other various Seminaries and Universities until 1939 when the First Year Programme in Philosophy would be offered in Kiltegan. The new College was part of the overall arrangement which Father Whitney put together at the time. A water turbine engine was also installed to provide electricity and serve the saw-mill and other various buildings that were coming up. Kiltegan Headquarters of the SPS had become a beehive of activities. In 1936, a New Office Building was put up with telephone installed as the centre of Administration and for Promotions. At the Kiltegan centre also, there were Students' Hostels with almost thirty students, trainees. Rev. Brothers and a large retinue of workers employed for the farms and gardens, sawmill and carpenters for the furniture as well as workshops for other various projects. Most of the workers were resident while about a dozen, most of them locals including women and girls working in the kitchen were attending from home. Meanwhile, Father Whitney as Rector and Fund-raiser was hiring and firing them in summary fashion. In January 1936 after the Theology Campus had re-opened in October, Bishop Cullen died and this was a great set-back because he was such a great benefactor as well as the Local Ordinary with jurisdiction to the cause of SPS.

But trust Fr. P. J. Whitney! At Rome he had made friends with and set up a retinue of Public Relations outfit for eventualities and he quickly contacted one of them, Monsignor Caesarus Pecorari in Rome for the Pontifical Rescript to open the Theology Campus of the Seminary College. That same year in 1936, Father J. Holloway had come back home to his Diocese in Meath having decided not to take the permanent Oath of the SPS. That was the position of things Moynagh, now Mgr. James Moynagh met on ground when he started off as Prefect Apostolic of the Calabar Mission. But those events had little or no effect at all on the Missions in Nigeria. His appointment as Prefect Apostolic meant that the priests in the Nigerian Mission would be looking less to Kiltegan. The new Prefect had a business-like approach to events and with his personal strength and energies which were reassuring he carried out his tasks.

INTERVENING EVENTS TOWARDS THE BUILT-UP OF A NEW PREFECTURE APOSTOLIC OF CALABAR

THE BIRTH OF ST. PATRICK'S MISSIONARY SOCIETY IN KILTEGAN – IRELAND

In July 1932, Father P. J. Whitney arrived back in Calabar and toured Calabar and Ogoja areas until May 1933. He built a house at Ogoja tagged **"PAT'S HOUSE"** and also brought the good news that three more new comers would soon arrive. In November 1933, three more Volunteers viz. Fathers Hugh McGrath and Seamus Carraher from Armagh and Matthew McGrath from Dublin who later became the strong man of Ifuho together with O.O. Sullivan as we are going to see, arrived Calabar to join the seven including the first two viz. Fathers T. Ronayne and Vincent Davey thus bringing the number to twelve priests in Nigeria under the auspices of St. Patrick's Society. Soon after, Fathers Plunkett and Ryan departed on leave of no return because their return to Africa was uncertain. However, while Father Whitney was still around, it was agreed that Father Moynagh be made the Local Superior for the mean time. But while all these were going on in the Calabar Mission Fr. Patrick J. Whitney with the assistance of Bishop Hinsley was working night and day to have Calabar and Ogoja erected a separate Jurisdictions from Onitsha. Meanwhile, he himself was trying to put the Society at Kiltegan in proper footing.

Thus it happened that with the arrival of those seven pioneer Volunteer priests in Calabar to assume Missionary Work in Nigeria and Rome granting the formal "Rescript" approving the establishment of the St. Patrick's Society, Kiltegan – Ireland, the St. Patrick's Society was practically being born. It was a happy and welcome coincidence in the auspicious event of the canonical erection of the Society with Fathers Francis Hickkey, a Voluntary returnee who was working in Melbourne Archdiocese, Patrick Whitney himself together with his cousin Francis Whitney taking the Oath of Temporary Membership in the presence of Bishop Cullen on St. Patrick's Day March 17, 1932. Thus the Missionary Society of St. Patrick was born as a Society of Secular priests under the Authority of the Diocesan Bishop, Archbishop Cullen of Kildare and Leighlin. Father Patrick Whitney was appointed first Superior General and Fathrer Hickey, Bursar. Thus St. Patrick's Missionary Society was now canonically established both in Kiltegan and in the Missions with Calabar as Headquarters. But as far as everybody including this writer is concerned, the St. Patrick's Society, SPS had been established with the arrival of Fr. James Moynagh & co. in September 1930 and was doing well with subscriptions and donations coming everywhere with various other contributors for the Society. Fr. Patrick's "canonical establishment" was simply a confusion in terms regarding canonical niceties (Cf. Higgins T. 1991, 90-91). All Honour and Glory goes to God the Father Almighty, through his indomitable and indefatigable servant, Father Patrick J. Whitney and the foresighted Legend of the 20th Century, the Apostle of Southern Nigeria, Josef Shanahan.

But human life is full of enigmas as also frustrations, both Fathers Hugh Conlon and Michael Kilmartin in what looked like another series of set-backs returned to Ireland because of illness in that same 1932, though Kilmartin was to return some time in the 1940s for another tour. Every child who went to school in the 1940's could not fail to kiss the ground that this holy man of God and School Manager trod. The only school boys that would not do that were the "baboons" who won't study because in those days to

be able to attend a Standard VI School, a boy had to be a boarder and study very well in order to pass his examinations, but the over-aged "baboons" as we saw them and as some Headmasters nick-named them couldn't stoop down to study. They always played truant and during the examination season and often went to see the Dibias to give them concoctions whereby two black boards would suddenly appear at the examination for them to copy from in order to pass. But this never happened! With Father Kilmartin all examinations were cyclostyled on the morning of the Examinations, so looking for "expo" did not start today in Africa. Evil will always happen; we have the Lord's words for it. Yes. That set back meant that the only Senior Priest among them was Fr. T. Ronayne. It was clear the new comers liked and trusted him. Father P.J. Costeloe who was always with him since arrival was rather in awe of him. Fr. Ronayne taught us at Bigard Memorial Seminary, Enugu and we were also ever in awe of him especially in his capacity as Spiritual Director, but he too had dramatically left the Calabar Mission.

ESTABLISHMENT OF THE CATHOLIC MAJOR SEMINARY FOR SPS ASPIRANTS ST. PATRICK'S MAJOR SEMINARY AT KILTIGAN - IRELAND

THE NEW STRATEGY OF RECRUITMENT FOR THE ST. PATRICK'S MISSIONARY SOCIETY THE "APOSTOLIC WORK" CATHOLIC WOMEN'S ASSOCIATION FOR THE MISSIONS

Thereafter and with another sort of set-back, Fr. Patrick Whitney now as the first Superior General immediately set about establishing a Major Seminary to attract direct Volunteers from High Schools who would train and become Missionary Priests of the Society. He also continued to make more and very successful appeals both for Missionary Volunteers and contributions in cash and kind for the new Seminary and the maintenance of Volunteers and Members. It was some of these Volunteers that staffed the new Seminary at St. Patrick's Kiltegan as well as others who came to work on the Calabar Mission. In 1933, fortunately or unfortunately when the issue of the first two, namely Fathers T. Ronayne and Vincent Davey taking the temporal Vows of SPS came to the front burner, both of them decided otherwise, the former was rather to join and take the CSSp Vows in 1939 at Ihiala and the former who could have admirably filled the role of the first Prefect Apostolic of Calabar or some other important post within St. Patrick's Society, chose instead to go back home and serve his people of Northern Ireland as Parish Priest of Antrim town. This turned out to be a blessing in disguise because there he used his good connections to assist the Society. He put the Society in contact with the Irish Catholic Women's Missionary Association which was later named "Apostolic Work" which was founded in France by a devout French woman, Marie Zoe du Chesnee in 1838 and which became an official Organization under Propaganda Fide in 1871. In 1935 it became affiliated to the Pontifical Body with branches in Dublin and Belfast through the efforts of Father Whitney and Marie Martin. This Organization just like the earlier mentioned Sisters of the Sodality of St. Peter Claver, provided Vestments, Altar furnishings and Mass boxes for Priests on the Missions and also gave financial help to selected projects. Fr. Vincent died in 1973 while Fr. Ronayne who later taught us at the Bigard Memorial Seminary Enugu (1962 - 65) as English and Spiritual Director, died at Onitsha in 1965.

ST. PATRICK'S EXPANSION AMIDST OF DIFFICULTIES AND SET-BACKS ST. PATRICK'S YEAR OF PROBATION AS "SPIRITUAL YEAR

In June 1932, the Lord who can never abandon His people because of Fr. Whitney's incessant appeals yielded much fruit in another group of these early Volunteers arriving Calabar to join the work force namely Fr. James Holloway, a young priest from Meath who had just completed his post Graduate S.T.L. Degree Studies in Maynooth also applying to join. Similarly, another young Second-Year Student in Carlow Seminary, Patrick Kivlehan a.k.a "**Father Una Eka"** an orphan Devotee to the BVM and already a Student, also asked to be admitted. The General Council of SPS decided to admit Fr. James Holloway straight away but postponed that of Kivlehan until he was ordained in two years' time. By this time there

were almost twenty Volunteer Students studying at All Hallows, Mount Mellary, Wexford and Carlow Universities and Seminaries promising to join the Congregation. So at least They were loosely attached to the SPS. But it was decided that those who had completed their Undergraduate or Philosophical Studies should be admitted in St. Patrick's Kiltegan for a Year's Probation, a sort of **"SPIRITUAL YEAR"**, after which they could take the Oath of Temporary Vows' Membership and then proceed for a 4-Year Theology Programme in one or other of those Seminaries since St. Patrick's Kiltegan was just beginning and not yet accredited by Rome. Two hostels were to be built one for Probation Candidates and another for those who would become Rev. Brothers in addition to those already built for the new in-take of Seminarians in Philosophy.

On September 24, 1932, a most auspicious and gracious year in my estimation, eleven young Higher School applicants were admitted as Probationers to start off their Probation Year of what is now called in Nigeria "Spiritual Year" in preparation for entering a Senior/Major Seminary to train for the Catholic priesthood in Philosophy and Theology. These would be the first ever set of Candidates who would start off right from their first year Philosophy as SPS Missionary hopefuls such that after their Ordination they would qualify as the first original SPS priests for the Missions. Among the eleven was James Holloway though already ordained a priest and Thomas Fitzgerald. The Probation Year as currently organized in the Catholic Church would be devoted to Prayer, Reflection – MEDITATION and study with Father Hickey as Rector as also Vocations Director. This would be followed by a 30-day Retreat modelled after the Spiritual Exercises of the Jesuits ie. of St. Ignatius of Loyola Programme. They would do the Retreat together with their counterparts in the Society of St. Columban founded since the 7th Century AD. In November two students, John Birmingham and Kevin Rooney who applied to become Rev. Brothers were admitted and they started their programme for the Brotherhood of the Missionary Society. That explains the meticulous and near perfect preparations organized for those who wanted to be members of this new Missionary Society in the Church and these products really did wonders when they eventually became priests and turned out into the Calabar Mission and later in the Missions throughout the world especially in the African continent, notably East and South Africa. Our parents who were witnesses to the marvellous work and life styles of these first set of SPS Missionaries and what some of us as young children who met them in the 1940s and 1950s also saw can with all authority and sense of sincerity and satisfaction testify to this.

NEW SET-BACKS AND COMPLAINTS' GALORE AT THE ANUA MISSION

But unfortunately human nature being what it is; there was a lot of criticism of the Volunteer young new comers to the Calabar Mission. The whole thing started around Anua Mission stations in the Mainland of the Calabar Mission which first received the Gospel. There were Complaints coming from the Laity most of whom were experienced Elders and matured converts from Protestantism. Because by the time the Catholic Church reached Anua there were many Presbyterian, Qua Iboe and Methodist churches around, some of the convert-members from these Churches began to complain about the young SPS Priests. The criticism centred on the behaviour and ways of these young Missionaries whom they saw as lacking in maturity because they did not display the priestly decorum of their predecessors. Yes, it was true that they were very young, and most of them fresh from the Universities and Seminaries. Some of the Laity even went to the extent of comparing them with the likes of Fathers Biechy and Kraft (CSSP) since they had provided leadership and added prestige to the Catholic Church. Most importantly those Holy Ghost Missionaries were used to running things their own way and not disposed to accepting decisions and bossed about by young priests. However, we can understand the situation of these youngsters because it helped to emphasize their inexperience of priestly ministry either at home in Ireland or abroad in Africa but most especially, their near total lack of missionary training and orientation. But why do I bring in this moot point? It is to emphasize again and again the complaints galore in modern times concerning "our young bishops and priests of nowadays". Missiology and Pastoral Theology including Moral and Spiritual Theology are

presumed to be taught but how much of these are drilled into them? What of the situation where Spiritual Theology and the presence of Spiritual/ Rectors' Conferences have taken the back seat in some of our Seminaries especially regarding content and moral standards? There should not be any week omitted when these Studies and Programmes are not presented with adequate and sufficient time to make sense. Nevertheless, everybody presumes or suspects that these youngsters are groomed in character and learning, the one through class lectures the other in Pastoral and Apostolic work. Nevertheless. The truth of the matter is that this is farfetched and from the truth: **"eti en? eyen-unen eti en? mbukpo". I**t is very easy to blame and criticize or even condemn, but every good Christian and men and women of goodwill should have it as a duty to himself/herself to assist in the proper upbringing and training of these our young sons and daughters for the Seminaries and Scholasticates both in the Hierarchy and Ministry. That is why they are sent to us for Apostolic Work in the first instance. Let us including our bishops not behave and think as most parents nowadays do by abdicating their responsibilities and hoping that by sending their children and wards to schools to be trained, these Institutes like Magicians would be able to churn out perfect copies of human beings and well-behaved Ministers of the Word and Sacraments. Rather, let them assist by giving advice and counselling to them in good manners and etiquette as also directing them to imbibe the Virtues of Honesty, Humility, Integrity and Honour, especially Respect towards the Elders and their seniors. On the other hand, our Bishops as also the Seminary Formators need to be reminded of these because after all has been said and done, it is the Christian Faithful who suffer the consequences thus giving them the occasion to complain and criticize the Church. This remark equally applies to Nuns and the Authorities should take note of this by checking on their Programmes and Regulations concerning Postulancy and the Novitiate. It would be high time the Authorities look into these matters and not try or presume to offer explanations since the reputation of both the Priests and the Nuns themselves as also the Church Hierarchy is in jeopardy.

In 1929, following the recommendation of Arthur Cardinal Hinsley, formerly Rector of the English College in Rome, who had come as Papal Delegate and Apostolic Visitor to Southern Nigeria, Fr. Patrick J. Whitney, who until then was a volunteer priest from Ireland and was serving in Emekuku Mission was appointed the candidate to kick start as Superior of the newly contemplated St. Patrick's Missionary Society. He was preoccupied with his responsibility of evangelizing the entire area and had no desire to hold on to it for the CSSp Congregation because at the time it seemed impossible that the Holy Ghost Fathers would ever be able to supply enough priests being mostly French coupled with language difficulties.

Meanwhile the volunteers were ready and given August and September to spend with their families. On October 1, 1930 in the company of Bishop Shanahan the seven volunteers mentioned above and other Missionaries viz. five Holy Ghost Fathers, three Holy Child Sisters namely, Mother Mary Edith, Mother M. Joachim and Mother M. Lawrencia and a Rev. Brother set sail from Liverpool and arrived Calabar on October 18, 1930 and were received by Mother Magdalene Charles Walker (RSC), Fr. T. Ronayne and an enthusiastic Calabar citizens and well-wishers. With the arrival of these seven pioneer volunteer priests in Calabar to assume missionary work in Nigeria and the formal granting of the "Rescript" Approval by Rome for the establishment of the Society, as also the canonical erection of the Society by Fr. Francis Hickkey, a Voluntary returnee who was working in Melbourne Archdiocese, Fr. Patrick Whitney together with his cousin Fr. Francis Whitney taking the oath of temporary membership in the presence of Archbishop Cullen on St. Patrick's Day March 17 1932, the Missionary Society of St. Patrick was born. It was established as a Society of secular priests under the authority of the diocesan Bishop, then Archbishop Cullen of Kildare and Leighlin. Fr. Patrick Whitney was appointed first Superior General and Fr. Hickey, Bursar. Thus St. Patrick's Missionary Society was now canonically established both in Kiltegan and in the Missions with Calabar as Headquarters.

But as far as everybody including this writer was concerned, the St. Patrick's Society, SPS had been established with the arrival of Fr. James Moynagh & Co. in September 1930 and the Society with these men was doing well especially with subscriptions and donations coming everywhere and various other contributors for the Society. Fr. Patrick Whitney's terminology: **"CANONICAL ESTABLISHMENT"**

was simply a confusion of canonical niceties **(Cf. Higgins T. 1991, 90-91)**.

Thereafter, Fr. Patrick Whitney as the first Superior General immediately set about establishing a Major Seminary to attract direct volunteers from High Schools who would train and become Missionary priests of the SPS Society. In 1935 it became affiliated to the Pontifical body with branches in Dublin and Belfast, and later through the efforts of Fr. Patrick Whitney and by Divine providence Miss Marie Martin who became the first Superior General of the Medical Missionaries of Mary (MMM).

This Organization just like the earlier mentioned Sisters of the Sodality of St. Peter Claver, provided vestments, altar furnishings and Mass boxes for priests on the Missions and also gave financial help to selected projects. The first Volunteer as discussed above was Fr. Thomas Ronayne who was posted to the Calabar Mission. He later became a Spiritan and joined the Bigard Memorial Formation team as Spiritual Director. Another volunteer was Fr. Patrick J. Whitney who later became the first Superior General and Prefect Apostolic of the Ogoja Mission. The return of now Bishop Shanahan to the Mission as Vicar Apostolic resulted in a new impetus to the evangelization effort. With those he was able to bring to Nigeria following his appeal were Fathers James Mellet and T. Douvry who traveling from Calabar across the Oban hills opened the first Mission – St. Benedict's Ogoja where they celebrated the first Open Air Holy Mass on Pentecost Sunday May 16, 1921. It was named St. Benedict's after the reigning Pope Benedict XV. From that centre the Faith spread through the length and breadth of Northern Cross River area and towns as also Tiv and Munchi land and the Cameroons. It was these Missionaries that went on to open new stations in the Ogoja axis like Obudu, Ikom, Kakwagom despite bad roads and bush tracts, cultural differences, language barriers and other set-backs. In the Calabar area they also opened Mission Stations like Oban, Old Netim and Mbarakom. That same year on June 3, 1921, Shanahan in order to get people to assist at St. Benedict's as teachers and Catechists and in the opening of new Mission Stations in Ogoja sent the Senior Seminarian John Cross Anyogu who after bagging his BA in Classics at Castle Head England, had recently returned to resume his ecclesiastical studies at Igbariam where Michael Iwene Tansi, Cardinal Ekandem and William Obelagu were also studying. He was ordained priest on December 8, 1930, consecrated Auxiliary Bishop in 1957. In 1962, he was installed Bishop of Enugu. The other two Seminarians were later ordained in 1937, while Michael Tansi joined the Cistercian Monastery in England in 1950. This era soon witnessed the evangelization of places like Ugep, Ntamante, Bansara, Alebo, Nsadop. Okpoma, Okuku, Bendi, Sankwala, Ohong and Yahe. Between 1921 and 1926 many stations and schools were established within the Ogoja sector.

THE FOUNDATION OF THE NEW CALABAR MISSION - END OF SHANAHAN BISHOP HEEREY AS SUCCESSOR AND HEAD OF SOUTHERN NIGERIA MISSION

By this time Shanahan's sight was failing and his health had begun to deteriorate and he handed in his resignation letter to the Holy Father, Pope Pius XI who advised him to return to Nigeria with a Co-adjutor of his own choice. He chose Charles Heerey who had earlier arrived in Southern Nigeria two years before as his Co-adjutor. Fr. Charles Heerey was later to be consecrated Bishop on May 29, 1927. In 1931, Bishop Shanahan was succeeded by Bishop Heerey and early in 1932 he left Nigeria for good except for the brief visit in 1935 for the Consecration of the Holy Trinity Cathedral which foundation he had started. This was also the Golden Jubilee of the Mission 1885 – 1935. He then retired to Nairobi, Kenya where he died on Christmas Day 1943. His Funeral Mass was also celebrated at the same time at Anua with all the Holy Ghost Fathers from the Vicariate present including the three ordained Nigerian priests the viz. John Cross

Anyogu, Michael Tansi and William Obelagu. I was privileged as a happy six-year-old to attend that Mass with my parents. In 1956 the remains of Shanahan were exhumed and reburied in the Holy Trinity Basilica amidst thousands of mourners from Nigeria, Kenya and the Cameroons. Thus the retirement and eventual death of this great Apostle of Southern Nigeria and Western Cameroun marked the end of an era and the beginning of the era of Missionary Administration of the St. Patrick's Missionaries in Calabar with Bishop Charles Heerey as new Vicar Apostolic and Mgr. James Moynagh as Prefect Apostolic.

He chose Charles Heerey who had earlier arrived in Southern Nigeria two years before as his Co-adjutor Bishop. Fr. Charles Heerey was later consecrated Bishop on May 29, 1927. Meanwhile Shanahan's incessant appeals to Ireland for diocesan Volunteer priests to come over and take up temporary appointments in the missions began to yield fruitful results. In 1929 following the recommendation of Arthur Cardinal Hinsley, formerly Rector of the English College in Rome, who had come as Papal Delegate and Apostolic Visitor to Southern Nigeria, Fr. Patrick J. Whitney, who until then was a Volunteer priest from Ireland and was serving in the Emekuku Mission was appointed the candidate to kick start as Superior of the newly contemplated St. Patrick's Missionary Society. On October 18, 1930 in the company of Bishop Shanahan, six All Hallows Volunteer priests ordained in June viz. Michael Kilmartin, Hugh Cullen, James Moynagh, Patrick Costello, Thomas McGettrick, Cornelius Plunket and Ciaran Ryan together with three Rev. Mothers SHCJ of the English Province viz. Mothers M. Edith, M. Joachim, and M. Lawrencia.

I was privileged as a happy 6 year- old to attend that Mass with my parents. In 1956 the remains of Shanahan were exhumed and reburied in the Holy Trinity Basilica amidst thousands of mourners from Nigeria, Kenny and the Cameroons. Thus the retirement and eventual death of this great Apostle of Southern Nigeria and Western Cameroun marked the end of an era and the beginning of the era of Missionary Administration of the St. Patrick's missionaries in Calabar with Bishop Charles Heerey as new Vicar Apostolic.

In 1934 Pope Pius XI created the new Prefecture Apostolic of Calabar embracing what is now Ogoja (1938), Abakaliki (1981), Port Harcourt (1961), Ikot Ekpene (1963), Uyo (1989), Dioceses and the Archdiocese of Calabar to be manned by Irish priests of the newly established St. Patrick's Missionary Society of Kiltegan, Ireland (SPS). Until and shortly after the civil war, the situation had remained so even with the erection of the above Dioceses in the Vicariate (1938 -1989). But soon after, because all the Holy Ghost and St. Patrick's Missionaries were expelled from Nigeria because of the unfortunate crisis. Even after the ban was lifted, it still became very difficult for the Missionaries to return and to operate freely and comfortably in Nigeria especially because the Mission Schools, Hospitals and other Mission establishments had been "**taken over**" by the Military Government of the day (1966 – 1999). Then these Missionaries had no choice but to evangelize in other pagan countries of Africa and the Americas. St. Patrick's Missionaries in particular opened up Missions centres of evangelization in Kenya, Uganda, Malawi, Zambia, Zimbabwe, South Africa, Brazil, and the West Indies of Santiago, and the Americas, etc. to continue to still administer to the needs of the people there even till today. But it should be heart-warming and a matter of interest to note that regarding the Archdiocese of Calabar, the erstwhile and great-hearted and indefatigable Archbishop Brian D. Usanga with his team of Consultors and the Author had put their feet on the ground "saying No" to the St. Patrick's Missionaries to depart.

In consequence of this, St. Patrick's Parish Ikot Ansa where they established St. Patrick's College

as their premier foundation in 1935 was handed over to the Society in perpetuity. This became their Community base and in recent times has been made the centre of PROMOTIONS which is a sort of **"MOTHER HOUSE"** for the grooming of aspirants to be admitted into the Society. Since then, Divine Providence has been smiling on the Society with generous Vocations throughout Nigeria and the entire continent of Africa. For the nearly first hundred years of its existence, there had been no vocations or admission of indigenous Candidates of any kind into the Society. But since the beginning of the Millennium, over ten young men have been ordained in the Congregation and by Divine Providence, including the first two priests of the Society viz. Rev. Father Joseph M. Archibong (Sacred Heart Cathedral Calabar) and Joseph Edet (St. Michael's Parish Oban) ordained in 2007. These two happen to be the proud indigenous sons of the Archdiocese of Calabar.

RECAPITULATION OF THE STORY OF ST. PATRICK'S MISSIONARIES IN AFRICA AND THE WORLD

In recapitulation, some people are wondering why I had to bring to the very end the pioneer Congregation which has made Ogoja Diocese and the Archdiocese of Calabar etc. what they are today. Well, the answer remarkably lies in what I contemplate the SPS Missionaries themselves would love to say using the immortal words of the Roman Caesar, Constantine the Great: **"veni, vidi, vinci"**. Yes, The Kiltegan Fathers came, saw and conquered the territory for Christ as if to further say, **"we have planted, we have watered and the Lord has given the yield, a hundred fold, sixty fold and some thirty fold**." The history of the St. Patrick's Society in Nigeria is truly the history of the Society, for the first twenty years of her foundation. The Society was founded as mentioned above on St. Patrick's Day 1932 and until then no new missions outside Calabar were opened except those opened in Kenya in 1951. Nigeria was the only country where all her Overseas Missionary activity took place. As at 2008 AD, the SPS has ordained 307 priests for Missionary Work in four continents including the countries of Nigeria, Cameroon, Kenya, Malawi, South Sudan, Zambia, Zimbabwe, South Africa, Uganda, Grenada, Brazil, the United States, Italy, England, Scotland, Wales and Ireland. The initial concentration of the Society men was in Calabar and soon after in Ogoja, in the South East of Nigeria. Over the years the numbers of priests increased exceedingly. The particular concern of the priests was primary evangelization ie. the preaching of Christianity to those who had never heard of it before. There was also a strong commitment to Education Work and, in cooperation with the Medical Missionaries of Mary, care for those suffering from leprosy, etc. Mgr. James Moynagh was appointed Bishop of Calabar in 1947 while Mgr. Thomas McGettrick was appointed Bishop of Ogoja in 1955 and Bishop of Abakaliki in 1981. In 1973. Mgr. Edmund Fitzgibbons was appointed Prefect Apostolic of Minna in Northern Nigeria in 1964. During these years the Society flourished in Nigeria. The Nigeria – Biafra War (1967 – 1970) were the "dark years" for Nigeria. Some members of the Society stayed behind throughout the war and suffered alongside the people and this was much appreciated by the people: it was a very authentic Christian witness. Over the years those Irish Diocesan volunteers have made huge contributions to the Missionary effort of the Society in Nigeria by providing a close link with the origins of the Society. The Future of the St. Patrick's Missionaries in recent years is dicey and precarious as the Society advances because the number of priests now working in Nigeria is declining. Nevertheless, Nigeria still remains very important to the future of the Society as it is one of the centres for the formation of future members of the Society. The initial formation house was established in Ijebu-Ode in 1997. To date thirteen young Nigerians have been ordained as members of St. Patrick's Missionary Society (SPS) and are ministering in Nigeria, Kenya, Brazil and South Africa. As at 2014 AD, member priests are still working in the Archdioceses of Calabar, Lagos and Abuja as also in the Dioceses of Bauchi, Ijebu-Ode and Minna and in the Apostolic Vicariate of Bomadi. Since the 1990, St. Patrick's Fathers have been working in St. Patrick's Parish, Ikot Ansa Calabar as their base beginning with Very Rev. Fr. D. Dolan who took over from Rev. Fr. Linus O. Effiong the last indigenous priest to be appointed to the Parish, followed

by Very Rev. Fr. James Kelleher. From 2010, Very Rev. Fr. Patrick Corcoran who was the first Director of Promotions and set up an entire new structure at Ikot Ansa is now the new Parish Priest holding fort as the man at the helm of affairs. St. Patrick's Parish Ikot Ansa has thus become the permanent Benefice of the SPS apart from overseeing the recruitment and formation of SPS Aspirants for admission into the Society.

BISHOP JAMES MOYNAGH (1934-1970)

James Moynagh was born the first child of Patrick Moynagh and Margaret Smith in a family of ten children in Legwee, Lughduff, Co. Cavan on April 25 1903. This was, the very year the Holy Ghost Missionaries arrived Calabar precisely February 3, 1903 led by Frs. Louis Lena from Gabon and McDermott from Onitsha to flag off the opening of the Calabar Mission that has now metamorphosed into the Catholic Archdiocese of Calabar. It means the Archdiocese was born for over two months prior to the birth of Bishop Moynagh who was baptized the next day after his birth in Mullahoran Catholic Church by Rev. Fr. John Quinn with the same name as his paternal grandfather James. Bishop Moynagh was born into a farming family in a 20-acre holding which his father had bought. Lughduff was a community of close-knit Catholic society accustomed to hard work where boys and girls had their chores on the family farm. At 5, young Moynagh entered the National School in Lughduff two miles from his home. He completed his primary School in 1917 and his Parish Priest recommended him to study at St. Mel's boarding secondary school in Langford where he was Tutor, whereas his father wanted him to enter the Latin Day-School at Moyne nearer home. At St. Mel's Moynagh became a Mass server. In his final year (September 1922-June 1923) he began to nurse the idea of becoming a priest.

In September 1923 he was admitted with four of his classmates viz. Ciaran Ryan, John Green, Philip McGivney and Cornelius Plunkett into All Hallows National Seminary Maynooth, Dublin. Here Moynagh enjoyed meeting fellow students from all over Ireland. His father's brother, a Missionary priest in Australia who by now had been promoted Vicar General in the Diocese of Sydney facilitated his financial needs. At first Moynagh had thought of joining the China Mission after his Ordination but changed his mind at his Deaconate in 1929 and signed for Southward Diocese in England where Bishop Peter Amigo his country man was held in high esteem by many Irish priests there. In 1930, the year of their Ordination Fr. Patrick J. Whitney who became the first Superior General of SPS came calling and his appeal for Volunteers for the African Mission in Nigeria, West Africa caught him to the marrows and he promptly enrolled for the Southern Nigeria Mission. Amidst problems from the family he made up his mind and joined two of his classmates from his own diocese, Cornelius Plunkett and Ciaran Ryan who had also accepted to sign for the Nigerian Mission. In 1930 Fr. James Moynagh was ordained and in October set sail with five other Volunteers for Calabar. On arrival, they were formally introduced to the people of Calabar by Bishop Josef Shanahan, the Superior of Southern Nigeria. Later, Fr. Moynagh was posted to Ifuho Mission with over 165 out-stations as Curate to Fr. Anthony Steigler CSSP. From Fr. Steigler he learnt to be meticulous in keeping Records – a task he urged his priests to do when he became Prefect Apostolic and later Bishop of Calabar. In our days every newly ordained priest had to learn among other pastoral ministry and administrative methods, the meticulous ways of keeping Accounts and Church Records. He also learnt how to deal with the men and women of Church Committees with respect and firmness. Moynagh later showed his mettle in keeping the 165 stations in Ifuho going amidst financial crisis and other socio-cultural problems of Annang country eg. Eka Ekong masquerades and Ekpe Ikpa Ukot man-leopard menace. One of his greatest pastoral innovative achievements was the establishment of the Legion of Mary which spread throughout Africa and Asia.

In 1934, Moynagh went on leave to Ireland and during this time came the news of his appointment as Prefect Apostolic of the newly created Calabar Prefecture comprising what is now the Dioceses of Ogoja, Abakaliki, Calabar, Uyo, Ikot Ekpene, Port Harcourt and parts of Umuahia Diocese. In 1935 he established St Patrick's College named after the legendary St. Patrick the Apostle of Ireland having

transferred it from the former existing Sacred Heart College established by Shanahan and run by the St. Joseph Missionaries of Cluny with Fr. P. Costello as 1st Principal. He was very highly regarded by the Efik people. One very important innovation Moynagh did was to consolidate on Central Schools thereby reducing the number of neighbouring schools as also increasing the number of priest –teachers. He was very emphatic that not only would there be more priest-teachers but also those in parishes and pastoral work as also those joining hands in school work as School Managers responsible for collecting fees and paying salaries. In 1937 he established the St. Thomas College Ogoja with Fr. Patrick Costello his colleague as first Principal and Etubom Maurice E. Archibong as Senior Tutor. He was an accomplished teacher and a solid Catholic and was among the first set of student teachers groomed in the first ever Secondary School in Eastern Region established by Fr. Louis Lena in 1912. The Chart shown below underscores the position of things regarding Catholic Schools in the Vicariate as recorded in the Sacred Returns of 1939.

No. of Schools & Colleges	No. of Teachers	No. of Male Pupils & Students	No. of Female Pupils &Students
134	473	10,058	1,203

Then came in succession the establishment of Holy Child Ifuho and CCC Afaha Oku in 1942, Holy Family College 1943, St Augustine's Urua Inyang, 1944 and later Holy Child Calabar in 1952 as also Queen of the Apostles Seminary and Loretto Girls Juniorate Afaha Obong in 1953/54. He subsequently established more Secondary Schools in the early 1960s, viz. Holy Trinity Mbiakong, St. Vincent's Oti Oron, St. Francis Ikot Ataku, Regina Caeli Essene, St. Columbanus Ikwen, St. Theresa's Edem Ekpat, Immaculate Conception Itak and Adiaha Obong Girls Eniong, Uyo. He had previously established Teacher's Training Colleges –St. Augustine's Urua Inyang in 1943, Holy Child Ifuho 1944, St. Mary's Ediene Abak in 1952, St. Joseph's Anua, St. Thomas's Ikot Eba, St. Mary's Ikot Nseyen, St. Paul's Ututu – Arochukwu, St. Fabian's Ndukpo Ise all in 1956. He equally established hospitals both in Calabar and the Mainland – St. Joseph's Ikot Ene, St. Luke's Anua, St. Theresa's Use Abat and Mount Carmel Hospital, Akpa Utong. The various phenomenal aspects of this visionary man of God at the helm of affairs in the Calabar Mission cannot be fully documented because they were so many. Not to be forgotten as discussed elsewhere was his zeal concerning Education. He sent so many teachers and priests Overseas for Further education including the author aside opening up numerous Parishes and Mission stations together with the construction of schools and churches along the way as well as establishing schools and Colleges for the training of women in the understanding that "when you train a woman, you educate and train a nation." In 1954 he nominated Fr. Dominic Ekandem to the Episcopacy, the first of its kind in West Africa. In 1964 he also nominated Fr. Brian D. Usanga as his coadjutor and successor. After the civil war he bowed out as he was refused Visa by the Nigerian Military Government under General Yakubu Gowon as Head of State and Commander in-Chief of the Armed Forces of Nigeria.

THE ANTI-CLIMAX AND END OF THE ERA

We cannot end this Odyssey and brief analysis of the life and times of this great Volunteer Missionary and Apostle of the Archdiocese of Calabar without telling our readers and admirers how this Missionary Episode, however the disappointments and frustrations which constituted as it were, a sad commentary and paradox in the Annals of the Missionary Apostolate in Nigeria and the world at large. When Calabar Metropolis fell to the Federal troops on October 18, 1967, Bishop Moynagh was away in the Mainland – Anua in Uyo LGA. By coincidence the warlord, Col Benjamin Adekunle Fajuyi, a Catholic, a well read and well-travelled army general, who had once been the ADC to Cardinal Montini who had come to Nigeria in 1963 on pastoral visit before he became Pope Paul VI **(Cf. Chapter I on IK)** was the Army Commander at Calabar. a.k.a. G.O.C. It was therefore providential and Moynagh got in touch and

Calabar Catholic Mission was saved from the rampaging military and surrendered to the only young African priest, Rev. Fr. Dominic Ekeng Inyang, the curate of Sacred Heart Cathedral. Ditto, Fr. Kevin Longworth's was released from the Biafran Police Cell as soon as Uyo fell. There was considerable opposition to Biafran presence among the Ibibios and certainly the people of Calabar and most of Ogoja were not at all sympathetic to the secession. But there were a few people in Annang country who did back, in some sense, the Biafran position because of course they were more deeply committed to Igbo land and Igbo country.

During that Christmas Bishop Moynagh decided to go with Rev. Fr. V. Hanigan on a visit to the SPS fathers trapped in Abakaliki sector as Ogoja was by then in Federal hands. They were lucky to obtain Biafran Permit which enabled them to get through to Abakaliki. On their return journey to Anua having summarized the situation with the stark reality of the war before them, they came to the conclusion that the future would be disastrous with starvation, plunder, looting and even slaughter of innocent Nigerians staring them in the face in areas not yet liberated. Hence they decided it was necessary to contact Rome and the World Council of Churches (WCC) to save the situation from deteriorating into disaster and doom before it was too late. Being the most senior Bishop in the country as Archbishop Charles Heerey lay a dying in hospital bed, he discussed this with his confidants Bishops Dominic Ekandem and Brian Usanga who promptly gave him the nod understanding the circumstances but suggested that he traveled out with Bishop Okoye. Okoye who was also willing to embark on this journey for peace also suggested that as a good idea it was necessary to find out the Governor, Col Ojukwu's position on the matter. Surprisingly Ojukwu acquiesced but on the condition that should the Catholic Church and the WCC successfully broker the peace effort, "he would practically surrender" **(Colman Cooke, 142-1; 145; Longworth Kevin, Harvesting Memories, 181; See also O'Connor Desmond to Colman M. Cooke, 10th Feb. 2011)**, although it was thought the Federal Troops would never overrun Owerri. Moynagh kept this to his chest but Rev. Frs. K. Longworth and T. Fitzgerald with reservations had warned that should he go to Rome and London with Bishop Okoye, returning would be difficult. Fr. Desmond O'Connor, SPS Regional Superior at the time, had also remarked that it was a major mistake to have left because following the Diocesan Schedule Moynagh "should have stayed on as did Bishop McGettrick in Ogoja and let things pass over him". In response to Rev. Fr. Thomas Fitzgerald Moynagh had said:

> **Fr. Tom, I have lived in Nigeria for nearly 40 years with these people and I don't mind taking a risk for them. Nigeria will invade here soon and there will be slaughter around here (James Moynagh, Reminiscences, 69-70).**

Yes, Moynagh had a certain amount of fear about leaving but it never occurred to him that he mightn't get back. It never occurred to him, otherwise he wouldn't have gone, but this though had always been there hunting him as it were because the peace proposal was very risky and open to misunderstanding by the local people. This was the verdict as we shall soon see. In February 1968 Moynagh and Okoye set out from Port Harcourt on an old DC 8 in pitch darkness with a dozen French Biafran Mercenaries and touched down in Fernando Poo to refuel en route S?o Tome airport. From there they flew to Free Town and pulled out to sea and boarded a ship en route Lisbon avoiding flying over any part of Africa. They set out in the morning to Fatima and celebrated Mass with the Pilgrims and then flew to Rome to meet Archbishop Sergio Pignedolis at the Vatican. He was former Apostolic Delegate to Nigeria when Pope Paul VI then Cardinal Montini visited Nigeria in 1963 **(Cf. Chapter I on IK)**. By his arrangement Moynagh and Okoye met with Pope Paul VI and presented their mission. After meeting with the Pope, Bishop Okoye left for Germany and Moynagh undaunted flew to London to meet with the House of Commons Politicians and Archbishop Ramsey of Canterbury, the President of WCC. The Joint Appeal was carried by the British, Irish and other World Media, but the Federal advance continued unabated. Mission accomplished, Moynagh wanted to return to Nigeria but met a brick wall and was promptly

informed at the Nigeria Embassy in London that he could not be given Re-entry Visa. Left in the cold, frustrated, depressed and disillusioned Moynagh became a wreck and returned to hospital bed in Drogheda-Ireland where he wrote: "I had never thought of myself as having to be one who suffered through these past months … and to feel unwanted after 38½ years is not pleasant". Meanwhile Bishop Usanga then Secretary General of the Catholic Secretariat, Force Road, Lagos had written RE Moynagh's Re-entry Visa to the Commissioner for Home Affairs, SES, the Hon Louis E. Edet former IGP, an Efik Catholic Chieftain, but got the stinker to the effect that "the Policy of SES Government was that Missionaries of all ranks including Prelates are not allowed to return to this State at the moment." Moynagh then decided to resign which he did, although Rome through Cardinal Agaganian, Prefect of the Sacred Congregation for the Evangelization of Peoples had expressed deep regret and did not immediately accept the resignation. Moynagh had reasoned that it would be extremely difficult to take over from an African who was acting: impossible for the Irishman and the African! Though other Missionaries and Bishops in Igbo land soon after the war including Bishop Joseph Whelan were granted Re-entry Visas but why not Moynagh?

Yes, it should now occur to readers of this book to ask why single out Moynagh alone? The reason to my mind is not far to seek. If Bishop Okoye had gone with a fellow African (Biafran) Bishop, there would have been no trouble, but most importantly if Okoye did not side-tract on the way and accompanied Moynagh to London…but instead went to Germany for what? Thus leaving room for misunderstanding and many misinterpretations by the local people including Gov. U. J. Esuene, the Governor of SES, the no-nonsense die-hard Qua Iboe anti-Catholic and Hon Louis Edet as I mentioned earlier. Yes, Moynagh had real genuine intentions which he perfected by even going to see the Archbishop of Canterbury. But he went alone, mark you, instead of being accompanied by Bishop J. M. Okoye. Again Archbishop Brian Usanga's rushed application as Secretary General without referring to people like Archbishop Aggey, the Metropolitan of Lagos did not help matters either. Then to worsen matters, Bishop Moynagh took seriously ill, thus delaying maters. You can see the devil's work at hand ! Nevertheless, and in spite of all this, immediately Moynagh got better he headed to the United States precisely to New Jersey to appeal for **"ESSENCOS"** for the starving victims of the Nigeria- Biafran war "as this would help in getting something for the people in Calabar too" while also giving the Sacrament of Confirmations on the West Coast.

Even though this Appeal effort yielded much fruit as truckloads of **"Essencos"** arrived Calabar and Uyo for us priests to share among the people of SES irrespective of their political, ethnic affiliations and denominations. Yet all these were misconstrued because his mission abroad was misinterpreted by the Government as his intervention on behalf of Biafra. The thinking here was as the Governor tried to explain his inflexible stand based on false allegations, rumours, reports and accusations at home and abroad, to the effect that his actions and inactions showed him to be in full association and sympathies with the East Central Bishops and political aspirations of those in the **SECESSIONISTS**" territory. They also implied that he had identified himself with the feelings and sufferings of the people in another area (Igbos) rather than those he served – the people of SES. Another attempt to bring Moynagh back was his appeal through the Nigerian Embassy so that he could come and formally hand over to Bishop Usanga now that Rome had accepted his resignation, but the appeal fell flat on his face. Even though Bishops Ekandem and Usanga did in the end meet the Governor of SES, Brigadier U. J. Esuene one-on-one to refute these allegations and false accusations and interpretations one by one, and informed him of being so judgmental and victimizing the amiable and innocent Bishop based on rumours, the iron-willed governor refused to budge thus demonstrating his stand and prejudices by asserting that Bishop Moynagh's coming back during Military Rule might stir up political upheaval and discontent **(Cf.**

Kiltegan Archives June 5, 1970).
THE END: In 1977 Moynagh returned to his native Ireland having fulfilled his last bit for "his people of Calabar" staying in Kiltegan and his family home in Legwee, Co Cavan. On June 33, 1980, he joined his "Famous Volunteers 5" ordained in 1930 for the Calabar Mission: Bishop Moynagh himself, Bishop McGettrick (still serving in Nigeria), Fr. P. Costello (who had returned to Nigeria and established Holy Trinity Mbiakong in 1961as its first Principal) and Canon Ciaran Ryan (the 5th Fr. Cornelius Plunkett having died in 1960 aged 55) to celebrate their Golden Jubilee. In 1975 he flew in from Ireland to attend my Doctoral Thesis Defense at the Pontificia Universitas Urbaniana, Rome. In 1984 he was diagnosed of stomach cancer and promptly hospitalized. He had nostalgia for his first love in Nigeria, the Annang country and recalled: "they were volatile and mercurial, fly into anger suddenly or without reason, subside and then laugh it off and would not hold a grudge". That was also my commentary on Annang during these my over 60 years here off and on **(Cf. Chapter I on Annang Country)**. Fr. Peter Finnegan then SPS Superior General, also recalled his last days as his nephew Patrick Moynagh came visiting on June 5, 1985 at Drogheda: "I had no idea however that he would die so shortly sitting on a chair outside. I said good bye to him about 8pm. And noticed that he gripped my hand very tightly." At 12:55 am June 11 he slipped away peacefully. His funeral Mass was attended by the Papal Nuncio to Ireland, Archbishop G. Alibrand and eight bishops with numerous clergy especially those from his home Diocese of Ardagh together with the Vincentian Priests Holy Ghost Fathers and SMA, relatives and friends. Bishop Conway who had worked in Calabar in the 1930 said the graveside prayers with the Salve Regina ringing out in the cemetery. To God be the Glory! His Episcopal Motto was: **UT OMNES IN UNUM SINT.**

2. BISHOP DOMINIC I. EKANDEM – AUXILIARY BISHOP (1954-1963)

Born at Obio Ibiono in Ibiono Ibom LGA in 1917 to Chief Paul Ino Ekandem Udo, Bishop Dominic Ignatius Ekandem was baptized at Nsasak in Essien Udim LGA on June 23, 1925 by Rev. Fr. Joseph Hansen CSSP. He attended St. Joseph's Primary School Anua and while serving as a teacher's houseboy in 1929, he received the Sacrament of Confirmation at his Assumption Parish, Obio Ibiono home town from Bishop Josef Shanahan. In 1932 he obtained his First School Leaving Certificate (FSLC) and in January 1933 he was admitted into St. Paul's Minor Seminary Onitsha but later completed and sat for his Senior Cambridge Certificate (CANTAB) at Christ the King College Onitsha in 1937. Between 1938 and 1945 he was admitted to study for his Higher Teacher's Certificate at St. Charles College, Onitsha. He was afterwards admitted to study Philosophy at the famous St Anthony of Padua Igbariam Seminary, the forerunner of Bigard Seminary Enugu & St Joseph's Major Seminary where the likes of Blessed Michael Tansi, Joseph Nwanegbo, William Obelagu etc. who were ordained in 1937 were studying. Later the Seminary was transferred to SS Peter and Paul Okpala, Owerrinta and further relocated to St. Paul's Major Seminary Enugu in 1950. In 1947 Rev. Dominic Ekandem was ordained Deacon at St. Anne's Church, Ifuho by Archbishop David Matthew, the Apostolic Delegate to East and West and on December 7, 1937 he was ordained the first Catholic priest in the region by Bishop Charles Heerey, CSSP. His first major assignment was his appointment in 1952 as Rector of the newly established Seminary at Afaha Obong which he named Queen of the Apostles Seminary. While still serving as Rector, on February 7, 1954 he was consecrated the first indigenous Bishop from Anglophone West Africa at Sacred Heart Cathedral Calabar by Bishop James Moynagh with Bishops Peter Rogan of Buea in British Cameroun and Paul Biechy of Congo Brazzaville as Co-Consecrators. Thereafter he served as Auxiliary Bishop and Father In-Charge of Anua Mission until 1963 when he was appointed Bishop of Ikot Ekpene Diocese by St. Pope John XXIII and enthroned on May11, by His Eminence Cardinal Sergio Pignedolis, the Apostolic Delegate to Nigeria with HQ at St. Anne's Ifuho. Bishop Ekandem was instrumental to the establishment of very important Institutions in the Diocese of Calabar, viz. Adiaha Obong Catholic Women's Organization (May 1954) which gave birth to the establishment of Adiaha Obong Girls College

Uyo in 1962 and metamorphosed into the Catholic Women Organization (CWO) after Vatican II, the Federation of Catholic Teachers Association (FCTA, November 1954), the Association of Catholic Graduates and Intellectuals – Lux Catholica (October, 1960) as also the Association of Catholic Girls – Children of Mary a.k.a Catholic Girls Mary League Association. During the Nigerian civil war (1967-1970+1973) Bishop Ekandem was appointed Apostolic Administrator of Port Harcourt and he recruited some priests from the Archdiocese of Calabar including the Author to administer the Diocese. In 1977 he was nominated Cardinal by Pope Paul VI. In 1978 he actively participated in the Conclave that elected Cardinal Albiano Luciana Karol, Archbishop and Patriarch of Venice as Pope John Paul I as Pope Paul VI successor. He equally participated following the sudden demise of Pope John Paul I in the Conclave of October 1978 that elected Cardinal Karol Josef Wojtila, Archbishop of Krakow, Poland as Pope John Paul II.

Dominic Cardinal Ekandem was instrumental to the establishment of the Christian Association of Nigeria (CAN) which he served many terms as the President thereof. While as Bishop of Ikot Ekpene he established so many Parishes increasing the number from the five he inherited to over thirty and also ordained an increasing number of priests from the paltry number of four he inherited viz. Rev. Frs. Isidore P. Umana, Emmanuel Afangide, Sylvanus Udoh Etok and Silas T. Umoh in 1963 to over 60 and now there are over 200 priests making Ikot Ekpene Diocese the first with the largest number of Indigenous priests in the region – the Ecclesiastical Province of Calabar. He also embarked on the training of the priests and Religious by sending them Overseas for Further Studies. He also consecrated two Auxiliary Bishops for Ikot Ekpene Diocese namely, Bishop Ephraim S. Obot who later became the Bishop of Ida in Kogi State and Bishop Camillus A. Etukudoh, now the Bishop of Port Harcourt.

In 1989 he was appointed Ecclesiastical Superior of the New Catholic Independent Mission of Abuja and Abuja was created the Archdiocese of Abuja sui juris. Recognizing his services to the Church, the Nigerian Nation and indeed the entire humanity Dominic Cardinal Ekandem received the following Awards:
Order of the British Empire (OBE) by Her Majesty the Queen of England, Queen Elizabeth II (1960)
Obong Unwana Ibiono Ibom by the Chiefs and People of Essien Ibiono Ibom (1977)

Dominic Cardinal Ekandem died on November 24, 1996 after a protracted illness and was buried at Our Lady Queen of Nigeria Pro – Cathedral, Garki – Abuja which he built through his Vicar General, Rt. Rev. Msgr. Dominic Inyang. His Episcopal Motto was: **IN CRUCE SALUS.**

3. ARCHBISHOP BRIAN D. USANGA (1970 -2004)

Born in 1928 into a pagan polygamous family in Oboetim Nsit in Nsit Ibom LGA, his father Ete-idung Samuel Davis Idim Udo Usanga Village Head of Oboetim married several wives among whom Princess Isung Etukudo-Obong bore him nine children the last born being Archbishop Brian Usanga. Brian started his primary school at Oboetim Town School and where he had a double promotion from Class I to Standard I. He completed his primary school at Nsit District School Obot Idim where he obtained his First School Leaving Certificate (FSLC with Distinction in 1941.He later spent a year serving as typist and house boy to Rev. G.S. Banington and Rev. James Westgard both of Qua Iboe Mission. He later transferred his services still as house boy and Clerk to the famous Presbyterian Pastor Rev. Alexander

Cruickshank at Itu.
In 1943 the newly opened Holy Family College Abak established in a predominantly Protestant area to break down the visible anti-Catholic prejudice of the local Protestant missions started accepting non-Catholic, indeed non-Christian students and it was here that Usanga began his secondary education and successfully completed at the famous St. Patrick's College, Ikot Ansa Calabar where he joined the Catholic Church as a young student. He was successful earning the tough Senior Cambridge Certificate in division one (First Class) with exemption from London Matriculation in 1946. In 1947 having converted to Catholicism, he applied to be a Catholic Priest and was posted to the defunct St. Augustine's Teachers Training College Urua Inyang by Bishop James Moynagh of Calabar. This was to serve as the first part of his training and probation to the priesthood. In 1948 he was transferred to St. Alban's Inen in Abak Division as full time Seminarian Catechist and again to SS Peter and Paul Essene in 1949. During his apostolic work at Inen and Essene he served as Religious Instructor to convicts of the Man Leopard Secret Society a.k.a **Ekpe Ikpa Ukot**. In 1950 he was highly recommended to the Bishop as a very energetic and satisfactory candidate for the priesthood who sent him to begin his ecclesiastical Studies at the prestigious St. Paul's Major Seminary, Okpala, Owerrinta recently relocated from St. Anthony's Major Seminary Igbariam where he studied Philosophy and Ascetical Theology among others. This Seminary formation under Very Rev. Fr. Walsh CSSP as Rector profoundly ensured his sound spiritual formation and moral life. In 1951 he was transferred together with nine others to the prestigious Bigard Memorial Seminary Enugu which still stands strong till today as the citadel of Catholic Ecclesiastical Higher School of Learning in Africa.

In 1956 he completed his studies and was ordained Catholic priest amidst a mammoth crowd at St Louis Catholic School grounds Mbiokporo Nsit on December 8th 1956, Feast of Immaculate Conception by Bishop James Moynagh. He was subsequently appointed Curate at St. Joseph's parish Anua and was also appointed Retreat Moderator for the Laity and Students. In 1958 he was appointed Assistant Education Secretary Catholic Mission Schools as also Chaplain to Cornelia Connolly College (CCC) Afaha Oku. That same year he was appointed Assistant Parish Priest to St. Lawrence Eman Parish Uruan under Rev. Fr. D. Dolan, the Father in-Charge (PP) of St. Joseph's Anua. Between 1959 and 1961 he was appointed Curate to Rev. F. Vincent Hannigan, PP of St. Mark's Parish Oron. At Oron he gained an American Scholarship under the auspices of Kgt. Fabian Edet Okon KSM then a Lecturer at Villanova, University of Pennsylvania, USA with the blessing and approval of Bishop Moynagh. Once in the USA he was enrolled at the famous St. Mary of the Plains College, Kansas where he studied Philosophy of Education for his BA and Masters Degrees. In 1963 he was accepted to combine his Masters and PhD studies at St. Louis Jesuit University, St. Louis Missouri, USA and graduated Summa cum Laude (1st Class Honours) M.A towards pursuing his PhD in Cultural Anthropology. His Research Thesis was on **"The Nature of Human Rights in St. Thomas Aquinas Summa Theologica"**. Then he transferred to the prestigious Catholic University of America, Washington DC to complete his doctoral studies (1963-1966) in Psychology, African Studies and Counseling majoring of course in Cultural Anthropology and passing the doctorate Comprehensive Exam in flying colours.

On August 4, 1966, His Holiness Pope Paul VI nominated him Titular Bishop of UBABA and Auxiliary Bishop of Calabar. On October 1, 1966 he had audience with His Holiness and flew on October 2 to the Holy Land on Pilgrimage and Retreat on Mount Thabor in thanksgiving to God and prayer for the Diocese of Calabar and Nigeria and in preparation for his Consecration. On December 4, 1966 he received his Episcopal Ordination by the Apostolic Delegate Archbishop Luigi Belloti, assisted by Bishops James Moynagh and Dominic Ekandem at Christ the King Uyo.

In 1967 he was unanimously elected the First Nigerian Secretary of the Bishops Conference of Nigeria and Secretary General of the Catholic Secretariat of Nigeria (CSM) at the National Bishops Conference, Lagos, a post he occupied during the political crisis till the end of the civil war in 1970. In 1969 in the company of John Aggey the Archbishop of Lagos, they had attended the first Meeting of the Symposium of Episcopal Conferences of Africa and Madagascar (SECAM) as one of the foundation members. That same year in May 1970, Pope John Paul II appointed him substantive and first residential Bishop of Calabar after having received the resignation of Bishop Moynagh, and he was subsequently enthroned on August 30, 1970 by the Papal Delegate to Nigeria, Francesco de Nittis.

In the intervening years during and shortly after the civil war, Archbishop Usanga played significant roles as Secretary General to forge Nigerian unity and peace as also of the Church especially during the rehabilitation, re-integration and re-conciliation of all most affected by the war. With Archbishop Aggey and Bishop Ekandem he visited the prisons, refugee camps everywhere throughout the war torn territory to bring them comfort and **Essencos** to the suffering refuges. He assisted the missionaries who needed to depart and those officially repatriated from Nigeria after the war. He also was instrumental in bringing to Nigeria numerous social workers, doctors, nurses, missionaries especially the personnel of Catholic Relief Services from America and Germany eg. **Misereor** and **Caritas International** as also other relief materials – **Essencos** in aid of the work of reconstruction and rehabilitation. He was able to get over $ 74,000 US Dollars from the German **Caritas International** which he handed over to the Government of East Central State to build the needed Patients' Maternity Department now rechristened "School of Midwifery", University of Nigeria Teaching Hospital (UNTH). In 1979 Bishop Usanga was elected the First Chairman of the Governing Council of the National Seminary of St. Paul (MSP) Iperu Remo in Ogun State, a post he held till 1982. Other important posts he held included: Chairmanship of the Social Communications Department of NCBC from 1979 -1989; Membership of State Health Services Management Board, Cross River State (1983- 1987); Chairmanship of the National Seminary Commission (1987-1994); Chairmanship of the Provincial Seminary Commission St. Joseph Major Seminary, Ikot Ekpene (1988-1994); Membership of the National Commission on Education and of the National Committee on Inculturation (1989 – 1993); Chairmanship of Cross River State Christian Association of Nigeria CAN (1988-2003);Life Member of the Bribe Society of Nigeria BSN (1970-2005); Nigerian Episcopal Correspondent to the Vatican of the Pontifical Commission for Cultural Affairs (1998- 2003).

On May 26, 1994 Bishop Usanga was elevated to the rank of Metropolitan Archbishop of the Ecclesiastical Province of Calabar comprising Dioceses of Port Harcourt, Ogoja, Ikot Ekpene, Uyo and Calabar by His Holiness Pope John Paul II and received the Pallium on Feast of SS Peter & Paul on June 29, 1994. He was installed on July 8 by the Nuncio, Archbishop Carlo Maria Vigano at the Sacred Heart Cathedral with a mammoth crowd and hundreds of Rev Fathers, the Religious and over thirty Archbishops and Bishops in attendance. Notable among the legacies of Archbishop Usanga are: the Immaculate Conception Mfamosing, Cardinal Ekandem and Stella Maris Junior Seminaries, Assumption Girls Ndon Ebom and Mary Immaculate Iwuru Juniorates, Adiaha Obong Technical College Ekpene Ukim, Bishop Usanga Bible College and catechetical Centre Ediene Ikot Obio Imo, Christ the King International Nursery School Uyo, Charles Walker International Nursery School Calabar, Montessori International School Calabar, Infant Jesus Nursery School Aka Offot, Sacred Heart International Nursery School Calabar, Pope John Paul II Good Samaritan Home for the Poor, Aged and Needy, Marianum Spiritual Year Ikot Ansa, Infant Jesus Nursery School Ikot Ene – Akpabuyo, Archbishop Usanga International Nursery School Adiabo, Archbishop Usanga College of Evangelization, Ecumenical and Youth Centre Calabar, Sacred Heart International Girls Secondary School – Marian Villa, Calabar. For the promotion of monastic life and vocations as also Centre for

Retreats he acquired land at Iwuru Central to establish the St. Bernard Benedictine Monastery.

Archbishop Usanga has these distinguished Awards to his Credit:
First Foundation Member and Grand Knight KSM – Diocese of Calabar Sub-Council
Member Knight of St Columbus USA –State of Kansas Sub Council

On December 17, 2003 Archbishop Brian D. Usanga retired. He died on May 26, 2005 and was buried at Sacred Heart Cathedral, Calabar. His Episcopal Motto was: **Servire in Caritate et Justitia**.

3. ARCHBISHOP JOSEPH EDRA UKPO (1973-2014)

NB. See Diocese of Ogoja above.

4. ARCHBISHOP JOSEPH EFFIONG EKUWEM (2013 to-date)

Joseph Effiong Ekuwem the second son of Chief Patrick and Madam was born on December 18,1949 at Afi Uda in Mbo LGA of Akwa Ibom State. He began his primary school education at Afi Central School and proceeded to St. Joseph's Anua to complete his Standard VI (1963-1964) obtaining his First School Leaving Certificate (FSLC) with Distinction thereat. In 1966 he proceeded to St. John's Preparatory Seminary Asong to begin his Minor Seminary Studies. In 1967 he was enrolled at the prestigious Queen of Apostles Seminary Afaha Obong but due to the civil war that broke out that year he withdrew to continue his Senior Secondary School education at St. Vincent's Secondary School Oti Oron. After Akwa Ibom State was liberated Joseph went back to Afaha Obong in 1969 and completed his Senior Secondary School studies in 1971 passing the West African School Certificate Examination (WASCE) in Division I (First Class).

He was admitted for his Senior Seminary Programme at Marianum for his philosophical Studies (1972-74). Upon completion he was sent for a year's Probation in Immaculate Conception Seminary Oron. In 1975 he proceeded to Bigard Memorial Seminary Enugu for his Theological Studies where he bagged a Bachelor Degree Magna cum Laude (1st Class) in Sacred Theology from the Urban University, Rome after studying there between 1975 – 1979. He was ordained a Catholic Priest at Sacred Heart Cathedral Calabar in July 1979. Thereafter for his first priestly assignment, he was appointed Acting Rector of Cardinal Ekandem Seminary College Uyo (1979-1980) while also serving as Diocesan Chaplain to the Catholic Women Organization (CWO). In September 1980 he proceeded for Further Studies at the Pontifical Biblical University **(THE BIBLICUM**), Rome and later at the University of Jerusalem, Israel (1981-1982). He returned to the "Biblicum" to round up his studies bagging the Licentiate in Sacred Scripture thereat.

He returned to Nigeria in December 1984 and was appointed Chaplain to St. Paul's Catholic Chaplaincy, University of Calabar as well as Parish Priest St. Mary's Pro-Cathedral, Efut Abua (1984-1989). He was also given other assignments as Chaplain, Diocesan Catholic Charismatic Renewal (1987-1988) Chaplain Knights of St. John International Calabar Commandiery (1986- 1989) also Chairman, Diocesan Presbyteral Council (1987-1989).

On July 4, 1989, His Holiness Pope John Paul II excised and erected the new Diocese of Uyo from the

Diocese of Calabar appointing him the first Bishop of Uyo. He received his Episcopal Ordination on December 9, 1989by His Excellency Archbishop Paul Tabet, the Apostolic Nuncio to Nigeria. At the assumption of his episcopal career in the Diocese of Uyo, Bishop Ekuwem left nobody in doubt as to his gigantic programmes for the Diocese. He started off by organizing the spiritual, biblical and liturgical orientation of the people to reposition them for the great take-off. First he organized a sort of **"okop-umehe"** Diocesan Choir for important pastoral celebrations in the Diocese like Ordinations, Receptions of Ecclesiastical Dignitaries, etc. As a wake-up call of the people in the reading and understanding of the Scriptures he founded the Biblical Outreach Movement. Then like the pace-setter he was and as the Chief Shepherd of the Diocese, he kick-started memorable and land mark projects like the rebuilding of the Secretariat at No.1 Dominic Utuk Ave as also gigantic buildings for the Pastoral Centre comprising the Bishop James Moynagh Centre, the Dominic Cardinal Ekandem Memorial Conference Centre and the Archbishop Usanga twin buildings as Hostels for rentals. It was here that he hosted the All-Nigeria Bishops Conference in 1997. No aspect of the Church's life was left unattended. Among others he built the School of Evangelization to maintain a vibrant apostolate amidst a predominantly hostile Protestant environment with an ever increasing influence of Pentecostal Fellowship. He created numerous new Parishes and Quasi-parishes raising the number from about 35 he met on ground to over 60+. Of greater importance to the work of promoting vocations among children, he built the Pope John Paul Seminarium comprising Nursery, Primary and Secondary sections of education together with the Chapel of Perpetual Adoration for the entire Diocese, naming it St. Dominic's Church. Above all he founded two Religious Congregations for Women and Men viz. the Institute of Consecrated Life and Witnessing Member of the Holy Family **(WMHF)** both of Diocesan right for young people aspiring to become priests and Religious men and women incardinated into the Diocese. The rapid progress of Archbishop Ekuwem's apostolate which he is also bringing into the Archdiocese of Calabar could be traced to his deep understanding, tolerance and keen foresight rooted in his early Catholic upbringing by his parents whom I knew so well especially his adorable mother. Archbishop Ekuwem is a man of ideas and he has perfectly consolidated on the gains initiated through his administration in Uyo. Among his sensitive positions include Chairmanship of the Episcopal Committee on Biblical Apostolate of the CBCN (1990-1993); Chairmanship Department of Pastoral Agents of the CBCN (2006-2012); Membership of the Episcopal Commission on Mission of the CBCN as also Chairmanship of the Episcopal Committee on Theology of the CBCN (2012 to-date).Since his assumption of office in Calabar, his pastoral visitation to places that have now become areas of primary evangelization as these areas have not been attended to for years thus making them revert to Paganism and at best Pentecostalism including the unmotorable places like Ekpene Eki and Atan Onoyom near Arochukwu, Okpok Ikpa in Okoyong territory and Nkpot on the Cameroun border within St. Michael's Parish Oban where he was honoured with a the Chieftaincy title of "Ntufam Okot" ie. the King of Love. Archbishop Ekuwem's Motto is: **OMNIA AD DEUM** meaning giving all things to God.

THE ARCHDIOCESE OF CALABAR IN PARTICULAR- DIRECTORY & PARISHES

A HUNDRED GOLDEN YEARS + OF THE BOUNTIFUL BLESSINGS OF THE ARCHDIOCESE OF CALABAR

A hundred years + ie. a century is a land mark but in the history of the Church Universal it is simply a brief period. But in the history of what has now become the Archdiocese of Calabar in the Cross River State of Nigeria, it is a vital period. It is history. But why? Yes, according to the celebrated and legendary Pope Celestine VI who said that "Every history is Sacred History – every history is a Gospel" – the history of the Archdiocese of Calabar to all intents and purposes is the Good News of God's dealings with the people

of Southern Cross River in South Southern Nigeria for over these hundred years of the existence of the Roman Catholic Church in their midst with the arrival of the early Holy Ghost Missionaries in 1903 AD. It is all about the episode, the chapter and the reflection of the history of God; for to eliminate God from history is to fail to understand the history of God and by implication the history of man himself **(Cf. Gen 1:26-28; Pp Celestine VI (5/7/1294-13/12/1294)**, which is just an episode. This is very true because the history of the Catholic Church in Calabar can be more meaningfully understood only in the context of the Divine intervention in the history of the black peoples of the Lower Niger and by implication Calabar considering the importance of this strategic land of promise at the time. Under the legendary Consul General, His Excellency Sir Walter Egerton then resident in the territory, Calabar was seen as the gate-way to the world through its deep sea port grass ? la the 18th Century Supercargoes and European merchants who had dredged the coasts for their mercantile business. Calabar was also seen as having a greater future than Dahomey (Benin Republic) with a motley cacophony of Muslims vis-a-vis Nigerie Meridienale ie. the Colony of the Southern Provinces which was mostly occupied by pagan peoples and therefore accessible to Christian evangelization. Between 1903 and 2017 which covers the period of this history, the Calabar Church has been blessed with the following in human capacity in the administration of the Archdiocese of Calabar. The hierarchical Order has witnessed the master stroke that catapulted the colourful ministry and success story of the Archdiocese of Calabar.

F. LAY APOSTOLATE/ ORGANIZATIONS/PIOUS ASSOCIATIONS TODAY

More than thirty major forms of Lay Apostolate to which every Christian is called to do are listed here in this Book in your hands. for individual Apostolic Activity as an obligation of the individual in the Church. They are principally to enable the Christian Faithful bear witness to the Gospel according to his/her personal situation or state in life. Working together in communities whether in the dioceses, parishes or Mission Stations and other communities, groups or otherwise, these Organizations and Societies are meant to guide the spiritual life and Apostolate of their lay Faithful. It is therefore the duty of the Christian Faithful to carry out the work of the salvation of his/her fellow Christian brother and sister and by so doing thereby sanctify them and himself or herself with promptitude of action and commitment with the Grace of God. These Organizations and Associations or Groups are popularly tagged **CATHOLIC ACTION.** The Documents and Decrees of the Vatican II Council have articulated this view as the fundamental right of the Christian Faithful. Here are some of the over thirty major forms of Lay Apostolate ORGANIZATIONS/PIOUS ASSOCIATIONS in Nigeria today.

One proposition that stands strong, unassailable, irrefutable and irrevocable is the fact that the measure of the growth of very Catholic Community, Parish or Diocese depends upon the presence of a large apostolic class, viz. the number of Lay Organizations and Associations that can be identifiable, standing and active The great sense of the Lay Apostolate is to develop the sense of lay vocation and action within the Station or Parish. There is always the danger of identifying the Church as with the Clergy and the Religious to whom God has certainly given what we can truly call the Vocation. There is also the temptation to see the Congregation as an anonymous crowd in the Church. Wrong! Most of the

sermons of the Lord Jesus were addressed to the crowds, only about twelve or seventy-two were what we may call the Clergy and the Religious today. Cleopas and Mary Magdalene were certainly among the crowd, and they were far from being anonymous. No one but myself can give my heart to the sanctification of myself and helping others to do likewise. It is precisely this personal religion sense of religion which the Lay Apostolate fosters. Then, no Catholic laity may consider him/herself content to b passive or perfunctory. He/she now has something to be and to do for God and humanity ie. his/her fellow human being. Religion no longer becomes a side issue, but an inspiration of one's life; something that everybody makes this conviction a personal vocation. This inevitably creates an Apostolic spirit in all of us and the desire to carry out Christ's work to serve Him in the least of His brethren. This translates into the Christian idea of Perfection in the life of the lay folk. It is the extension of Christ's Kingdom into our secular world of today **(Cf. Mgr. O'Rahilly, Legio Mariae, 69).**

THE LAY APOSTOLATE AS A PARTICIPATION IN THE MISSION OF THE CHURCH

A BRIEF PREVIEW OF SOME LAY APOSTOLATE & PIOUS ORGANIZATIONS

As a Preamble, the above table showing the main Lay Apostolate, Pious Organizations/Societies and Devotional Associations, Groups etc. in the Catholic Church can be classified into Catholic Societies for men and women including those for children, eg. the Blue Army Cadets, Children's Legion of Mary, the Block Rosary, Sacred/Immaculate Heart Association, etc. But the general name for all these is simply tagged the Lay Apostolate or sometimes designated as Catholic Action Groups. Individual Parishes and Mission Stations in the Church have a number of these Organizations and Societies to guide the spiritual life and Apostolate of their lay Faithful. **What is the Lay Apostolate**? Briefly, whenever and wherever this term is mentioned, our minds go to the Lay Faithful in the Church cooperating with their Bishops and Priests in carrying out the **MANDATE OF CHRIST** viz. of sanctifying, ruling and teaching the Faithful in their own way and means of calling. This is otherwise known as **CATHOLIC ACTION,** ie. the duty of

the Christian Faithful in carrying out the work of the salvation of our fellow Christian brothers and sisters and by so doing thereby sanctify them and themselves with promptitude, alacrity and commitment with the Grace of God. Canon Law, CJC 216, succinctly describes Catholic Action a.k.a Apostolic Activity by explaining that all the Christian Faithful, since they participate in the **MISSION OF THE CHURCH**, have, the right to promote and sustain Apostolic action by their own undertakings in accord with their own state and condition.

However, no undertaking shall assume the name **CATHOLIC** unless the consent of competent ecclesiastical authority is given. It therefore means that by virtue of his/her Baptism, every Christian must participate in the mission of the Church. This is expressed first and foremost in the Apostolic Action proper to each person. This activity is rooted in Christ's Action in the life of the baptized Christian, hence he/she may be initiated without waiting for further authorization. The Documents and Decrees of the Vatican II Council, notably **Apostolicam Actuositatem** 24, **Lumen Gentium** 33 and **Presbyterium Ordinis** 9 have also articulated this view as a fundamental right of the Christian Faithful.

THE MAJOR FORMS OF THE APOSTOLATE

Three major forms of the Apostolate are documented in Apostolicam Actuositatem, viz. that individual Apostolic Activity as an obligation to which every Christian is called to do in his/her bearing witness to the Gospel according to his personal situation or state in life. Working together in communities whether parochial or otherwise is the second from of Apostolic Activity. The third form is through an Association in which Apostolic Activity is directly and purposefully carried out. This is usually connected with the hierarchy as a means of carrying out their Apostolic responsibilities. This is the Catholic Group, Organization Association, etc. properly so called.

CJC 225 emphasizes that since the Laity are deputed by God to the Apostolate through their Baptism and Confirmation, they are ipso facto bound and do enjoy the right to work as individuals and in Associations so that the Divine Message of Salvation may be known and accepted by all persons throughout the world **(Cf. Mtt 28: 18 - 20)**. This obligation has a greater impelling force in those circumstances where people can only come to hear the Gospel and know Christ only through lay persons. All Lay Associations of the Christian Faithful come under the name of **LAY APOSTOLATE**.

According to CJC 298, they are those Associations distinct from Institutes of Consecrated Life and Societies of Apostolic Life, in which the Christian Faithful, either Clergy or Laity OR Clergy and Laity together, strive by common effort to practise and promote a more perfect life in order to foster public worship and Christian Doctrine or even to exercise other Apostolic Works eg. engaging in the efforts of evangelization. The Lay Apostolate among others are also to articulate the exercise of Works of Piety and Charity and to animate the temporal order with the Christian spirit. In the 1940s – 60s, it was unheard of that the Rev. Fathers residing at Parish centres were absent at the Legion of Mary Praesidium or St. Vincent de Paul Meetings. They even often went to the Mission Stations to attend and direct these Devotional Meetings as Chaplains and Spiritual Directors. The general Characteristic of every Lay Apostolate ie. Associations of the Christian Faithful within the Church are always of a group of persons, not under Vow ie. in contrast with those Institutes of Consecrated Life. Nevertheless, they must strive to promote and foster public worship, Christian Doctrine and also to exercise other Apostolic Works that those other Associations also aspire to. Yes, they are meant to exercise some works of piety and charity and these include works of the Apostolate reaching out from evangelization of the ignorant –pagans, the unbaptized, children, etc. to the explicit Christianization of the secular order. The history and plan of some Lay Apostolate Organizations are set forth below.

1.0 THE SACRED HEART OF JESUS/IMMACULATE HEART OF MARY

HISTORY & ORIGINS OF DEVOTION TO THE SACRED HEART

The Devotion to the Sacred Heart of Jesus is as ancient as the Church. But it was in the early 17th Century that the Devotion to the Most Sacred Heart of Jesus was given great impetus through the preachings and writings of St John Eudes, whom the Roman Breviary calls the **"FOUNDER OF THE LITURGICAL CULT OF THE SACRED HEART OF JESUS AND THE IMMACULATE HEART OF MARY**." In order to establish fully and entirely the worship of the Most Sacred Heart of Jesus and to spread it throughout the whole world, God Himself chose as His instrument, the humblest virgin from the Order of Visitation, St. Margaret Mary Alacoque to do this. This came about through the Apparitions, Revelations and Devotions to the Sacred Heart.

On June 16, 1675 during the Octave of Corpus Christi, Our Lord Jesus Christ appeared to St. Margaret Mary Alacoque of the **O**rder of **V**isitation, **R**oniem Convent at Paray-le-Monialin France and pointing to His Heart said; "Behold this heart which has so loved men that it has spared nothing to testify its love for them, even to the exhausting and consuming of itself for their sake. But in return for this, I receive nothing from the generality of men and women except irreverences, sacrileges and coldness with which I am treated in the Sacrament of Love". I ask of you therefore, that the Friday after the Octave of Corpus Christi be set aside as a special Feast in honour of my Sacred Heart, that people communicate and make reparation to it by a solemn act, to make amends for the irreverences to which it is subjected while exposed on the Altar. I promise you that my Heart will shed the gifts of its Divine Love in great abundance on all who will thus honour it and induce others to so honour it". Numerous apparitions of the Sacred Heart took place at Paray-le-Monial in the Visitation Chapel. The Four principal ones occurred on December 27, 1673, two in 1674 and one on June 16, 1675 during which Christ requested St. Margaret Mary to see to the practice of the Devotion on the Feast of the Sacred Heart far and wide.

Born on July 1647 Margaret Mary died on October 1690 and was canonized on May 13 1920 by Pope Benedict XV. It was really with the assistance of Father Claude de la Colombiere S.J. her Spiritual Director and Confessor and canonized by Pope John Paul II on Sunday 31st May 1992 in St. Peter Basilica Rome, that the Devotion to the Sacred Heart and Immaculate Heart of Mary received due recognition, first within her Congregation and gradually came to be established in the Church. Then Jesus commissioned Margaret Mary to spread the Devotion to His Sacred Heart, to encourage the Faithful to receive Holy Communion in reparation for mankind's ingratitude through the contempt, for the offences and indifference of men and women, and to offer themselves in consecration to His Sacred Heart. The news of these apparitions and revelations served to stimulate the diffusion of this Devotion especially throughout France. Nevertheless, it met with considerable opposition from the Protestants and Jansenists; from some Priests and Bishops and for a time from the Austrian Government.

Thereafter, St. Margaret Mary repeatedly entreated Holy See to place upon the Devotion special marks of its Approval, but Rome held aloof. In 1697 the Nuns of the Visitation Order and Ex-Queen Mary of England petitioned Pope Innocent XII to establish a special Office and Mass in honour of the Sacred Heart of Jesus. The Holy See, however, apparently fearful that the Devotion might lead to abuses, and that the use of the Heart as the Symbol of Christ's redeeming love might be overdone, declined. In 1707 Pope Clement XII likewise rejected a similar petition. Finally, some twenty years later during the Pontificate of

Pope Benedict XII, the request was again urged from various sources throughout the Christian world. The Holy Father submitted the matter for examination to the Sacred Congregation of Rites. After a lengthy investigation, the Sacred Congregation expressed itself adversely to the petition. Meanwhile the Devotion had continued to spread, proving its wholesome character and keeping free from the exaggerations and superstitions with which well-meaning but indiscreet souls are sometimes apt to embrace new expressions of piety.

It was not until repeated appeals were made during the reign of Pope Clement XIII that the matter was again submitted for further examination to the Sacred Congregation of Rites. By this time all difficulties and scruples had been cleared and the request was finally granted in 1765. This was however, only for individual Churches and only upon special application being made for the privilege. It was not until 1865 that Pope Pius IX, yielding to petitions from all parts of Christendom extended the Feast of the Most Sacred Heart to the Universal Church under the Rite of Double Major, now Solemnity and Holy Day of Obligation. This was almost two centuries after the Apparitions to St. Margaret Mary in her Convent at Paray-le-Monial. The Church's fundamental concern was to see that the new Devotion fitted harmoniously without strain or disproportion into her constant practice of worship of God and of His Divine Son our Saviour and in accordance with the teachings of Christ and His Apostles. Once it was made unmistakably clear that the new Devotion had dovetailed perfectly with her traditional teachings and was conducive with no dangers of exaggeration or over emphasis, the Church crowned it with her official approval as suitable for use in the Universal Church.

1.2 FR. MATEO AND FAMILY ENTHRONEMENT OF THE SACRED HEART

Greatly encouraged by the approval of the Devotion to the Sacred Heart, Father Mateo a young priest, asked for and was granted an audience with the reigning Pontiff, Pope Pius X as the Promoter of the Devotion to the Sacred Heart of Jesus and Mary. He visited Nigeria again in June 1978 and attended the first International Seminar on Sacred Heart in Ghana 1980. He died in Rome on 10th October, 1980. At the time the Prayer Book 3rd Edition was compiled, Father Mitchell S.S.CC, was appointed National Enthronement Director of the International Institute of the Sacred Heart of Jesus.

1.3 ESTABLISHMENT OF THE DEVOTION TO THE SACRED HEART IN NIGERIA

The Devotion to the Most Sacred Heart of Jesus and the Immaculate Heart Mary is as old as the Nigerian Church but was greatly popularized by the Holy Ghost and St. Patrick's Missionaries in the defunct Eastern Region of Nigeria in the 1920s -1960s. It was tight up with the First Friday and First Saturday Apostolate known as the **APOSTLESHIP OF PRAYER** whereby Catholic families were consecrated to the Sacred and Immaculate Heart of Mary with the enthronement of and setting up of the Altar of the Sacred/Immaculate or their Holy Pictures solemnly hung on the parlours of their homes. Right in our school days in the 1940s, the First Friday Devotion almost rivalled the Sundays and Holy Days of Obligation Celebrations. Almost every Christian pupil was a devotee as discussed above in Chapter I on Ikot Ekpene Diocese. It was popularly tagged: **SODALITY OF THE MOST SACRED HEART.** But the Association of the Sacred Heart of Jesus and Immaculate Heart of Mary was later established in Nigeria on 1st January 1967 by Bro. Dominic K. Abatan. It started at Regina Mundi Catholic Church, Mushin, Lagos with the Enthronement of the Sacred Heart in the homes of eight foundation members. Additional two Centres namely St. Mary's Catholic Church Ajegunle in 1968 and Catholic Church of Assumption, Falomo, Lagos in 1971 were established. The first Foundation Officers of the Association secured the recognition, support and blessing of late Archbishop John Aggrey, Bishop Anthony Sanusi and the then Archbishop Anthony 0. Okogie. The foundation members were Sir S. O. Adegbemi, Bro. R. B. Oteniya, Bro. Paul Liko, Sir P. A. BoluroAjayi (KSG), Bro. 0. Oteniya, Bro. I Faturoti, Bro. P. A. Aina and Bro. I. 0. Abati.

The Nigerian Association is under the direction of the Congregation of the Sacred Heart of Jesus and Immaculate Heart of Mary, East Coast Province, in Fairhaven, U.S.A and Catholic Bishops Conference of Nigeria. In 1971, the Director of Enthronement in Washington D. C. Rev. Fr Francis Larkin visited the Association in Nigeria and on 29th November, 1974, the Director General, Rev, Fr. P. Julius Knichel, SS.CC of the Congregation of the Sacred and Immaculate Heart of Jesus and Mary, Rome, gave official approval for the spread of the Devotion through Enthronement of the Sacred Heart in the homes of Christian Families throughout Nigeria. The then Archbishop of Lagos, Most Rev. Dr. A. O. Okogie appointed Rev. Fr. R. Fitzegerald the National Spiritual Director of the Association up to 1976. He was succeeded by Rev. Fr. E. Hartnet and later by Very Rev. Monsignor (Dr.) Philip Hoteyin who is currently the National Spiritual Director assisted by Rev. Fr. Lawrence Bakut and Rev. Fr. Francis Mary Ogundare. It is worthy of note to acknowledge that the foundation laid by Bro. D. K. Abatan was built upon by Bro. Porbeni the 1st National President and his successors Sir P. A. Boluro-Ajayi. Bro. G. A. Isokpehi, Bro. J. O. Oriloye, Bro. Rufus I. Eddo, etc. Today the Association is made up of the National Council (NEC), 9 Provincial Councils, 51 Diocesan Councils, 150 Deaneries and about 1,500 Local Centres with over 500,000 devotees in Nigeria. This is evidently a testimony to the immense love gushing forth from the Sacred and Immaculate of Heart of Jesus and Mary as well as the commitment of past leaders.

1.4 PRAYER FOR THE BEATIFICATION OF FATHER MATEO CRAWLEY-BOEVEY,SS.CC.

Our Father, Hail Mary Glory Be. "Sacred Heart of Jesus, King of Love, mindful of all Father Mateo accomplished during his life to make you known, loved and served. If it be your adorable will, deign to manifest the sanctity of your faithful Apostle by granting us the Grace we humbly ask through his Intercession. (Here, Mention your request). In return, we promise to become Apostles of the family and social reign of your Sacred Heart, Amen. Most Sacred Heart of Jesus, Your Kingdom come (5X). Immaculate Heart of Mary, Pray for us (3X). St. Joseph, Pray for us.

Or write to the National Headquarters for other information: The Association of Sacred Heart of Jesus and Immaculate Heart of Mary, National Headquarters, Regina Mundi Catholic Church, 142/144 Agege Motor Road, P. O. Box 374, Mushin, Lagos. Nigeria.

1.8 HOW TO MAKE HOLY HOUR NIGHT ADORATION IN THE HOME

You can make a Holy Hour right in your own home if you can't get to the Church at night for Adoration, or if your Church doesn't have it. Here is your answer: Night Adoration in the Home. Yes, right in your own home, even in your own room! If you love Our Lord; if you are concerned about the many offences committed against Him today; if there are sinners or other problems in your family, then read on.

NIGHT ADORATION: in the home is an hour of prayer, made in a spirit of reparation, at least once a month, between the hours of 9p.m and 6a.m on any night of your choice. It is a Holy Hour, just like the ones in Church, made in answer to Our Lord's request to His Apostles and to St. Margaret Mary, "Watch one hour with Me"!

WHERE IS IT MADE? In your own home, in any room, before the Image of the Sacred Heart. It can also be made in hospitals, nursing homes, homes for senior citizens, convents, rectories, seminaries, prisons anywhere.

HOW IS IT MADE? 1. Begin your Holy Hour by uniting yourself to the Holy Sacrifice of the Mass being celebrated at that hour. Use your missal or prayer-book and say the Canon of the Mass.

2. You may use hand book. You may say your Rosary, thinking of the Sorrowful Mysteries.
3. You don't have to kneel, you may sit, if necessary. The aged and sick may make their hour on bed.

MUST THE WHOLE FAMILY MAKE IT? No, individuals may make it alone. But many families do make it together, either in the form of a group Holy Hour, or they arrange the hours so that at least one member is watching from 9p.m or according to the size of the family. Parents may make it together. Young married couples make an hour together and thus sanctify the beginning of their married life. Children can make an hour of prayer for their parents.

WHAT IT DOES? Night Adoration pleases the Sacred Heart of Jesus, for He asked us to watch one hour with Him; in return He bestows many blessings on the Night Adorers and their families, including the conversion of sinners. It brings into the home the spirit of prayer and penance and increases love for the Holy Sacrifice of the Mass. It helps atone for the many sins committed by and in families especially those of birth control, divorce, and disobedience. By making reparation for sin it helps to bring peace in the families and into the world.

1.9. THE SPIRITUAL ADVANTAGES OF DEVOTION TO THE SACRED AND IMMACULATE HEART

1. A share in the prayers and good works of the Fathers of the Sacred Hearts (who promote Night Adoration) and of the entire Franciscan Order (with whom it is affiliated)
2. A plenary indulgence on the day of enrolment and each time the hour is made, monthly. Plenary indulgence at the hour of death.

NIGHT ADORER: If you feel the Sacred Heart is inviting you to become a Night Adorer in your home; then fill out the application Form and send it in. **NB.** You do not bind yourself under pain of sin and for any good reason you may change your hour without notifying the center). You may select a movable date (first Sunday, first Friday, etc.) or affixed date (1", 15", etc.). Or you may leave the choice of the night and hour to the director, in order to fill the blank hours. After you have started making your Night Adoration you are urged to tell others about it, especially the best among your relatives and friends. Remember we want quality and not quantity. Application forms will be sent upon request. There are no dues, but an offering to help meet the expenses of printing and mailing will be appreciated.

REFLECTION ON PRAYER:
I got up early one morning
And rushed right into the day;
I had so much to accomplish
That I didn't have time to pray
Problems just tumbled about me
And heavier came each task
"Why doesn't God help me?" I wondered.
He answered "you didn't ask".
I wanted to see joy and beauty,
But the day toiled on, gray and bleak;
I wondered why God didn't show me,
He said, "But you didn't seek".
I tried to come into God's presence;
I used all my keys at the lock,
God gently and lovingly chided,
My child, you didn't knock".
I woke up early this morning, /
And paused before entering the day;
I had so much to accomplish
That I had to take time to pray.

MORNING PRAYER: In the name of the Father, and of the Son, and of the Holy Spirit. Amen. Blessed be the Holy and undivided Trinity now and forever. Amen.

2.0 THE LEGIO MARIAE: THE LEGION OF MARY APOSTOLATE

"Who is she that comes forth as the morning rising. fair as the moon. bright as the sun, terrible as an army set in battle array?" **(Cf. Song of Song 6:10)**. The Virgin's name was Mary" **(Cf. Lk I: 27).**
"The Legion of Mary! What a perfectly chosen name!" **(CF. Pope Pius X. 1835 - 1914)**

2.1 NAME: HISTORY & ORIGINS OF APOSTOLATE OF LEGIO MARIAE

The Legion of Mary is an Association of Catholics who, with the sanction of the Church and under the powerful leadership of Mary Immaculate, Mediatrix of all Graces ("who is fair as the moon, bright as the sun," and- to Satan and his legionaries – "terrible as an army set in battle array"), have formed themselves into a Legion for service in the warfare which is perpetually waged by the Church against the world and its evil powers. The whole life of men, both individual and social, shows itself to be a struggle, and a dramatic one, between good and evil, between light and darkness" **(CF. GS 13).** The legionaries hope to render themselves worthy of their great Heavenly Queen by their loyalty, their virtues, and their courage. The Legion of Mary is therefore organized on the model of an army, principally on that of the army of ancient Rome, the terminology of which is adopted also. But the Army and the Arms of Legionaries of Mary are not of this world.

This army, now so considerable, had the most humble of beginnings. It was not a thought-out organization. It sprang up spontaneously. There was no premeditation in regard its Rules and Practices. A suggestion was simply thrown out. An evening was fixed, and a little group came together, unaware that they were going to be the instruments of Most loving Providence. To look at that meeting, it was identical with what would be seen today were a person to attend a Legion meeting anywhere in the world. The Table around which they met bore a simple Altar, of which the centre was a Statue of the Immaculate Conception (of the Miraculous Medal model). It stood on a white cloth, and was flanked by two vases with flowers, and two candlesticks with lighted candles. This setting, so rich in atmosphere, was the inspired notion of one of the earliest comers. It crystallized everything for which the Legion of Mary stands. The Legion is an army. Well, their Queen was there before they assembled. She stood waiting to receive the enrolments of those whom She knew were coming to her.

They did not adopt her. She adopted them; and since then they have marched and fought with her, knowing that they would succeed and persevere just to the extent that they were united to her. The first corporate act of those Legionaries was to go on their knees. The earnest young heads were bent down. The Invocation and Prayer of the Holy Spirit were said; and then through the fingers which had, during the day, been toilsomely employed, slipped the beads of the simplest of all devotions. When the final ejaculations died away, they sat up, and under the auspices of Mary (as represented by Her Statue) they set

themselves to the consideration of how they could best please God and make him loved in his world. From that discussion came forth the Legion of Mary, as it is today, in all its features. What a wonder! Who, contemplating those inconspicuous persons - so simply engaged-could in his wildest moments imagine what destiny waited just a little along the road? Who among them could think that they were inaugurating a system which was to be a new world-force, possessing-if faithfully and forcefully administered - the power, in Mary, of imparting life and sweetness and hope to the nations? Yet so it was to be.

That first enrolment of Legionaries of Mary took place at Myre House, Francis Street, Dublin, Ireland, at 8 p.m. on 7 September, 1921, the eve of the Feast of Our Lady's Nativity. From the title of the parent branch, that is, Our Lady of Mercy, the organization was for a time known as "The Association of Our Lady of Mercy." Circumstances which one would regard as accidental determined this date, which seemed at the time less appropriate than the following day would have been. In after years only - when countless proofs of a truly maternal love had made one reflect - was it realized that not the least exquisite touch of Mary's hand had been shown in the moment of the Legion's birth. Of the evening and the morning was the first day made **(Cf. Gen 1:5)**, and surely the first, and not the last fragrances of the Feast which honours Her own Nativity were appropriate to the first moments of an Organization, whose first and constant aim has been to reproduce in itself the likeness of Mary, thus best to magnify the Lord and bring him to men.

> **"Mary is the Mother of all the members of the Saviour, because by her charity she has co-operated in the birth of the faithful in the Church. Mary is the living mould of God., that is to say, it is in her alone that the God Man was naturally formed without losing a feature, so to speak, of His Godhead, and it is in her alone that man can be properly and in a life-like way formed into God. so far as human nature is capable of this by the grace of Jesus Christ" (St. Augustine: 354 - 430).**

"The Legion of Mary presents the true face of the Catholic Church" **(Cf. Pope John XXII)**.

2.2 OBJECT OF THE LEGION OF MARY

The object of the Legion of Mary is the Glory of God through the holiness of its members developed by prayer and active co-operation. Under ecclesiastical guidance, in Mary's and the Church's work of crushing the head of the serpent and advancing the reign of Christ. Subject to the approval of the **CONCILIUM**, and to the restrictions specified in the official handbook of the Legion, the Legion of Mary is at the disposal of the Bishop of the Diocese and the Parish Priest for any and every form of social service and Catholic Action which these authorities may deem suitable to the Legionaries and useful for the welfare of the Church. Legionaries will never engage in any of these services whatsoever in a parish without the sanction of the parish priest or of the Ordinary. By the Ordinary in these pages is meant the local Ordinary, that is, the bishop of the Diocese or other competent Ecclesiastical Authority.

2.2.1 The immediate end of organizations of this class is the apostolic end of the Church; in other words: the evangelization and sanctification of men and the Christian formation of their conscience, so as to enable them to imbue with the Gospel spirit the various social groups and environments.

2.2.2 The laity, cooperating in their own particular way with the Hierarchy, contributes their experience and assume responsibility in the direction of these organizations, in the investigation of the conditions in which the Church's pastoral work is to be carried on, in the elaboration and execution of their plan of action.

2.2.3 The Laity act in unison after the manner of an organic body, to display mere strikingly the community aspect of the Church and to render the apostolate more productive.

2.2.4 The Laity, whether coming of their own accord or in response to an invitation to action and direct cooperation with the hierarchical apostolate, act under the superior direction of the hierarchy, which can authorize this cooperation, besides, with an explicit mandate" **(Cf. VAT II: Apostolicam Actuositatem, 20)**.

2.3. THE SPIRIT OF THE LEGION OF MARY: ASPIRATION TO THE PERSON OF MARY

The spirit of the Legion of Mary is that of Mary herself. Especially does the Legion aspire after her profound humility, her perfect obedience, her angelical sweetness, her continual prayer, her universal mortification, her altogether spotless purity, her heroic patience, her heavenly wisdom, her self-sacrificing courageous love of God, and above all her faith, that virtue which has in her alone been found in its utmost extent and never equaled. Inspired by this love and faith of Mary, her Legion essays any and every work and "complains not of impossibility, because it conceives that it may and can do all things **(CF. Imitation of Christ, Book 3:5).** A Perfect model of this apostolic spiritual life is the Blessed Virgin Mary, Queen of Apostles. While on earth Her life was like that of any other, filled with labours and the cares of the home; always, however She remained intimately united to her Son and cooperated in an entirely unique way in the Savior's work… Everyone should have a genuine devotion to her and entrust his life to her motherly care **(Cf. VAT II: Apostolicam Actuositatem, 4).**

2.4. LEGIONARY SERVICE: "MUST PUT ON THE WHOLE ARMOUR OF GOD" (Cf. Eph 6:11).

2.4.1 The Roman Legion, from which the Legion takes its name, has come down through the centuries illustrious for loyalty, courage, discipline, endurance, and success, and this for ends that were often base and never more than worldly **(See appendix 4. The Roman Legion)**. Manifestly, Mary's Legion cannot offer to her the name (like a setting stripped of the jewels which adorned it) accompanied by qualities less notable, so that in these qualities is indicated the very minimum of legionary service. St. Clement, who was converted by St. Peter and was a fellow-worker of St. Paul, proposes the Roman army as a model to be imitated by the Church.

Who are the enemy? They are the wicked who resist the will of God Therefore, let us throw ourselves determinedly into the warfare of Christ and submit ourselves to his glorious commands. Let us scrutinize those who serve in the Roman Legion under the military authorities, and note their discipline their readiness, their obedience in executing orders. Not all are Prefects or Tribunes or Centurions or Commanders of fifty or in the minor grades of authority. But each man in his own rank carries out the commands of the emperor and of his superior officers. The great cannot exist without the small, nor the small without the great. A certain organic unity binds all parts, so that each helps and is helped by all. Let us take the analogy of our body. The head is nothing without the feet, likewise the feet are nothing without the head. Even the smallest organs of our body are necessary and valuable to the entire body in fact all the parts work together in interdependence and yield a common obedience for the benefit of the whole body" **(CF. St. Clement 96 A.D., Pope and Martyr: Epistle to the Corinthians C.36 & 37)**.

2.4.2 "Must be a living sacrifice, holy and acceptable to God… not conformed to this world" (Cf. Rom 12:1-2).

From that foundation will spring in the faithful Legionary, virtues as far greater as his cause is superior, and in particular a noble generosity which will echo that sentiment of St. Teresa of Avila: "To receive so much and to repay so little: O' that is a martyrdom to which I succumb." Contemplating his crucified

Lord, who devoted to him His last sigh and the last drop of His Blood, the Legionary's service must strive to reflect such utter giving of self. "What more was there to do for my vineyard that I have not done in it?" **(Cf. ls 5.4)**

2.4.3 "Must not turn from toil and hardship" (Cf. 2 Cor. 11:27). There will ever be places where Catholic zeal must be prepared to face the instruments of death and torture. Many Legionaries have thus triumphantly passed through the Gates of Glory. Generally, however legionary devotedness will have a humbler stage, but still one giving ample opportunity for the practice of a quiet but true heroism. The Legion Apostolate will involve the approaching of many who would prefer to remain remote from good influences, and who will manifest their distaste for receiving a visit from those whose mission is good, not evil. These may all be won over, but not without the exercise of a patient and brave spirit.

Sour looks, the sting of insult and rebuff, ridicule and adverse criticism, weariness of body and spirit, pangs from failure and from base ingratitude, the bitter cold and the blinding rain, dirt and vermin and evil smells, dark passages and sordid surroundings, the laying aside of pleasures, the taking on of the anxieties which come in plenty with the Work, the anguish which the contemplation of irreligion and depravity brings to the sensitive soul, sorrow from sorrows wholeheartedly shared. There is little glamour about these things, but if sweetly borne, counted even a joy, and persevered in unto the end, they will come, in the weighing-up, very near to that love, greater than which no man has, that he lay down his life for his friend. "What shall I return to the Lord for all his bounty to me?" **(Cf. Ps 116:12)**.

2.4.4 Must "live in love, as Christ loved us and gave himself up for us" (Cf. Eph 5:2). The secret of all success with others lies in the establishment of personal contact, the contact of' love and sympathy. This love must be more than an appearance. It must be able to stand up to the tests that real friendships can bear. This will frequently involve little mortifications. To greet, in fashionable surroundings, one who a little while before was the subject of one's visitation in a jail, to be seen walking with bedraggled persons, to grasp warmly the hand which is coated with grime, to partake of a proffered meal in a very poor or dirty home, may to some be very difficult; but if avoided, the attitude of friendship is shown to have been just a presence. The contact breaks, and the soul that was being lifted sinks back in disillusion. At the bottom of all really fruitful work must be the readiness to give oneself entirely. Without this readiness, one's service has no substance. The Legionary who somewhere sets up the barrier: "thus far and no farther is self-sacrifice to go," he/she will accomplish only the trivial, though great exertions may be made. On the other hand, if that readiness exists, even though it may never, or but in small measure, be called upon. it will be fruitful of immense things. Jesus answered: "Will you lay down your life for me?" **(Cf. Jn 13:38)**.

2.4.5 "Must finish the race" (Cf. 2Tim 4:7). Thus the call of the Legion is for a service without limits or reservations. This is not entirely a counsel of perfection, but of necessity as well, for if excellence is not aimed at, a persevering membership will not be achieved. A lifelong perseverance in the work of the Apostolate is in itself heroic, and will only be found as the culmination of a continuous series of heroic acts, as indeed it is their reward. But not alone to the individual membership must the note of permanence attached. Each and every item of the Legion's round of duty must be stamped with this selfsame seal of persevering effort. Change, of course, there must necessarily be. Different places and persons are visited; works are completed, and new works are taken on. But all this is the steady alteration of life, not the fitful operation of instability and novelty-seeking, which ends up by breaking down the finest discipline. Apprehensive of this split of change, the Legion appeals unceasingly for a sterner temper and from each succeeding meeting sends its members to their tasks with the unchanging watchword, as it were, ringing in their ears: "Hold firm".

Real achievement is dependent upon sustained effort, which in turn is the outcome of an

unconquerable will to win. Essential to the perseverance of such a will is that it bends not often nor at all. Therefore, the Legion enjoins on its branches and its members a universal attitude of refusal to accept defeat, or to court it by a tendency to grade items of work in terms of the "promising," the "unpromising," the "hopeless," etc. A readiness to brand as "hopeless" proclaims that, so far as the Legion is concerned, a priceless soul is free to pursue unchecked its reckless course to hell. In addition, it indicates that an unthinking desire for variety and signs of progress tends to replace higher considerations as the motive of the work. Then, unless the harvest springs up at the heels of the sower, there is discouragement, and sooner or later the work is abandoned. Again, it is declared and insisted that the act of labelling any one case as hopeless automatically weakens attitude towards every other ease. Consciously or unconsciously, approach to all work will be in a spirit of doubt as to whether it is a justifying effort, and even a grain of doubt paralyses action. And worst of all, faith would have ceased to play its due part in Legion affairs, being allowed only a modest entrance when deemed approvable to reason. With its faith so fettered and its determination sapped, at once a rush in the natural timidities, the pettinesses, and the worldly prudence, which had been kept at bay, and the Legion is found presenting a casual or half-hearted service which forms a shameful offering to Heaven.

Hence, it is that the Legion is concerned only in a secondary way about a programme of works, but much about intensity of purpose. It does not require from its members wealth or influence, but unwavering, faith not in famous deeds but only an unrelaxed effort; not genius but unquenchable love; not a giant strength but steady discipline. A Legionary service must be one of holding on, of absolute and obstinate refusal to lose heart. A rock in the crisis, but constant at all times. Hoping for success, humble in success; but independent of it; fighting failure; undismayed by it, fighting on, and wearing it down. It requires thriving upon difficulties and monotony, because these give scope for the faith and effort of an enduring siege. Ready and resolute when summoned; on the alert though not called upon, and even when there is no conflict and no enemy in sight but maintaining a tireless precautionary patrol for God with a heart for the impossible; yet content to play the part of a stop-gap. There is nothing too big: no duty too mean; for each the same minute attention, the same inexhaustible patience, the same inflexible courage; every task marked with the same golden tenacity; always on duty for souls. The Legionary is ever at hand to carry the weak through their many weak moments; vigilantly watching to surprise the hardened at their rare moments of softness; unremitting in search for those that have strayed; unmindful of self; all the time standing by the cross of others, and standing there until the work is consummated. Unfailing must be the service of the organization consecrated to the Virgo Fidelis, and bearing, either for honour or dishonour, Her name.

2.5. THE DEVOTIONAL OUTLOOK OF LEGIO MARIAE

The devotional outlook of the Legion is reflected in its prayers. The Legion is built in the first place upon a profound faith in God and in the love he bears his children. He wills to draw great glory from our efforts, and he will purify them and render them fruitful and persevering. We swing between the opposite extremes of apathy and feverish anxiety because we regard him as detached from our work. Instead, let us realize that we only have the good purpose because he has implanted it, and that we shall only bring it to fruition if he sustains us all the time. The success of the enterprise in hand is more by far to him than it is to us. Infinitely more than we, does he desire that conversion we are seeking. We wish to be saints. He yearns for it a million times more than we. The legionaries' essential mainstay must be this knowledge of the companionship of God, their good Father, in their twofold work of sanctifying themselves and serving their neighbour. Nothing can stand in the way of success except want of trust. If there be but faith enough, God will utilize us to conquer the world for him.

"For whatever is born of God conquers the world. And this is the victory that conquers the world, our faith." **(Cf. 1 Jn 5:4)**. "To believe means 'to abandon oneself' to the truth of the word of the living God,

knowing and humbly recognizing 'how unsearchable are his judgments and how inscrutable his ways' **(Cf. Rom 11:33)**. Mary, who by the eternal will of the Most High stands, one may say, at the very centre of those 'inscrutable ways' and 'unsearchable judgments' of God, conforms herself to them in the dim light of faith, accepting fully and with a ready heart everything that is decreed in the divine plan" **(Cf. R Mat 14)**.

2.6. GOD AND MARY IN LEGIO MARIAE APOSTOLATE

Under God, the Legion is built upon devotion to Mary, "that ineffable miracle of the Most High" **(Cf. Pope Pius IX)**. But what is the place of Mary herself in relation to God? It is that He brought Her, as He did all the other children of earth, out of nothing; and though He has since then exalted Her to a point of Grace immense and inconceivable, nevertheless, in comparison to Her Maker, she still remains as nothing. Indeed, she is - far more than any other - His creature, because He has wrought more in Her than in any other of His creatures. The greater the things He does to Her, the more She becomes the work of His hands. Very great things He has done to Her. From all eternity, the idea of Her was present to His mind along with that of the Redeemer. He associated Her to the intimacies of His plans of Grace, making Her the true Mother of His Son and of those united to that Son. He did all these things because, in the first place, He would gain from Mary Herself a return greater than He would from all other pure creatures together. In the second place, He thereby intended, in a way which our minds cannot adequately grasp, to enhance the glory which He would receive from ourselves also. Thus, the prayer and loving service, with which we recompense Mary, our mother and the Helper of our salvation, can represent no loss to Him who made Her so. What is given to Her goes none the less surely and fully to Him. But there is question of more than undiminished transmission; there is question of increase. And Mary is more than a faithful messenger. She has been set by God to be a vital element in His gracious scheme, in such sort that both His Glory and our Grace are the greater by reason of Her presence there.

As it is the pleasure of the Eternal Father so to receive through Mary the homages intended for him, so too he has been graciously pleased to appoint Her to be the way by which shall pass to men the various outpourings of His Munificent Goodness and Omnipotence, beginning with the cause of them all—the Second Divine Person made man, our true life, our only salvation. "If I will to make myself dependent on the Mother, it is in order to become the slave of the Son. If I aspire to become Her possession, it is in order to render more surely to God the homage of my subjection." **(Cf. St. Alphonsus)**.2

2.7 LEGIO MARIAE AND MARY, MEDIATRIX OF ALL GRACES

The Legion's trust in Mary is limitless, knowing that by the ordinance of God, Her power is without limit. All that He could give to Mary, He has given to Her. All that She was capable of receiving She has received in plenitude. For us God has constituted Her a special means of Grace. Operating in union with Her we approach him more effectively, and hence win grace more freely. Indeed, we place ourselves in the very flood-tide of grace, for She is the Spouse of the Holy Spirit: She is the channel of every Grace which Jesus Christ has won. We receive nothing which we do not owe to a positive intervention on Her part. She does not content Herself with transmitting all: She obtains all for us. Penetrated with belief in this office of Mary, the Legion enjoins it as a special devotion for all its members. "Judge as to the ardent love with which God would have us honour Mary seeing that He has set in Her the fullness of all good: in such manner that all we have of hope, all of Grace, all of salvation all - I say and let us doubt it not - flows to us from Her" **(Cf. St. Bernard: Sermo de Aquaeductu)**.

2.8. THE LEGION OF MARY APOSTOLATE & CATHOLIC ACTION

2.8.1 DIGNITY OF THE APOSTOLATE: To portray the dignity of the Apostolate to which the Legion summons its members, and its importance to the Church, one can find no more emphatic words than the

following authoritative declarations: “From the fact of their union with Christ the head, flows the laymen's right and duty to be apostles. Inserted as they are in the Mystical Body of Christ by Baptism and strengthened by the power of the Holy Spirit in the Sacrament of Confirmation, it is by the Lord himself that they are assigned to the apostolate. If they are consecrated a kingly priesthood and a holy nation **(Cf. 1 Pet 2:4-10)**, it is in order that they may in all their actions offer spiritual sacrifices and bear witness to Christ all the world over. Charity, which is, as it were, the soul of the whole Apostolate, is given to them and nourished in them by the Sacrament of the Eucharist above all.” **(AA 3)** “Pope Pius XII once stated: 'The faithful, more precisely the lay faithful, find themselves on the front lines of the Church's life; for them the Church is the animating principle for human society. Therefore, they in particular, ought to have an ever-clearer consciousness not only of belonging to the Church, but of being the Church, that is to say, the community of the faithful on earth under the leadership of the Pope, the Head of all, and of the Bishops in communion with him. These are the Church . . .' ” **(Cf. CL 9).**

“Mary exercises over the human race a moral influence which we cannot better determine than by comparing it to those physical forces of attraction, affinity and cohesion, which in the order of nature unite together bodies and the parts of which they are composed.... We believe we have shown that Mary took part in all the great movements which constitute the life of societies and their real civilization” **(Cf. Petitalot).**

2.8.2 AN APOSTOLIC LAITY ESSENTIAL IN THE CHURCH OF CHRIST

This proposition is ventured upon on account of the fact that the health of a Catholic community depends upon the presence of a large apostolic class - belonging to the laity, yet sharing the outlook of the priest, and providing points of contact with the people and intimacy of control. Security depends on this complete union of priest and people. But the essential idea of Apostleship is an intense interest in the welfare and the work of the Church. With such an interest, there can hardly be without some feeling of participation. Thus the Apostolic organization is a mould which produces apostles. Wherever these qualities of apostleship are not sedulously cultivated, it is certain that the next generation will have a serious problem to face in the lack of all real interest in the Church, and of all sense of responsibility. Out of this type of infantile Catholicism, what good can come? And where is its safety but in a complete calm? History teaches that such a nerveless flock is readily stampeded even unto the destruction of its own pastors, or else, that it is devoured by the first fierce pack of wolves which comes upon the scene. Ven. John Henry Newman states it as a principle that “in all times the laity have been the measure of the Catholic spirit.”

“The great function of the Legion of Mary is to develop the sense of a lay vocation. There is a danger that we lay folk may identify the Church with the clergy and religious, to whom God has certainly given what we too exclusively call a vocation. We are unconsciously tempted to regard the rest of us as an anonymous crowd who have a chance of being saved if we perform the prescribed minimum. We forget that our Lord calls his own sheep by name **(Cf. Jn 10:3)**; that — in the words of St. Paul **(Cf. Gal 2:20)**, who, like us, was not physically present on Calvary — 'the Son of God loved me and gave himself up for me'. Each of us, even if he be only a village carpenter as was Jesus himself or a humble housekeeper like his mother, has a vocation. We are all called individually by God to give Him our love and service, to do a particular work which others may indeed surpass but cannot replace. No one but myself can give my heart to God or do my work. It is precisely this personal sense of religion which the Legion fosters. A member is no longer content to be passive or perfunctory; he/she has something to be and to do for God. Religion is no longer a side issue, it becomes the inspiration of one's life, however humanly commonplace. And this conviction of personal vocation inevitably creates an apostolic spirit, the desire to carry on Christ's work, to be another Christ, to serve him in the least of his brethren. Thus the Legion is the lay substitute for a religious order, the translation of the Christian idea of perfection into the lives of lay folk. It is the

extension of Christ's Kingdom into the secular world of to-day" **(Cf. Mgr. Alfred O'Rahilly)**.

2.9 THE LEGION AND THE LAY APOSTOLATE

Like many another great principle, the Apostolate is in itself something cold and abstract. Hence there is a very real danger that it may not exercise an appeal, such that the laity does not respond to the high destiny which has been held out to it. Worse still, it may even be deemed to be incapable of responding. The disastrous sequel would be that the effort to make the laity play its proper and indispensable part in the battle of the Church would be abandoned. But, in the words of one qualified to judge, Cardinal Riberi, formerly Apostolic Delegate to Missionary Africa and later Internuncio to China had said: "The Legion of Mary is an apostolic duty decked out in attractive and alluring form; throbbing with life so that it wins all to it. It is undertaken in the manner stipulated by Pope Pius XI, that is, in dependence on the Virgin Mother of God. It is insistent on quality as the foundation of membership and even as the key to numerical strength. It is safeguarded by plenteous prayer and self-sacrifice, by exact system, and by complete co-operation with the priest. The Legion of Mary is a miracle of these modern times."

To the priest, the Legion gives the respect and obedience which are owing to lawful superiors, yet more than this. Its Apostolate is built upon the fact that the main channels of Grace are the Mass and the sacramental system, of which the priest is the essential Minister. All the strivings and expedients of that Apostolate must have in view this great end: the bringing of the divinely-appointed nourishment to the multitude, sick and hungering. It follows that the first principle of legionary action must be the bringing of the priest to the people, not always in person — for that may be impossible — but everywhere in influence and in understanding. This is the essential idea of the Legion Apostolate. Lay it will be in bulk of membership, but working in inseparable union with the priests, and under their captaincy, and with absolute identity of interests. It will ardently seek to supplement their efforts, and to widen their place in the lives of men, so that men and women in receiving them are also receiving Him who sent them. "Very truly, I tell you, whoever receives one whom I send receives me" **(Cf. Jn 13:20)**.

3.0 THE WORLD APOSTOLATE OF THE BLUE ARMY

3.1 THE STORY OF FATIMA - OUR LADY'S APPARITIONS: MAY – OCTOBER 1917

WHO AND WHAT IS FATIMA? The name **FATIMA** originally had no bearing with and was not the name of a Catholic Church. After the battle of Toledo when the Moors (Moslems) invaded Spain and were sacked by the Christian armies – the Crusades, a number of them were taken hostage and they continued to stay in the country. They were settled at **Orique** where an ex-soldier Dominique Alfonso Henriques was king. Sometime in 1139, he approached the king of Spain to seek his authority to expel the remnants of the Moors from the land by force of arms. The king gave his consent but warned him that the Moors were not pushovers at war. Henrique gave orders to his son Concalo Henriques, a well-trained fighting warrior that had earned the title of: "**O Lutador** = War Lord General" and commanded him to recruit a formidable force and expel the Moors from their territory. In 1158, secretly and unknown to the Moors, Henriques planned the attack to take place during the all-night celebration of the Feast day of St. John the Baptist when everybody, young and old, men and women would be eating and drinking and dancing and making merry. Suddenly war and gun detonations pierced the air and many of the Moors were killed and some captured as war prisoners.

One of these was a beautiful Moor king daughter named Fatima. When the Moor king heard this, he gathered a large army to attack and release his daughter from Henriques' army. As a counter attack, Henriques recruited a large force and recaptured many of the Moors including Fatima and took her to Santarem in Portugal. The king of Portugal was pleased and made him General of his army with the title: **"O TRAGA MOROS = CONSUMER OF THE MOORS"**. After this Concalo took Fatima as wife and converted her. She was given the name **OURIAMA FATIMA** at Baptism. Then he renamed the town **FATIMA** in honour of her. In 1917 Our Lay appeared in Fatima as a confirmation of the victory against the Moors hence her title as **OUR LADY OF FATIMA**.

3.2. THE APPARITIONS OF OUR LADY AT FATIMA - 1917

Following the not-to-be-forgotten 1st World War of 1914 -1919, the unbearable sufferings and the loss of hope by the citizens of the world, His Holiness, Pope Benedict XV () summoned courage three years into the war and called the Christian Faithful to prayer, fasting and penance to seek the face of God and implore His mercy. Under the auspices of the Sacred Heart and through the intercession of the Blessed Virgin, Mediatrix of All Graces. The call to prayer for the end of the war and for peace in the world was to kick-start in May 1917. The answer to this Call to prayer was vouchsafed through the Apparitions of the Blessed Virgin May when on May 13, 1917, the Blessed Virgin appeared to three young shepherd girls – Lucia, Francisco and Jacinta on their way to the hilly bush where they used to tend their parents' sheep. At midday after lunch, they began to recite their Rosary as customary. Just before they finished their rosary to get set for their games, a bright light shun over the place and with trepidation and amazement they hastened to run home immediately. Suddenly they saw a very beautiful woman overshadowed by a great bright light and they stopped short and removed their Rosaries to pray. The rest is history as we can gather from **THE STORY OF FATMA (Cf. Orbis Unus Orans, UYO. 2012, 4-25; National Const. & Manual of WAFM, Benin City. 2004, 3 - 16)**.

MANUAL OF PRAYERS, DEVOTIONS & ACTIVITIES OF W.A.F.N.

3.3 BLUE ARMY MEETINGS: ORIGINS AND BRIEF HISTORY IN NIGERIA

WHAT IS THE WORLD APOSTOLATE OF FATIMA? The World Apostolate of the Fatima originally tagged **THE BLUE ARMY OF OUR LADY OF FATIMA,** is an international Association of the Catholic Faithful. Its purpose is to promote the Glory of God and the reign of Christ through personal fulfillment and through the diffusion of the Message of Fatima brought to the world by our Lady at Fatima, Portugal in 1917. In 1947 convalescing from a serious sickness Monsignor Victor Harold Colgan of New Jersey - USA, requested to be given a statue of Our Lady of Fatima. After reading an article about the Apparitions and reciting the Rosary he began to meditate on the events of Fatima, from that Mgr. Colgan had an inspiration and he decided to found an Apostolate Movement with the name **BLUE ARMY,** which came to him spontaneously. After that and in order to promulgate and carry out the Message which Our Lady had announced to the three children during her Apparitions at Fatima, Mgr. Colgan during one of his sermons at St. Mary's Parish New Jersey informed his congregation of his intention to found the Blue Army seeing what happened to him as an inspiration from heaven to found an Association in honour of the Blessed Virgin. According to him, the **BLUE** is meant to represented the Blessed Virgin Mary while the **ARMY** stands for an organization aimed at fostering Mary's Secrets/Requests at Fatima to the three children viz. duties by which the Catholic Faithful through their pledge of membership of the Catholic Faith commit themselves to Our Lay against the forces of Satan. In 1950 while going for the Pilgrimage during the Holy, Mgr. Colgan had audience with Pope Pius XII and the Pope gave his blessings to him and his members and leaders of the Blue Army. The Pope had assured Mgr. Colgan and said: "I give my Blessing to all members of the Blue Army." That blessing also saw the establishment of the Blue Army worldwide and in 1970 it was established at Calabar. In fact, the World Apostolate of Fatima owes its establishment in Nigeria around the time during and soon after the civil war (1967 - 1970) due to the emergence of some small groups of devotees to Our Lady of Fatima including the emergence the Block Rosary Block Rosary Crusade. In the Archdiocese of Calabar, the Blue Army owes its origin to one Dominic U. Jack, JP. who has recounted that while in Lagos with his in-law, Mr. Mendie who used to give out some Tracts on Our Lady of Fatima to parishioners at St. Dominic's Yaba, Lagos. When he got his rosary and tract from his in-law, reading and seeing the words **FATIMA** and **NOVENA** in one of the tracts which were usually sent to his in-law by Mgr. Joseph Cacella of St. Anthony's Welfare Centre, Bronx, New York, he became interested and started praying to Our Fatima. Mgr. Cacella himself, is from Cova da Ira in Portugal, ordained priest in 1909. He was a class-mate of Senhor Manuel Pedro Marto, the Father of Francisco and Jacinta, the seers of Fatima. Afterwards Dominic began to write directly to New York for some Novena Petitions, Tracts and Rosaries as well as bottles of Water of Fatima. This was the situation until Dominic became a devotee of Our Lady of Fatima.

When he was recalled home by his father after the civil war, he returned and was living at #47 Edgerly, Calabar, working and attending Mass at Sacred Heart Cathedral. Dominic's place became the protem Secretariat of sorts. There he met Chief Anthony Nya Archibong who introduced him to Archbishop Brian D. Usanga after he had mentioned the Blue Army Apostolate to him. Thereafter, the Archbishop approved the establishing the Apostolate at the Cathedral which they named the **SODALITY OF OUR LADY FATIMA.** Those who became the founding members of the Blue Army were notably, Chief Anthony, Sr. Immaculata Offiong of the HHCJ Calabar Road Convent with her two indigent and physically challenged women who were being cared for at the Convent then ie. blind Asa Okon and debilitated Mrs. Martha Mbe, Chief Mrs. Martha Antia (nee Anyam Urua), mother of Edidem (Prof) Nta Henshaw, the Obong of Calabar, etc. with Fr. Sylvester U. J. Udoh and later my humbleself as Chaplain when the latter left for further studies abroad. In 1970, Chief Anthony was to later introduce Dominic to Arc (Dr.) Maurice E. Archibong **(KSG)** living at #104 Calabar then who became the prime supporter and motivator of the Sodality with Dominic as Promoter and Chief Anthony as President thereof. He it was who most often financed and arranged for the luxurious buses that carried the Calabar Devotees to other dioceses in Nigeria viz. Warri, Umuahia and Aba as also Enugu, Port Harcourt and Onitsha in order to establish the Movement. These Dioceses or Centres a.k.a CELLS, began to maintain correspondences even individuals with the International Secretariat of the Blue Army then in Switzerland and the Ave Maria Institute in Washington DC, USA. But according to Mr. Jack, these correspondences apart from the letters from Nigerians, other letters were also received from Ghana, Cameroon, South Africa, etc. and were often re-directed to his #47 Edgerly, interim Secretariat of sorts where he would then make the necessary contacts and reply. Ironically and according to Arc Maurice Archibong, it was Mr. Setz-Degen, the then International Secretary who enabled the Cells to grow and to know themselves and establish contact with each other through Dominic's Secretariat at Calabar. By this time, the Sodality had grown and metamorphosed into the **BLUE ARMY OF FATIMA** and subsequently into the **WORLD APOSTOLATE OF FATIMA**.

Meanwhile Mgr. Cacella continued to send cartons of hundreds of books, Tracts and Rosaries to #47 Edgerly, Calabar Secretariat through the General Post Office and these greatly enhanced the promotion and profile of the Blue Army nationwide. Later everything was to be sent under my charge. Mgr. Cacella also later introduced Dominic to the Rosary Makers Association at Kentucky, USA ditto the woman Leader at Arkansas who registered him at Ave Maria Institute, New Jersey. Then Mr. John Matthias Haffert, Director Ave Maria Institute who had received Dominic's Form of Membership and Pledge signed by Archbishop D. Usanga and the completed Pledge Form forwarded by Fr. Sylvester U. J. Udoh, the then Cathedral Administrator to Mr. Albert M. Setz-Degen, the International Secretary of the World Apostolate of Fatima in Basle, Switzerland. With all these and in 1974, Mr. Jack received a letter of confirmation declaring the establishment of the Blue Army in Nigeria and officially recognizing and appointing him the quasi Promoter of the Blue Army in Nigeria by the International Secretary in 1974. This letter also was to authorize the constitution of a Diocesan Committee to handle the affairs of the Blue Army in Nigeria.

The first Meeting of the World Apostolate of Fatima addressed by the Archbishop was convened in Nigeria at Calabar March 2nd – 3rd March 1975. Those who attended the Rally were delegates from Warri, Onitsha, Enugu, Ikot Ekpene and Calabar. A working Committee was set up as directed by the International Secretary and important and far-reaching resolutions were made. Another National Meeting was held at the same venue Calabar from Friday 1st - 3rd October, 1976. The Meeting was declared open by Archbishop Usanga who inter alia recommended and advised that both the Legion of Mary and the Blue Army as well as other Marian Sodalities like the Block Rosary should work together like the different arms of the Armed Forces – the Military, the Navy and Air Force, all fighting the same war in the service of the Church and humanity. Highlights of that Meeting saw to the election of National Officers as follows:

REV.FR. ALOYSIUS EBONG - CHAPLAIN	MR. FRANCIS ONYEHADI PRESIDENT	ARC (DR) MAURICE ARCHIBONG – SECT.	CHIEF(MRS.)MARTHA ANTIA - TREASURER

At that Meeting also, the Blue Army Apostolate unanimously adopted Calabar as the National Headquarters of the Blue Army in Nigeria which decision was adopted and ratified by the International Secretariat, Basle, Switzerland. Attendees at this 2nd Rally included delegates from Warri, Port Harcourt, Ikot Ekpene, Onitsha, Ogoja, Lagos, Enugu, Umuahia, Benin and Calabar. Thereafter, the Annual National Meeting became a permanent feature of the World Apostolate. Subsequent meetings were held in Benin (1977), Warri (1978), Enugu (1979), Calabar (1980), Ikot Ekpene (1981), Uyo (1982), Port Harcourt (1983), Ilorin (1984), Kaduna (1985), Umuahia (1987), Akure (1989), Ibadan (1990), etc. At the 1977 National Meeting of the Blue Army Apostolate of Fatima at Benin among those who attended were Rev. Fr. B. Etafor, Mr. Michael Ogunu, Rev. Sr. Caritas Emerenini (Onitsha), Mr. John Maria Uguanyi (Enugu), Mr. Jude Nwadike (Umuahia), Arc Kgt. Maurice E. Archibong (Calabar)), Archbishop Jude-Mary Thaddeus Okolo Apostolic Nuncio to Chad Republic, then a Seminarian of Bigard Memorial Seminary, etc. In 1979, a letter from COMEX – Fatima, Portugal directed that permanent Executive Members of the National Apostolate be elected and the following National Officers were accordingly elected:

ARC MAURICE E. ARCHIBONG PRESIDENT	MR. FRANCIS ONYEKADI –VICE PRESIDENT	DOMINIC U. JACK – SECRETARY GENERAL
JOHN MARIE UGUANYI – TREASURER	MR. MICHAEL OGUNU – PUB. SECRETARY	RT. REV. MGR.BARINEM LIVI BONIKO - CHAPLAIN

It should also be noted that in 1977 Mr. Dominic Jack then the National Secretary, was invited by the International Secretary to attend the COMEX Meeting taking place at Domus Pacis Fatima. As the Nigerian National Apostolate of the Blue Army of Fatima spread and flourished in the dioceses, parishes and Mission Stations throughout the country, it also saw to the implementation of the Message of Fatima. Many statues of Our Lady of Fatima were ordered and shipped free of charge to the Dioceses by the International Secretariat. Centres of the Apostolate were also established in all the Major and Minor Seminaries nationwide. Later, the International Secretariat sponsored a Scholarship scheme for some indigent Seminarians to complete their theological programmes. There was also a very vibrant wing of youth members – the Cadets and these really enhanced the work of the Apostolate in many dioceses. In Calabar for example, the Apostolate produced many young persons who studied for the priesthood and some joined the Women Religious Congregations to become Rev. Sisters including the current Chancellor of the Archdiocese, Rev. Fr. Augustine Okon. There were also many pious women in the Apostolate. The children of Chief Mrs. Martha Antia for example built a magnificent International Shrine of Our Lady of Fatima at Sacred Heart Cathedral where many Pilgrimages are taking place. This Shrine of Our Lady of Fatima also now serves as the centre for National and International Rallies. First Friday Devotions are constant and are quite often concluded with processions with the Statue being carried from one Parish to another. It is also worthy of note that the National President, Arc (DR) Maurice Arhibong was elected into the International Executive of the Apostolate, first as Counsellor and later as the International Lay Delegate between 1980 – 1990. At its apogee, the Blue Army of Fatima National Secretariat has been organizing Pilgrimages to the International Shrine of the Immaculate Conception Pilgrimage Centre Oboetim in Uyo Diocese and the Marian Shrine at Akwa Ikot Efanga, Akpabuyo – Calabar. In Calabar in particular, the cradle of the Blue Army Apostolate in Nigeria, there were many pious men and women including young boys and girls who formed the core pioneer members of the 1970s to wit:

CHIEF ANTHONY N. ARCHIBONG	ARC (DR) MAURICE ARCHIBONG	CHIEF FRANCIS BASSEY ASUQUO	CATECHIST DOMINIC EDET UMOH	MR. DOMINIC U. JACK (FOUNDER)
CHIEF MRS. MARTHA ANTIA	MRS. MARGARET EYAMBA	MRS. SCHOLASTICA EKPO	MRS. MADALENE E. EYO	MRS. LOUISA G. EKPO

3.4 GOVERNMENT AND ORGANIZATIONS OF THE BLUE ARMY OF FATIMA

The World Apostolate of the Blue Army of Our Lady of Fatima, Nigeria has several Meeting for all members to attend including those of Executive Members of International Organizations, National Organizations, Diocesan Organizations, Parishes and Stations. The International Organization of the Apostolate of Fatima is directed by the International Council composed of the International President and the Exco. Members as specified in the International Statutes. It also includes Delegates from each nation with the World Apostolate of Fatima. The International World Apostolate of Fatima Headquarters is at **DOMUS PACIS** at Fatima, Portugal. The International Secretariat here helps to coordinate, regulate and

guide the Functions of National Councils worldwide. National Councils are charged with defending, explaining and implementing the International Statutes, regulations, resolutions and policies of the World Apostolate. The Origin of the first centres in Nigeria were at Calabar and Warri in the early 1970s. There are many centres of the World Apostolate in most dioceses of Nigeria today. The Headquarters at Calabar was unanimously approved in 1976 and the National Secretariat is at No. 2 Ewa Nsa Street, P.O. Box 226 Calabar, Nigeria – West Africa. It will be noted that it was in 1980 that the Sacred Congregation for the Lay Apostolate changed the name of **BLUE ARMY** to the **WORLD APOSTOLATE OF FATIMA** to reflect the internationality of the Apostolate.

4.0 THE BLOCK ROSARY CRUSADE a.k.a/formerly C. C. D.

4.1 BRIEF HISTORY OF ORIGIN OF THE BLOCK ROSARY

The Block Rosary is an offshoot of the Devotion of the World Apostolate of Fatima and dates back to the period of the civil war and the early 1970s when the Organization first took root in Aba. Prior to this, it was the Confraternity of Christian Doctrine Movement which flourished in many Parishes and Stations in Nigeria especially in what was then the Eastern Region of Nigeria with Headquarters at Enugu, now South Eastern Nigeria. What was added to the CCD was the recitation of the 15 Decade of the Rosary then consisting of the three Mysteries viz Joy, Sorrowful and Glorious Mysteries before a small Altar prepared with the Holy Picture Chart of Our Lady of Fatima placed on a table covered in white with two lit candles in candle stand and flower vases to match. This was the picture found everywhere in Christian homes between the 1950s and 1960s. The Devotion and Apostolate which spread especially throughout what is now known as the South Eastern State of Nigeria can be said to be a child of circumstance, because without the civil war, there would never have been this special Apostolate and Devotion to the BVM today. The Church would have continued with the CCD arrangement as formerly. As URUAN-EFIK have it in one of their popular

Proverbs: **"Kpukpru kp? idihe idi?k, eti kp? ediw?r? do"**; which literally translated means that not everything is evil (including war), a good thing can come out of it, as had happened in this case.

Yes, the Nigerian – Biafran war has become the instrument of a Divine Movement and Apostolate such that though it, what had become sorrowful and often anxious moonlight gatherings all over the place, with people gazing, lamenting and sighing with apprehension about what would be happening on the morrow, had divinely turned into worthwhile opportunities, because as they say: "every problem even disaster and calamities are challenges and avenues of golden possibilities for a better and greater good tomorrow". One evil and the greatest consequence of that civil war was the disappearance of public and kindred gatherings at night for civic activities, folklores and plays during moonlight especially in Igbo land. But by God's intuitive and inscrutable design, some Christian families, not just to while away the nights with sighs and tears of trepidation, began but with joyful gatherings at their homesteads to recite the Rosary, teach the Catechism and read the Bible for the benefit of the children and some enthusiastic and willing pagan adults including Protestants who later became converted.

That is why this Devotion was raised to the powerful Movement tagged **THE BLOCK ROSARY CRUSADE** during the civil war (1967 - 1970)**,** ostensibly to implore the intercession of the Blessed Virgin Mary for the end of war and for peace to return to the land. This also became the vehicle and movement for the recitation of the holy Rosary from one compound to another during the war and at special centres which kick-started at Enyimba City, Aba and continued throughout the hostilities. Sometime biblical dramas were added to add colour to the dullness and sighs of the war period. Thereafter the prevailing moonlight plays had to give way to this powerful movement and Devotion in the Catholic Church which as noted above has by Divine Providence spread to all parts of Nigeria today.

In time and immediately after the war in 1970, the Movement spread like wild fire throughout Igboland and the rest of the Eastern Region especially in Calabar area where many Igbos had come back to settle. In the beginning, some Legionaries and members of the Blue Army of Fatima championed and organized the Movement mainly to teach the Catechism and prepare children both in primary and secondary schools for the reception of the Sacraments of Baptism and First Holy Communion.

3.2. MOTTO OF THE BLOCK ROSARY: AD JESU PER MARIAM

4.3 THE NATIONAL MOVEMENT OF THE BLOCK ROSARY

As time went on, the Block Rosary Movement was established in many Dioceses and Parishes in Nigeria thus precipitating the need to make it a National Organization. The first National Rally of the Movement vouchsaved by the World Apostolate of Fatima which had been firmly established in Calabar was organized at the Holy Child Convent Calabar in 1977. Then, the National Executive appointed /elected members at the close of the Rally thereto and unanimously decided to rotate the Rally from one Diocesan Headquarters to another and this has continued till this day with the first Rally held at Jos presided over by His Lordship Bishop G. G. Ganaka in 1978. It will be recalled that the first ever Rally and formation of the Catholic Corpers Association of Nigeria (NACC) was also held here in 1989 presided over by G.G. Ganaka, the first Archbishop of Jos.

4.4 PLAN AND FEATURES OF THE BLOCK ROSARY PRAYER MEETINGS

As is the custom, there is always to be an Altar set as noted above. Then follows the following activities as Order of the Prayer Movement: Start with a hymn after which three/five children/ members begin the Rosary kneeling before the Altar followed by the Litany of the Blessed Virgin Mary. The rest as in the Block Rosary Prayer Manual.

5.0 THE ST. ANTHONY'S GUILD & APOSTOLATE

5.1 LIFE AND TIMES OF ST. ANTHONY OF PADUA

St. Anthony was born in Lisbon, Portugal on Assumption day 1195. His father was Martin de Bulloens and his mother, Maria Teresa Tavara who gave him the name, Ferdinand. From his earliest years Virtue so flourished in him that his first words when he began to lisp were the Holy Names of Jesus and Mary. The future Saint was to be seen visiting the Blessed Sacrament in the nearby Church. At 7 on one particular day, when he went out to play and was gathering armfuls of fresh daisies, he met his father who was out supervising sowing work in his farmlands. The workers seemed to be in great trouble as flocks of swallows were having a field-day with the seeds they were sowing. In fact, they were helpless about it having failed with using scare crows. So his father invited him to come over and play around the fields by throwing stones, clapping hands to frighten the birds away. Ferdinand obediently left his flowers to chase the birds away running hither and hither. Suddenly he stood still having noticed the Dome of a nearby Church through the tall trees and wished to go visit the Blessed Sacrament there.

Then with a sudden inspiration he began to shout to the birds with all his might and thousands of the swallows began to flock around him from every corner of the field forming aerial ranks to escort him towards the Church. As he climbed up the Attic and opened the large Church window, all the birds rushed inside and Ferdinand told them “now be of good behaviour” while he knelt to pray. Then he ran out and away.

A little while his father came back and asked the workers about the boy. The men reported that Ferdinand worked very hard and had gone back to play. But his father noticing the Church door ajar, quickly ran and entered the Church and saw the boy kneeling before the Tabernacle in deep prayer. When reminded of his assignment, he answered his father that all was fine and that the harvest would be a great one. Impressed by the boy's countenance, he joined him at the castle noticing that there was not even a

single sparrow in site as they passed by the farms. But on entering the Attic, it was like a giant cage filled with birds. Not uttering a word, he pressed his boy to his bosom with tears. That was St. Anthony's first miracle.

At 10, St. Anthony vowed his virginity to the BVM and his parents sent him to the Cathedral School at Lisbon. At 15 he joined the Canons Regular of St. Augustine at St. Vincent's Monastery where he devoted himself to prayer and study, edifying his companions and teachers by his innocence, study and keenness of intellect. As he often had occasion to visit home from the Monastery, he wished to more detached than that. Hence he requested the Prior to transfer him to Holy Cross Monastery in Coimbra which the Prior reluctantly acceded. He was there for eight years and later joined the Order of St. Francis of Assisi to become a member of the Friars Minor. At 25 he received the Habit of the Convent of St. Anthony of Olivere, taking **ANTHONY** for his Religious name as a mark of devotion to St. Anthony of Egypt. After making his Solemn Vows, he asked to be sent to Africa, but as soon as he reached there an obstinate fever left him too powerless to exercise his ministry and was obliged to return to Spain and was shipwrecked off the coast of Sicily.

While there he learnt that St. Francis was about to hold a Chapter in Assisi and decided to go pay respect to the Seraphic Saint. While there he decided to remain unknown to everyone. But in that obscurity and severe mortification, he stayed with the Dominicans and Franciscans. One day, the Provincial Franciscan Superior invited one of the Dominican priests to give a short sermon at a Spiritual Conference, but he refused and St. Anthony was asked take over. He did and his eloquence was so brilliant and fascinating, which made all the Religious think very highly of him. The news of his wisdom and eloquence soon reached St. Francis who gave him ample opportunities to prove himself. Then he began to undertake the preaching of the "Word of God" through towns and cities and many flocked to listen to him. Thereafter, he was posted to Rimini to fight the Patharani heresy. Even there, the heretics esteemed him as a great orator but plotting his downfall and also to take his life. One day they invited him to dinner and he accepted the invitation although he knew their wicked plan. He saw this as a chance to approach them and to deliver their minds from heresy and they seemed to attend him with difference while at the same time giving him poisoned food. But St. Anthony blessed the food and ate some of it. As they expected to see him stagger and fall dead, he found the manner with which to reproach them for their vile snare and reminded them that Jesus Christ had promised his disciples that poison would not affect them.

As they could not poison him they thought of making him useless by keeping the people away from his preaching. Soon the Saint saw the number of his auditors diminishing by the day. He prayed and received a miracle. He went to the mouth of the Marecchia River in the Adriatic, and stood at the shore between the sea and the river and spoke to the river inviting the fishes to come out and listen to the Word of God. Suddenly a great swarm of all sizes of fishes came to the shore turning towards him peacefully and orderly. Then he began to preach inviting them to thank God for giving them where to live and feed and protecting them from the deluge while other living creatures perish in the billows. Hearing these the fishes began to open their mouths bending their heads in praised of God. St. Anthony was happy at such reverence from the fishes and said aloud: "Blessed be God, He has been honoured by the fishes more than the heretics. Animals have now listened to His Word better than unfaithful men". The more he preached the more the fishes increased. The people of the city began to rush to witness such a miracle. Even the heretics also came repenting and knelling before him to hear the Word of God. Soon the heretics were converted and their Faith in Jesus Christ and that of the faithful became stronger. Then St. Anthony blessed and dismissed the fishes.

Thereafter, St. Anthony was appointed Lecturer of Theology at Bologna and students for the first time had a seasoned theological lecturer. Then St. Francis transferred him to Montpellier and thence to Toulouse to combat the heresy of the **ALBIGENSES**. Everywhere he went he won souls snatching them from the power of Satan. There in France he cured a man Leonard, who had kicked her mother on the leg

in anger. Feeling sorry he went and told St. Anthony about what he had done. On hearing of his ignoble act St. Anthony said that the foot with which he had dared kick his mother deserved to be amputated. Leonard immediately went home and amputated it. When St. Anthony heard what had happened he took the foot of the young man and miraculously healed it. These and more miracle, St. Anthony had worked.

In 1227, he was sent to Padua which at that time was torn by heresies and civil war. There he decided to live at St. Mary Mater Domini's Convent at the hermitage of Camposampiero under Count Tirso his disciple of St. Anthony then the Prior of the Monastery and accepted the Count's hospitality. One day, while in the Count's house, the Count wanted to speak to him while he was in solitude, but did not dare disturb him because of the lateness of the hour. He then went near the door and saw brilliant rays streaming from under the door. Looking through the keyhole he beheld a little Child of marvelous beauty standing upon a book which lay open on the table and clinging with both arms round the St Anthony's neck with ineffable sweetness. He was watching the tender caresses of the Saint and this wondrous Child. Then the Child vanished and St. Anthony opened the door, charged his friend for the love of Him Whom he had seen, to tell the vision to no man as long as he lived. Thereafter at the General Chapter in Assisi he begged to be relieved of the duties of Provincial to be able to dedicate himself to the preaching of the Word. With other Fathers of the Council he was sent on an important mission to Pope Gregory IX concerning the Franciscan rule. After the discharge of his duties, having received from the Holy Father the special privilege of preaching wherever he wished, he returned to Padua.

At Padua his zeal increased, but his companion, Brother Ruggero did not realize how seriously ill St. Anthony was. Hiring a small cart for him St Anthony continued in his labours with severe penance which greatly weakened his health. Then he went to Camposampiero when his illness became worse but his companion had wished he returned to Padua. Fortunately, a priest going to Camposampiero, saw that Anthony's end was near and suggested that they stopped at the nearby convent of Arcella. The Saint agreed and when they reached there he requested for the last Sacraments. While reciting his favorite hymn, “O glorious Lady”, he turned towards his eyes towards Heaven and when someone asked what he saw he answered, “I see God”. He received the Sacrament of Anointing and after reciting the Penitential Psalms, he entered upon his last agony and peacefully breathed his last on June 13, 1231. He was not yet 36 years old when he died.

6.0 THE ST. JUDE APOSTOLATE AND DEVOTION

6.1 HISTORY OF ORIGIN OF ST. JUDE APOSTOLATE

St. Jude Apostolate was founded to encourage and support worthy young men and women who offer themselves as preachers and teachers of the Word. It was founded precisely to encourage Vocations by

helping parents and relatives who might interfere with the desire of their children to answer God's Call. To understand what it would mean to have a priest or Religious in their family. The aim of the Society is also to get people – the members – to support Vocations by their contributions to help pay for their training as priests and Religious.

7. 0 THE ST. VINCENT DE PAUL ASSOCIATION

7.1 WHAT IS THE SOCIETY OF ST. VINCENT de PAUL?
The Society is a worldwide lay movement, fulfilling uniquely one of the principal apostolates of the Church. The members witness to their Christianity by bringing God's love to the Poor under the direction of a Spiritual Adviser.

7.2 The Society of St. Vincent de Paul was founded in France in 1833 by a group of students led by a law student, Frederic Ozanam. In his lifetime it grew to over 2,500 Conferences round the world. Today there are more than 75,000 Conferences with over 755,000 members working in 136 countries throughout the world. The patron Saint of the Society is St. Vincent de Paul. He died 173 years before the Society was founded, but was chosen as Patron because the name of Vincent de Paul is synonymous

with Charity. Charity or love is the same as saying God, because "God is love". The Society is therefore rooted and founded in the love of God. The Society seeks before everything else, the personal sanctification of its members, which bears fruit in acts of justice and charity towards the Poor.

For every Christian, but especially for the members of the Society of St. Vincent de Paul, the Poor person is a unique person of God's fashioning with an inalienable right to respect. "The Poor are our Lords and masters" St. Vincent.

Pope Paul VI, in an audience given to members of St. Vincent de Paul Society, acclaimed their word as "a great testimony of living Catholicism". You give witness to Christ in the Church of the Poor. The critic from outside is impressed. If he wants to understand you he must look for that mysterious religious vitality which animates your silent work of love. And those others; too, see you living the Gospel, those to whom you direct your steps, and whom you do not call by the name of Poor. but by that of friend and brother

The rule of the Society is unique, beautiful in its simplicity and service, operating under the inspiration of Jesus Christ Himself who sad "I am the way the truth and the life, no one comes to the Father except through me" **(Cf. Jn 14:16)**. "I give you a new commandment, love one another as I have loved you" **(Cf. Jn 15:12)**.

7.3 THE LIFE AND TIME OF THE FOUNDER OF THE APOSTOLATE: FREDERIC OZANAM

Frederic Ozanam was the 5th child of a family of fourteen born to Dr. and Madam Ozanam on the 23rd April 1813. The Ozanams were a very prosperous, educated and religious French family.
His parents taught him from his younger days the love of God and their deep sympathy with the poverty-stricken of the society. They taught him to seek and to find Christ in the person of all those who were bearing the burden of social injustice. Having completed his schooling very successfully, his father decided to send Frederic to the Sorbonne University in Paris.

On arriving in Paris, Ozanam entered the Law School. He was surprised to find that the Professors in the course of their lectures took every opportunity to attack Christianity, and Catholicism in particular. Ozanam objected to these attacks and being a committed person to his faith defended his Christianity. Gradually some other students supported him and together they stood firmly united against further attacks from both professors and students. One day, during a heated anti-clerical debate, Ozanam and his colleagues were severely challenged "show us your works and we will believe in you." Ozanam realized now that controversy led nowhere, example was the important thing; and his search led him to the poor. "It is not enough to believe or even to defend the faith, not enough to adore the God of the Gospel; one must follow Christ in the service of the poor."

Ozanam and his five companions, Austinne le Taillandier, Francois Lallier, Paul Lamache Feli Ciave, and Jules Devaux undergraduates and under twenty years of age, did not know where to begin with charitable works. Fortunately, they became acquainted with a Daughter of Charity, Sr. Rosalie Rendu, who guided their first steps towards the poor, the suffering and the deprived. She introduced them to service of the Poor by giving them a list of poor families to visit together with a supply of food for distribution.

Ozanam and his five companions arranged their first Conference Meeting for the 23 April, 1833. They wisely invited their friend and advisor, an ex-professor of Philosophy, Professor Bailly to be their Chairman ensuring from the onset a perfect blend of the enthusiasm of youth and the experience of age. This was now called "the Conference of Charity; and it sought in a spirit of justice and charity to help the poorest of the Poor. From now onwards, these great-hearted and spirited young men of comfortable means were giving services and friendship to the Poor in the slums of Paris each week. Their proceeds from the secret bag collection would have been meager enough, as all the members with the exception of one, were students. However, they gave whatever material help they could but above all they gave

themselves, their time and their talents to the Poor.
One year later, that was 1834, membership had grown to over 100. Frederic Ozanam proposed that the work of the Conference of Charity be placed under the patronage of St. Vincent de Paul, the servant per excellence of the Poor, henceforth; the conference of charity adopted the name of "Society of St. Vincent de Paul.

Ozanam continued his studies, qualified as a barrister and was subsequently awarded Doctorates in Law and Literature. Because of his brilliant success he was offered many important appointments as a Lecturer and later as a Professor. Lacordaire called Ozanam "the greatest Catholic of his day." He could communicate in seven languages. However, his heart was always with the Society of St. Vincent de Paul. Even if Frederic Ozanam held with great distinction a Professorial chair at the Sorbonne University of Paris, he still could find time along with the other members of the Society to visit, talk with, and assist the poor families who were showing so clearly the effects of poverty. It was not the exciting discoveries of the scientific world of the time that riveted the attention of the brilliant Professor from the Sorbonne University but the sufferings of Christ in the Poor of Christ.

Ozanam insisted that personal contact with the Poor was of fundamental importance., He insisted that each member of the society must visit a poor person or a poor family each week and it must be a work of love and unlimited kindness. He was also convinced that personal sanctification was of prime importance and that it was not enough to witness to Christ by charitable works but that the members should live closer to God in their personal daily lives. Ozanam worked very hard all during his life. His health was not robust, so at the age of 40 he died at Marseilles on the 8th of September 1853 leaving a wife and one daughter. His body was conveyed to Paris and now rests in the crypt of the Carmelite Church. His tomb is a place of pilgrimage for Vincentians from all over the World.

The cause for his beatification was opened in Paris on the 10th June 1925 at which His Eminence, the Cardinal Archbishop presided. It advanced a step when Pope Pius XII signed the decree of the "Introduction of the Cause" On 12th January 1954. The next stage was completed in 1956 and the official title of Frederic Ozanam became "Servant of God." The beatification of Frederic Ozanam took place in Paris on Friday 22nd August 1997. We now have him called Blessed Frederic Ozanam by the Holy Mother the Church. The Society members and their friends throughout the world are now praying for an early canonization of Blessed Frederic Ozanam.

7.4 PRAYER FOR THE CANONIZATION OF BLESSED FREDERIC OZANAM

LORD, Bless the Cause of the Canonization of Blessed Frederic Ozanam who followed your example by embracing the whole world in a network of love. May we be challenged by his life; inspired by his work and consoled by his great faith in you. We ask this through Christ our Lord. Amen.

7.5 QUOTATIONS FROM THE WRITINGS OF FREDERIC OZANAM 1853

"If 1 have to leave this earth without having done all that 1 wanted to do, one thing alone could console me that 1 have never worked to attract the praises of men, but only to serve the truth."

"The Poor are there... We should fall down at their feet and say to them: for us, you are the holy images of the God we cannot see, and not knowing any other way of loving Him, we love Him in you".

7.6 PETITION PRAYER FOR SPECIAL FAVOUR

O God our Father, you alone have the power to bestow those precious gifts of yours which we rightly call miracles. If it is your will, be pleased to grant such a gift on behalf of (**Mention the intentions of the person/s being prayed for).** We humbly ask that you grant these favors to glorify your holy servant, Frederic Ozanam, that they may serve to have him called 'Saint by our holy mother the Church We make our prayer through Our Lord Jesus Christ, your Son, Amen.

7.7 SAINT VINCENT DE PAUL PRINCIPAL PATRON OF THE SOCIETY

Vincent a man touched by the finger of God's own holiness, often referred to as the "Apostle of Charity."

CHILDHOOD: St. Vincent, the third of six children of his parents was born in Landes near Dax in South of France not far from Lourdes on the 24th April, 1581. His parents were very good Catholics, hard-working and concerned for the moral and spiritual training of their children. From childhood, Vincent learned to be generous and kind-hearted, especially to those in great need, His parents taught him that those who give to the poor give to God Himself.

VOCATION: St. Vincent was an intelligent young boy and his father sent him to College. He aspired to the Priesthood. One of his motives for this choice was to live comfortably and to be in a position to help his family. Eventually, Vincent was ordained a priest in 1600. At first he worked in the Parish Ministry. While working as a priest, a distant relation of his died bequeathing a legacy to him. Vincent had to travel to Paris to sign legal documents with the deceased relation's solicitors. In Paris, and upon completing the formalities, Vincent decided to return to his station by sea. His journey by sea was the beginning of his sufferings and humiliations, as the ship in which he sailed was attached by pirates and he was mortally wounded and captured. Thereafter his captors sold him into slavery in Africa. In slavery he continued to change from one master to another until he was eventually sold to another French national who originally was a Catholic but later converted to Islam in Algeria. It was in the course of his suffering under this master that God intervened to reveal the identity of Vincent to this new master, who not only regretted having subjected him, a priest of God to such torture but also repented and granted Vincent his freedom. This French national after granting Vincent his freedom returned to France and once mere converted to Christianity (Catholic). During these years be underwent very great humiliations, difficulties, and suffering of all kinds. Later Vincent was given important position Chaplain to Queen Marguerite in the Royal household and later to the aristocratic Gondi family. This gave him the opportunity of seeing and experiencing the standards and values of the rich in contrast to the suffering of vast multitudes of the people of France who were poor and deprived.

CONVERSION: "Our ways are not God's ways. "Divine Providence was guiding Vincent along, even when he was going through a crisis of faith, which could be called "the dark night of the soul." Having gone through this spiritual experience, which was the turning point in his life, Vincent found Christ in a new way, through the Poor. He now detached himself from his family, and resolved to spend the rest of his life in the spiritual and material relief of the Poor.

COLLABORATORS: Charity is a heavy burden to carry, and it soon became clear to Vincent that he needed others to help him in following the Gospel values and in alleviating the sufferings of the Poor.

7.8 VINCENTIAN COMMUNITY OF PRIESTS AND BROTHERS

St. Vincent gathered together a few individual priests who felt a genuine love for the Poor. In those early days they concentrated on parish missions and retreats, and preparing men for the Priesthood. In 1625, they formed themselves into a community and officially were known as the "Congregation of the Mission", better known today as the "Vincentians". The community developed and grew and today the Vincentian Priests and Brothers work in about 60 countries continuing the services and ideals begun by St. Vincent de Paul in the early 17th century.

Among their many Apostolates in Seminaries, Parishes, Missions, etc., the Vincentians are often involved as guides and advisers to the Society of St. Vincent de Paul. In many countries including Nigeria, the Vincentian Priests are the National Diocesan Spiritual Directors, whereby they can promote and share the spiritual heritage of St. Vincent de Paul within the Society.

7.9 THE DAUGHTERS OF CHARITY: FOUNDED BY MARILLAC IN 1633

St. Vincent was "saturated with divine charity" and God acted through him. With the cooperation of Louise de Marillac in 1633, they founded the Daughters of Charity. They devote themselves entirely to the alleviation of the lot of the Poor they proclaim the Gospel to them explicitly wherever possible, but always through the witness of their lives.

7.10 THE CHARITIES INVOLVING THE LAITY IN ST VINCENT DE PAUL APOSTOLATE

St. Vincent discovered very quickly that the works of caring for the spiritual and physical needs of the Poor were very great. He therefore involved many lay people in his projects of organizing relief. He appealed especially to the rich to manifest a concern and compassion for the sufferings of the Poor by sharing their wealth with them. Vincent instructed these people to exercise their charity in a spirit of faith and hope and in imitation of Jesus Christ. Since that time many catholic Action Groups have grown in the Church. The Decree on the Apostolate of the Laity teaches that the laity are called by God so that by exercising their proper function and being led by the Spirit of the Gospel they can work for the sanctification of the world from within, in a manner of leaven.' Certainly the Society of St. Vincent de Paul is answering the call of the church in fulfilling their role as Vincentians.

7.11 SPIRITUALITY OF ST. VINCENT DE PAUL

"Give me a person of prayer and he/she can do all things" are the words of St. Vincent. St. Vincent had a deep spiritual life. He knew the Gospel intimately and therefore the spirit of the Gospels permeated his prayer, his works and all his interactions with people, the rich and poor alike. He had a deep devotion to the Eucharist the centre of his life and from here he drew his strength to love all mankind. Towards the end of his life, he would spend many hours a day in private prayer. In this way the love of God was poured into his heart everyday and he was able to be "all things to all men in order to win all to Christ." St. Vincent de Paul died in Paris on the 27th September, 1660 and was Beatified on the 13 August 1729. He was canonized on the 16h June, 1737. Pope Leo XIII declared him Patron Saint of all works of Charity in the whole world, which in any way originated from him.

7.12 THE FIRST CONFERENCE OF THE SOIETY

In 1833, when Frederic Ozanam and his companions decided on a life of dedication to the neighbor, a Daughter of Charity, Sister Rosalie Rendu had a very determining influence in helping them to seek out and in bringing practical help to the poor people in the slums of Paris. Ozanam was a University student at this time, and he needed the guidance of an experienced person working with the Poor, so he personally asked Sister Rosalie to assist him and his companions in their new apostolate. She gave them a list of destitute families in her district and sufficient money for the immediate needs of providing food and other necessary provisions for these poor families. Sister Rosalie also assigned a room in the Sister's house for their meetings, which she herself attended. Perhaps this is one of the reasons that this lay association is so **Vincentian in character**.

The relationship of the society with the direct disciples of St. Vincent has been strong from the onset, seeing that it was a Daughter of Charity, Sister Rosalie Rendu, who directed the first steps of Frederic Ozanam and his young companions towards the Poor in the deprived areas of Paris. Down through the years, on the international level, the same kinds of collaboration and co-operation have developed between the conferences and the different branches of the Vincentians and the Daughters of Charity. On the other hand, the Vincentians and the daughters of charity have received a lot of support, spirituality and morality, from the members of the society. This is also very evident in Nigeria.

7.13 ST. VINCENT de PAUL SOCIETY ORDER OF DEVOTIONS

7.13.1 **THE OFFICERS:** The Conference of St. Vincent de Paul Society is directed by a President, who is elected by a secret ballot of the conference for a period of three years. He/She may be re-elected for a further period of three years, but not longer than six consecutive years at any one time. The upper age limit for election of a President is 70 years. To qualify for election as President, a candidate must have been a member of the Society for at least three years except in young Conferences where the conference itself is not up to three years old, in which case the election must be supervised by the next higher Council.

At least three months' notice with the name of Candidates for the post of Conferences or council President will be required by the Higher council before any election. It will be the responsibility of the higher Council President to screen and approve the candidature taking into consideration the following: (a) Ability of the candidates to write. (b) Ability to organize and conduct meetings. (c) Ability to attend Council meetings. (d) Ability to prepare Conference and Council Annual Reports as and when due and send such report to the higher Council not later than January following the end of Vincentian year. It is the duty of the higher Council President to conduct the election of the lower Council or Conference President. In the case of educational institution where there is no suitable person with the required qualifying experience, the advice of the responsible Council should be sought. The President of the particular or other appropriate Council for good reason may annul the election of a Conference President or remove a Conference President from office after consulting the council. This authority is delegated to the council president by the National President. The member will immediately cease to exercise the office and may appeal to the National Council. The election of a President must be notified in writing within four weeks from the date of election to the appropriate Council.

The President is assisted by a Board whose members are appointed by the President after consultation with the Conference. The Board should include at least one Vice President, a Secretary and a Treasurer. If the needs of a Conference so demand, the Board may be expanded to include the officers to undertake special responsibilities or projects. The composition of the board may be changed at any time but, its members cease to hold office, when a new President takes up office. None of the principal officers of a conference or board should be a relative of the president. The President is at the service of all those aided by the Conference and of Conference members. The functions of the President are to direct and inspire the Conference, to ensure that the work of the Conference 1s carried out with sympathy and efficiency and to maintain liaison with the Council to which the Conference is attached, with neighboring Conferences and other organizations and to strive for growth and continuity of the Conference. The Vice-President cooperates with and assists the President and deputizes when the President is absent. The Secretary prepares the Minutes of Conference meetings, ensures that all necessary records are kept, and that correspondence is attended to promptly.

The Treasurer is responsible for keeping an accurate and up-to-date record of the funds of the Conference, the accounts of which must be audited at least once a year by two Conference members who are not members of the Board or qualified person or organization appointed by the Conference. The Treasurer is also responsible for forwarding to the responsible council an annual statement of accounts of the.

7.14 THE SPIRITUAL DIRECTOR/ADVISER OF ST VINCENT'S SOCIETY

Since the beginning of the Society, a spiritual adviser has been appointed to help encourage spiritual life within the conference and councils under the guidelines of the Holy Spirit and in conformity with the internal statutes of the Society. Should a member of the ordained clergy i.e. a priest or a deacon not be available to act as the Spiritual Adviser., the President of the Council or Conference, after consultation with the members and with the President of the next higher council may appoint a lay person who has had training of spiritual advisors. At the Conference and Council Levels appropriate church protocol should

be observed when appointing ordained Spiritual Advisers. Priest and deacons are not eligible to be elected or appointed to any office in the society outside of their Spiritual role.

7.15 OFFICERS OF THE CONFERENCE OF ST VINCENT de PAUL

7.15.1 PRESIDENT: The Conference President is elected by the members, in accordance with the Rule, for a period of three years. He/she may be re-elected for a second term of office but not for a third consecutively. He/she can serve again as President at a later time. The duties of the President will include: chairing Conference meetings, motivating and developing the Conference, appointing the Board, acting as public relations officer for the Conference and Society locally, attending Central council meetings, representing the Conference in contacts with other organizations, being involved in recruitment, and training and new development.

17.15.2 QUALITIES: The President is someone who must know the organization thoroughly, understand how it works, and have the right commitment, attitude and time to give to the job. The President is more than a leader of a group or chairman of a local meeting. He/she is the officer of an association with local, diocesan, regional and national ramifications. He/she has to make time for one weekly Conference meeting, to attend Council meetings and ideally should be a contact with other relevant local organizations.

In essence, the role comes down to three main qualities: the ability to organize, the ability and willingness to delegate and the ability to motivate. All this may seem like a formidable list of qualities, and many may believe they would be unworthy and incapable of the office. But just to underline the point that the hand of Divine Providence assists the Society, a Conference President is often a reluctant candidate, and yet once in office usually grows into the job, and manages very well indeed.

7.15.3 THE PRESIDENT'S ROLE: PREPARING FOR THE WEEKLY MEETINGS: The attitude and approach of the President sets the tone for the weekly meeting. As well as being familiar with the Society's rule and traditions, the President should ensure that there is: a planned agenda, a realistic allocation of time available, an efficient approach to discussion, a friendly and business-like atmosphere.

7.15.4 PLANNING THE AGENDA: The president, (in consultation with the Secretary) should plan the weekly Conference meeting agenda, in advance. The value is that it should result in a completed agenda one that is not overloaded, and in a meeting where important issues are allocated sufficient time for discussion. A well-briefed President is one who has prepared for topics likely to be raised. The value of an agenda is that it offers both flexibility and structure to deal with non-routine items. Many society meetings have no formal agenda. This means that if something unusual arises, which merits special discussion, it may be relegated to the end of the meeting under "Any Other Business." Such discussions can be hurried, relevant facts may be unavailable, and unsatisfactory conclusions reached due to lack of preparation. So in planning the agenda the President should be clear why each item is included, and realize that not all items have the same importance. More important items should be given priority, and prepared for adequately.

7.15.5 CHAIRING THE WEEKLY MEETINGS: The personality of the President will affect the tone and scope of Conference meetings. Meeting should be pleasant, friendly and efficient, and members should feel genuinely wanted. They should know they are participating in and shaping the work of the local Conference without becoming too heavily burdened with chores. Dull meetings have a bad effect. The President will influence proceedings efficiently by: guiding the meeting, exercising control and discipline, minimizing irrelevancies and aiming at collective thinking to get a consensus for a particular course of action.

7.15.6 APPOINTING THE BOARD: Collectively the officers, with the President, are known as the Board. The President appoints the Board, including perhaps some members with special roles such as for instance, experience in fund-raising or in working with elderly people. The functions of the Board are to help in organizing the work of the Conference, plan for future activity, consider any particular problems which may arise between Conference meetings, as well as sharing the work so that the President doesn't become overloaded. These officers of the Board are more than supporters for the President. Any of them is a potential successor. Consequently, their offices should rotate, so that each Conference member, young, old, male or female, will have an opportunity to serve.

7.16 ESTABLISHING LOCAL CONFERNCES OF ST. VINCENT de PAUL

It is the job of the President to establish the Conference on the local map as an effective, caring community initiative. The Conference should be known to the local people who may need its service: People in need should know how to contact the Conference and be aware of its various services, such as direct financial help, advice, clothing, food and so on. The local conference should make sure that key people and agencies in the community are informed of the Society's availability; and that they are encouraged to draw our attention to any situation in which they consider we might be of help. The attitude of the President will affect the way needy people are treated, People in need should be received in a courteous and confidential way. It is up to the President to set the tone of the Conference in how they are dealt with. It should meet their needs without diminishing their dignity.

7.17 MEMBERS OF THE PUBLIC WHO WISH TO HELP

The conference should have a presence locally so that members of the public who want information, who want to contribute in cash or in kind to the organization, will know how to get in touch. They should have Resource people who support the Conference or refer people to it: The local President should make contact with the local clergy of all denominations, with doctors, police and other resources people, e.g. Social Workers, Welfare Personnel etc. They should form Organizations with whom to share activity so that that the Conference can most fruitfully work with local caring Committees or Associations like the Red Cross and others. This Consultation and co-operation could take place on a variety of projects including transport, other services, sharing information and resources as appropriate.

7.18 ESTABLISHING GOOD INTERNAL RELATIONS

Within the Society, the President has a role towards new members, existing Conference members, Board members, Central council members and President of the Metropolitan and National Council members.

NEW MEMBERS: The President should extend to new members a warm welcome, offer information and guidance as required, He/she should trust them with responsibility, and listen to any new ideas they may have

The President should have an open and friendly attitude to existing members. He/she should encourage them to have new ideas, listen to their point of view, offer them opportunities to contribute, and encourage them to participate in training. The President should work closely with the Board for the good of the Conference, delegate duties, trusting Board members with responsibility and sharing the workload as appropriate. The President should recognize attendance at Central Council Meetings as an important two-way link between the Conference and the Society as a whole. This is likely to be the case if he/she attends Central Council Meetings regularly. He/she should listens speak and participate at them, bringing news of Conference activities to Central Council level, sharing information, problems and developments. The President should use Central Council contacts to meet Conferences and share experience and resources with them. The President's commitment to the Central council will also show itself in the way he/she responds to Council request for information and/or Council directives, and policy statements, and

in the way he/she motivates conference members to undertake new initiative emanating from the Central Council and, indeed from higher Councils.
Other roles of the President include Public relations, Recruitment and Development.
Finally, it is the duty of each Conference President to ensure that an annual report is prepared, in which full details of membership, workload, activities and financial statements are included.

THE VICE PRESIDENT: A good Vice President ensures that the work of the conference and the service of the poor goes on in the event of absence or incapacity of the President. He/she is a full and real officer of the local Conference, and is sometimes described as the President's 'right arm.' His/her duties include: working with and assisting the President; deputizing for the President as necessary; working on duties as delegated by the President and taking the responsibility of ensuring that the Conference continues to run smoothly if the President is unable to fulfill this role.

TREASURER: The Treasurer will ensure that Conference funds are held safely and that proper records are kept of income and expenditure. Specifically, the Treasurer is responsible for the finances of the Conference. His/her duties include: keeping records of income and expenditure for insertion into weekly minutes, seeing that bills are monitored and paid, acknowledging all donations and contributions when possible, (some are received anonymously). His duty is to prepare audited statements for internal reports, and for the public as required, accounting at any time, when legitimately asked, for the disposal of local Conference resources and ensuring that the conference's contributions to the Central, Metropolitan and National Council are made.

THE SECRETARY: A conscientious Secretary maintains the good name of the Society in the community by seeing to it that the public is kept well informed of the activities of the Conference, and ensuring that the Conference deals with the public in a courteous, efficient and co-operative way. The specific duties of the Secretary include: keeping the minutes of meetings, dealing with correspondence, keeping family visitation registers and/or records of special works, preparing the agenda for meetings in consultation with the President.

He has to prepare the Minutes which must contain: the date and place of meeting, the statement that the minutes of the previous meeting were read, approved, (or amended) and signed. He should keep a record of those present, and any who sent apologies for being unable to attend; a brief report on the general business of the meeting of the day; a more detailed report of the important items discussed, and action agreed with names of those responsible for carrying it out, and proposed timetable. The minutes also must contain a record of expenditure authorized and income received since the previous meeting, and a record of the balance in Bank reported by the Treasurer. Personal details of families or hospital patients should not be recorded in the Minute Book, to preserve confidentiality in case it is lost or mislaid. All letters both internal and from the public should be discussed and dealt with promptly.

The Secretary will normally be responsible for the maintenance, custody and compiling of a simple record system. When records are kept, it is suggested that family details be recorded as follows: identity of person or family (name, address), personal or family situation (married, single, single parent, widowed), number, age and sex of children if any; income/entitlements being received, nature of problem (e.g. unemployment, homelessness, desertion). All Minutes Books should be kept safely between meetings. It is important too that other confidential information, such as family records should be kept secure at all time. This is particularly relevant for Conferences who don't have anything as elegant as their own meeting room, but may have to share, say, a room in a local hall with other groups, each one meeting on a different time in the week. Under these Circumstances, when books and files have to be moved, it is important to take special care that nothing gets lost, mislaid or falls into unauthorized hands.

In preparing for the next week's Meeting: he should get prepared with a planned agenda which is more likely to be an effective meeting. Any preparation and Agenda planning must be done by the Conference President in consultation with the Secretary.

With the approval of the National Council; Particular, Central and Metropolitan councils may be established. The National Council determines their boundaries. Councils shall include in their name, the area they serve, to distinguish between them.
Art. 14: A Particular council is composed of the Presidents, of Conferences attached to it. It has responsibility for either a specific geographic region, e.g. a town of a particular work or works.
Art. 15: A central council is composed of the Presidents or their representatives of the Particular councils attached to it, and the Presidents or their representatives of Conferences which, because of their location, are not attached to particular councils. Its jurisdiction covers a geographical area, eg. L.G.A., State, Diocese.
Art. 16: A metropolitan Council normally covers an area in which there are two or more Central Councils.
Art. 17:1 Metropolitan Council is elected through secret vote by all the members of that Council. The President, who holds office for three years, may serve more than one term in office, but not more than six consecutive years at any one time. The upper age limit for the election of a President is 70 years. To qualify for election a candidate must have been a member of the Society for at least 5 years in the case of a Central or Particular Council or at least 7 years in the case of the post of President of Metropolitan Council. 1f there is no suitable person with the required qualifying experience within the Council, the advice of the next higher Council must be sought. The election of a President must be notified in writing to the next higher Council within four weeks or such extended time as the next The President of a Particular, Central or higher Council may grant.
Art. 17.2 After consulting his or her Council, the President of the next higher Council may annul the election of a Council President or remove a Council president from office. The authority is delegated to the Council President by the National president. The member may immediately cease to exercise the office and may appeal to the National Council.
Art. 18: A Council President may appoint in a personal capacity other members to the Council, subject to the approval of existing members of the Council. The number of such personally appointed members may not exceed the number of ex-officio members, and they cease to be members when a new President takes up office. (a) Leadership positions in the society, at any level, are always to be accepted as service to Christ, the members, and the poor. Servant leaders imitate Jesus who said "For the son of man came not to be served but to serve, and to give His life as a ransom for many" **(Cf. Mk 10:45)**. (b) The President is

assisted by a board whose members are appointed by the President after consultation with the conference. The Board should include. (i) At least one Vice President (ii) A Secretary and (c) A Treasurer

These Officers are members of conferences and they are to carry out their tasks with the same dedication with which they work within their own conference. None of these Principal officers of a council or Board (including at National level) should be a relation of the President. The President of any Council to which one of the Society's special works belongs, shall be entitled, after due consultation with the National Council and evaluation of the legal consequences to replace the members of the Board of Management of that special Work and any of its employees regardless of their function. Council Presidents are entitled to have access to all correspondence sent by any subsidiary Conference on behalf of the society. This same authorization is applicable to any Council with regard to any other Councils under its jurisdiction.

Art. 19: A member of a Council other than one appointed under Article 18 if unable to be present at a Council meeting, may send a representative, preferably a Vice- President or other Board member of the Council or conference represented.

Art. 20:1 A Council, in its task or animating and coordinating the work of Conferences and Councils within its jurisdiction, shall: (a) Receive and examine annually the reports of Council or Conference activity and transmit these reports with its observations to the next higher Council as speedily as possible. (b) Encourage initiatives and strive to bring about the establishment of Conferences. Councils and new works and the revival of dormant and defunct Conferences. (c) Present to the Council to which it is attached petitions for aggregations and institutions for transmission to the International Council General. (d) Organize to the fullest possible extent training and formation sessions intended for members and potential members. (e) Co-ordinate the work of the Society as a whole. In so doing, it keeps in regular contact with Conferences and Councils and informs them of the activities of the Society. (f) Represent the Society in the area before all civil and religious authorities. (g) At least once a year, each council must evaluate its service to the members, to the poor, the effectiveness of its special works, etc and explore ways to provide better service. It should also consider new types of need to alleviate and how to find those in need.

Art. 20.2 Festival Meetings: At least two Festival meetings a year shall be observed preferably on, or near two of these three dates:

- The feast of St. Vincent de Paul (September 27)
- Feast of Immaculate conception, Patroness of the Society (December 8)
- The Birthday of Blessed Frederick Ozanam (April 23)
- The mass of the four intentions for the Church, the Pope, the Society and the country should be offered on one of these occasions.

Festival meetings promote friendship between the members sharing of experience and good practice, mutual support between conferences and members, provide information that is useful for members in their work and emphasize that members are part of a worldwide Vincentian family.

Art 21:1 Each Council determines the frequency of its meetings, in agreement with the next higher Council. The Board of a Council meets regularly and frequently.

Art. 21.2 Youth committees are also to be promoted at the various council levels when circumstances permit. Such committees shall have the same relationship with the council under which they operate, as the rest of the committees linked to the same council to avoid the creation of a parallel organization.

Particular Councils are Councils which co-ordinate the activities of Conferences in a particular town. Central Councils are responsible for dioceses. Metropolitan Councils co-ordinate the activities of the Central Councils within the Archdiocese.

COMPOSITION OF COUNCILS (i)Particular Council: Presidents of Conferences, plus members appointed in a personal capacity by the Council President.
Central Council: Presidents of Particular Councils and Conferences where there is no Particular Council, plus members appointed in a personal capacity by the Council President.
Metropolitan Council: Presidents of Central Councils and of Particular Councils and Conferences where there are no higher Councils, plus members appointed in a personal capacity by the Council President.
A Conference President is expected to take his membership of a Council very seriously. If for any reason he cannot attend a Council meeting, he should be represented preferably by a member of the Board of his Conference, He should not regard his Council membership as one that can be filled by anyone willing to act for him. If he cannot find time to play his proper role as member of his Council, he may well consider giving up the post of Conference President. Members appointed in a personal capacity may not exceed the member of ex-officio members. The intention here is that a Council's policy by appointing members who would do his bidding. While Presidents of Councils are most unlikely to act in this way, it has been thought desirable to take account of the possibility. Such members must resign with the President to enable the new President to bring new blood on to the Council, if he so wishes.

COUNCIL PRESIDENT: What has been said about Presidents and other officers in the Commentary on Conferences applies to the President and officers of Councils. However, some further comments are required on the duties of a Council President. First and foremost, his main loyalty must be to his Council. It is important that he must be a member of a Conference, but he certainly should not be a Conference President. The view has been expressed that active membership of a Conference is essential if one is to keep in touch with reality and that Council officers who devote themselves solely to administration create a barrier between themselves and ordinary members. This is debatable, but, in any event, administration in these complex times is a task in itself. If it is combined with active Conference work, both jobs may suffer.

8.0 DIVINE MERCY APOSTOLATE - NIGERIA

8.1 HISTORY AND ORIGINS OF DIVINE MERCY APOSTOLATE

Saint Maria Faustina Kowalska, known today the world over as the "Apostle of The Divine Mercy," is numbered by theologians among the outstanding mystics of the Church. She was the third of ten children born into a poor and pious peasant family in Glogowiec, a village in the heart of Poland. At her baptism in the nearby Parish Church of Swinice Warckie she was given the name "Helena." From childhood she distinguished herself by her piety, love of prayer, industriousness and obedience as well as by her great sensitivity to human misery. She had hardly three years of schooling, and at the age of fourteen she left the family hearth to help her parents and to earn her own livelihood serving as a domestic in the nearby cities of Aleksandrów and Aódz. When she was only seven (two years before her First Holy Communion), Helen already sensed in her soul the call to embrace the religious life. When later she made her desire known to her parents, they categorically did not acquiesce in her entering a

convent. Because of this situation, Helen strove to stifle this divine call within her. Pressed on, however, by a vision of the suffering Christ and by the words of His reproach: "How long shall I put up with you and how long will you keep putting me off?" **(Cf. Diary 9)**, she began to search for a convent to join.
She knocked on many a convent door, but nowhere was she accepted. Finally, on August 1, 1925, Helen crossed the threshold of the cloister in the convent of the Congregation of Sisters of Our Lady of Mercy on Zytnia Street in Warsaw. In her Diary she declared: "It seemed to me that I had stepped into the life of Paradise. A single prayer was bursting forth from my heart, one of thanksgiving" **(Cf. Diary 17)**.

After a few weeks she experienced nonetheless a strong temptation to transfer to a different congregation in which there would be more time for prayer. It was then the Lord Jesus, manifesting to her His wounded and tortured face, said: "It is you who will cause Me this pain if you leave this convent. It is to this place that I called you and nowhere else, and lit is here] I have prepared many graces for you" **(Diary, 19)**.
Upon her entrance to the Congregation, Helen received the name St. Mary Faustina. She spent her Novitiate in Cracow and there, in the presence of Bishop Stanislaus Rospond, she pronounced her first Religious Vows. Five years later, she made her Perpetual Profession of the Vows of Chastity, Poverty and Obedience. She was assigned to work in a number of the Congregation's houses, but for a longer period in those of Cracow, Plock and Vilnius, fulfilling the duties of cook, gardener and doorkeeper. To all external appearances nothing betrayed her extra- ordinarily rich mystical life. She zealously went about her duties, she faithfully observed all the religious rules, she was recollected and kept silent, all the while being natural, cheerful, full of kindness and of unselfish love of neighbor.

Her entire life was concentrated on constant striving for an even fuller union with God and on self-sacrificing cooperation with Jesus in the work of saving souls. "My Jesus" -she avowed in her **Diary** "You know that from my earliest years I have wanted to become a great saint; that is to say, I have wanted to love You with a love so great that there would be no soul who has hitherto loved You so" **(Cf. Diary 1372)**.
It is her **Diary** that reveals to us the depths of her spiritual life. An attentive reading of these records offers a picture of the high degree of her soul's union with God: the great extent of God's company keeping with her soul, as well as her efforts and struggles on the way to Christian perfection. The Lord endowed her with great graces: with the gift of contemplation, with a deep knowledge of the mystery of the mercy of God, with visions, revelations, the hidden stigmata, with the gift of prophecy and of reading into human souls, and also with the rare gift of mystical espousals. As lavishly gifted as she was, this is what she wrote: "Neither graces, nor revelations, nor raptures, nor gifts granted to a soul make it perfect, but rather the inti-mate union of the soul with God. ... My sanctity and perfection is based upon the close union of my will with the will of God" **(CF. Diary, 1107)**. The austere lifestyle and exhausting fasts that she imposed upon herself even before joining the Congregation, weakened her organism to such an extent that already during her postulant ship, it became necessary to send her to Skolimów near Warsaw to restore her to health. Towards the end of her first year of novitiate she was visited by unusually painful mystical experiences of the so-called dark night, and later by the spiritual and moral sufferings related to the accomplishment of the mission she was receiving from Christ the Lord. [St.] Faustina laid down her life in sacrifice for sinners and on this account she also sustained diverse sufferings, in order by means of them to come to the aid of their souls. During the last years of her life inner sufferings of the so-called passive night of the soul and bodily diseases grew in intensity. The spreading tuberculosis attacked her lungs and alimentary canal. For this reason, twice she underwent several months' treatment in the hospital on Pradnik Street in Cracow.

Physically ravaged, but fully mature spiritually, she died in the opinion of sanctity, mystically united with God, on October 5, 1938, hardly 33 years old, having been a religious for 13 years. Her mortal remains were laid to rest in the common tomb in the convent's cemetery in Cracow-Lagiewniki. In 1966,

during the informative process towards Sister Faustina's beatification, they were transferred to the convent chapel. To this simple, uneducated, but courageous woman religious, who trusted Him without limit, Our Lord Jesus consigned the great mission to proclaim His message of mercy directed to the whole world: "Today," He told her, "I am sending you with my mercy to the people of the whole world. I do not want to punish aching mankind, but I desire to heal it, pressing it to My Merciful Heart" **(Cf. Diary, 1588)**. "You are the secretary of My mercy; I have chosen you for that office in this and the next life" **(Cf. Diary, 1605)** "to make known to souls the great mercy that I have for them, and to exhort them to trust in the bottomless depth of My mercy" **(Cf. Diary, 1567)**.

8.2 ST. FAUSTINA'S MISSION AND APOSTOLATE

In short, her mission consists in reminding us of the immemorial, but seemingly forgotten, truths of our faith about God's merciful love for men, and in conveying to us new forms of devotion to The Divine Mercy, the practice of which is to lead to the revival of the spiritual life in the spirit of Christian trust and mercy. St. Faustina's Diary, which Jesus Christ ordered her to keep during the last four years of her life, is a kind of journal in which the author recorded current or retrospective events related primarily to the "**ENCOUNTERS"** of her soul with God. A rigorous, scholarly analysis of her notebooks was necessary to extract from them everything which is considered essential to her mission. This work was accomplished by an eminent and highly esteemed theologian, the Rev. Professor. Ignacy Rózycki. A brief summary of his scholarly and theological work is published under the title "**THE DIVINE MERCY: BASIC CHARACTERISTICS OF THE DIVINE MERCY DEVOTION**. Compared to this important theological work, all previous publications on the Divine Mercy devotion, related to us by St. Faustina, seem to be concerned only with some of its elements or with more secondary matters. For example, in some instances, emphasis is placed on the Litany or the Novena to The Divine Mercy, leaving aside the Hour of Mercy. Fr. Rózycki draws our attention to this fact by saying: "Before we acquaint ourselves with the specific elements of the Divine Mercy devotion, we need to notice that among them we won't find any of the well-known or beloved novenas or litanies." The basis for selecting these, and no other, prayers or religious practices, as the new forms of the Divine Mercy devotion, are the specified promises attached to them, which the Lord Jesus promised to fulfill on the condition of one's trust in God's goodness and of mercy towards one's neighbors. Rev Rózycki points out that there are five elements of the devotion to The Divine Mercy.

THE IMAGE OF THE MERCIFUL JESUS" (a) Its pattern was revealed in the vision St. Faustina had on February 22, 1931, in her convent cell at Plock. "In the evening, when I was in my cell," she recorded in the **DIARY**, "I saw the Lord Jesus clothed in a white garment. One hand [was] raised in the gesture of blessing, the other was touching the garment at the breast. From beneath the garment, slightly drawn aside from at breast, there were emanating two large rays, one red, the other pale. After a while, Jesus said to me, "Paint an image according to the pattern you see, with the Signature: Jesus, I trust in You" **(Cf. Diary, 47)**. "I want this image to be solemnly blessed on the first Sunday after Easter; that Sunday is to be the Feast of Mercy" **(Cf. Diary, 49)**. (b) For this reason, the content of this image is closely related to the liturgy of that Sunday. On this day, the Church reads the Gospel according to St. John about the risen Christ appearing in the Upper Room and about the institution of the Sacrament of Penance **(Cf. Jn 20:19-29)**. Consequently, this image represents the Savior risen from the dead who brings peace to people by means of the forgiveness of sins at the price of His passion and death on the cross. (c) The rays of blood and water that flow from the Heart that was pierced by a spear (not visible on the image) and the scars caused by the wounds of crucifixion call to mind the events of Good Friday (Un 19:17-18; 33-37). The Image of the Merciful Savior, therefore, combines the two Gospel events that best be speak the fullness of God's love for mankind.

The two rays are a distinctive feature of this image of Christ. The Lord Jesus, when asked about their meaning, explained: "The pale ray stands for the Water which makes souls righteous. The red ray stands for the Blood which is the life of souls. ... Happy is the one who will dwell in their shelter" **(Cf. Diary, 299)**. The Sacraments of Baptism and Penance purify the soul, and the Eucharist most abundantly nourishes it. Thus, the two rays signify the Holy Sacraments and all the graces of the Holy Spirit, whose biblical symbol is water, as well as the New Covenant of God with men in the Blood of Christ. The image of the Merciful Jesus is often called the "Image of The Divine Mercy," which is appropriate, since it is precisely in Christ's Paschal Mystery that God's love for humankind was most explicitly revealed. The image not only represents The Divine Mercy, but also serves as a sign that is to recall the Christian obligation of trust in God and of active love toward neighbor. By Christ's will the image bears a signature comprised of these words: "Jesus, I trust in You." "This image," Jesus also declared, "is to be a reminder of the demands of My mercy, because even the Strongest faith is of no avail without works" **(Cf. Diary, 742)**. To the veneration of the image understood in this way, as relying upon the Christian attitude of trust and mercy, Our Lord attached special promises, namely, of eternal salvation, of great progress on the way of Christian perfection, of the grace of a happy death, and of all other possible graces which people will ask of Him with trust: "By means of this Image I shall be granting many graces to souls; So let every soul have access to it" **(Cf. Diary, 570)**.

8.3 THE FEAST OF THE DIVINE MERCY

It ranks highest among all the elements of The Divine Mercy Devotion revealed to St. Faustina. Its institution was requested by the Lord Jesus for the first time in Plock, in 1931, while He was communicating His will regarding the painting of the Image: "I desire that there be a Feast of Mercy. I want this image, which you will paint with a brush, to be solemnly blessed on the first Sunday after Easter; that Sunday is to be the Feast of Mercy" **(Cf. Diary, 49)**. The choice of the first Sunday after Easter for the Feast of Mercy has a very deep theological significance, which points to the close relationship between the Paschal Mystery of the Redemption and the mystery of The Divine Mercy. This integral relationship is further emphasized by the Novena of Chaplets to The Divine Mercy which begins on Good Friday as a preparation for the Feast. This feast is not only a day in particular for worshipping God in His mystery of mercy, but also a time of grace for all people. The Lord Jesus said: "I desire that the Feast of Mercy be a refuge and shelter for all souls, and especially for poor sinners" **(Cf. Diary, 699)**. "Souls perish in spite of My bitter Passion. I am giving them the last hope of salvation, that is, recourse to My Mercy. If they will not adore My mercy, they will perish for all eternity" **(Cf. Diary, 965, 998)**. The greatness of this feast is measured by the measure of extraordinary promises that the Lord attached to this feast: Jesus said, "whoever approaches the Fount of Life on this day will be granted complete remission of sins and punishment" **(Cf. Diary, 300)**, and also, "On this day the very depths of My tender mercy are open. I pour out a whole Ocean of graces upon those souls who approach the fount of My mercy... Let no soul fear to draw near to Me, even though its sins be as scarlet" **(Cf. Diary, 699)**. To profit from those great gifts we must fulfill the conditions of the Divine Mercy devotion (trust in God's goodness and active love toward neighbor), be in the state of sanctifying grace - having gone to Holy Confession, and worthily receive Holy Communion. Jesus explained: "No soul will be justified until it turns with confidence to My mercy; and this is why the first Sunday after Easter is to be the Feast of Mercy, and on that day, priests are to tell everyone about My great and unfathomable mercy" **(Cf. Diary, 570)**.

8.4 THE CHAPLET OF THE DIVINE MERCY

This Chaplet was dictated to Sr. Faustina by the Lord Jesus Himself in Vilnius on September 13-14, 1935, as a prayer of atonement and for the appeasement of God's wrath **(Cf. Diary, 474-476)**. Those who recite this Chaplet offer to God the Father "the Body and Blood, Soul and Divinity," of Jesus Christ in

atonement for their sins, the sins of their loved ones, and those of the entire world. By uniting themselves with the sacrifice of Jesus, they appeal to the great love that our Heavenly Father has for His Son and, in Him, for all humanity. By means of this prayer, the petitioners request "mercy on us and on the whole world," and by so doing, they perform a work of mercy. If the faithful add to this the foundation of trust and fulfill the conditions regarding every good prayer (humility, perseverance, matters in conformity with God's will), they can expect the fulfillment of Christ's promises which are particularly related to the hour of death: the grace of conversion and a peaceful death. Not only will the people who say the Chaplet receive these graces, but also the dying at whose side others will recite this prayer. The Lord said: "When this chaplet is said by the bedside of a dying person, God's anger is placated, unfathomable mercy envelops the soul" **(Cf. Diary, 81)**. The general promise says: "It pleases Me to grant everything they ask of Me by saying the chaplet" **(Cf. Diary, 1541)** "...if what you ask for is compatible with My will" **(Cf. Diary, 1731)**. For, anything that is not compatible with God's will is not good for people, especially for their eternal happiness. On a different occasion, Jesus said: "... by saying the Chaplet you are bringing humankind closer to Me" **(Cf. Diary, 929)**. and again: "The souls that say this chaplet will be embraced by My mercy during their lifetime and especially at the hour of their death" **(Cf. Diary, 754).**

8.5 ST FAUSTINA'S "THE HOUR OF MERCY"

In October, 1937, in Cracow, under circumstances that are not fully described by St. Faustina, the Lord Jesus recommended that she honor the hour of His death: "... as often as you hear the clock strike the third hour, immerse yourself completely in My mercy, adoring and glorifying it; invoke its omnipotence for the whole world, and particularly for poor sinners; for at that moment mercy was opened wide for every soul" **(Cf. Diary, 1572)**. The Lord Jesus also determined the prayers that are appropriate for this form of the Divine Mercy devotion: "... try your best to make the Stations of the Cross in this hour, provided that your duties permit it; and if you are not able to make the Stations of the Cross, then at least step into the chapel for a moment and adore, in the Blessed Sacrament, My Heart, which is full of mercy; and should you be unable to0 step into the chapel, immerse yourself in prayer there where you happen to be, if only for a very brief instant" **(Cf. Diary, 1572)**. Prof. Rózycki enumerates three conditions for prayers offered in this hour to be granted: (i)They are to be addressed to Jesus. (ii) They are to be said at three o'clock in the afternoon. (iii) They are to appeal to the value and merits of Christ's Passion. The Lord Jesus promised: *" In this hour you can obtain everything for yourself and for others for the asking; it was the hour of grace for the whole world- mercy triumphed over justice" **(Cf. Diary, 1572)**.

8.6 SPREADING THE HONOR OF THE DIVINE MERCY

In discussing the essential elements of the Divine Mercy devotion, Rev. Rózycki also mentions the spreading of the honor of The Divine Mercy as one of them since certain promises of Christ are related to this as well: "Souls who spread the honor of My mercy I shield through their entire life as a tender mother her infant, and at the hour of death I will not be a Judge for them, but the Merciful Saviour" **(Diary, 1075)**. The essence of The Divine Mercy devotion is found in the Christian attitude of trust in God and of an active love toward neighbor. The Lord Jesus said: "I desire trust from My creatures" **(Cf. Diary, 1059)**, and He expects them to exercise mercy through deeds, words, and prayers. And further. "You are to show mercy to your neighbors always and everywhere. You must not shrink from this or try to excuse or absolve yourself from it" **(Cf. Diary, 742)**. Christ wants those who worship Him to perform at least one act of love of neighbor in the course of each day. The spreading of the honor of The Divine Mercy does not require many words, but always the Christian attitude of faith, of trust in God, and of becoming ever more merciful in her lifetime St. Faustina gave the example of just such apostolic work.

8.7 DIVINE MERCY DEVOTION AIMS AND OBJECTIVES

The Divine Mercy devotion aims at the renewal of religious life in the Church in the spirit of Christian trust and mercy. It is in this context that the idea of the "new Congregation "of which we read in the **DIARY'S** pages should be considered. This desire of Christ matured gradually in Sr. Faustina's own thinking, and underwent a certain evolution- from a strictly contemplative order all the way to a movement which is made up also of active congregations (male and female) and of lay people. This great, supranational community of people is one family, which is being united, first of all, by God in the mystery of His mercy, and secondly, by people's longing, both, to reflect that mercy in their own hearts and works, and for God's glory to be reflected in all souls. It is a community of people who is different ways, depending upon their state in life and vocation (priestly, religious, lay), live by the Gospel ideal of trust and mercy, proclaim the incomprehensible mystery of God's mercy by their life and words, and obtain Divine Mercy for the world with their entreaties. St. Faustina's mission finds deep justification in Holy Scripture and documents of the Church; it superbly corresponds especially with the encyclical **DIVES IN MISERICORDIA (Cf. Pope John Paul II Rich in mercy).**

8.8 DIVINE MERCY APOSTOLATE AND ORDER OF DEVOTIONS

8.8.1 **NOVENA PRAYERS TO THE DIVINE MERCY. NB.** Special Intentions on each Novena day.
The Novena Prayers are very efficacious prayers approved by the Church to be said during Nine days.
The Blessed Virgin Mary was the first to carry out this Novena Devotion when she prayed with the Apostles at the Upper Room in Jerusalem from the Ascension to the Day of Pentecost **(Cf. Acts 1:14)**.

9.0 THE PRECIOUS BLOOD APOSTOLATE & DEVOTIONS

9.1 HISTORY OF ORIGINS OF THE PRECIOUS BLOOD APOSTOLATE

In 1995, at exactly 3.00pm, the hour of Divine Mercy, Our Lord Jesus Christ called, for the first time, Barnabas Nwoye, a teenager from Olo, Enugu State, Nigeria, and appealed to him to console Him and to adore His Precious Blood. Two years later, the Lord gave him the Chaplet of the Precious Blood (in a vision) and all its component prayers. The messages, prayers, hymns and choruses, as well as instructions, given directly by Our Lord, His Mother Mary, Angels and Saints from 1997 to date constitute the Precious Blood Devotion.

9.2 COMPONENTS OF DEVOTION TO THE MOST PRECIOUS BLOOD

The Devotion is made up of the following: (a) **Chaplet:** The Chaplet of the Precious Blood, to be recited immediately after the Rosary of the Blessed Virgin Mary, consists of Five Mysteries relating to the Five Sacred Wounds of Christ viz. 1. **Consolation:** Consolation Prayers directed at the Eternal Father and His

only-begotten Son constitute the second segment of this Devotion. These prayers seek to appease the Father and the Son for the world's ingratitude, blasphemies and neglects of the Precious Blood. 2 **Adoration**

In the third part of the Devotion, one finds seven prayers which adore, glorify and make petitions to the Precious Blood. 3. The petitions are for the entire Church, its hierarchy, the clergy and the faithful. Appeals invoking the Precious Blood are also made on behalf of unrepentant sinner: souls 1n Purgatory, non-Catholics, for devout souls and for aborted babies that they may all be accorded the benefits of the Precious Blood. **4. Reparation.** The fourth segment of the Devotion deals with Reparation. In Seven Anguished Appeals, Our Lord describes the various sins in the Church and in the world at large that have mystically continued to crucify Him, these include neglect of the Holy Sacrifice of the Mass and the Sacraments by the clergy and the faithful, immodesty which is causing millions to troop into Hell, materialism in the Church and the world, cultism, greed, avarice and so on. **5. Intercession:** Besides the four principal parts, there are key intercessory prayers which Our Lord has revealed as the prayers He said during His Passion and before His final human breath for our salvation. They include prayers to 'defeat all enemies of the Holy Cross (the Anti-Christ and his forces), for faith, endurance, for release from ancestral curses and so on. **6. The Seal.** One will discover, from this Devotion, the Great Seal of God (the living Tabernacle in our hearts) which the Angels place in our souls during the hour of seal Without this seal, one will bear the enemy' s own seal of 666. The Great Seal is renewed by constantly struggling to remain in the state of Sanctifying Grace. Simplified, this Seal is a more determined renewal of the one obtained by every Christian at Baptism, but the idea here is about securing it with greater divine assistance against defilement by sin. **7. Gethsemane Hour:** Finally, Our Lord, through this Devotion, is calling on His chosen to observe every Thursday night into Friday (3am) as the Gethsemane Hour of Prayer during which the components of this Devotion should be observed in commemoration of the Lord's Agony in the Garden.

9.3 CALL TO HOLINESS IN THE DEVOTION TO THE MOST PRECIOUS BLOOD

The Precious Blood Devotion is a daily call to holiness. At least the Chaplet (after the Rosary of Our Blessed Mother), the Litany and the Consecration should be recited daily by a devotee. This Devotion 13 the ultimate weapon against Satan and evil spirits. Above all, the Devotion is a way of life. The Lord describes it as “the dry and the desert way” full of crosses. It is a reminder that only through the Cross can a. soul reach the land of happiness (Heaven). Any other Way will result in Hell. It is a holy call to Catholics and all Christians to return to the True Faith in a corrupt World, deceived by Satan, in which all sorts of Gospel are now being preached even within the Catholic world.

Devotion to the Most Precious Blood of 'Our Lord Jesus Christ is not a new one in the Holy Catholic Church. It is as old as the first Holy Thursday when Jesus Christ instituted the Priesthood and the Holy Eucharist; The proclamation of the following words on the night before He suffered: “This is My Body, which is given for you. Do this in memory of Me. ...This cup is God's new covenant sealed with My Blood which is poured for you” (**Cf. Lk. 22: 19-20)** evoked from the Apostles a sublime religious fervour or reverence. Before then Jesus had performed great miracles but they saw the miracle of miracles in the institution of the Holy Eucharist, the Sacrifice of the Cross, the Sacrifice of the New Law, the most admirable Sacrament, the wondrous presence, and the abiding memorial of Christ's Passion. Seeing Christ setting Himself before them as a sacrifice of reconciliation or salvation and as the food of eternal life in the most precious and wonderful banquet made them adore the wondrous presence with a faith beyond description. Since then it has always been so in the Holy Catholic Church and it will continue to be so until the Lord comes back in glory. That is the Lord's command. We must continue to proclaim the Lord's death until He returns **(Cf. 1 Cor. 11:26)**.

As long as the Church continues to celebrate the Holy Eucharist in obedience to the Lord's

ommand, “Do this in memory of Me”, she maintains throughout time her devotion to the Precious Blood and Body of Our Lord Jesus Christ. She offers a living sacrifice, a perpetual memorial of His Passion which demonstrates the immensity of Christ's love for us. The best way for each one of us to show our devotion to the Eucharistic Lord is to receive Him in Holy Communion and participate actively and reverently in Holy Mass. If we know truly that the Eucharist is the Sacrifice of the Cross, we will worship more with greater attention and devotion and. resist all tendencies to turn the Mass into a disco room or a fund-raising gathering.

The Mass is the re-enactment of the paschal mystery. It is at the same time the sacrificial memorial in which the Sacrifice of the Cross is perpetuated and also the sacred banquet of communion with the Lord's Body and Blood. In the Mass we become one with Jesus and with one another. Our souls are filled with grace and a pledge of future glory is given to us. All these inestimable treasures deserve our devotion. Devotion to the Eucharistic Lord continues in the Benediction, frequent visitation to the Lord in the Blessed Sacrament and exposition of the Blessed Sacrament. In this we also see the devotion to the Precious Blood of Jesus because as a living person His Blood cannot be separated from His Body.

10. 0 APOSTLESHIP OF PRAYER

10.1 HISTORY OF ORIGIN OF APOSTLESHIP OF PRAYER

The Apostleship of Prayer Devotion is no other than the Apostolate and Devotion to the Sacred Heart of Jesus and is as ancient as the Church in Nigeria. But it was in the early 17th Century that the Devotion to the Most Sacred Heart of Jesus was given great impetus through the preachings and writings of St John

Eudes, whom the Roman Breviary calls the **"FOUNDER OF THE LITURGICAL CULT OF THE SACRED HEART OF JESUS**." In order to establish fully and entirely the worship of the Most Sacred Heart of Jesus and to spread it throughout the whole world, God Himself chose as His instrument, the humblest virgin from the Order of Visitation, St. Margaret Mary Alacoque to do this. This came about through the Apparitions, Revelations and Devotions to the Sacred Heart. In our primary and secondary school days every baptized Christian pupil /student was automatically a member and had to purchase a copy of the Apostleship of Prayer Manual of Prayers which was used during Devotions. It contained all the common Prayers and Litanies of the BVM, the Most Holy Name, St. Joseph, and Sacred Heart, etc. It was used during Morning Devotion, at Midday Prayer and at Evening Prayer.

12.0 THE TREASURY OF PURGATORIAN SOCIETY

12.1 HISTORY OF ORIGINS OF THE PURGATORIAN SOCIETY

The Purgatorian Society is a holy Association of the Faithful ho have taken it upon themselves to pray for the Holy Souls in Purgatory. In doing this they are answering the Biblical clarion call which says: It is a holy and wholesome thought to pray for the dead so that they may be loosed from their sins" **(Cf. 2 Macc 12:46)**. The existence of Purgatory stems from the very Holiness of God, in such a way that to deny the existence of Purgatory is to deny God's Holiness. The existence of Purgatory is as a consequence

of the Love and Mercy of God. God so loved the world and wishes the salvation of all. He sent His Only Begotten Son to save us and to help everyone to attain the knowledge of the Truth.

12.2 GUIDANCE AND DIRECTION TO PURGATORIAN MEMBERS

It is necessary emphasizing that the Purgatorians are not doing a new thing. There is nothing new in praying for the dead. The Christian Church has been doing this for the many centuries. What is new is the Organization which is instituted in such a way that people come together on a specified day each week and pray for the Souls in Purgatory and also undertake both together and individually to engage in other works of mercy and sacrifices whose merits could benefit the dead. Prayer for the dead has become an organized movement. The members are knowing and understanding the Holy Souls and are getting others to know and understand them better. This is the revolution being brought about by the Purgatorian Society. A pious Society without prescribed and documented forms of prayers is faceless and could phase out without leaving behind any traces of its existence for the future. Any society that can so disappear never even "existed". It is with this understanding that the Purgatorian Society has decided to embark on producing a Prayer Book and Manual for the well ordering of the Society. This Prayer Book is a book that contains a worked out and comprehensive Devotion to the Holy Souls. Any normal Christian may ordinarily pray for the Holy Souls. But the Purgatorian Society has come to fill in this gap by making it institutionalized.

The Society has gone a little further to provide prayers for miscellaneous occasions during which Christians who had before come together to pray discovered that there was no proper set of prayers for them and so the stumbled and fumbled for what to do. They might spend their time saying only the Rosary and singing songs even when they no longer paid attention to what they were saying, let alone enjoying it. Examples to this are during Wake-keeping ceremonies and during visits to members who might have fallen ill, or who might have put to bed. It might also include those paying a visit to bereaved society members, etc. Such situations like these do not belong to the Purgatorians only. But the Purgatorians have not compiled this Prayer Book for the exclusive use of Purgatorians only but for all Christians individually or collectively.

With the emergence of this Prayer Book, the first phase and major work is completed. This is as it is contained in the Aim of the formation of the society. The next is to attuned and teach Christians not only how to pray for their dead who are in Purgatory but also how to ask for their prayers in return. This second phase will seek to fulfil the proposal in the objective for the formation of the society ie.to lead the members of the Society through a worked out system to holiness of life and eventual Sainthood themselves. This system will be seen in the fervour which members evince in their devotion and service to the Holy Souls. It is in the great understanding that ours is a vocational work of charity which if followed thoroughly, will lead us ultimately to sainthood.

13.0 THE CATHOLIC CHARISMATIC RENEWAL

13. 1 HISTORY OF ORIGINS OF THE CATHOLIC CHARISMATIC RENEWAL

The Origin of the Catholic Charismatic Renewal is traceable to the great Event of Pentecost **(Cf. Acts 2:1-19)**. This Renewal Apostolate from the onset stems from the Holy Spirit as it was on that Pentecost Day that the experience of the Apostles with Mary, the Mother of Jesus were brought to the fore. That same experience was manifested among the Catholic Students of Notre Dame University, USA in January 1967 when they were at a Retreat. The Renewal they experienced led to what is known today as the Catholic Charismatic Renewal.

In fact in the late 1960s (during the civil war and early 1070's shortly after) the Catholic Church, in order to stem the tide of Catholics of members streaming to faith healing churches and prayer houses, started a counter prayer movement in the form of 'prayer ministry spearheaded by the likes of Rev. Fathers Godwin C. Ikeobi and Monsignor Matthew Obiukwu (my colleagues and contemporaries in Bigard Memorial Seminary, ENUGU) 'to provide Catholics with an alternative for the healing ministry and prayer.

Later on in the early 1980s Rev. Fr. (Prof) Emmanuel Edeh also began his own brand of Charismatic Prayer Movement as a response to the Pentecostals. His Catholic Prayer Ministry of the Holy Spirit at Elele, Port Harcourt gave him out as a Pentecostal or Charismatic Father, (though he denies this) because he started off with Charismatic choruses, testimonies and reported healings. In the 1990s other Catholic priests like Fathers John Ugobueze, Stephen Njoku, Christian Usung Urua, and Ejike Mbaka gave their own response to the Pentecostals through their healing ministry at Wednesday evening services with Rosary processions, singing of choruses, sermons and 'Holy Ghost Hour' healing sessions, not leaving out the collection of tithes. Many priests, Seminarians and Rev Sisters have since joined the band-wagon of Catholic Charismatic Renewal healers and prayer warriors and the situation does not seem to be abating.

The Aokpe phenomenon in Benue State has really sparked off this scenario and since the late 1990s, the place has turned into a Mecca of sorts through a girl visionary Miss Christiana Agbo, who claimed to have had an apparition of the Blessed Virgin Mary. A chapel and a Parish centre have since been erected by the Catholic Diocese of Otukpo for the devotion and spiritual needs of pilgrims and those seeking for miracles and spiritual favours.

The emergence of Pentecostalism as one of the major developments of the 20th century Religious Movements has gained great momentum. Its rapid spread is very pervasive here in Nigeria. Recently Rev.Fr. Jude Anyaeche has been quoted to have had an encounter with a Pentecostal girl who challenged him that Pentecostals like the ancient Israelites walking round the walls of Jericho would in no time walk

round the walls of the Catholic Church and other mainline Churches; the so-called Protestant churches, only once, and they would all collapse Jericho-wise. The mainline or Protestant churches are those Christian churches established after the great Catholic Church shake-up by Rev.Fr. DR. Martin Luther in 1516 AD tagged the Reformation which resulted in the break-up of the Catholic Church and the establishment of splinter churches ie. Protestant Churches like the Lutheran church, Presbyterian Church, Methodist church, Anglican Church, Methodist church, Apostolic church, Qua Iboe Church etc. which also found their way into Nigeria since 1840s. And this was a little over ten years ago; today, and in all probability the Pentecostals are taking over the management of Christianity in Nigeria. As I write this book, the head and president of the Pentecostal Federation of Nigeria (PFN) is also the current President of the whole Christian community in Nigeria tagged the **Christian Association of Nigeria (CAN)** in the person of Pastor Joseph Ayo Oritsajafor of the Word of Life Bible Mission, Warri. Pentecostals are making waves and winning converts mostly from these so-called original Christian mainline churches by the day and this is to state the obvious. The rank and file of these mainline churches according to Rev. Fr. Hilary C. Achunike of the University of Nigeria, Nsukka, and even the Catholic Church hierarchy in Nigeria and elsewhere are all disturbed and disquieted.

13. 2 AIMS AND OBJECTIVES OF THE CATHOLIC CHARIMATIC RENEWAL

CATHOLIC LAY ORGANIZATIONS & ASSOCIATIONS

14.0 LAY READERS ORGANIZATION AND THEIR MINISTRY IN THE CHURCH

14.1 VATICAN II: LUMEN GENTIUM ON LAY READERS IN THE CHURCH

"For the constant nurturing of the people of God, Christ the Lord instituted in the Church a variety of Ministries which work for the good of the whole Mystical Body of Christ." In 1965, Pope Paul VI in his Apostolic Letter and later in the **Motu Proprio** quoted below declared that right from the Apostolic Age, the Church instituted the Ministry of the Deacons which had an outstanding position among all the other Ministries. The Deaconate has always been held in great honour by the Church. Accordingly, the Diaconate flourished in a wonderful way in the Church giving outstanding witness of love for Christ and the Faithful through the performance of Works of Charity, the celebration of the Sacred Rights and the fulfillment of Pastoral duties **(Cf. Vatican II, Dogmatic Constitution Lumen Gentium, 18, AAS 57: 21-22, 1965)**. The exercise of the Office of Deacon also enabled those who were to become Presbyters to give proof of themselves, to display the merit of their work and to acquire preparation – all of which were requirements for receiving the dignity of the Priesthood and the Office of Pastors.

But as time went on, the discipline concerning this Holy Order was changed. The prohibition against lightly conferring Ordination without observing the established sequence of Holy Orders was strengthened, and there was a gradual decrease in the number of those who preferred to remain Deacons all their lives instead of advancing to higher Orders. As a consequence, the permanent Diaconate almost entirely died out in the early Latin Church. Then Council of Trent proposed to restore the Holy Orders in accordance with their own nature as ancient Functions within the Church. It was only later on that this idea of restoring this important Order matured as also as a truly permanent Rank in the Church. This might have been what informed the Vatican Council to separate it from the Minor Orders and in fact changed them to only Ministries including the Ministries of Lay Readers and Acolyte as we are going to see **(Cf. Trent 1545 – 1664, Session XXIII, cap. I – IV: Mansi XXXIII, 138 - 140)**. But it was a much later that the Church made good the plan of the Council of Trent as a truly permanent Rank in the Church as it is today. Vatican II later changed the entire order by first by restoring the permanent Diaconate as an intermediate Sacred Order between the higher Ranks of the Church's Hierarchy viz. the Priesthood and the Episcopate and the rest of the Christian Faithful. The Dogmatic Constitution Lumen Gentium also deferred the entrance into the clerical state which hitherto was through the Rite of Tonsure by introducing new Rites of Reader and Acolyte by which Candidates aspiring to Ordination as Deacons or Presbyters

publicly manifest their will to offer themselves to God and the Church. The Council considered it opportune that Candidates should now both by study and by gradual exercise of the Ministry of the Word and of the Altar for Sacred Orders so that they may through intimate contact understand and reflect upon the double aspect of the Priestly Office. Thus Candidates for the Diaconate leading to the Presbyterate must receive the Ministries of Reader and Acolyte and exercise them for a fitting time in order to be better disposed for the future service of the Word and the Altar as priests.

14.2 LAY PERSONS AS LECTORS AT LITURGICAL FUNCTIONS

CJC 230 has directed that Lay persons who possess the requisite age and qualification as determined by the Conference of Bishops of the country can be installed on a stable basis as Lectors during Mass. Many Parishes and dioceses in Nigeria have availed of this prescription by selecting worthy and duly prepared members of the Laity to read at Masses. After the appointment of these candidates, they are given a period of training to prepare them to undertake this function in the Church. In 1972, Pope Paul in his Motu Proprio: Ministerial Quaedam, instituted this provision for the installation of Lay Readers in the Church **(Cf. AAS 64 1972, 529 - 534).**

14.3 RITE OF THE INSTALLATION OF LAY READERS

In accordance with prescribed Rites the Bishop or those appointed by him examines the Candidates can confer the Ministry. Where the installed Lay Readers are lacking, this provision also allows that worthy lay persons may be called upon to carry out this function. To this end, many dioceses and parishes usually conduct the ceremony of Installation of Lay Readers at Mass after the Gospel. Those selected or appointed to serve as Readers in the Parish or Church, usually all those appointed from all the Stations kneel before the Celebrant who prays over them. The Candidates are blessed and invested with appropriate vests after the Celebrant has prayed over them. Thereafter, the Candidates come two by two to the Altar to receive (touch) the Bible with the words:

Take this Book of Holy Scripture and be faithful in handing (reading) the Word of God,
So that it may grow strong in the hearts of His people. The Reader answers: **AMEN**.

14.4 PATRON SAINT OF LAY READERS – ST. BEDE THE VENERABLE

St. Bede the Venerable (Feast day:) born about 673 AD in Northumberland in England is the Patron Saint of Lay Readers. At seven he was brought to the Benedictine Monastery of SS Peter and Paul at Wearmouth-Jarrow founded by St. Benedict Biscop (628 - 690) of Northumbria. He remained there, studied and was always praying and writing. At 19 he was ordained Deacon and a Priest in 703 AD. He was the greatest of the Anglo-Saxon scholars whom the Greco Roman Emperors notably the Franks brought to Rome to teach at the Palatial Court. St. Bede wrote many books mainly on Theology and Ecclesiastical or Church History Most of these books centred on Biblical Commentaries, music and poetry. Pope Leo XIII canonized him in 1899 and declared him Doctor of the Church and Patron of Lectors.

15.0 CATHOLIC MEN ORGANIZATION OF NIGERIA-CMO

15.1 ESTABLISHMENT: As discussed elsewhere in this Book, the twin Lay Organizations viz. the Catholic Men Organization – CMO and the Catholic Women Organization - CWO were already in existence and in action in the Calabar Mission right from the beginning of the 20th Century and was masterminded by the indefatigable Fr. Josef Leon Lena CSSP. They were known as St. Joseph's League. In 1954 to be precise, at the All Catholic –Women's Rally organized by Dominic Cardinal Ekandem, then Auxiliary Bishop of Calabar, on the grounds Holy Family College, Oku Abak, set out to found the ? ka Adiaha Obong Organization which became the forerunner of the Catholic Women Organization after Vatican II Decree on the Laity which argued that "since to have an ever more active share in the whole life of society, it is very important that the men and women participate more widely also in the various fields of the Church's Apostolate.

15.2 AIMS AND OBJECTIVES

- To motivate Catholic Men and lead them to Christ.
- To create awareness about the need for all Catholic men to participate more widely also in the various fields of the Church's Apostolate.
- To foster the ideals and principles of the Catholic Faith through the development and promotion of healthy spiritual' moral, intellectual and material wellbeing of members both in the diocese and in the Parish.
- To encourage members to live up to their duties and obligations to the Church.

16.0 CATHOLIC WOMEN ORGANIZATION OF NIGERIA - CWO

6.1 ESTABLISHMENT: It was also in line with the above intention of Vatican II mentioned above that the Catholic Women of Nigeria Organization was born. For after visiting Haiti and seeing the devastating poverty and immense need of the people, decided to organize themselves and to take care of the suffering inmates there. On coming home, they decided to found the Catholic Women Organization of Nigeria - CWON. It was later on and with the changed focus on what had brought them together in the first place that they had to shift their objective towards the Mission of making the Catholic Women Organization become the rallying point of motivating the Catholic women of Nigeria to utilize and harness their energies and resources for evangelization in the Church.

16.2 AIMS AND OBJECTIVES

- To unite all Catholic Women of Nigeria in purpose, direction and action in religious, educational, social, cultural and economic fields.
- To unite all Catholic Women of Nigeria and direct them for the purposes of love, light, unity and peace amongst them and all peoples.
- To give priority to the Christian formation of all members of the Catholic Women Organization in Nigeria, through an emphasis on unity and a deeper understanding and participation in the life of the Church leading to a greater appreciation of the Role of a Christian in today's world.
- To serve as a medium through which the Catholic Women of Nigeria may speak and act as a unit for the good of the Organization, our country and the world at large.
- To render assistance to Catholic Women in their effort to give service in their respective fields.
- To encourage, establish and maintain inter-religious and intra-religious relationships with their

Religions, Organizations sharing similar or complementary aims and objectives in Nigeria and abroad without compromising their Catholic morals and values.

18.0 CATHOLIC GIRLS a.k.a MARY LEAGUE GIRLS ORGANIZATION

18.1 ESTABLISHMENT: The Catholic Girls a.k.a Mary League Girls Organization just as in the case of the CWO in the Archdiocese of Calabar was founded by Dominic Cardinal Ekandem in 1954 under the title of "**CHILDREN OF MARY"**. It almost died out during and immediately after the war. In 1976, when appointed as Father In-Charge of Great. St. Charles Lwanga, Essien Town – Calabar, the Author revived it under the name of Catholic Girls Organization.

In September 1982, to be precise, and with the authorization and approval of Archbishop Brian D. Usanga, Rt. Rev. Msgr. Emmanuel O. Idem, then Rev. Fr. Idem and Parish Priest of St. Mary's Pro-Cathedral Efut Abua, Calabar established his own version of Catholic Girls titled "**MARY LEAGUE ORGANIZATION"** with Rev. Sr. Rosaline Chukwuma as Spiritual Directress. In 1983 with the transfer of Fr. Idem to St. Joseph's Parish, Ikot Ene, the Archbishop appointed the Author to the Parish. Then Rt. Rev. Msgr. J. P. Ekarika re-organized the Organization and with Rev. Sr. Chukwuma set out to prepare the Constitution for the Organization. In 1984 the Archbishop formally established the Mary League Organization with fanfare to the Glory of God. Between 1984 and 1996 Msgr. Ekarika had established the Association in almost all the Parishes in the Deaneries of Sacred Heart Cathedral, St. Mary's Pro-Cathedral, St. Patrick's Ikot Ansa, St. Augustine's Ikot Omin, St. Joseph's Ikot Ene, St. John's Akamkpa and even in the Catholic Diocese of Ogoja to the greater Glory of God.

18.2 MOTTO: Devotion to Our Lady and fidelity to Christ.

18.3 AIMS AND OBJECTIVES

- To educate and inculcate in young girls the virtues of the Blessed Virgin Mary, especially humility, holy purity, obedience, docility and honesty.
- To educate and prepare young girls for marriage or the Religious Vocation and for assistance in Church interior decoration.
- To promote academic and spiritual zeal particularly towards the understanding and practising of the Catholic Faith, educational, economic, social and moral norms.
- To assist girls to face their peculiar problems and to combat corrupting influences that can harm their Christian living and degrade their womanhood.
- To hold meetings, prayers, seminars and retreats and sometimes to go out for corporal works of mercy.

18.4 Apart from striving for personal holiness, the salvation of other young girls shall be an important target for every member of the Mary League Association. To this end every member shall

- Be ready and willing to give religious instructions and teach Catechumens and others the Catechism in order to prepare them for the reception of the Sacraments.
- Have the courage to impart fraternal correction to those who go astray or are ignorant of their Christian standards.
- Make regular visits to orphanages, hospitals, IDPs, and other centres of Charity.
- Play active role in the interior decoration of the Church and Altar and also be ready to participate in other useful activities in the Parish or Station.

19.0 KNIGHTS OF ST. MULUMBA APOSTOLATE - KSM

19.1 HISTORY OF KNIGHTS OF ST. MULUMBA

The Order of the Knights of St. Mulumba (KSM) was founded in Nigeria on June 14, 1953 by Reverend Father Abraham Anselm Isidahome Ojefua, a Priest and Monk from Illah Monastery in Delta State. The Order of the Knights of St. Mulumba was to be established on the Principles of Catholic Action as a Lay Apostolate Organization and modelled after the Sacred Order of the Catholic Knighthood. During the Colonial era especially between the 1940s -1950s, various anti-Catholic Secret Societies were prevalent in the land drawing into their fold large numbers of the Nigerian elite especially those of the higher cadre of returnees soldiers of the Second World War and Graduates educated abroad who were lucky to be absorbed into the Civil Service of Nigeria. Most of these who fortunately participated in the Government and Administration of the country were in the main Protestants and they had eagerly and without qualms embraced these Secret Societies and Orders championed by the British Colonial Administrators in Government who were predominantly Protestants and members of various Secret Orders and Lodges.

Even the Protestant Clergy, professionals and Nigerian social elites were at liberty to join these Secret Societies and Cults viz. as Freemasons, Rosicrucians, Ogbonis, etc. They became the favoured

personalities in Government and were showered with material benefits, social security, political and professional benefits. As Cultism and anything bordering on Secret Societies is Anathema to the Catholic Church, many Catholics with equal or superior qualifications found themselves greatly short-changed in this scenario and scheme of things though some clandestinely became initiated members. Such who were discovered by the Church Authorities, most especially Catholic Teachers were either excommunicated from the Church or sacked from Offices or both with **"Immediate Effect"** in what was known as **"IPSO FACTO"** in Catholic circles. It was a very trying time and hostile atmosphere for Catholics and a very difficult situation to handle. This was nothing but a situation which had reduced Christianity to a matter of convenience, to openly worship money, power, luxury, discrimination and to surreptitiously antagonize Catholics. Yes, the inability of Catholics to join these Secret Societies as their counterparts in the Nigerian civil or even in the Church had adversely put them into a very difficult disadvantage.

This is where by Divine Providence, Reverend Father Abraham Ojefua came in to solve the intractable problem and ignominy for Catholics. After long prayers and tenacious fasting, Heaven answered with the inspiration of him founding a counter Spiritual Order which would meet the approbation of the Church's Hierarchy as well as the yearnings of the Catholic elite. This Order was on the surface to possess the appurtenances of the Secret Orders but eminently Catholic and spiritual with the trimmings of true Catholic Action Groups capable of counterbalancing the effects of the Secret Orders and Lodges as well as confront them. Fr. Ojefua first started off by writing Articles in the Catholic Herald - Lagos, and Catholic Life - Calabar. These were enormous and eminent Catholic Magazines meant to enlighten and effectively dis-abuse the minds of the Elite and most especially Catholics on these diabolical groups and intimate them on their dangers. Thereafter, having sought the official permission of Archbishop Taylor of Lagos, Archbishop Heerey of Onitsha and Bishop Kelly of Benin as there was no Ecclesiastical Province in the North then, he went on Pilgrimage, first to Rome and then to Ireland where he understudied the Organization of the Catholic Knighthood. Upon his return and on June 14 1953, 23 Foundation members were initiated during Benediction in the presence of Bishop Joseph Whelan CSSP, at the Chapel of Holy Ghost College, Owerri. There and then, the first Subordinate Council of Catholic Knighthood named after the Ugandan Martyr, St. Mulumba with the name tag **"THE ORDER OF THE KNIGHTS OF BLESSED MULUMBA"** in Nigeria was born to the greater glory of God.

The Order of the Knights of St. Mulumba has a current membership of over 20,000 both male and female. The women wing known as the Ladies of Saint Mulumba (LSM) was inaugurated on June 24, 1978 in Calabar, Cross River State. The KSM Order has since established its presence in other African countries, viz. the Knights of St. Matthias Mulumba, Kampala, Uganda in 2004 and the Knights of St. Mulumba, Mamfe, Cameroun in 2008.

19.2 AIMS AND OBJECTIVES OF THE CHURCH WARDENS ASSOCIATION

- To counteract the harm done by many secret societies to the church and to arrest the efflux of the Christian enlightened members into those harmful secret groups.
- To bring Catholics together in a fraternal association for the good and progress of the church, welfare of its clergy, wellbeing of members of the Order in particular and Nigeria in general. The constitution has been review severally and emphasis is now on fostering perfect Christian life among members, making the Order Africa – wide and encouraging inter religious dialogue.

19.3 MEMBERSHIP AND STRENGTHS OF KNIGHTS OF ST MULUMBA, NIGERIA

Only practicing Catholic men and their wives are admitted. Membership spans all cadres of professionals such as Government Administrative Officers, Teachers, Lawyers, Businessmen, Professors, Engineers, Bankers, Doctors and other professionals in all strata of the economy. The Order has grown in strength over the years from the two (2) Sub Councils (Benin/Lagos and Onitsha) in 1953 to six (6) Sub Councils

in 1960 when **Fr. Ojefua** handed over to **Bro. Robert O. Olisa** as the 2nd Supreme Knight. Then under **Bro Olisa**, the number doubled to twelve (12). Under the leadership of **Bro. Da Silva**, the KSM Sub Councils increased to eighteen (18) and the **Ladies of St. Mulumba** came on board. The Mulumba Assurance Company was also incorporated in 1985 under Sir **George C. Akabogu** as Supreme Knight . Thereafter, KSM Nigeria became a member of the **International Alliance of Catholic Knights (IACK)** and **Bro. Akabogu** was elected as its President from 1989 to 1990.

In 1988, KSM Nigeria also became a member of the International Council of Catholic Men (**Unum Omnes**).

That same year the number of Sub councils rose to fifty-five (55). This growth in membership and Sub Councils continued during the tenure of **Bro. Christopher Abebe (1996 – 2000)**. **Bro. Abebe** handed over 5,102 in membership consisting of 82 Sub Councils which under the leadership of **Bro. Fidelis R. C. Ezemenari**, grew in leaps and bounds to 18,000 (8994 Knights and 9,000 Ladies) across 162 Sub Councils in 2008.In 2003, under the administration of **Bro. Anthony Onuh**, the population of the Order rose to 22,000 in 201 Subordinate Councils and from 2014 to 2016, the population further catapulted to 22,500 in 208 Subordinate Councils. Today the number of subordinate councils stands at 222. Under the Leadership of Bro. Myke Mary Nwosu from 2016 till date, the membership and number of Subordinate Councils have grown to 23,555 consisting of about 11,355 Knights and 12,000 Ladies of Mulumba. There are now a total of 248 Sub Councils of KSM in Nigeria.

20.0 KNIGHTS OF ST. JOHN INTERNATIONAL & APOSTOLATE – KSJ

20.1 A. HISTORY OF KNIGHTS OF ST. JOHN INTERNATIONAL

The Noble Order of the Knights of St. John International was founded in a little town of AMAIFI in Italy in 1048 AD. The main objective of the Order then was to fight the Barbarian infidels and Turks who were in opposition to the Church's Teachings and practices in those medieval times. Their threats compelled the Knights to wage a relentless war of the Holy Cross against them. The Knights also took care of the wounded and the sick in the society especially the sick Christian pilgrims and the poor. In time and during the 1200s to 1500s which brought about the likes of the Franciscan and Dominican Orders and Congregations in the Church, the Order was suppressed in Europe by some jealous kings and monarchs of the Middle Ages and their assets seized and the Order went underground but functioned secretly around the Monasteries on the Mountains.

In the later Middle Ages, the Order providentially found its way into the United States of America. It came about like this. Precisely and about 1886, after the Civil War of Independence, there existed a number of uniformed military societies viz. the Knights of St. Paul, Knights of St. George, the Knights of St. Louis, and many more, which can be regarded as a modern counterpart of the Knights of old. These medieval Knights fought well for God and the Church both on the fields of battle and in the Church, but these new groups chose a different field, a spiritual action and life whereupon they could strive to capture men's hearts and minds for God. At this time also, there were various groups of Catholic Knights of many descriptions and uniforms with By-laws, Aims and Purposes. Some wore uniforms modeled after the steel armored uniforms of ancient Knights with coats of velvet, brass plumed helmets bedecked with feathers, shining breastplates, leggings with enormous boots with spur, etc. Some of them also had By-laws to aid the various segments of immigrants and others for the purpose of musical and literary enrichment. There were some others for the veneration of a particular patron Saint, payment of sick benefits to members and their families, payment of death benefits to widows and orphans of

deceased members as currently practised by both the KSM and KSJ INT'L Orders. All of them had the central purpose to serve Almighty God and His Church. Several of these organizations met by chance in Rochester, New York, in June of 1874, in a common convention. Visiting delegates were favorably impressed, and returned to their home cities, determined to form like joint-organizations at home. In New York State, it was incorporated by a special Act of the Legislature of the State. Then, Combined Commandieries soon came into existence in Buffalo, Baltimore, Cincinnati, Detroit, Syracuse, Denver, Dayton, Toronto, Louisville, and Columbus. Each of these combined groups still had their own individual By-laws, and followed its own discretion in regard to uniforms.

On October 15, 1879, some Commandieries of Catholic Knights from Baltimore, Washington and Cincinnati met in Baltimore to consider and discuss the question of the formation of a national organization that would result in a merger or union of the various Catholic Uniformed Societies of the country under one head. After deliberations, it was decided to form such a body, and an organization was perfected with the election of Officers and the selection of the name, "THE ROMAN CATHOLIC UNION OF KNIGHTS OF ST. JOHN." The next convention was held in Cincinnati in 1880 and more Commandieries became affiliated with the "Union." A resolution was later adopted to shorten the name to "Knights of St. John".

The story of the chivalrous deeds of the Medieval Knights preserved in the archives of history, in caring for the sick and infirm, giving asylum to travelers and defending them against barbarous attacks of the Turks, inspired these Catholic men of America to place this new Society under the patronage of St. John the Baptist. Thus was cast the pattern for the modern Knights who would initiate the virtues of the Medieval Knights; namely, filial devotion to and respect for the Authority of the Roman Catholic Church, a sense of honour, love of truth, courage, and an indiscriminating charity motivated by the love for God. The first Supreme Commander of Knights of St. John Int'l was Henry J. Werst (1896 - 1899). The founders of the Knights of St. John had ideals which they desired to spread and foster among Catholics. They understood the truth of the adage, "In unity there is strength." Alone they could do little, but by uniting many groups and people under a leadership, they could accomplish much for God and His Church. Thus was born the idea out of which the Knights of St. John grew and prospered.

Monthly meetings were to be conducted by a common ritual to promote fraternalism and friendship. Activities of every description were to be promoted; religious, social and athletic. Charity work was to be done anonymously. The many and varied Programs and Activities were to fill the Calendar of every active and committed member.

Knights of St. John Int'l work in close harmony with their Pastors, taking an active part in Liturgical functions. A good Knight of St. John is always a good Catholic. Conventions are held on a grand or State level. International Biennial conventions feature with Solemn Pontifical Mass, Memorial Mass for the deceased, street parade, receptions, banquet and dance in addition to the business sessions of the Order.

In 1913, Commandieries sprung up in Trinidad-Tobago and by 1929, there were Commandieries in Panama and the Canal Zone. In 1933 the Order of the Knights of St. John was introduced into the Gold Coast, now Ghana, through the influence of Anthony Quansah and his son, Emmanuel Raphael Quansah of Saltpong. They had previously applied to the United States for permission to form a Commandiery, at Saltpond, in the Central Region of Ghana. The Archbishop of Cape Coast, the Most Reverend Thomas William Porter stipulated that he would allow them to promote Membership and hold Meetings and render his final decision in five years' time. At the end of the fifth year, 1937, His Grace approved the establishment of the Order in Ghana and the Order flourished throughout all the Parishes in the country. Through the universality of the Roman Catholic Church, coupled with cross-border trade and movement of goods and persons, there was a rapid expansion of the Noble Order in the West African sub-region. Over a short span of time, the Order was inaugurated in Lomé, Togo; Monrovia, Liberia; Enugu, Nigeria;

and Freetown, Sierra Leone. Today the Order boasts of over 16,000 Members in West Africa, alone. The Order has grown, with more Commandieries in England and Germany such that the name was changed in 1998 to the **KNIGHTS OF ST. JOHN INTERNATIONAL**. Throughout her history, the Knights of St. John Int'l has been blessed with outstanding leaders, men who have picked up the gauntlet laid down by their predecessors. Dedicated men who year after year, have gladly assumed the work, the responsibility and the obligation of preserving our Noble Order, so that they could pass it on in a condition so that it would be, at least, no less than it was when they received it. Past and present day leaders of the Order have accomplished this with distinction and with growing results to the glory of God.

20.1 B. HISTORY OF KNIGHTS OF ST. JOHN INTERNATIONAL, NIGERIA

The Order of the Knights of St. John Int'l was established in Nigeria as mentioned above from Ghana where it first berthed, as it were in Ghana on African soil. On June 6 1976, the first ever Commandiery 414 named after the Holy Spirit in Nigeria was inaugurated at Holy Ghost Cathedral Enugu with the initiation of 25 Founding Members into the Order with Col Kevin Ngeneme Ejiogu (1930 -1977) as the first Charter Worthy President thereof. Col Kevin Ejiogu is from Ubalekwen in Ihiala, Anambra State. He was known to be a very devout Catholic and a very prominent Nigerian of wide international exposure. He was decorated with the Ethiopian Gold Medal by Emperor Haille Sellasie 1n 1959, Knight Commander of African Redemption by President Tubman of Liberia in 1966and the Yugoslavian pin for War Heroes by President Maghot of Yugoslavia in 1961. While in Liberia, he was initiated into the Noble Order of Knights of St. John and Sacred Heart Commandierie 366, Monrovia. When he retired and returned to Nigeria n 1976, sought and obtained the Apostolic Approval of Bishop John Mary Okoye, then Bishop of Enugu to establish the Order in Enugu, Nigeria. A few years later he went on to establish the Noble Order at Holy Trinity Cathedral, Onitsha.

On a visit to his friend and colleague, Bishop Okoye at Enugu, Dominic Cardinal Ekandem, then Bishop of Ikot Ekpene learnt about the good works of the new Order in the Enugu Church and invited the body to come and establish the Order in his Diocese of Ikot Ekpene. During the 1979 Annual Teachers' Retreat at Queen of Apostles Seminary Afaha Obong, Abak, a delegation of Knights of St. John Int'l Enugu led by Sir Ralph Ani and Lady Margaret Njoku came and addresses the Teachers at the Retreat on the formation, functions and membership of the Order. On November 15, 1980 after the Knights and LAUX of Enugu had routinely visited to assist in the preparation and direction of the Probation of Ikot Ekpene diocesan aspirants to the Order,18 men and 23 women screened and approved Probationers were initiated with great fanfare and pomp at St. Anne's Cathedral Ifuho into the Holy Trinity Commandiery 423 with Sir C. O. Etim then Papal Knight of St. Gregory as the 1st Charter Worthy President and Lady Martina Hogan as its first Respected President of the Order, the 3rd in Nigeria. Soon after, many Dioceses in Nigeria especially those of the Old Onitsha Ecclesiastical Province established new Commandieries in Owerri, Umuahia, Uyo, Calabar, etc.

20.2 AIMS & OBJECTIVES OF KNIGHTS OF ST. JOHN INTERNATIONAL

21.0 THE CHURCH WARDENS ASSOCIATION

21.0 THE CHURCH WARDENS ASSOCIATION

21.1 HISTORY OF ORIGINS OF CATHOLIC CHURCH WARDENS ASSOCIATION

The Church Wardens Association is as old as the Church. Acts of the Apostles Chapter 5 in the story of Ananias and Sapphira his wife tells us of "the young men" who after the sudden death of Ananias for lying to the Holy Spirit, carried him off from the Synagogue to bury him … shows that there were right from the beginning (Cf. Acts 5: 1-11), "Orderlies" trained and inducted to stand by and minister in the Church to keep order and do certain things for the smooth running and orderliness in the Assembly of the People of God. Women also served the Church in this capacity.

Churchwarden, in the Church of England, one of the lay guardians of a parish church. The office dates from the 14th century, but the original duties of maintaining the edifice and goods of the church, with the financial obligations involved, were transferred to the parochial councils in 1921. Duties that remain are the provision of necessaries for divine service, the allocation of seats, and the keeping of order during services. Churchwardens are appointed after elections, one by the incumbent and one by the parishioners, in each parish.

In co-operation with the priest in charge (or, in cases of vacancy, the Bishop), Churchwardens are generally responsible for the day-to-day functioning of the parish. These responsibilities include various aspects of administration, plant operations, and personnel. Their work is not just the maintenance of the church building, but helping the smooth running of the church. In this capacity, wardens are considered the leading lay member of the congregation, and, during the incumbency of a priest, may have varying duties and responsibilities according to the customs of the parish, the canons of the diocese to which the parish belongs, the desires of the priest, and the direction of the parish board and/or the congregation as a whole.

Church Wardens have also other responsibilities in connection with the Sunday Services and for keeping order in the church. Churchwardens have a duty to make sure that the clergy can conduct their services and other meetings without hindrance. This requires that any visitors or newcomers are welcomed and assisted, that there is adequate seating, proper lighting and heating, and that all other facilities required are in place, including safety requirements. Churchwardens should be on hand to welcome guest preachers, the Archdeacon or Bishop when they visit, and offer any help as needed. On the rare occasion of a major disturbance within (or immediately outside) the church, the Churchwardens take primary responsibility in dealing with the matter and have the power to arrest anyone or escort them off the premises if necessary.

In many parishes, Churchwardens have the authority to officiate at Morning and Evening Prayer if a priest or licensed lay person is unavailable. The only areas in which Church Wardens almost always have no authority, often proscribed by Canon Law, is music and liturgy, which is considered to be under

the exclusive authority of the priest or bishop in charge of the Parish. As members of other parish committees and groups, Churchwardens are often able to offer advice and assistance. Each warden will have her or his own particular areas of knowledge and interests; between them they should not only fulfill their formal duties but also deal with unexpected problems and add to the general well-being of the Parish.

Churchwardens are required to respond to 'official' questions about the parish, and have to make various reports each year to the Annual Parochial meeting and to the Archdeacon. They may be trustees of some charitable trust connected with the church and are required to keep detailed records of all property, professional inspections, alterations and repairs. They are expected to attend all the meetings of the parish council and the standing committees, and should meet and pray regularly with the parish priest. In some Parishes, the Church Wardens are responsible for counting the Collection and recording the amount in the service Register, and determining (along with the parish council and Rector) how funds are to be allocated. But in other larger Parishes, the Reay/Church Collections can be regarded as duties for Church/Parish Envelope Secretary and Treasurer.

21. 2 AIMS AND OBJECTIVES OF THE CHURCH WARDENS ASSOCIATION
21.2.1 To participate in various internal Church Programmes
21.2.2 To participate in external worship activities
21.2.3 To prepare for the arrival of worshippers
21.2.4 To make visitors and members feel welcome

22.0 FR. IWENE TANSI MOVEMENT

22.1 HISTORY OF ORIGIN OF MICHAEL TANSI MOVEMENT

The Fr. IWENE TANSI Movement is an Apostleship of Prayer Movement and Devotion to Blessed Cyprian Michael Iwene Tansi which started in 1986 as a result of the exhumation and transferring of his mortal remains brought from cemetery at Mount St. Bernard Abbey, Leicester – England for re-interment at Holy Trinity Basilica, Onitsha. The spiritual Movement is no other than the Apostolate and Devotion to the Servant of God to storm Heaven for his Canonization. This Apostleship and Prayer Movement first yielded fruit with the Beatification of the Servant of God, Blessed Michael Tansi at Oba, Onitsha by His Holiness Pope St. John Paul II in 1998. With this first master stroke, the Movement began with zest to work towards the eventual Canonization of Blessed Iwene Tansi with Promoters and Coordinators appointed/elected at National, Provincial, Diocesan and Parish levels with the Author presently as Provincial Promoter of Iwene the Calabar Provincial Iwene Tansi Movement. The 20th of January of every year has been set aside as the International Blessed Iwene Tansi Memorial Day and Masses are being celebrated throughout the world on this day which also marks the celebration of SS Sebastian and Fabian in the Official Calendar of the Church. In Nigeria the Solemnity is observed at both National and Provincial levels with a particular Diocese selected to hold the National Rally and Celebration for that year.

22.2 LIFE AND TIMES OF BLESSED FR. MICHAEL CYPRIAN IWENE TANSI, OCSD

Rev. Fr. Michael Cyprian Tansi was born in Aguleri, Anambra State of Nigeria in 1903. He taught for some years before entering the Major Seminary then at Igbariam, Onitsha (1925 – 1937) now Bigard Memorial Seminary, Enugu. He was ordained priest, the second priest of Eastern Region of Nigeria after Bishop John Cross Anyogu who became the first Bishop of Enugu Diocese. He was thereafter appointed Curate to then Fr. Anyogu at Dunukofia where he served till 1940. He was appointed Parish Priest of Akpu in 1945 and Aguleri in 1949 with Msgr. Meze the erstwhile Confessor at Bigard Memorial Seminary as his House boy and Mass Server. In 1950, the Jubilee Year, after praying and opting to become a Monk, he was first sent to make the Pilgrimage to the four Major Basilicas in Rome. He was then sent to Mount St. Bernard in Monastery England to join the Trappist monks arriving there on June 8, 1950. He did his Novitiate and took his first Vows taking the name Cyprian after Roman Martyr. He used to say "if you are going to be a Christian at all, you might as well live entirely for God", and this had guided him throughout his whole life in the Monastery. In 1962, he visited Nigeria for the first time. He later came to celebrate Mass at his transferred Alma Mater, now Bigard Memorial Seminary, Enugu before returning to England. He died on January 20,1964. He body was buried at the Monastery cemetery but was later exhumed and afterwards re-interred at the Holy Trinity Basilica in 1986.

23.0 CATHOLIC CHOIR ASSOCIATION/COUNCIL

23.1 HISTORY OF ORIGINS OF CATHOLIC CHOIR ASSOCIATION/COUNCIL

23.1 HISTORY OF ORIGINS OF CATHOLIC CHOIR ASSOCIATION/COUNCIL

The Church Choir is as old as the Church itself. The Gospel of St. Matthew as also Mark mentions the closing hymn song after the Last Supper indicating that the first Church with the Apostles and the Lord Jesus present also had a standing Choir to render hymns and Canticles to the Lord: Sing Praises! "And after they had sung the Psalms they left for the Mount of Olives" **(Cf. Mtt. 26:30; Mk 14:26)** Acts of the Apostles also and similarly, St Paul's Epistles are replete with Hymns and Canticles to be sung to the greater Glory and Honour of God Almighty: "Sing Psalms and Hymns and inspired songs among yourselves…." (**Cf. Eph 5:19)**; also in his Letter to the Colossians we read:" …in your hearts sing Psalms and hymns and inspired songs to God" **(Cf. Col.3:16)**. Most of the Psalms we have were hymns sung by the Choir in the Synagogues in OT. Tim**es.** The origins of choral music are also found in traditional music, as singing in big groups was extremely widespread in traditional cultures, both singing in one part, or in unison, like in Ancient Greece, as well as singing in parts, or in harmony, like in contemporary European choral music.

We also learn that ancient Greece was the oldest unambiguously choral repertory and survived till the 2nd century BC. Delphic hymns also survived till the 2nd century AD. Mesomedes hymns as the most complete. The original Greek chorus sang its part in Greek drama, and fragments of works by Euripides (Orestes) and Sophocles (Ajax) are known from the papyri used at that time. The Seikilos epitaph of the 2nd century BC is a very complete song, although possibly it was for solo voice. One of the latest examples, Oxyrhynchus hymn in the 3rd century is also of interest as the earliest Christian music. In the 18thcentury the Roman drama and music as a single line of Terence resurfaced after the great Gregorian

Chant of the 6th century AD which in the Author's days was known as PLAIN CHANT. The earliest notated music of Western Europe is Gregorian Chant and its remnants are complete in the LIBER USUALIS still in use today. The Hallelujah Chorus, from George Frederic Handel's Messiah, is one of the most famous choruses and Cantata of all time.

In the Early Church, the sanctuary was connected directly to the nave. The choir was simply the east part of the nave, and was fenced off by a screen or low railing, called **CANCELLI,** which is where the English word chancel comes from. The development of the architectural feature known as the choir is the result of the liturgical development brought about by the end of persecutions under Constantine the Great and the rise of monasticism. The word "choir" is first used by members of the Latin Church. Isidore of Seville and Honorius of Autun write that the term is derived from the "corona", the circle of clergy or singers who surrounded the altar. The **Quire in Palencia** Cathedral in northern Spain, an example of a Monastic Choir. After the Reformation, when the number of clergy present even in large churches and cathedrals tended to reduce, and lay singing choirs became more frequent, there were often objections to placing them in the traditional choir stalls in the chancel.

Mixed Choirs (with male and female voices) are perhaps the most common and dominant type, usually consisting of **SOPRANO**, **ALTO, TENOR, AND BASS** voices, often abbreviated as SATB. Often one or more voices is divided into two, e.g., SSAATTBB, where each voice is divided into two parts, and SATBSATB, where the choir is divided into two semi-independent four-part choirs. Occasionally baritone voice is also used (e.g., SATBarB), often sung by the higher basses. In smaller choirs with fewer men, SAB, or Soprano, Alto, and Baritone arrangements allow the few men to share the role of both the tenor and bass in a single part. Male choirs with the same SATB voicing as mixed choirs, but with boys singing the upper part (often called trebles or boy sopranos) and men singing alto (in falsetto), also known as countertenors. This format is typical of the British cathedral choir (e.g. King's College, St Paul's, Westminster Abbey) and is arguably the second most prevalent type of choir in England. Nowadays some Churches have adopted Men's chorus (**MÄNNERCHOR)** ie. a Choir of adult men, low voices only, usually consisting of two tenors, baritone, and bass, often abbreviated as TTBB (or ATBB if the upper part sings falsetto in alto range). ATBB may be seen in some barbershop quartet music. These types of all-male groups lacking the higher voices are probably the second most prevalent types of choirs (after the adult mixed choirs) outside England. There are also Boys' choir, a choir of boys, typically singing SSA or SSAA, sometimes including a **CAMBIATA**/tenor part for boys/young men whose voices are changing and a baritone part for boys/young men whose voices have changed. Women's Choir, ie. a Choir of adult women with high voices have become the standard in many Parishes in Nigeria today. They usually consist of **SOPRANO** and **ALTO** voices, two parts in each, often abbreviated as SSAA, or as soprano I, soprano II, and alto, abbreviated SSA. Many Parishes also organize Children's choir, often two-part SA or three-part SSA, sometimes more voices. Girls' choir, ie a Choir of girls with high voices only, typically SSA or SSAA are mostly organized in All-Girls Institutions especially in Secondary Boarding Convent Schools. The women's, mixed children's, and all-girls' choirs tend to be professionally less prevalent than the high voiced boys' choirs, the lower voiced men's choruses, or the full SATB choirs.

During the latter Middle Ages, a new type of singing involving multiple melodic parts called **ORGANUM** became predominant at certain functions, but initially this polyphony was only sung by soloists. Further developments of this technique included **CLAUSULAE**, conductus and the **MOTETS** which, unlike the Renaissance Motets were a composition with different texts sung simultaneously in different voices. The first evidence of polyphony Music with more than one singer per part comes in the Old Hall Manuscript appeared in1420. During the Renaissance, sacred choral music was the principal type of formally notated music in Western Europe. Throughout the era, hundreds of Masses and Motets including other various other forms were composed for **CAPPELLA CHOIRS.** Choral music from this

period continued to be popular with many choirs till today. The Guinness Book has multiple Choirs of over 8000. 1n 2010, Akwa Ibom State recorded a multiple Choir with 10,000 and 31 Choral Groups from the LGAs. After the Reformation Protestant churches generally moved the altar (now often called the communion table) forward, typically to the front of the chancel, and often used lay choirs who were placed in a gallery at the west end. The choir and rear of deep chancels became little used in churches surviving from the Middle Ages, and new churches very often omitted one. With the emphasis on sermons, and their audibility, some churches simply converted their Chancels to seat part of the congregation. In 19th-century England one of the battles of the Cambridge Camden Society, the architectural wing of the Anglo-Catholics in the Church of England, was to restore the chancel, including the Choir, as a necessary part of a church. Different approaches to worship in the 20th century again tended to push altars in larger Churches forward, to be closer to the congregation, and the Chancel again risks being a less used area of the church.

During the Nigerian-Biafran war (1967 -1970) with the liberation of the then South Eastern State of Nigeria created by General Gowon in May 1967, many IDPs were able to return to the various Communities. The Author used the lull situation to organize choir groups which resulted in the conduct of Choir Competitions among Parishes and even some Mission Stations which found it handy. This also led to individual composition of hymns and Choruses. After the war, the Hierarchies of the Old Calabar Mission set up a special Committee made up of the Clergy, Religious and the Laity with a flare of music to review these hymns and choruses with a view of incorporating them into the Efik Catholic Hymnal which was later printed as the Revised Efik Hymn Book (EHB) Edition. In the meantime, Parishes continued to conduct Choir Competitions for their Stations. In time the Old Calabar Mission had acquired a knack of organization big-time Choir Completions involving Schools, Colleges and Tertiary Institutions which now constitutes the Calabar Ecclesiastical Province and masterminded by the inimitable Rev. Sr. Immaculata Offiong, HHCJ. She became the official Music Directress of the Province. With this scenario, the Catholic Choir Council of Nigeria, Calabar Province was inaugurated in 1996 comprising Port Harcourt Diocese, Ogoja Diocese, Ikot Ekpene Diocese, Uyo Diocese and the Archdiocese of Calabar.

24.0 CATHOLIC ALTAR SERVES ASSOCIATION

24.1 HISTORY OF CATHOLIC ALTAR SERVERS ASSOCIATION

An **altar server** or Acolyte as known in the Latin Church, is usually a lay assistant to the officiating priest/s at Mass and other a Christian liturgical celebrations, eg. Benediction of the Most Blessed Sacrament. An altar server attends to the supporting tasks at the altar such as fetching and carrying water and wine during Mass, ringing the altar bell, helping to bring up the gifts, or bringing up the Missal, among other things. If young, the server is commonly called an **altar boy** or **altar girl**. While the function of altar server is commonly associated with children, it can be and is carried out by people of any age or dignity. Canon Law requires that: "Mass should not be celebrated without a minister, or at least one of the faithful, except for a just and reasonable cause".

Pope Benedict XVI spoke of Saint Tarcisius as "presumably being an acolyte, ie. an altar server". However, within the Latin Church, the term "acolyte" is also used in a more restricted sense, often specified as "instituted acolyte", to mean an adult woman or man who has received the instituted ministry of that name. Acolytes in this narrower sense are not necessarily preparing for ordination as deacons and priests. They are authorized to carry out some functions, in particular that of cleansing the Eucharistic vessels, that are not entrusted to ordinary servers. Those who are to be ordained to the Diaconate must be instituted as Acolytes at least six months previously. This Ministry was long classified in the Latin Church as a Minor Order, as by the Council of Trent. The ***GENERAL INSTRUCTION OF THE ROMAN MISSAL***, which does not use the term "server" and instead speaks of altar servers generically among "other ministers", treats in detail of the functions of the "acolyte", often specifying "instituted acolyte"

The 1983 Code of Canon Law altered the juridical situation: without distinguishing between male and female, it declared: "Lay persons can fulfill the function of lector in liturgical actions by temporary designation. All lay persons can also perform the functions of commentator or cantor, or other functions, according to the norm of law." On 30 June 1992, the Pontifical Council for the Interpretation of Legislative Texts issued an authentic interpretation of that canon declaring that service of the altar is one of the "other functions" open to lay persons in general, without distinguishing between male and female. In reference to this authentic interpretation, the Congregation for Divine Worship and the Discipline of the Sacraments sent on 15 March 1994 a circular letter to presidents of episcopal conferences, clarifying that the Canon in question is only of permissive character. It does not require the use of female altar servers. It is thus for each diocesan bishop to decide whether to allow them in his diocese. A later document, from 2001, states that, even if a bishop permits female altar servers, the priest in charge of a church in that diocese is not obliged to recruit them, since nobody, male or female, has a *right* to become an altar server. The document also states that "it will always be very appropriate to follow the noble tradition of having boys serve at the altar". As priests in charge of churches are not obliged to avail of a diocesan bishop's permission in this matter, those belonging to traditionalist Catholic groups such as the FSSP and the Institute of Christ the King and some other priests do not. In the United States, after the Arlington Diocese's decision to allow them, the Diocese of Lincoln, Nebraska became the only diocese in the country that did not allow females to be altar servers in 2006, after the only other holdout ended its prohibition on female altar servers. However, it was joined by a church in the Diocese of Phoenix in August 2011, when it was announced that girls would no longer be allowed to Altar serve.

24.2 AIMS & DUTIES AT MASS OF CATHOLIC ALTAR SERVERS ASSOCIATION

~~I~~n the absence of instituted acolytes, some of their functions at Mass may be carried out by altar

servers.

- Servers hold liturgical books for the priest when he is not at the altar and is proclaiming the presidential prayers with outstretched hands. They bring and hold such things as books, Thuribles, the lavabo water and towel, vessels to hold the consecrated bread, and microphones.
- Entrance: The entrance procession is led by a Thurifer with burning incense (if incense is used at the Mass) and a cross-bearer carrying a processional cross, who is flanked on either side by another server bearing a lighted candle.
- Proclamation of the Gospel: If incense is used, a server presents to the priest at the Alleluia or other pre-Gospel chant the Thurible and the incense that he puts in the Thurible and blesses, and servers, who may carry the Thurible and lighted candles, precede to the ambo the deacon or priest who proclaims the Gospel there.
- At the Preparation of the Gifts: One or more servers assist in arranging the corporal, the Purificator(s), the chalice(s), the pall(s), and the Missal on the altar, leaving it to the deacon to take care of the sacred vessels. (At a concelebrated Mass without participation by a deacon, a concelebrating priest carries out the functions assigned to the deacon.) If, as is appropriate, the bread and wine for the Mass are presented by the faithful, servers assist the priest or deacon who receives these and perhaps other gifts and carry the bread and wine to the priest, placing other gifts in a place distinct from the altar. They present the cruets of wine and water for the priest or deacon to pour some into the chalice. If incense is used, a server presents the Thurible and incense to the priest, who incenses the offerings, the cross and the altar, after which the deacon or a server incenses the priest and the people. When the priest then washes his hands standing at the side of the altar, a server pours the water over them.
- At the Consecration: An altar server rings a bell shortly before the consecration, generally at the epiclesis (when the priest extends his hands above the gifts). In accordance with local custom, a server also rings the bell when, after the consecrations of the bread and wine, the priest shows the Host and then the Chalice. If incense is used, a server incenses the consecrated host and the chalice while these are being shown to the people.
- At the giving of the Sign of Peace: The priest or deacon may give the sign of peace to servers, while remaining within the sanctuary.
- During the Distribution of Holy Communion: In some places it is customary for servers to assist at the distribution of Holy Communion by holding a Ccommunion-Plate for communicants. Whether it is to be held by communicants or by a server, a communion-plate is placed on the Credence Table before Mass. Its use (held by the communicants) is prescribed when Holy Communion is given by Intinction.
  At the Recessional: The servers lead the priest and any other clergy as at the entrance procession, except that a server who acted as Thurifer at the entrance now follows the cross-bearer.
- If a Bishop celebrates Mass solemnly, two servers, wearing Vimpae, hold the Mitre and the Crosier, and present them at the appropriate times.

THE CATHOLIC CHURCH - DIOCESE OF UYO
THE CATHOLIC DIOCESE OF UYO IN PERSPECTIVE 1906 - 2006
THE CATHOLIC CHURCH IN PARTICULAR –URUAN-ESSIEN ITIABA THE CENTENARY OF THE CATHOLIC CHURCH IN URUAN/ESSIEN ITIABA 1906-2006

FOREWORD TO THE CENTENARY – EBEM-ISO IK?

A century is a land mark but in the history of the Church Universal it is just a brief period. In the history of the Catholic Church in **URUAN AND ESSIEN ITIABA** it is a vital period. It is history. It was the legendary Pope Celestine VI who said that "every history is Sacred History – Every history is a Gospel – Eliminate God from history and you will not be able to understand the history of man which is just an episode, a chapter, a reflection of the history of God." This is very true because the history of the Catholic Church in **URUAN** and Eastern Nsit a.k.a **ESSIEN ITIABA** can be more meaningfully understood only in the context of Divine intervention – the history of the black people of the lower Niger and by implication **URUAN/ESSIEN ITIABA**. Following upon the celebration of the centenary of the Calabar Ecclesiastical Province: 1903-2003 and the coming of the first heralds of the Gospel in the Catholic Diocese of Uyo in 1906, URUAN ESSIEN/ITIABA has been a significant part, and more so as the cradle of that epoch making event – to wit, the arrival of the Holy Ghost Missionaries on the shores of West Africa and by implication, Onitsha in 1885. With Onitsha as their base, the Missionaries under very difficult circumstances spread the Good News of Salvation testifying to its Truth by their very lives. By 1849 the first early Holy Ghost Missionaries to come to West Africa had fairly established the cradle of what was called the Two Guineas divided into Upper Guinea with Head Quarters at Sierra Leone and of the Lower Guinea at Gabon. But it was in 1885 that Fr. Joseph Emile Lutz (CSSP), an erstwhile Missionary in Gabon was appointed by the Holy Ghost Congregation (CSSP) to open another new Mission of the Lower Niger at Onitsha which later by Divine Providence was to become the Head Quarters of the Catholic Church in Southern Nigeria. It was this same Fr. Lutz as Superior and Prefect Apostolic who set out with his team of Holy Ghost Fathers and Brothers including the Sisters of the Congregation of St. Joseph of Cluny from France and arrived at Onitsha on Saturday, December 5, 1885. With the Onitsha mission opened, together with the construction of the first mud Church building which later was to become the marvelous Basilica of the Most Holy Trinity in place, the spiritual odyssey of the Catholic Church in the Lower Niger – Southern Provinces had begun.

These Missionaries at once sought to penetrate both the hinterland and the Coasts of the Bight of Benin and Biafara now the Bight of Bonny until their berthing on the Calabar Coast of the mangrove region. This region was previously explored by the Portuguese pioneer navigators who gave this centre of our discourse the name **Kalabros** (Calabar) meaning land of mangroves in 1476. Fr. Lutz had started off this odyssey as the first Local Superior and Prefect Apostolic 1885-1895. He was succeeded by Fr. Joseph Reeling 1896-1897, there after by Fr. Renë Pawlas 1897-1900, and then Mgr. Alexandre Leon Lejeune 1900 -1905, who finally succeeded them as the Superior of the Lowrer Niger Mission. It was this man of God that brought the Church to Calabar. He was later succeeded by Fr. Joseph Shanahan, as the new Superior and Prefect Apostolic. Having assumed the position of Prefect Apostolic, he sent more other missionaries to the mangrove region, which came to be known as the **Calabar Mission**.

From the impetus of the letter to his Excellency, Bishop Alexandre le Roy, Superior General of the Holy Ghost Congregation in Lyons – France, Mgr. Leon Alexandre le Lejeune CSSp, having taken over as Superior and Prefect Apostolic to Southern Nigeria began to consider the importance of the Lower Niger Mission ie. the colony of Southern Nigeria under the Governorship of His Excellency, Sir Walter Egerton then Consul General and resident in Calabar, the first Head Quarters of Nigeria then. He afterwards also quickly saw that Calabar had a greater future than Dahomey (Benin –Nigerie Meridienale) which had a majority of Muslims, whereas the Southern Provinces were entirely pagan and accessible to evangelization. Having made up his mind about the situation, he therefore set out with his Missionary team in the company of Fr. Patrick McDermott and co. and arrived at Calabar, one of the most important towns in Southern Nigeria, on 2nd February 1903. At Calabar, Mgr. Lejeune was later succeeded by Fr. Joseph Shanahan as observed already, but now as both Prefect Apostolic and Head of the new Mission. He it was who appointed Fr. Josef Leon Lena as the new Superior of the Calabar Mission with the directive to explore the hinterland part of the **MAINLAND** now called Akwa Ibom State. Use Uruan according to records was their first port of call and has remained the basic community and cradle for this new evangelization effort. It was from here that they championed the spread and establishment of the Catholic Faith in URUAN/ESSIEN ITIABA as part of this hinterland. It was here also that their Mission in the MAINLAND kicked off using the seaport at Idu a.k.a **AKWA ESUK MBEHE IDU** as their port of disembarkation. In consequence of this and also in commemoration of the unique event, viz. the arrival of these Missionaries from Calabar and the celebration of the first Holy Mass at **USE URUAN** on 24th December 1906 by Fr. Josef Leon Lena (CSSP), who now had taken over as Superior, that the Church in URUAN and Eastern Nsit has published this book to commemorate the 100 years (Centenary) of the Catholic Church thereat. This unique event of the establishment of the first Church in URUAN/ESSIEN ITIABA viz. St. Paul's Catholic Church **USE URUAN**, has witnessed various religious activities and spread of the Church including the building of Churches and Catholic Schools in the hinterland and in particular, St. Lawrence Church Eman Uruan which was completed in 1910 as the first ever permanent Church building in the whole of Nigeria which is still standing strong today. Our hearts are therefore full of joy and gratitude to God Almighty for the Gift of this premier Mission in our land and for the manifold fruits of our collective work of evangelization, no doubt made possible through the intercession of Our Blessed Mother Mary, Virgin nsi-nsi.

I also wish to acknowledge the contributions of the various groups, committees and individuals, viz. our priests, the Religious and the laity particularly Very Rev. Frs. Ephraim Offiong - Uruan North, Linus Effiong and Francis Essien – Uruan South, Michael Etim – Essien Itiaba, Rev. Sr. Matilda Inyang, HHCJ – Uruan Central, Catechist Clement Esenam – Uruan North, Mr. Thomas E. Etim - Uruan South, Hon. Sylvanus Eyo – Essien Itiaba, Mr. Thomas Etim of Nung Oku Uruan and Mr. Augustine O. Ebong together with my humble self – Uruan Central. To God without whom nothing has meaning and validity be all the Honour and Glory. A m e n.

HISTORICAL AND CONTEMPORARY PERSPECTIVES
EVOLUTION OF THE CATHOLIC CHURCH IN AKWA IBOM STATE
THE HIERARARCHY IN AKWA IBOM STATE 1963 –2018

CRADLE OF CATHOLICISM IN URUAN/ESSIEN ITIABA PARISHES & AKWA IBOM STATE

PREFACE ON THE CENTENARY OF THE CATHOLIC CHUCHURCH IN URUAN ESSIEN ITIABA

In the history of the Church, we always pay tribute to the laity or lay apostles, both men and women who were associated with the early missionaries in their endeavours to implant the Gospel in Nigeria. It is therefore a thing of great joy for us to put down this beautiful literature about the evolution of the Catholic Church in our village – Use Uruan and in the entire Akwa Ibom State. This work reminds us of the many self-sacrifices undertaken by our devoted missionaries, the lay Church members and ardent Christians who were like the "second wing of the bird" and their faith in planting the good seed through their faithful response to God's call. Their self abnegation helped to bring Catholicism to our fatherland that has now at this present time been blessed with abundant harvest by the Almighty God. Though many people have not known much about the genesis of our present local churches, this book aims at adding significant materials to the already existing literature on the evangelical work of establishing Catholicism by giving 'eye witnesses reviews' concerning the heralds of the Gospel in the present Catholic Parishes in the Ecclesiastical Dioceses of Uyo and Ikot Ekpene. It also windows the vigorous developmental efforts of the lay apostles together with an updated examination of some very important contemporary trends in the growth of the Catholic Church in Ndon Ebom Deanery in particular and Uyo Diocese in general. We fervently pray for the good repose of the souls of our late missionaries and founding Christians. May these reflections on their evangelical work give us the grace to do all that yet lies in the power of God so that the kingdom of Christ may continually flourish abundantly to the ends of the earth and forever – Amen.

THE HISTORY OF ARRIVAL OF THE CATHOLIC CHURCH IN USE URUAN (1906)

The year 1906 marks a spectacular landmark in the historical evolution of the Catholic Church in Use Uruan Town. Use Uruan is the first community in which the Catholic Church was first established in the whole of Uyo and Ikot Ekpene dioceses and even in the whole of the present Akwa Ibom State and parts of Abia, Rivers and Bayelsa states. This fact was confirmed in the homily delivered by the then pioneering Bishop of Calabar diocese which then comprised of the present Calabar, Uyo and Ikot Ekpene Catholic dioceses as also some parts of Ogoja, Aba, Umuahia and old Port Harcourt dioceses since until recently,

the whole of Bayelsa State was part of Port Harcourt. His Lordship Most Rev. Dr. James Moynagh at a High Mass he celebrated in 1956 to mark the Golden Jubilee celebration of the arrival of the Catholic Faith in this part of the world (1906 - 1956) declared this to the worshiping Congregation at that unique celebration. This event took place at Use Uruan Town which has by Divine Providence been reputed as the cradle of the Catholic Church in the whole of Akwa Ibom state.

Historically, late Obong Bassey Obot Inyang Umoren Odu Inyang of a renowned Ikot Odu Inyang family in Use Uruan, one of whose descendants was His Highness, Etinnyin Henry O. Inyang (1897-1971). He was a famous educationist a titled Chief a Paramount Ruler and **? b? Ikpa Is?** in URUAN South. He later became an ardent and a prosperous trader of his time. His trading enterprises and other business concerns took him far and wide into many coastal towns and creeks of Ikon Eto, Ikot Offiong, Ikpa Ene, Creek town, Akpabuyo, Creek town, Upenekang, Idombi, Douala, Abana, and other locations of the Old Calabar province and far into Santa Isabel (Panya) in Equatorial Guinea and the Cameroons. As a renowned and prominent trader, he was widely exposed and often came in contact with many famous and prominent people in the course of his trading expeditions. He was a man with unbounded zeal and uncommon intelligence to a heroic degree. He was a practical man, well-built spiritually and materially and yet of humble faith and childlike simplicity. He was well-known for his optimism, deep faith and his wonderful organizing ability. Fortuitously and unexpectedly, his trading business at Calabar made him to come in contact with the newly arrived Catholic Missionaries in 1903. As a man of profound humility, kindness, gentleness, understanding and justice with an endearing social status, late Obong Bassey Obong Inyang got so endeared to the White Catholic Missionaries that he spontaneously embraced the Catholic faith. The missionaries in turn were very much fascinated by his positive response to the call of duty. They immediately recruited him and his four male children into their evangelical team and gave them induction in Catholicism. Eventually, late Obong Bassey Obot Inyang was appointed a Catchiest having been found worthy by the Catholic Missionaries. His new position in the Catholic Church made him to become a firm Catholic stalwart. He was zealous, courageous, committed and fully determined despite many odds and disappointments to forge ahead. He therefore surrendered his sons of blessed memory to serve in the evangelical work of the missionaries which they were ever ready and willing to carry out. These were Joseph Edem Bassey, Augustine Effiong Bassey, Peter Essien Bassey and Paul Edet Bassey and they all served as “Mission Boys”. All of them were sincere and very devoted to the Catholic cause. During this time, Obong Nyong Essien who later became the Nsomm of URUAN, himsdelf a member of the Methodist church had brought both the Methodist Church Mission and a primary school to Use Uruan village.

In December 1906, one of the sons of Late Obong Bassey Obot Inyang, Joseph Edem Bassey who served as one of the Catholic Mission Boys at Calabar came home to Use Uruan on holidays. He informed the then village Chiefs and some Use Uruan villagers of their contact and close association with the Catholic Missionaries and their individual devotion in the Catholic faith. The report created deep impressions in the minds of Use Uruan villagers and the Chiefs in council. They were fascinated with the information and their sons' association with the new Church at Calabar. With this great and profound enthusiasm, Use Uruan people who had by now preferred to belong to a church brought to them by their own sons unanimously decided to invite the Catholic Missionaries to come to their Village – Use Uruan. To this end, a letter was quickly dispatched to the Missionaries at Calabar through one of these children, Late Joseph Edem Bassey. The Catholic Missionaries then on receiving the said letter and with their ambition to expand their religious frontiers were impressed. They replied and accepted to visit Use Uruan community without any further delay. The then Use Uruan Village Administration on the acceptance of the letter from the Catholic Missionaries was over-whelmed with joy and this became a highly celebrated

affair. Thus the Catholic Church had therefore become a very special church very dear to the heart of Use Uruan Elders and Chiefs. They quickly mandated four able young men namely: Chief James Jacob Edet; Chief Joseph Asuquo Edet; Chief Anthony Edet Okon and Chief Francis Asuquo Bassey Ene to go to Calabar with Chief Joseph Edem Bassey as the leader of the group and bring the Catholic Missionaries to Use Uruan village.

CONVERSION OF USE URUAN – RENUNCIATION OF THE METHODIST CHURCH

These four young men together with their leader, Chief Joseph Edem Bassey were so elated that they treated the village mission to Calabar with great concern and enthusiasm. By this time, Methodist influence in Use community in Use Uruan was beginning to wane while the functional relationship between Use Uruan community and the Reverend Fathers at the Calabar Mission began to wax stronger and stronger due to Fr. Joseph Lena's charismatic appeal. With the formation the people got about the new faith and the acceptance of the Catholic doctrine by the entire Use Uruan Community, the progress of the Methodist Church in Use Uruan village became frustratingly difficult. The happiness that enveloped the entire Use Uruan Village over the arrival of the first Catholic Missionary induced the then Use Uruan village administration and Elders to send a letter to the then Minister in charge of Methodist Church at Oron. In the letter they informed the Minister of the unanimous declaration by the entire Use Uruan indigenes to embrace Catholicism and denounce the Methodist Faith. The situation was delicate and nearly explosive but Rev. Father Kraft who was sent to quell the problem was diplomatic in his approach. He endeavoured to convince the Methodist Minister of the decision of Use Uruan elders as expressed in the letter and the Minister conceded and immediately withdrew the Methodist Church from Use Uruan.

The Mission School, formerly managed by the Methodist Mission was equally voluntarily handed over to the Catholic Mission and renamed as Convent School in remembrance of the first Missionary Reverend Sister – Rev. Sister Mary Charles Walker, locally known as Sister Magdalene. Today the School is renamed Holy Child Primary School, Use Uruan. The name of the Church was equally changed to St. Paul's Catholic Mission School Use Uruan. This school became a means of evangelization because the Catechism was taught as part of the School Curriculum while the school building also served as Church for liturgical worship and other programmes. Later Joseph Edem Bassey was retained as Catechist to teach Catechism and to nurture the newly founded Church and the Mission School. Thus he became both a teacher and Catechist and also serving the Catholic Mission well as a good layman.

Meanwhile Chief Thomas Akpan Udo was also appointed the first Church Headman. He helped to organize Catechumen classes in the Church. His evangelical enthusiasm as the Church Headman and Catechist helped to put flesh on the skeleton of the new Church. He admirably inspired the new Catholic converts to devote themselves to the new Faith. These two men, Joseph and Thomas were exemplary Teachers and Leaders fully grounded in the knowledge of the Catholic Doctrines with the capacity to withstand the hardships and challenges of the environment. With the full co-operation of other indigenes and Church Elders, they effectively helped to build up a strong and flourishing Church under the close supervision of Rev. Father Kraft. But we should not forget that during the arrival of these early Holy Ghost Missionaries at Use Uruan and long before the coming of the St. Patrick's Fathers, Rev. Fr. Kraft (CSSP) and his missionary team had also visited Ekeya community in Okobo Local Government Area accompanied by an Ekeya son who was then residing at Use Uruan at that time and who also was a staunch member of the Catholic Faith. Fortunately, in all the places they visited, they met with enthusiastic and cordial reception. Thus, Rev. Fr. Kraft and his evangelical team successfully established a Catholic Church at Ekeya Okobo also.

EVANGELIZATION OF NOTHERN URUAN THRO'USE URUAN

Then as Rev. Father Kraft must have observed, there was the felt need for more Catholic Missionaries to assist in the evangelization of this new area. He therefore sent information to the head of the Mission at Calabar requesting for more missionaries. Later Rev. Father McDermott accompanied by other Rev. Fathers and Reverend Sisters were dispatched to join Rev. Father Kraft. Prominent among the Reverend Sisters sent was Rev. Sister Mary Charles Walker (RSC) Foundress of the Handmaids of the Holy Child Jesus. Her coming happily led to the formation of the following special societies in the church: The Handmaids of the Holy Child Jesus; the Legion of the Mary etc. that assisted tremendously in the work of evangelization. In the early 1930s, Rev. Father Josef Kraft with other Holy Ghost Missionaries departed and new Missionaries from Ireland took over. They were the group that founded the St. Patrick's Society (SPS) in Kiltegan, Ireland. Later on, one of them, Rev. Fr. James Moynagh was appointed Prefect Apostolic. He it was who expressed their continued desire to work assiduously as good, vibrant and dedicated Missionaries beyond Use Uruan village at the cost of their own health and this yielded a huge success. Their temperament was such that they could ride over difficulties whilst still exercising a remarkable sense of judgment and prudence in dealing with their new converts. They were people of great kindness and compassion who went about tirelessly helping the sick and the poor as well as hearing Confession.

The Catholic Church in Use Uruan enjoyed the pride of place in the history of the Church in the present Uyo Diocese in many ways. First with the foundation of the Catholic Church in Use Uruan, the collateral evangelization of the present Ndon Ebom Parish began based on the singular advantage of proximity of the villages involved to Use Uruan. Second, with the assistance of the new members of the Church at Use Uruan, the Missionaries were able to use them. Consequently, the Missionaries were able to go into the orbit of their pastoral challenges as they launched into vast unknown territory. By this they endeavoured to consolidate by converting many villages and communities including Nung Ikono Ufok, Ekpene Ukim, Ndon Ebom, Nung Ikono Obio, Ikot Akpa Ekang, Ikot Akan, Ibiaku Issiet etc. Mission Stations that later constituted the present Ndon Ebom Parish and beyond. They equally had a strong belief in the power of prayer which consequently therefore brought about a period of rapid expansion of the Church. When the missionaries brought the Catholic doctrine to Use Uruan, the interest shown and expressed by the Use Uruan indigenes towards the cause of the Catholic Faith was overwhelming and they contributed immensely to its phenomenal and rapid growth everywhere. Also, in order to help in this work of evangelism and to spread the new faith of Catholicism, some Use Uruan youths that attended the Catholic Mission School at Calabar at that time were called back by the Missionaries. One of such people was Paul Edet Bassey, who helped in no small measure towards the evangelization of other neighbouring villages.

Anua Central Misssion owes it origin to the man called Asuquo Okon Ikpe from Use Offot who lived in Use Uruan with his wife Charlotte Ikwo Udo Ekang, an indigene of Use Uruan. Mr. Asuquo Okon Ikpe the father of the legendary Chief Philip Okon Ikpe and his wife like other indigenes of Use Uruan were infused with the spirit and zeal of Catholicism and both of them assimilated the new faith with pride being imbued with deep Catholic Faith. Then Mr. Asuquo Okon Ikpe decided to take the Catholic Evangelical Team led by Joseph Edem Bassey, James Edet and Chief Joseph Effiong Obot Inyang to Use Offot. This mission was a welcomed venture approved by the Missionaries. The team being so energized by the missionaries left for Use Offot and started their evangelical crusade. They enjoyed the confidence of the people and their mission sailed through unchallenged by other churches on account of other advantages and also the pride of place accorded their mission. After some weeks, the Catholic Church was firmly established at Use Offot. The Divine Service or Holy Mass celebrated with exceptional solemnity appealed to the people of Use Offot and her environs. Thereafter, the team moved to Anua village and equally succeeded in establishing the Catholic Church at Anua and beyond.

With his first trip to Use Uruan in 1906, Fr. Joseph Louis Lena, the Superior of the Calabar Mission in the company of Fathers Josef Kraft and L. Treich visited Anua. At this first contact with the Mainland, Fr. Lena made several trips and founded the Anua Mission as the new Headquarters of what is now known as Akwa Ibom State. He later sent the two Missionaries in the persons of Fr. Josef Kraft and L. Treich who were with him in Calabar to open up new Missions from Anua in the Mainland, thus making Anua their Provincial Central Mission. This was a project which took them several years to fulfill including the establishment of Churches in the surrounding villages of Eniong Offot, Ekpri Nsukara, Ibiaku Offot, Use Offot, Nsukara, ctc. and in Annang country beginning with Adiasim, Urua Inyang, Ifuho, etc. in what is now Ikot Ekpene Diocese. According to Fr. Hugh McGrath, it was the two missionary pioneer Fathers who were later joined by Father Paul Biechy that were responsible for the phenomenal growth of Anua Central Mission. When Fr. Biechy took over as Superior of Anua Mission, he was joined by Fathers Philippi O'Connor and Joe Delaney and two Reverend Brothers, Armand Hanson with an architect. Together with these, and between 1912 and 1914, Fr. Josef Kraft CSSp. built the Anua parish house and the two schools still standing strong today. The Premier Church-School has now been refurbished into a Nursery School. Fr Kraft had previously completed St. Lawrence Church Eman Uruan in 1910, similarly St. Michael's Church Nsukara Offot in 1912, the two first permanent Churches in Nigeria still standing strong today. In 1954, Dominic Cardinal, then Bishop Ekandem made Nsukara Church the Marian Year Pilgrimage centre and laid the foundation for the Cathedral which has been so regrettably and inopportunely demolished to give way to the new gigantic Cathedral under construction. His (Fr. Biechy's) other strong and right-hand man was Chief (Catechist) James A. Isua who served the Central Anua Mission Holy Ghost and St. Patrick's (SPS) Fathers and the entire Mainland Parishes and Churches including the Cardinal until his transfer in 1960 to CKS Uyo as School teacher.

The Catholic Missionaries at Calabar were extremely happy with episodic spread of the Catholic Faith. They equally visited Anua and Use Offot villages to assess the situation and progress of the Church in these villages. During their visit, they observed that Anua village was more centrally located at that time than Use Offot and more so on account of its proximity to the Colonial Administrative HQ of Uyo city. To this end, they decided to make Anua the Headquarters of the Catholic Church in the Mainland of what is now Akwa Ibom State and beyond. Mr. Asuquo Okon Ikpe and his wife, Mrs. Charlotte Asuquo Ikpe became the first wedded Catholic Couples of the Anua Mission. The edifice of Mrs. Charlotte Asuquo Ikpe can still be found near the Catholic Church premises at Anua which later was converted into the Central Mission Bookshop. Filled with zeal, Use Uruan people whole-heartedly became patrons of the new evangelization effort and contributed immensely towards the promotion of the Catholic Faith everywhere. Equally, the Catholic Faith in itself had a powerful influence on the people and soon became a threat to other Protestant churches most especially the Methodist and Presbyterian churches. In fact, it so happened that it did not take so long a time to create a great impact on the people around. Evidently and noticeably also, Catholic evangelism yielded abundant fruit due to its phenomenal spread to many areas. For further information on the Anua Mission read the Index on Anua and Profiles of the Holy Ghost Fathers and Bishop McGettrick above. To do justice to the History of ANUA Church would require a Book of its own which Chapters and Articles are scattered throughout the entire History of the Catholic Church 1921- 1960 and Index in the Book.

EVANGELIZATION OF IBESIKPO – ASUTAN BY USE URUAN "MISSION BOYS"

In another dimension, other Use Uruan early converts a.k.a "**MISSION BOYS"**, viz. Mr. Gabriel Effiong Udo Ekong and Mr. Joseph Asuquo Edet took over the piloting of the spread of the Catholic Faith to other towns and villages. They began by leading the Catholic evangelistic team to Ibesikpo – Asutan Districts. In the end, the team succeeded in establishing the Catholic Church with many converts in villages like Nung Ette, Ikot Okure, Ikot Ambon and Akpa Utong, etc. But as intimated above during this period, the ascendancy of the Catholic Church in these areas which were hitherto Protestant strongholds seriously threatened the security and progress of other churches and weakened their foundations. It is should be noted by now that the phenomenal growth of the Catholic Faith in these communities and other Local Government Areas could only have been possible through the relentless effort of Use Uruan indigenes who tirelessly assisted the Missionaries in propagating the new faith. Prominent among such people who champions of the evangelization effort to these areas were Chief James Edet and Chief Joseph Asuquo Edet. They were the pioneers and the Founding Fathers as it were of the Catholic Faith in Abak and Urua Inyang respectively through their committed and profound spiritual energy. From their example many young people also offered themselves for evangelical work for the propagation and spread of the Catholic Faith and the establishment of Churches in different places as directed by the Missionaries. But it was actually the enthusiasm exhibited by the Missionaries and the doctrines they preached that influenced the majority of Use Uruan people and gave them such stupendous zeal for evangelical work in the first place. This also evoked the apostolic spirit of Chief Joseph Effiong Obot Inyang to answer the missionary call and to graciously lead the Catholic Crusade team to Ifuho and Urua Akpan. Consequently, the Catholic Church rapidly spread to all nooks and crannies of what are now Uyo and Ikot Ekpene Dioceses. We have also to note that the successes recorded in these places where the Catholic Church was established were documented through the spiritual vision, devotion, determination and a deep-rooted interest of the pioneers who worked with total devotion and individual dedication, commitment and self-sacrifice. It is from this literature therefore, that we are able to give an accurate account of the past and to reckon with the poignant dimension of Use Uruan Village as the authentic cradle and the fountain of the Catholic Church through her devoted indigenes as the pioneering fathers who had blazed the trail of greatness, growth and progress of the Catholic Faith in Akwa Ibom State.

OTU EKONG RAPHAEL BASSEY
CURRENT PRESIDENT GENERAL

KGT. RAPHAEL E. SAM (KSM)
CURRENT 3RD SECRETARY GENERAL

SIR. PRINCE OKON (KSM)
PRES. ESIEN ITIABA COUNCIL

The Council was established on the 19th March 1972 in preparation for Ordination of Rev. Fr. Wilfred P. Asuquo Essien of Mbiaya in St. Lawrence's Parish, Eman Uruan. The Ordination was fixed for 30th July 1972. Two Priests, Rev. Wilfred P. A. Essien and Rev. Michael Adim Offiong of Essien Town Calabar both in the then Calabar Diocese were to be ordained together on that date. As a result of the lean financial status of the Diocese occasioned by the Civil War (1967 - 1970) Late Archbishop, then Bishop Brian D. Usanga, Bishop of Calabar wanted the ordination to take place at Rome. He sent letters to Uruan and Calabar communities, the home Parishes of the two Priests for their information. Both the people of Uruan and Calabar unanimously agreed that their sons be ordained at Calabar as they were ready to bear

the financial responsibilities of the said Ordination. The decision of Uruan people was informed by an invitation letter issued by Rev. Fr. Joseph P. Ekarika (now Monsignor) to stations in the then three Parishes of Uruan namely: Assumption Parish, Ndon Ebom, St. Lawrence's Parish, Eman Uruan and St. Joseph's Parish, Central Uruan summoning them for a meeting at Assumption Parish Ndon Ebom. With the support of Very Rev. Fr. Daniel Dolan (alias Akpan Uruan) who was then Father in-charge of Assumption Parish, Ndon Ebom. The Parishes met at Ndon Ebom for the first time on the 19th March 1972 to plan for the Ordination. The meeting marked the beginning of Uruan Inter-Parish Council as then Essien Itiaba was Nsit Section in Assumption Parish, Ndon Ebom. Precisely on 27th March 1986, St. Pius X Parish, Essien Itiaba was excised from Assumption Parish-Ndon Ebom. Consequently, the Council was renamed Uruan/Essien Itiaba Inter-Parishes Council.

.

On the 15th August 2000, St. Gabriel's Parish-Nung Oku Uruan was excised from Assumption Parish-Ndon Ebom. Similarly, on the 25th of May 2013, St. Jerome's Parish, Nung Ikono Ufok was created from Assumption Parish, Ndon Ebom bringing the membership of the Council to six Parishes.

AIMS AND OBJECTIVES OF THE COUNCIL: The council was formed to achieve the following aims and objectives: (i)To undertake the Evangelization of Uruan and Essien Itiaba Communities (ii)To support and encourage indigenous Priests during and after their Ordination.(iii)To support indigenous Religious during and after their Consecration, Vows and final Profession (iv)To foster Religious life among our Sons and Daughters.(v) To cater for the welfare of Priests, Religious and members morally and financially.(vi)To defend the Church and her Teachings.(vii)To foster love, unity and mutual understanding among member Parishes.(viii)To promote the socio-economic wellbeing of member Parishes.(ix)To help growing sections within the Council to attain Parish status.(x)To ensure that members receive the Sacraments of the Church worthily and regularly.(xi)To encourage Intra-parish marriage among our youths in both Communities.(xii)To encourage members to participate fully in all Station, Parish, Deanery and Diocesan events, projects and activities.

ACHIEVEMENTS OF THE COUNCIL Since its inception, Uruan/Essien Itiaba Inter-Parish Council has to its credit made the following achievements:(i) The successful Planning and Execution of the Priestly Ordination and 1st Holy Mass events of Twenty-Nine Indigenous Priests from both communities.(ii)Organizing Reception Ceremonies for Indigenous Rev. Sisters of the Council.(iii)Organizing Vocation campaign meetings which resulted in the opening of Assumption Girls Juniorate, Ndon Ebom by His Grace, Most Rev. Dr. Brian D. Usanga the Late Archbishop of Calabar for training of our Daughters aspiring to in various Religious Congregations of Sisterhood in the Catholic Church.(iv)Retrieval of Rev. Fathers Quarters at Holy Trinity College, Mbiakong in Central Uruan Parish which was forcefully converted by the then Cross River State Schools Education Board for use by the School Principal.(v)Regular assistance and support to members in need.(vi)Assistance to all Priests in their work in the member Parishes.(vii)

PROGRAMMES AND ACTIVITIES OF THE COUNCIL: The activities of the Council consist mainly of the following:(i)Monthly Rotational meetings as well as Emergency meetings when need arises.(ii)Support and prompt attendance at Priestly Ordinations or Consecration/Final Profession of Indigenous Priests or Religious.(iii)Participation at and rendering support during Anniversaries and Jubilees of both serving and Indigenous Priests and Religious of the Council.(iv)Vocation Campaigns in Parishes of the Council.(v)Planning and execution of 1st Thanksgiving Mass of Priests of Uruan and Essien Itiaba Origins.

ARTICLE FOUR: CATHOLICISM IN URUAN AND ESSIEN ITIABA PARISHES

HISTORICAL PERSPECTIVES: At the turn of the 19th Century, Christianity spread from Western Europe across the Atlantic Ocean to the black continent of Africa. The spread of the Catholic Church to this part of West Africa now known as Akwa Ibom State came through the Atlantic Coast first to Onitsha and from there to Calabar. Records show that the Catholic Missionaries took their turns since their arrival in 1885 and eventually entered Uruan through **AKWA AKPA URUAN** which was the only link from Calabar where the European Oil Traders were residing. Later on these tradiers also arrived the Mainland of Akwa Ibom State through sea coasts at Esuk Odu, Nung Ikono Ufok, Use Uruan, Esuk Mbehe Idu now called Nwaniba, Ifiayong, Mbiakong and Ikpa. It was these Oil Traders or the Supercargoes that offered the Missionaries who came with them the opportunity to get in contact with the natives in order to evangelize them. Uruan and Essien Itiaba people who used to travel to Calabar to sell their oil and in return bought European goods met with these Holy Ghost Missionaries from France residing in Calabar and so developed admiration for them. The Holy Ghost Fathers who wore long beards captivated them

especially in their preachings which centered on the fact that Jesus Christ shed his blood for mankind. The Missionaries also instructed them that animal sacrifices were no longer necessary for salvation. Besides, the God they must now worship was for all because He is a Universal God and Father of all. He is both for the young and old, men and women, the rich and poor. Then after a time, those Uruan and Essien Itiaba traders brought home the news of the white missionaries and their teachings. This new message greatly enthused them to the extent that many of their fellow citizens became convinced and began to accept the new teachings. In some villages, the white Missionaries from Calabar themselves visited the people.

The Catholic faith was embraced in **URUAN AND ESSIEN ITIABA PARISHES** as far back as 1906. The growing strength of the former Anua Parish which was the first Central Mission in the Mainland paved the way for the creation of the first three Central Missions otherwise called Parishes in Uruan namely: Assumption Parish, Ndon Ebom erected in 1950 with Rev. Fr. Thomas Mchoney and later Fr. Daniel Dolan, as the first Fathers In-Charge. St. Lawrence's Parish, Eman Uruan came next in 1956 with then Rev. Fr. Brian D. Usanga as first Father In-Charge and finally St. Joseph's Parish, Central Uruan was established in 1959 with Fr. S. Deegan as the first Fr. In-charge. Later the Assumption Parish, Ndon Ebom gave birth to three more Parishes namely: St. Pius (X) Parish, Essien Itiaba in 1986 with Rev. Fr. Columbanus Udofia as 1st Parish Priest; St. Gabriel's Parish, Nung Oku Uruan in 2000 with Rev. Fr. Gabriel Ekong as 1st Parish Priest and St. Jerome's Parish, Nung Ikono Ufok in 2013 with Rev. Fr. Francis Ubong as the first Parish Priest thus bringing the number of Parishes that make up Uruan and Essien Itiaba to six. To God be the Glory!

2. ST. ANDREW'S CATHOLIC CHURCH, NDON EBOM

(a) **ORIGIN:** Rev. Fr. Kraft arrived at Ndon Ebom from Use Uruan in 1909 with the intention of opening a church but this vision was achieved in 1910 through Rev. Fr. FR. P. KIRCHINER (CSSP).

(b) 1ST MASS/SERVICE: The first Mass was celebrated in 1911. There were about 200 Candidates who accepted Jesus and were baptized.

(c) CHURCH BUILDING: On the arrival of Rev. Fr. Skinner constructed the first Church/School named St. Andrew's Catholic Church. It was built at Ikot Oboh at a place called Ndon Ikot Okono in the year 1910. After naming the Church by Bishop, then Fr. Josef Shanahan, Ibete and Nda Ikot Akpa Unam donated a new site where the permanent Church was built and still stands strong till today.

(d) 1ST CATECHIST/TEACHER: Mr. Esuk Esang from Ekeya Okobo.

(e) CHURCH HEADMEN: Mr. Hilary Bassey

(f) 1ST BAPTIZED MEMBER(S)/YEAR: In 1911, about two hundred people (200) were baptized. Prominent among them were Hilary Etim and Leo Essien Obot, the great Patriarch of Obot Essien dynasty.

(g) 1ST TO RECEIVE HOLY COMMUNION: YEAR: In 1912 many people received Holy Communion.

(I) 1ST WEDDED COUPLES/YEAR: In 1912 many people received the Sacrament of Matrimony. It was a mass wedding.

3. ST. THOMAS AQUINAS' CATHOLIC CHURCH, EKPENE UKIM A SHORT HISTORY OF EKPENE UKIM STATION AS PARADIGM

(a) ORIGIN: In the early 20th Century (1900 - 1920), Calabar city was a melting pot of sorts with all Nationalities from many parts of Nigeria, especially from the former Eastern Region going and coming there for the purpose of trade then that the Efik Potentates had banned the Slave Trade as an illegitimate Trade. The booming Legitimate Trade which ensued was mostly in palm produce as exports and merchandise like tobacco, clothings, stock fish, gun powder and machinery as imports from the Trading European countries with Calabar. Nearly every nationality had one thing or the other to do either buying or selling – either as official merchants or middle men and women. Ekpene Ukim people, ditto most of the people from URUAN-EFIK towns and villages especially from nationalities in the MAINLAND a.k.a Akwa Ibom State had one thing or other to do in Calabar. That is why as noted above, most of the Mission Stations established by the Holy Ghost Fathers were directly at the instance of these citizens and Ekpene Ukim was no exception. Ndon Ebom people who are living close to the river viz. Esuk Inwang were in the fore front of this trade and also the first people to get in contact with the Missionaries in Calabar. They were also instrumental to their coming to their land, ditto Ekpene Ukim. According to Ekpene Ukim folk

lore and cultural history and tradition, it was through Ndon Ebom people that they were able to get in contact with the Holy Ghost Missionaries in the first place. What attracted the people most was the fact that the new Religion proclaimed by these Missionaries put an embargo on animal sacrifices thus relieving incessant demand of animals by native doctors and priests. The Ekpene Ukim people also came to know that the new Religion was for classes of people, the poor and the rich, men and women, adults as well as children alike. They also soon discovered to their excitement and enthusiasm that the white bearded men of God whose Religion they now admired were easy-going, very approachable and humanitarian. To this end the Chiefs and Rulers encouraged their trading men at Calabar to make contacts with a view to bringing them to Ekpene Ukim to evangelize them as they have done at Ndon Ebom close by.

In January 1914, the Chiefs of Ekpene Ukim viz. Chief Asuquo Udok, Chief Eka Enwang, Chief Umo Ekwere, Chief Ekpo Okon Udo, Chief Nya Ekpott, Chief Umana Etok, Chief Udo Usoro Isongo, Chief Akpakpan Udo Anwa and Chief Eyo Akpan Ekpo after contact with Chief Benjamin Okon Akrah of Ndon Ebom and upon getting his willingness to assist and introduce them to the Missionaries at Calabar, nominated three highly spirited young men namely: Inyang Akpan, Etim Akpan Inyang (alias Isaiah) and Edem Udosen to accompany Chief Akrah to Calabar in order to bring the Missionaries to Ekpene Ukim. Their trip yielded fruit as the three men and their leader Chief Akrah came back with Rev. Fr. Joseph Kraft the resident Catholic priest at Calabar at the time. They had sailed through AKWA AKPA URUAN a.k.a Cross River estuary to the Atlantic and arrived at Use Uruan beach. From there they trekked through the forest land and arrived at Village Head's compound Ukim for introduction and briefings to Chief Asuquo Udok. On their arrival, the anxious chiefs, men, women and children of Ekpene Ukim gave the team a warm and happy welcome and moved over to the large compound of Chief Nya Ekpott for the first Open Air Mass. There also, many of the people embraced the Catholic teachings, thus the Catholic Church was established in Ekpene Ukim. In 1916 as large numbers of Ekpene Ukim citizens flocked at Chief Nya Ekpott's compound to listen to the teachings of the Catholic Church with many remaining after for Catechism Instructions with the view to prepare themselves for Baptism. As the number of people for the faith increased, the Church had to move from Chief Eyo Akpan Ekpo's compound to accommodate the anxious men, women and children who flocked there especially in the moonlight evenings for prayers and Instruction. Every morning and evening "**Nkanika Ekpe"** donated by Chief Nya Ekpott would be rung round the town for people to wake up or take their evening meals and move over to the make shift "Church" at Chief Ekpo's compound. Afterwards the tinkers prepared a large "metal drum bell" which was hung on the Ubam tree outside the compound. This was beaten three times at intervals of about fifteen minutes to alert the people to move to the Church. It was amazing to see such a heart moving response from stark pagan folks. Till today, Ekpene Ukim Church is number one in Church attendance and the first to have two separate Standard Six Primary Schools for boys and girls in one village in the whole of **URUAN** apart from Idu Headquarters which girls Convent School has now been ceded to Ifiayong Usuk in Central URUAN as the town has grown towards and nearer to the School. Till today and for the past fifty years Sunday Mass and even on weekdays is celebrated every blessed week at Ekpene Ukim Church for the benefit of the jam-packed Church. This was exactly the situation the Author had met when transferred from Christ the King Cathedral Uyo to the Assumption Parish, and I tried to maintain this which position has remained till this day. That is St. Thomas Ekpene Ukim for you. Thereafter Church activities continued there until it became necessary to move again and this time to Chief Ukpong Onung's compound which was the most spacious of the three. One can wonder why the emphasis on compounds of this sort! The simple explanation is that most of these Chiefs of yore were grand Chieftains in Ekpe and men of high standing as Ekpe Adepts, such that the bigger the size of his premises for Ekpe display which depended on the status of an Ekpe Adept the more likely to own such large premses to warrant the large concourse of such a great personalities and spectators from far and near. I could count the number of such compounds in the 1940s – 1960s in Idu where Ekpe displays used to hold sway most

of the time and very especially in our compound, my father being the Live-Prime Minister of the area for as long as he lived. Large and spacious compounds were necessary items for Ekpe displays, hence the spacious compounds under discourse.

Because **"day by day the Lord added to their Church such and such as destined to be saved" (Acts 2:47)**, the population of the Church kept on increasing in leaps and bounds thus creating acute accommodation problems. It soon became necessary to find a permanent site for the Church and many were ready and willing to donate pieces of land adequate enough and away from their compounds to build a permanent Church for the teeming members. The Chiefs were consulted and a meeting was convened at the village Head, Chief Eka Enwang's compound with all the Etubom's a.k.a "Family Heads" in attendance.

The Owok Udo Ntung forest land – an evil forest, **"? w?k ? du? ?"** was chosen and those owning plots in the area were contacted to allocate their forest and farm lands to the Church at the instance of their Village and Family Heads. That has been the Church site till this day. That evil forest was manifestly for the dumping of corpses of wicked people, wizards and witches, twin mothers and their babies, women who died at child delivery, small pox, accidents etc. Evil spirits were believed to have made their abode there. That was what happened everywhere and every time the Missionaries were said to have been donated lands. The Missionaries remembering that in Europe also especially during the age of the Great Persecutions and onslaught by the barbarian hordes and invaders from the Far East, it was to the deserts and mountains the Monks sought refuge and those place were later to become great centres of learning, civilization and eminent cities like Oxford, Cambridge and Lyons today. In fact, the people had believed though very wrongly that the evil forests would swallow them up as it did to the evil men and those thrown there to rut. That is also the reason why they accepted these "donated lands" with gratitude and turned them into city centres as was the case with Mbiaya Uruan, Idu, Ndon Ebom, Eman Uruan, etc. as in the case of Ekpene Ukim under discussion. For the people it was the great miracle associated with the Roman Catholic because those who did not want the white man or his Church wanted to get there and rut hence they enthusiastically supported the allocation of the land and agreed to the "donation" whereas for the believers it was to shame the devil and that rather resulted in many abandoning their pagan ways and swarming to the Church. Small wonder that Ekpene Ukim Church has come such a long way and as opined earlier, the Church produced two Primary Schools to which was added an Apostolic School and later when the Apostolic Missionaries came calling. Today there is a College, the Adiaha Obong Technical College standing strong at the site of the Convent School which the Author established in 1971. Today the Church has produced many Rev. Fathers and Religious Nuns to the greater Glory of God.

(b) 1ST MASS / SERVICE: Since Chief Asuquo Udok's the Village Head's compound was the first they entered but was not spacious enough, the first Holy Mass was celebrated at Chief Nya Ekpott's compound.

(c) CHURCH BUILDING: As noted above Church Services were first conducted at Chief Nya Ekpott's compound, the church later moved to Chief Eyo Akpan Ekpo's compound and continued there until when it became necessary to move to Chief Ukpong's compound which was more spacious. As a result of the daily increase in the number of the faithful, the Chiefs met and selected Owok Udo Ntung for the building of the permanent Church. By this time Chief Enwang was the Village Head with Chief Akpa Abasi Eduok as the Deputy Village Head. Thereafter the need arose for providing the Church with something louder than the "Ekpe Bell" to summon the Faithful for Church Services and other Church activities. To this end, five trunks were cut from the coconut trees that were felled and stacked together across one another to form a plat form which then served as **"ETO AKAM"** in place of a Church Bell. It produced such loud a sound that when beaten it could be heard as far as even Ndon Ebom and beyond. Thereafter it was thought necessary to order a proper Church Bell abroad with the inscription "**ST. THOMAS CATHOLIC CHURCH"** like the one at Ndon Ebom. Unfortunately, when it did arrive there was no ready cash to pay for it and since no advance payment was made, the manufacturer sold it to Ikot Ediom Church in Asutan Ekpe. That bell is still there till this day. Later a fresh order was placed for another Church Bell and on delivery Chief Samuel Una a.k.a Asabo Una promptly donated money to complete the down payment and the Church took possession of it.

In 1962, Rev. Fr. Dolan who had gone home on leave used the occasion to solicit for funds for the construction of the beautiful permanent Church we see today. His aim at first was to build a befitting Chapel at the Convent for the Rev. Sisters, but on coming back he changed his mind and organized the citizens of Ekpene Ukim to rally round for the gargantuan and magnificent work of Church building. Many Functions and Bazzars were organized to garner support for the work. After clearing the land which was extensive, the Church construction started in earnest but it was soon stalled as the Foreign Aid Funds Fr. Dolan had garnered could only carry a fraction of the work. Then the civil war set in and the work was completely shelved until Rev. Fr. J. P. Ekarika who was transferred from Christ the King Cathedral Uyo was posted to the Parish and he completed most the work in 1969 on schedule. The Church then was jam-packed owing to the influx of aliens from all parts on account of the war. They were not really displaced IDPs in terms of accommodation and means. Most of their teachers were seconded by Fr. Ekarika who also was the Education Secretary but administering from Ndon Ebom as his base. Some were gainfully employed in the farms, at sea ports etc. while the others continued with their market trading as formerly since Calabar and Uyo Provinces had been liberated by the Federal Armed Forces by then. Their presence swelled the Tray Collections both on Sundays and at Weekday Morning Masses. Building and roofing materials could be cheaply purchased in Port Harcourt from the abandoned firms. I could remember purchasing truckloads of iron rods including poles for pillars especially from the Shell Companies which were prospecting for oil all over the place including nearby Adadia, Anua, etc. That was how it was possible to continue the work to its logical conclusion. The first beautiful Iroko Altar complete with steps was produced by an indigenous carpenter, Mr. James Nyong Ekanem. On January 6, 1989 the foundation stone of the fully completed and furnished permanent Altar was liturgically laid by Archbishop, the Most Rev. Dr. Brian D. Usanga amidst pomp and pageantry in joyful celebration thereof and to the greater Glory of God

(d) 1ST CATECHIST / TEACHER: The first Catechist/teacher was Mr. Dameda from Ghana.

3. HOLY ROSARY CATHOLIC CHURCH, IBIAKU ISSIET

(a) ORIGIN: The Catholic Church in Ibiaku Issiet was established in 1914. But the Catholic faith had a setback in 1928 when all the members were told to uphold monogamy as their new way of life according to the tenets and Doctrine of the Catholic Church. Since many people were involved in polygamy they turned away and left the Church. Chief Peter Etim Asuquo and Chief Joseph Etim Akpan Effiong who held on to the Catholic Teachings embraced the faith and returned to the Church. After four years many others also accepted the Doctrine of one man – one wife and returned to the faith though before now Chief Peter Etim Asuquo had died. Harison Ete Joseph Etim took over the mantle of leadership of the Church till well into the 1980s.

(b) 1ST MASS / SERVICE: The first Holy Mass was celebrated in 1914 by Rev. Fr. Paul Biechy at the home of Chief Effiong Abaekpe. The First Mass at the present church building was celebrated in 1975 by Rev. Fr. Jim Sharkey.

(c) CHURCH BUILDING: The Church started at Chief Effiong Abaekpe's compound but later moved to Chief Joseph Etim Akpan Effiong father's compound. In 1936, the first church, in mud, was erected where St. Peter's (RCM) School is situated. Those who donated the land and contributed towards the construction of the Church included Chief Peter Akpan Okon, Chief Henry Inyang Akpaudo, Chief Valentine Okon Etim and Chief Joseph Etim Akpan Effiong. In 1974, Chiefs Paul Okon Edet Bassey and Paul Edem Udo Umoren donated the land for the construction of the present permanent Church. Mr. Nicodemus Effiong Udo, Mr. Pascal Effiok Asuquo, Mr. Lawrence Okon Etim and Mr. Fintan Etim Effiong contributed in no small measure towards the erection of what is seen today as the edifice of Holy Rosary Catholic Church, Ibiaku Issiet through the direction of Etinnyin Cletus D. Effiong of Idu URUAN then Head Master.

4. ST. HENRY'S CATHOLIC CHURCH, IKOT EDUNG

(a) ORIGIN: The Church was established in 1914 through HH Etinnyin Peter Udo Edo, HH Etinnyin Udo-Idiong Usanga, Chief Etim Udosen and Chief Ifia Udo Ud**o.**

(b) 1ST MASS/SERVICE: The first Church Service was held in January 1914 and first Holy Mass was celebrated in March 1914.

© **CHURCH BUILDING:** Sunday Services and other Church activities started at Chief Etim Udosen's Compound. In 1917 HH Etinnyin Etim Udo-Idiong Usanga donated a parcel of land for the building of a modest thatched Church which was in use until the coming of the Holy Child Sisters. In 1946 the Sisters obtained land from the Chiefs and built the Convent School. Then the Convent School block invariably became the Church which was also used for other Church activities outside school hours. In 1971 Rt. Rev. Msgr. then Rev Fr. J. P. Ekarika appealed to the Chiefs of Ikot Edung and they donated a piece of land along Ekpene Ibia – Ikot Edung – Ibiaku Issiet Road for the construction of the permanent Church which construction was kick-started by Fr. W. Dowling (SPS) and completed in 1976 by Fr. John Peter Udoh.

5. IMMACULATE CONCEPTION CATHOLIC CHURCH, IBIAKU OBIO NDOBO

(a) ORIGIN: The Catholic Church was established in Ibiaku Obio Ndobo, Uruan Local Government Area, in Akwa Ibom State in 1914 with the foresight of three indigenous gentlemen of blessed memory: Chief Henry Ekpo Akpabio, Chief Peter Edem Akpan Asuquo and Chief Edem Akpan Bassey. They brought the Church as it were, from Use Uruan, Uruan Local Government Area of Akwa Ibom State. These men soon came to realize that the Church other than offering salvation to souls of the faithful also ushers in enlightenment and development into the community that establishes and owns it. These gentlemen and other pioneer members of the church set out to Use Uruan to request for a Catechist and teacher. The members from Use Uruan granted the request and gave the first teacher and catechist in the person of Mr. Effiong Udo Ekong to start and direct the Church affairs in Obio Ndobo.
(b) 1ST MASS/SERVICE: The service was held in a small thatched/mud house along Efak Effiong Adiaha Udo in 1914.

(c) CHURCH BUILDING: The thatched and mud building was erected in 1914 along Efak Effiong Adiaha Udo and remained till 1941 when the new site was donated to the church. With the increase in membership, the original mud house was expanded to accommodate more members and the Church remained there until 1941 when the location was changed because of frequent conflicts with Asandak-Ekpo masquerade which often passed through the road leading to the Church. Then the Church leaders acquired the present permanent site along Uyo-Oron Road through the permission of the then Village Council and the building of the permanent Church was completed and dedicated by Rev. Fr. D. Dolan in 1965. In 2016 the Church was renovated and refurbished to the standard we now have it.

(d) 1ST CATECHIST / TEACHER: The first catechist was Mr. Effiong Udo Ekong from Use Uruan.

6. SS PETER AND PAUL CATHOLIC CHURCH, ITUK MBANG

(a) ORIGIN: The Catholic Church was established at Ituk Mbang in 1970 by Rev. Fr. J. P. Ekarika through the assistance of Mr. Raphael Edet Edem who embraced the faith at Ndon Ebom and Ekpene Ukim. Before then the village had remained predominantly Methodist. The Catholic Church at Ituk Mbang met series of frustrating moments that would have resulted in its collapse but had to stand the test of time through the steadfastness of Mr. Alphonsus Bassey Etim, Mr. Raphael Etim Essien, Mr. Cornelius Effiok Edet, Mr. Stephen Edem Okon, Mr. Damasius Okon Joseph and Mr. Damasius John Umana. In 1981, the entire Church building was violently brought down during the administration Very Rev, Fr. Joseph Pettit (SPS) as Parish Priest of Ndon Ebom. But through the timely intervention of Rt. Rev. Msgr. J. P. Ekarika and the Parish Council the Church was brought back to life. Members were encouraged to acquire a new site and another Church was put in place to the Greater Glory of God.

(b) 1ST MASS and dedication SERVICE with the Parish in attendance: 1970

(c) CHURCH BUILDING: In 1970 through the assistance of Rev. Fr. Ekarika work on the building of the Church started in the land acquired by the Church members but on 27th January 1981 one man went and demolished the whole Church building. Rev. Fr. Joe Pettit PP came to report the matter to Monsignor J.P Ekarika who advised that he would obtain permission from Late Bishop Brian Usanga to allow Mass to be celebrated at Methodist Primary School Compound. This made the Church services and other devotions to be conducted at Mr. Alphonsus Bassey's compound for the mean time. Since Mr. Alphonsus Bassey's Parlour could not meet up with the increasing number of members, the Church had to appeal to the Methodist School Authorities for accommodation and that was also granted. But after two weeks the Church was served with a quit notice.

In the year 1990, Ndon Ebom Parish came in and acquired a portion of land for the station where the present permanent Church building is situated. The building started as a thatched house but through the assistance, donations, and efforts of some Priests, indigenes and neighbours the construction of the new Church building was kick-started in 1992. Those who assisted with funds and materials included Rev. Fr. Leo Etim (Parish Priest). Mr. James B. Effiong, Mr. Bright Ewoh, Mr. George William (ASP) and many others. With these, the present permanent structure was erected. As a matter of fact, Ndon Ebom Parish after acquiring the land also provided funds to aid in the building of the Church up to window level.

(a) 1ST CATECHIST/TEACHER: The first Catechist/Teacher was Mr. Damasius Okon Joseph.

ST. LAWRENCE PARISH – EMAN URUAN

(a) ORIGIN: St. Lawrence's Parish, Eman Uruan was excised from St. Joseph's Parish, Anua in 1956 by His Lordship Most Rev. Dr. James Moynagh then Bishop of Calabar Diocese. The Parish church building was completed in 1910. The Parish since 1906 ie. before 1956 had been operating with Sunday services and Mass celebrations from time to time when Rev. Frs. from Anua often came to say Mass for the Christians of the area which also included all those stations in what is now St. Hilary's Parish, East Itam. Most of the time the Churches were been administered by Catechists who organized morning prayers, Catechism classes, etc. till 1956 when Eman Uruan was granted a Parish status.

(s) GROWTH/DEVELOPMENT OF ST. LAWRENCE PARISH TO-DATE:
The Parish has a Pastoral Hall and a Girl's College by the name **ST. JOSEPHINE BAKHITA GIRLS' SECONDARY SCHOOL**. The Parish has recently been raised to the status of a Deanery and Head or Central Mission. Eman Uruan Parish is also a member of Uruan Essien Itiaba Inter Parishes Council with fiver other Parishes which cater for Priests'/Rev. Sisters' Ordinations and Final Professions viz. Assumption Parish, Ndon Ebom; St. Joseph's Parish, Central Uruan; St. Gabriel's Parish, Nung Oku Uruan, St. Gabriel's Nung Ikono Ufok, St. Pius, Essien Itiaba and St. Lawrence, Eman Uruan.

HISTORY OF OUT-STATIONS UNDER EMAN URUAN PARISH

ST. LAWRENCE'S CATHOLIC CHURCH, EMAN URUAN
(a) **ORIGIN:** As already discussed above and from available records, it was through the appeals and intervention of Late Chief Moses Udo Anana that Eman Uruan local merchants residing in Calabar and who had previously been converted and baptized at Calabar that brought Fr. Lena to establish the Catholic Church at Eman Uruan. In 1906, Rev. Fr. Josef Louis Lena (CSSP), the Superior of the Calabar Mission arrived at Eman Uruan and having visited the place, he sent Fr. Paul Biechy to open up the Mission Station which later became the Central Mission and Mass Centre of the entire area involving all those stations in Northern Uruan as also those of East Itam communities.

(b) **1ST MASS / SERVICE:** celebrated in the year 1906 by Fr. Paul Biechy (CSSP).

© **CHURCH BUILDING:** The first Church building was a mud thatched house at Obot Ekpene Ekang – Ikot Obio Edok and was later moved to Nkana Eman. In 1912 Rev. Fr. Paul Biechy and Brother Malachy together with another French Holy Ghost Missionary started the beautiful Gothic Permanent Church building which was completed in 1910. It was the first authentic Catholic Church ever constructed in Nigeria and has remained strong over the century till this day. In 1972 the Author repaired the roof and re-plastered the entire veranda surrounding the Church. He also invited a German Construction Company working here in Nigeria to repair the Tower Clock which had temporary stopped functioning. The Tower clock has stopped functioning again and beckons on good spirited Nigerians and philanthropists to come to the aid of the Parish and refurbish both the entire Church structure as well as repair the magnificent Tower Clock to function again.

IMMACULATE CONCEPTION CATHOLIC CHURCH, IBIAKU URUAN

(a) ORIGIN: The Catholic Church arrived at Ibiaku Uruan in 1908 through the efforts of Chief Ikim Nyanga Anie accompanied by Chiefs Nyanga Anie, Akpan Udoh Ukpa, Utuk Umoren, Okon Ndukpa and Okon Akpan Udoh Etukudo, all of who later became converted practising members of the newly established Catholic Church in Ibiaku Uruan. This happened as a result of the conflict between Chief Bassey Ubong Ekanem, founder of the first Vernacular School in Ibiaku Uruan and the people of Edem Urua in the same Ibiaku. What prompted the disagreement was the refusal of Chief Ekanem to render the Accounts concerning the school. Consequently, the following members among that School committee, viz. Chief Ikim Nyanga Anie, Utuk Umoren, father of Chief Paul Utuk who later owned a Pharmacy at Nwaniba, Akpan Udo Ukpa and Okon Akpan Udo Etukudo alias, Obong Mbukpa of Ita Uruan and others were selected to go to Calabar and invite the Holy Ghost Missionaries to come and establish the Catholic Church for them. Thereafter, the Holy Ghost Missionaries viz. Fr. Leon Lena the Superior of the Mission at Calabar, Frs. Paul Biechy, Philip O'Connor and Josef Kraft arrived by canoe at the ancient Ikpa Uruan Beach Market **en route** Ibiaku Uruan, but the village authorities refused to donate a piece of land to them to establish the Catholic Church. Then later as IDU, the Headquarters of URUAN had also previously refused them land, the Missionaries moved to Anua where they were given land to start off. By then Fr.

Biechy had appointed one Archibong Udom from Ibiaku Uruan who had been previously trained by Mary Slessor at Ikot Offiong as the first teacher and Catechist at Anua. This was around 1909. But by 1910 the Catholic Church had already taken root since 1906 at Eman Uruan with the completion of the Church which still stands strong till today. It was later in 1911 that Mr. Archibong Udom, Fr. Paul Biechy's Catechist Teacher led some Catholics to intervene and exhort the Chiefs of Ibiaku to donate a piece of land to the Rev. Fathers where a Church building in mud was constructed by Chief Bassey Bassey assisted by some young members.

(c) **CHURCH BUILDING:** As already commented above, the first mud and thatch Church was built in 1912 on a piece of land donated by the Chiefs in Council. It was pulled down and a second and bigger church with sand burnt bricks and thatched roof was constructed on the same site for the teaming Catholic adherents in the town and environs including Utit Uruan and Ikot Oku Villages. The construction of the first permanent church building was kick-started with foundation laid by Archbishop then, Fr. Brian D. Usanga in 1959 to mark the preparations for Nigeria's Year of Independence and completed in 1964 while the Rev. Fathers fixed a gigantic Church bell which is functional till date.

(p) GROWTH/DEVELOPMENT OF IMMACULATE CONCEPTION CATHOLIC CHURCH:

The Register of the Ibiaku Station shows that Ibiaku Uruan was the first to produce two Rev. Fathers in the persons of Rev. Fr. Francis O. Mbaba in 1967 and Rev. Fr. Sylvester Mfonobong Udoh in 1977. The Register further shows that the grandchild of Chief Peter Eneyo, the first to be married in the Catholic Church in Ibiaku Uruan as also the first Headman (President) of Ibiaku Church has produced the third Ibiaku indigenous priest in the person of Rev. Fr. Eugene Nyong Eneyo on 14th September, 1997. Another Rev. Fr. from the Station to be ordained on 21st February, 2009 was Anthony Unwana R. Etuk. The Station has also produced two Rev. Sisters including the Franciscan Rev. Sr. Immaculata James Etta (CFSIM) and Veronica Eme Bassey (HHCJ) who were professed when Utit Uruan was still under Ibiaku Uruan. The Station has also produced many important Catholic personalities residing in some of the most important cities of Nigeria including Chief Thomas Udo who was a high calibre merchant and landlord in Abak since the 1940s – 1960s. He is also the father of Rev. Fr. Sylvester Mfon Udo and rtd. Justice Emmanuel Enefiok Udo now a resident in Uyo metropolis. Others like Etubom David (Barr) Otu Medo – **Ada Idaha ke Eburutu**, from the Okon Medo Essien Ikpaha Royal House in Obio Ndap Otu Village in Ibiaku URUAN is a resident and member of the Pastoral Council in Our Lady of the Holy Rosary Parish, Wuse in Abuja Federal Capital City. Obonganwan Scholastica Ekpenyong a one-time Principal of the famous Immaculate Conception Girls College, Itak – Akwa Ibom State is also from Eman Uruan Parish and was a onetime CWO President General of the Catholic Diocese of Uyo. Ditto (Chief) Dr. Emmanuel Effiong of the Uwak Mfon Medical Centre is currently the Vice Chairman of the St. John's Pastoral Council, Diocese of Uyo. Similarly, Mr. & Mrs. Larry Etta, also natives of Utit Uruan in Eman Uruan Parish are prominent members of the Church of Assumption – Falomo, Lagos.

ST. PATRICK'S CATHOLIC CHURCH, MBIAYA URUAN

(a) ORIGIN: St. Patrick's Church, Mbiaya was founded by Patrick Umana Ntuk and Arnold Okon Akpan in 1914. Patrick saw the Catholic Church at Calabar and admired it. Arnold Okon was one of the members and was among the first baptized of the group when the Church arrived Eman in 1906. Then Patrick and Arnold jointly invited Rev. Fr. Paul Biechy and Fr. J. Kraft in 1914 to establish the church at Mbiaya.

OBSTACLES & SOLUTIONS: When the Church of Scotland Mission already established in Mbiaya in 1906 objected to establishing of any other church, the then king of Mbiaya, Edidem Atakpor Ibanga Nkenta, with the order of Ekpe Nyamkpe permitted the establishment of the Catholic Church and offered accommodation in his residence for the Missionaries. In 1921, a Catholic School was also established in the Paramount Ruler's compound. The first teachers on the teaching Staff were: Mr. Essien Ekpenyong (Headmaster), Mr. Asuquo Adiabo (Deputy Headmaster), both from Calabar. The native teachers were: Mr. Akrah Asuquo Okon Akrah or Akrah Ibanga from Ndon Ebom, Mr. Francis Udo Iso-Idio from Mbiaya, Mr. Francis Ema and Mr. Augustine Ekpo Akpa-Ubiom from Eman Uruan. Some of the first ABC a.k.a Kindergarten pupils were: Bruno Orok, Athanasius Okon the father of ADC - Augustine Okon, Hugh Akpabio, Jerome Peter, Martin Nyong and Bartholomew Nyong Okon, etc.

(b) **1st MASS:** The first Mass was celebrated by Rev. Father Paul Biechy and Father Kraft in Edidem Ibanga Nkenta's compound in 1914.

(c) **CHURCH BUILDING:** At the beginning, two thatched buildings were built in Edidem Nkenta's compound, and the venue was then moved to Ikpok Ukana at Akwa Anwa Nung Obong and later to Anwa Ekang Nung Obong. The reason for this was as a result of the teeming number of pupils whose parents had come to prefer the Catholic School system to the Presbyterian system of School Administration. In 1925, Mr. Francis Udo Iso-Idio who was a pupil teacher in the newly established Primary School engaged able-bodied pupils of the school to help in building the thatched Catholic Church at the Hill. Then in 1926, Mbiaya village Council allocated a new piece of land at a site known as Obot Akpa to the Catholic Church which is the site where the present Church is standing. In 1927, a thatched building was erected there. In 1968, the present concrete building was started and completed in 1988 for Dedication to the Greater Glory of God.

(d) **1ST CATECHIST/TEACHER:** Mr. Francis Udo Iso and Paul Ete-ete Akpa Eno were the first Station Teachers with Mr. Essien Ekpenyong as Headmaster.

ST. AUGUSTINE'S CATHOLIC CHURCH, ITA URUAN

(a) **ORIGIN:** The Church started in 1910 at Chief Akpan Ntuk's compound through the instrumentality of Mr. William Edet Emana. Then in 1922 the Church site was transferred to what is now St. Augustine's Primary School. It was a thatched building and the piece of land donated by the Chiefs in - Council.
(b) **1ST MASS:** The First Mass was celebrated by Rev. Fr. Paul Biechy (CSSP) in 1910. Then when the Church was built in 1937, Rev. Fr. Patrick Kivlehan otherwise called Fr. Una-eka celebrated Mass at the new church building.

(c) **CHURCH BUILDING:** The Church building was first constructed at Chief Akpan Ntuk's compound and later moved to a more conducive site where a school was attached, viz. St. Augustine's RCM School, Ita Uruan in 1922. In 1982, work in the permanent church building started as a result of the advice of and encouragement by the then Parish Priest, Very. Fr. Sylvester John Udoh.

ST. JOHN'S CATHOLIC CHURCH, IKPA URUAN

(a) **ORIGIN:** The Catholic Church here was established in 1916 by Efik traders who were doing business at Ikpa Uruan Beach. It was these Efik Traders who invited Rev. Fr. Paul Biechy, then Father In-Charge of Anua Central Mission to Ikpa after many of the indigenous traders had embraced Catholicism and expressed their desire to be baptized in the Catholic Church.
b) 1ST MASS / SERVICE: 1916.
(c) **CHURCH BUILDING:** The first church building was sited at Ikpa Uruan Beach where the Efik merchants were staying and doing business. After the establishment of St. John's R.C.M. school upland the Church was moved to the School compound. Thereafter, the school building served both as Church and School. In 1980 through the advice and encouragement of the then Parish Priest of Eman Uruan Parish, Very Rev. Fr. Sylvester J. Udoh, the construction of the permanent Church building was kick-started. In 1985 the project was completed and commissioned by Rev. Fr. Leo Etim.

ST. JOSEPH'S PARISH, CENTRAL URUAN

(a) ORIGIN: Central Uruan viz. ESUK IKPA, ESUK MBIAKONG and ESUK MBEHE IDU in the 1700s – 1900s offered the ports of disembarkation and beaches whenever the early European Traders viz. the Supercargoes brought their merchandise to the shores of what was then designated as the MAINLAND, and now Akwa Ibom State. It was precisely at ESUK MBEHE IDU through which the ancient Efik Traders and Europeans disembarked **en route** ESUK IKPA. Then according to records precisely in 1906, the Holy Ghost Missionaries who had first arrived at Use Uruan subsequently made their way to the same Idu Beach Port from where they implanted the Catholic Faith in the area. History has it that the Chiefs of Mbiakong and Idu had at first refused the establishment of the Church by the Missionaries in the area objecting that the Missionaries would interfere with their customs and traditions and more importantly Ekpe and Ekong Cultural Societies and Practices. But through the assistance of the British Colonial District Officer, Mr. E. K. Brooks the Missionaries were provided security and at the same time Mr. Brooks also allayed the fears of the Chiefs such that with repeated attempts the Missionaries had their way through. By 1914 Central Uruan Parish came under St. Joseph's Parish, Anua administration. At first it was erected a Section as Central Uruan Section under Holy Trinity centre, Mbiakong. In 1959 it was excised and granted a Parish status by Bishop James Moynagh, the erstwhile Bishop of Calabar Diocese with Fr. Sean Deegan (SPS) as Father In-Charge. In 1961, Fr. Patrick J. Costello was appointed Father In-Charge and Principal of the newly established Holy Trinity Secondary School, Mbiakong. In 1992 the Parish Centre was moved to St. Joseph's Ifiayong Usuk by Bishop Joseph E. Ekuwem.

(b) NUMBER OF STATIONS: There are eight Stations that make up the Parish, namely;

(i) GROWTH AND DEVELOPMENT: In 1961 the Famous Holy Trinity College Mbiakong was established with Rev. Fr. P. J. Costello as Principal. In 1992 the Parish centre was moved from Holy Trinity Afia Okono, Mbiakong to St. Joseph's Catholic Church Ifiayong Usuk.

ST. JOSEPH'S CATHOLIC CHURCH, IFIAYONG USUK

(a) ORIGIN: Mr. Wilson Asikpo, Mr. Edet Udofe, Mr. Okon Etim Ukpong and Mr. Udo Udosen Unah all from then Ifiayong Obot during their trading expeditions saw and experienced the spread and acceptability of Catholic Faith through the Catholic Missionaries at Calabar and they reported same to the village Elders. They were being encouraged by the Village Chiefs and Elders to negotiate for such a Church to be established at Ifiayong. In 1910 they succeeded and arrived with Rev. Fr. Kraft, a Holy Ghost Missionary resident at Calabar to establish the Catholic Church in the Station. On arrival the Priest was quartered at Wilson Asikpo's compound. He was later assisted by Rev. Fr. Paul Biechy who immediately established the Catholic Church in Ifiayong.

(b) 1ST MASS: The following morning after their arrival, many people gathered in Chief Bassey Idaha's compound and Rev. Fr. Kraft celebrated the first Holy Mass assisted by Fr. Paul Biechy. Mr. James Archibong Etta from Calabar assisted the people as Catechist Teacher.

(c) CHURCH BUILDING: In 1914, Catechist James Archibong Ettah who was the Station Catechist/Teacher thought it wise to get the Church removed from Chief Idaha's compound to where a thatched building was erected which also served as the School Building. In 1937, the forest site near the Church bell was donated to Fr. Patrick Duffy by the Family Heads viz. Chief Mkpa Akpan Etukudo, Chief Ebong Orok (Nung Obio Ndioho), Chief Mkpa Udo, Akpan Adiaha Etuk (Ikot Effiong), Chief Oku Unyie (Nung Ekpene) and this was where a very large thatch Church was built and lasted till the early 1960s. However, in 1955, the contract for a permanent structure was awarded to Mr. Bassey Okon Essien of Itam Ikot Obio Atai with a contract fee of Three hundred and Eighteen pounds (£318). The Agreement for this was signed by the family heads of Ifiayong Village viz.: Chief Akpan Udosen, Chief Akpan Umoren, Chief Okut

Unyie, Chief Wilson Asikpo and Chief Ikpe Etia. On the 30th March 1955, the foundation stone of the Church building was laid by Cardinal, then Bishop Dominic Ekanem. The construction of the Church building took off at a very slow pace and not much was achieved until well into the 1960s. With the excision of St. Joseph's Parish, Central Uruan from the former Anua Parish, Rev. Fr. Keogh who took over from Fr. Patrick Costello in 1962 thought it wise to restructure and enlarge the entire building and foundation to accommodate a larger future congregation.

After the civil war Ifiayong Hill (Obot) town was gazzetted by the South Eastern State Government and renamed Ifiayong Usuk and the Church was likewise renamed St. Joseph's Catholic Church, Ifiayong Usuk.

ST. JOSEPH'S CATHOLIC CHURCH, IDU URUAN
A BRIEF HISTORY OF IDU URUAN & ST JOSEPH'S CATHOLIC CHURCH

A. IDU OBOT NKARA OF URUAN INYANG ATAKPOR

The designation and nomenclature **IDU URUAN** stem from a certain incontrovertible fact of history and antecedents climaxing the evolution and settlement of URUAN INYANG ATAKPOR peoples in their present day location both as a sub-tribe and an ethnic nationality now in Akwa Ibom State of Nigeria. Briefly this took place as follows. At the time AKWA AKPA URUAN land mass became too congested owing to increase in their populations, that was after ATAKPA – Calabar - had been discovered by the then URUAN sea farers now christened "the **EFIK"** had effectively settled thereat as well as increased in their numbers, it became obvious and imperative to search for a new land and place of abode and relocate thereto. Then URUAN calling upon their sages as was the custom for discerning the true position of things in those days, summoned them to look into their meteorite artifact "**IKA**" and to ascertain the extent of the land mass overlying before them. They discovered to their great delight that there was indeed a vast land beyond but that a greater portion of it had already been occupied by those who were later to become known as the IBIBIO/ANNANG because that name never existed in the lexicon of the world at the time, just as the nomenclature **NIGERIA** never had existed a hundred years ago. However, with the fear of war which could ensue with these earlier settlers should they so decide to move thither, some elders had in trepidation exclaimed:" Eyak **nnyin ika ikekpa –o!** Let us go and die", hence the word **IKPA** for those who actually later moved up to the northern part and settled there till today. Then others had summoned courage in vituperation to say:**" Eyak nnyin ika ikedu-o!** – Let us go and live": hence **IDU** for all those who had moved, some to the central part and the rest to the south to inhabit the land lying before them. It is obvious therefore that even the nomenclatures **IKPA** vis-à-vis **IDU** never existed before this time because the ancient peoples of the world never moved and settled anywhere in their present locations and designations or nomenclatures except simply as kindred groupings and families in their primordial nationalities. eg. some Idu people moved and settled at their present locations bearing the name **IDU URUAN** within their kindred/family groups of Ikot Enam, Ikot Ekang, Nting etc. some moved to where we now find them as **EKPENE UKIM** in their kindred groups of Ikot Enua, Ikot Ekpott, Ikot Akpaide, etc.; ditto **EKPENE IBIA** as Nung Obio Ntoro, Nung Idua, etc., while **MBIAKONG** as Nung Anwa Ukpa, Nung, Essido, Nung Iso Idio, etc.

Similarly, as could also be noticed in those ancient days, larger groupings of people were often known and addressed in their clannish and sub-tribal designations and groups eg. Offot, Nsit, Etoi, Itam, Midim, Ika, Ngwa, Nnewi, Afaha, Edo, Umuowa, Nupe, Ndokwa, etc. since such terminologies like Annang, Eket, Oron, ONNA, Ekoi, Ogun, Ejagham, Yoruba, Igbo, Ibibio etc. never had existed in any world dictionary. Even England, France or Germany never had existed as nations we now find them. Meanwhile, URUAN chiefs and elders decided to select their men of valour **"mbia ek? "** as spies to advance and reconnoiter the land just as Joshua had sent two spies to explore the land before them **(Jos. 2:1-21)**, hence the word **MBIAKONG** for those appointed to spy the land. That is why ancient **MBIAKONG** inexorably found themselves settling in the central part on the side of the river between Northern Uruan and Central in their present place of abode. It is also an aspect of URUAN history that all these happened as they had moved nearer to the mainland of the IBIBIO in what came to be known as old Calabar Province. The coast and vicinity along which they **"were discussing their fate"** as it were, came to be called **"Esuk Odu"**, hence the place and town on that coast of **AKWA AKPA URUAN** became known as **ESUK ODU** till this day.

Whereas some of those families and kindreds which moved on along the coast and settled on the central part inevitably found themselves settling on the hilly portion since the typography of any such a

piece of land naturally gravitates towards a mighty ravine gliding down the river or sea. Naturally too, the land was surrounded by thick forests of NKARA trees and mangroves - **Nnunung trees** - within its environs; hence the designation of the town and place came to be known as: **IDU OBOT NKARA**. Those families and kindreds which had moved to this location were Ikot Enam, Ikot Ekang, Ikot Ewuk, Ikot Ntiaidem, Ikot Osurua, Nting and some families from **Ekim clan** in what is now known and to be gazzetted as IDU groups of villages a.k.a **IDU URUAN**, the headquarters of URUAN LOCAL GOVERNMENT AREA of Akwa Ibom State. It has a population of well over 5,000 from the 2010 National Census. Small wonder that the town was so strategically situated that it covered such a massive land mass, of swamps and forests stretching from Edik Ikpa through Edik Nyan and mangroves to the coast and terminating at Esuk Mbehe ie. Idu beach or Esuk Ikot Etuong on the eastern flank across Esuk Mbakara ie. **Esuk Nwaniba** on the western flank.

Yes, **ESUK NWANIBA** in question ie. Idu 2nd beach on the western flank = **?y?h? wa a iba ie. 2nd path /road to Idu beach –** hence later anglicized to simply **wa a-Iba/Nwaniba** which had become a prominent colonial sea port and even a town in its own right since those days, **grace á la** the transfer of URUAN Headquarters from Ikpa to IDU of which Nwaniba IDU is a significant part. Another reason also was the construction of a new colonial laterite IDU-UYO road in 1908. Before this time, the colonial "main road" ie. the Government road was that from Ikpa in Northern Uruan which passed through St. Joseph's Primary School along what is now IDU – MBAK ETOI road. That was why the early Missionaries established the St. Joseph's Catholic Church as also the school along that road. Another reason for siting the Catholic Mission there was perhaps from the general custom and practice in those days whereby the chiefs and elders whenever the Government or Missionaries requested for a piece of land for their establishments used to offer them land not within their civilian centres but far away from their habitations on the outskirts – usually thick forest, where ghosts and bad spirits were known to inhabit as also veritable habitats for owls, the messengers of witches and wizards. In the case of Idu, pieces of land close to "**Akai Eka Ekpo"** were donated both to the Government and Missionaries. However, Ikpa was one of the trading sea posts established by the EFIK including Ikot Offiong, Ikon Eto, Uwet, Aquagune, etc. for most of the palm produce transactions ditto trade in agricultural products which was carried out on the Cross River basin by the EFIK. Ikpa has same border with Mbiakong which was also part of the booming trade centre.

But it should be recalled that ESUK MBEHE IDU on the eastern flank of the coast at the time the Missionaries arrived there about the beginning of the 20th century was also an important slave sea port after Calabar and therefore "a no-go area" to both the European merchants, Companies and Colonial Administrators, ditto the early Holy Ghost Missionaries except the slave dealers and supercargoes who were bringing in from Europe many other profitable items like stock fish, cloths, tobacco etc. for the people. Whereas the EFIK were the first to sign the Treaty for the abolition of slave trade in Africa with Great Britain in 1841 and eventually banned it totally in 1902, but IDU and by implication the authorities at ESUK MBEHE IDU had stubbornly refused to ban the ignoble trade after Calabar her counterpart, had done so. On the other hand, it is also worthy of note that the Headquarters of URUAN was formerly situated at Ikpa in Northern Uruan where the Efik as noted above had set up a large trading post which commanded the commercial enterprises both of Northern Uruan peoples and also those around Northern Uruan and other areas including Itam, Ibiono, Ikono in colonial Itu Division. No wonder then that by this time after the colonial Authorities of old Calabar Province had taken full control of and transferred the HQ to IDU also with the European Companies firmly entrenched thereat Nwaniba viz. John Holts – British, the United African Company (UAC- British) Chellerams (Dutch), (May & Baker (M&K-Italian), Compagnie Française Africaine Occidentale (CFAO - French), and Paterson Zochonis (PZ - German) etc., Mbiakong which is border town with IDU having lost their share of tribute accruing to them from Ikpa would struggle without success, to establish their ownership of NWANIBA sea port

hence the slogan: "**MBIAKONG koyom IDU (ik?)"!** It is equally worthy of note, that in the 1930s Ifiayong Obot now Ifiayong Usuk had followed suit to claim ownership of the entire ESUK MBEHE IDU and the adjoining territory by having it renamed Esuk Ifiayong a.k.a **"IFIAYONG BEACH"** in their honour.

Another fact of Idu history while these events were taking place is that IDU in the 1800s had in the first place allowed a piece of land close to ESUK MBEHE to be used by some citizens of Northern Uruan including Ifiayong Obot. This was also the same site later inhabited by aliens especially Igbos from Abriba, Ohafia etc. who had also come to settle and do business up till the civil war. Northern URUAN people had come with the others including people from Itam, Ikono, Ibiono etc. to join in the booming trade but some of them and those from Ifiayong in particular elected to settle there permanently. Idu had also generously obliged them. Then Idu had actually later donated those from Ifiayong a different and larger portion of land up-hill nearer to the city centre and quite close to the border with Mbiakong which terminated close to where the Central Convent School was established. But this favour took a different twist and even snow-balled resulting in bad blood and loss of face with Idu and later Mbiakong, a situation which culminated in frayed nerves and a near internecine war and bloodshed between Ifiayong and Mbiakong. This in the meantime however has been calmed down through the prompt intervention of the current peace-loving Action Governor, His Excellency, Chief (Dr) Godswill Akpabio. It had also resulted in the transfer to Ifiayong itself of the ancient central Parish centre from **AFIA OKONO** town in Mbiakong, by the erstwhile Bishop of Uyo, His Lordship, now His Grace Archbishop Joseph Ekuwem - an issue that has angered Mbiakong not a little to the core. **AFIA OKONO,** lying midway between IDU and MBIAKONG was chosen in the first place, by the early Holy Ghost Missionaries as the most central location for the parish centre in the early 1900s when the Church first came to be established in this part of Nigeria.

B. ST. JOSEPH'S CATHOLIC CHURCH, IDU URUAN

1938/1940 OLD CHURCH **1988/92 NEW CHURCH**

Just a little over a hundred years ago, precisely in 1906, following the impetus of the mandate given to the Holy Ghost Missionaries (CSSP) with Mgr. Alexandre Lejeune then as Prefect Apostolic and later succeeded by Fr. Joseph Shanahan as Head of the Mission at Onitsha, from where they had earlier arrived in 1903 at Calabar which was to be the new sub-Headquarters of the Holy Ghost Missionaries, Fr Leon Lena at the head of the mission with Fr. Josef Kraft were further sent out to assume the duty of evangelizing the hinterland. These arrived with the help of the European supercargoes at the ancient Idu slave and merchandise sea port known as **ESUK MBEHE** or **ESUK** simply, to explore the hinterland which was the Calabar Mainland but now Akwa Ibom State. The Missionaries were received by the Chiefs and Elders with great enthusiasm and were promised a piece of land to establish the Catholic Church. But before the details of their mission were worked out, rumours were rife that they were coming to invade the land and administer it for His Imperial Majesty, the King of England, King George V. Knowing how the colonial overlords used to acquire territories by force of arms in those days, the people in trepidation changed their minds as they mistakenly took the Missionaries for their colonial

counterparts - the **MBAKARA**. They vehemently protested their advances. It was later on their return to Calabar that matters were straightened up which made the Missionaries to embark on another attempt at the tail end of that year 1906, but this time with the help of the natives of Use Uruan resident at Calabar who brought them again to URUAN. This unique event according to authentic records makes Use Uruan the basic community and cradle of this new evangelization venture, viz. the establishment and spread of the Catholic Church in URUAN land and the entire Mainland of Akwa Ibom State as part of this hinterland mission. It is therefore in commemoration of the unique event, namely the arrival of the Missionaries at IDU URUAN in 1906 and Government eventual approval and Grants-in-Aid in 1914 to St. Joseph's School named after the legendary founder, Fr. Josef Kraft, CSSp. that we are holding this Centenary Celebration to the Greater Glory of God!

(a) ORIGIN OF THE CHURCH IN IDU: With the arrival of the founding Holy Ghost Missionaries, Fathers Leon Lena and Joseph Kraft who first arrived IDU as mentioned above and later Use Uruan to open up the first Catholic Church there on the mainland in 1906, further visit brought them again to Idu ie. Esuk Ikot Etuong beach - a.k.a ESUK MBEHE, then Ekeya, Ikpa, Eman Uruan etc. But it was Idu traders like Chief Patrick Ukono Uwang, Jimmy Udo Ikot Idim, Mark Edet Akpang, Efik Anwa Ekong, etc. who had earlier come in contact with the Missionaries at Calabar that made this visit of the Missionaries and the establishment of the Church at Idu and the above places possible. They were also instrumental with the collaboration of their counterparts from Use Uruan to the bringing of the missionaries to establish stations at Use Offot and Anua which later became the Headquarters of the Mainland Church ie. Akwa Ibom. In 1909 Anua became a residential Church station and parish and from Idu Beach Town now called Esuk Ifiayong, many stations around Anua were evangelized beginning with Nsukara. All the Stations were established as out Stations. Chief Patrick Ukono and co. was also instrumental to the building of the first mud Church in which Holy Masses were regularly celebrated as from 1908. Before this, Mass and Sunday Services were conducted at the central Idu market square in order to accommodate the teeming enthusiastic worshippers. Then arrangements were made for the establishment of the School. By 1910 St. Joseph's Primary School was officially opened with double stream classes because the pupils' enrolment was high. Messrs Day from Calabar and J. A. Isua from Use Offot were appointed pioneer teachers. Mr. Day was the station teacher. In 1912 the first Inspection of the School was conducted and Government Approval and Grants-in-Aid were accorded the school in 1914. From available records, the second and third mighty mud buildings were erected in 1911 and 1915 respectively to cater for the ever growing population of Idu and settler converts, Idu being the centre of merchandise in those days, while the school buildings were erected on the opposite side of the road. But unfortunately the 1915 Church building turned out to be the cause of the first ever schism in the Catholic Church in Africa resulting in the revolt that brought about the establishment of a rival Protestant Church viz. the new schismatic Anglican Church established by Nigerians in Lagos, the so-called “African church” with a school in tow. Later in 1928 and 1934, two other larger kori-kori (church and blocks) buildings were constructed on the opposite side of the former buildings towards the great **AKAI EKA EKPO IDU** to serve both the Church and School. Meanwhile in 1938 by another schism in the “African church” ensued with the establishment of an Evangelical brand, namely the Apostolic church. In 1939 the construction of the first permanent building which also served as school was completed in 1941 but it is currently and solely in use today as the junior primary Section of the Catholic School. Early again in 1942 the first ever Independent native brand “Uf?k Abasi kpa Ub?k /Uf?k Akam” later christened: “First Spiritual Holiness Church” was founded by a Catholic then turned polygamist, Martin Edem Udo Eka Uwang. This was the situation till the early 1960s when a pastor appointed to the Apostolic church unilaterally closed and changed it to A.M.E. Mount Zion church. It was then time soon before after the war to flood Idu town with all brands of Evangelical and Pentecostal churches. From the Assemblies of God church, Deeper Life, Redeemed

Church of God, Banner of Grace and their branches to ecclesial assemblies like Church of God, Destiny Intl' Chapel, Holy Face, Jesus shall reign, Christ Embassy, Christ Army, the Lord's Chosen, etc. most of which were championed by Idu citizens. As the saying goes, "sow the wind, reap the whirlwind" and this is very true in Idu. Any visitor coming to Idu today for the first time will be so amazed if not amused by the number of churches competing for space all over the place and will also wonder that with such uncountable number of churches whether there is any other worthwhile venture, activity or progress whether in human or infra-structure going on as a sign of development, modernity or civilization despite the establishment of three Primary schools of Grades I and II since a hundred years ago? **"A baby who wants that it should cry to his heart's content; the gods must inflict with yaws: eyen oyom eyet Abasi ?n? enye Nnam".** Idu wanted churches and the land has supplied her with bountiful yields! Nobody needs an oracle or diviner to discover why at over 100 years of the Lord visiting Idu with 3 original Government Aided schools and equal number of Grammar Schools, the people have so remained without registered indigenous medical doctors even common nurses, not to talk of engineers, lawyers, architects, pilots, high-ranking professionals etc. etc. simply because they have rather chosen to manufacture their own gods to uplift them to the heights just as the children of Israel had deceived themselves by requesting Aaron for their own brand of gods while they ended up as slaves and refugees in Babylon. It will not take long before Idu becomes a failed town and city occupied by **aliens and mme odudung** who will **become their landlords** unless they repent and retrace their steps back to the true Sheepfold of Christ with this second chance which the Lord is providing them by this Jubilee Year and Centenary of God's abiding presence in their midst but which they have blown with impunity. No community or nation ever prospers who provokes the Living God: It is "**obio kim=ena emi o wumde ?b?r?uduk"** never of progressive and civilized communities!

(b) CHURCH BUILDING: From available records, the following persons and families donated plots of land for the erection of the first permanent school/Church building viz. Chief Okon Udo, Chief Udo Ekong Etok, Prince Mark Bassey Edet and Chief Udofia Anwa in 1939. In 1970 Fr. J. P. Ekarika suggested the separation of the Church from the school which then had a large population of over 1,000 pupils and was being upgraded to a Grade One status. He then insisted that a new and befitting Church be built on a new site. Before leaving for Further Studies Overseas, he made sure the work would be started in earnest by arranging for the moulding of blocks and engaging a chief Architect, Ette Peter Ebewo from Urua Inyang in Ika LGA. He also later sent a new and bigger Church Bell from Germany to replace the one eelier provided by the by Missionaries for the proposed Church. Those who donated land for the new site along Ifiayong – Mbak Etoi road included Chief Justin Edem Udo Ekong, His Highness Late Etinnyin Cletus D. Effiong, Mr. Bassey Effa, Mr. Okon Asuquo, Chief Okon Mkpa and Chief Francis Raphael Inyang. To the greater glory of God, the Church building has almost been completed. The Church has been blessed with two indigenous priests Msgr. J. P. Ekarika and late Rev. Fr. Emmanuel J. Inyang, a Rev Sister, Sr. Matilda Inyang, a seminarian as well as a nominal Catholic population of over two thousand members (2000) more than half of whom have since defected to Pentecostal and Alladura brands. To-date more than 100 churches founded by Nigerians and Idu citizens together with their alien settler counterparts with their pastors, evangelists, overseers, elders, deacons/deaconesses, etc. taint Idu town, the Headquarters of URUAN Kingdom which was supposed to be the Lord's generous and beautiful landscape. For our purpose I now give a list of these Pentecostal churches now finding their way into IDU URUAN, some of which are even founded by the citizens most of whom left their former churches for one reason or another to establish their own independent churches. Some of them are depicted in the schedule below.

ST. STEPHEN'S CATHOLIC CHURCH, MBIAKONG URUAN

(a) ORIGIN: The first attempt to introduce the Catholic faith to Mbiakong people was unsuccessful. The initiative was made by Mr. Sam Ikpe Inuk who served the Catholic Priests at Calabar. It was in 1906 during the reign of Late Chief Felix Sampson Inyang Odo Mbo, the Rev. Fathers Leon Lena and Josef Kraft were brought to Mbiakong through Ikpa Uruan with European traders along the coast of Calabar and Esuk Mbehe Idu now Nwaniba. They sought permission to establish Catholic Church here, but unfortunately the chiefs and elders from Mbiakong objected to their request for fear that the missionaries would ban their social, traditional and cultural plays like Ekpo, Ekpe, Ekong, Obon etc. hence they proceeded to Anua and Eman Uruan where the Catholic faith was accepted. However, in 1910, following the advice from other chiefs from Eman Uruan, Mbiaya Uruan and Ita Uruan, Chief Felix Sampson Inyang Odibo Mbo decided to bring back the Holy Ghost Fathers to Mbiakong. In 1913, another contact was made with the Priests at Anua. Thereafter Mr. Edet Ene, a teacher from Ekeya Okobo was posted to Mbiakong village to organize Catechism classes and conduct Sunday Services. These were conducted at the compound of Chief Okon Ekpenyong.

In 1914, Rev. Fr. Leon Lena, arrived Mbiakong beach amidst a tumultuous crowd of enthusiastic and dancing villagers who had come out to receive him. The crowd moved to Chief the compound of Chief Udo Okon Mbang Eburutu where he offered the first Holy Mass while the joyous crowd with a loud applause very happily accepted the new Religion eagerly and willingly. To this day that beach where the Missionaries landed has been christened Esuk Mbakara and more so in honour of Fr. Louis Lena (CSSP). The readiness and willingness of the people of Mbiakong to accept the Faith was manifested by the fact that not long after, twelve couples were baptized and wedded in Church that same year with the first recorded couples as James Akpan Okon Akpa and Elizabeth Akpan Etuk.

(b) 1ST MASS: The first Holy Mass was said in the palace of Obong Udo Okon Mbang Udo Eburutu by Rev. Fr. Leon Lena in 1914.

(c) CHURCH BUILDING: With the number of converts increasing day by day, the need arose for a permanent site to be acquired for church building and subsequent relocation from the palace of Obong Udo Mbang Eburutu. When Chief Ebong Asuquo Iko Etukudo Inyang whose land was close to the palace of Obong Udo Mbang and the river at which the missionaries landed was approached, he freely donated a plot of land on which a thatched Church was erected.

In 1956, under the leadership of Messrs Pius A. Okoro and Bernard O. Ita as Station Teachers, the plan for building of a new church was initiated. The effort however suffered a major setback because of the Nigerian civil war. After the war and through the effort of Chief Augustine A. Etim as the project leader and others the building project was revived in 1971 with the contract sum of £480.00. As their magnanimous sacrifice towards the building of the church, Catholic teachers and civil servants of Mbiakong origin pledged their one-month salary towards the Church construction effort. Among them were:

MR. GILBERT O. EFFIONG £36.00	MICHAEL EKPE ETUKUDO £100.00	MR. AUGUSTINE A. ETIM £66.00	MR. BERNARD A. EBONG £46.00
MR. LAWRENCE EDEM NYONG- £40.00	MR. MAURICE E. UDO £85.00	MR. MATHIAS B. EYO £14.00	==========

On the 16th December, 1973 under Rev. Fr. S. O. David (SPS), the then Parish Priest of Central Uruan and member moved into the new and present church building. Rev. Fr. J. P. Ekarika also in 1973 sent a new Church Bell from Germany for the new Church.

(d) 1ST CATECHIST /TEACHER: The first Catechist/teacher was Mr. Simon Edet Ene from Ekeya Okobo.

ST. MAURICE'S CATHOLIC CHURCH, EMAN IKOT EBO

(a) ORIGIN: The Catholic Church at Eman Ikot Ebo was established in the early 1930s as an out-station of Anua Parish until 1959 when St. Joseph's Parish, Central Uruan was excised from Anua Paris hand erected an autonomous Parish, **sui juris.** The church was the first and only Church in Eman Ikot Ebo; hence the entire villagers were regarded as Catholics such that the then village administration allocated a large portion of palm fruit plot to assist in the development of the Church without much ado.

(b) 1ST MASS/ SERVICE: 1930

© CHURCH BUILDING: The church was originally located along the spring road at an open square called "Anwa Otung Udoeka". The square was a piece of land donated to the Church by the village under the leadership of Chief Udoeka Nyong. Following the increase in the population of both the village and the Church members, the Church/ School was relocated in 1955 to a plot of land bought from Chief

Stanislaus Okon Udo Ndok Isokpa. During this period also the then Parish Priest of Anua Parish, Rev. Fr. Maurice Healy (SPS) named both the School and the Church, St. Maurice's after his Patron Saint, Maurice.

(d) 1ST CATECHIST/ TEACHER: The first Catechist/Teacher was Mr. Aloysius Etim Akpan followed by Mr. Bernard Okokon Ita and Mr. Luke Archibong Eyo.

ST. PATRICK'S CATHOLIC CHURCH, IFIAYONG ESUK (BEACH TOWN)

(a) ORIGIN: Esuk Mbehe Idu which later became Ifiayong Esuk was a commercial town in Uruan with people from different tribes and cultures doing business there such as Efik, Ogoja (Atam), Offot, Etoi, Ibesikpo, Annang, Oron, Eket, Igbos, Asaba, Agbor, Benin, Yoruba, Hausa, Cameroun, Equatorial Guinea (Panya) etc. The town was so thickly populated that the Catholic Missionaries that arrived in 1906 requested the Mission to open a Catholic Church and school there at Beach Town.

(b) CHURCH BUILDING: Late Mrs. Theresa Okonanwan Eneyo of Idu gave the Mission a plot of land to build the Church/School. Because of the influx of strangers into the town membership of the Church also increased and the mission was forced to relocate to another area to accommodate the Church and school. After the Civil war, Government took over all Schools, the Church here was forced to erect another Church building (now concrete) in a new site owned and donated by Chief Effiong Okoho of Idu the then village head of Ifiayong Esuk. The building is yet to be completed.

(c) 1ST CATECHIST/TEACHER: Late Mr. Essien Ekpo Essien from Ikoneto.

ST. BENEDICT'S CATHOLIC CHURCH, NWANIBA

(a) ORIGIN: In 1904, the second beach of **ESUK MBEHE IDU** now **NWANIBA** ie. literally translated, two beach roads or the beach on the second road, became the first headquarters and Port of importance in Uruan. There and then, European traders arrived and warehouses were built by PZ., U.A.C., J Frazer, M & K and John Holts Companies all of which traded on European goods in exchange for African palm oil and kernel at the beach town. The Nwaniba beach market was formerly opened in 1906. The same year the following Rev. Fathers: Rev. Fr. Leon Lena, Rev. Fr. Joseph Kraft, and Rev. Fr. Biechy landed from Calabar and took turns in making sure the Catholic Church is established in Nwaniba simply on account of its accessibility rom Calabar and the fact that there were many multi-nationals in the area including the Efik, the chief hosts of the Calabar Mission. They all arrived the Port one after the other and were received and led by Chief Ekpo Udo Iko, who was then the Village Head and Obong Urua Anakpa through whose beach village on the Cross River they had passed through **en route** Idu/Nwaniba.

Chief Francis Ekpo Udo Iko, his wife Mrs. Christiana Ekpo and his sister Veronica Ene Ekpo Udo Iko were the foundation members of St. Benedict's Church Nwaniba. Other early members that joined later were Alice Effiong Ekpo, Susana Okon Ididop, Theresa Akon Anwafiong, Paulina Effiong Okon, Chief George Etim Okon Ekpenyong, Timothy Onyekwerre from Owerri and Chief Eboh of Edem Ekpat.

St. Benedict's Church lost most of their members in 1967 during the Nigerian Civil War and during conflicts between Ifiayong Usuk/ Nwaniba and Ifiayong Esuk/Nwaniba as members fled the area. These conflicts have caused a great setback to the progress of Nwaniba Church till this day.

(b). 1ST MASS/SERVICE: 1906.

© CHURCH BUILDING: In 1910 some of the early members donated some portions of their plots of land upon which the Church was sited, viz. Madam Alice Effiong Ekpo, Susanna Okon Ididop, Theresa Akon Anwafiong, Madam Paulina Effiong Okon and Chief George Etim Okon Ekpenyong, all from Idu. Contributions from the large congregation was buoyant enough to provide funds for the project. It was a permanent building which survived the civil war.

ST. PETER'S CATHOLIC CHURCH - AKANI OBIO URUAN

ORIGIN: Akani Obio Uruan is the ancient cradle home as also primary settlement of all URUAN/EFIK peoples whether of those still inhabiting there a greater part of whom now settle in the Mainland of Akwa Ibom State or those who had moved on to found Creek Town, Calabar, Akpabuyo etc. as already shown IN Chapter One. This is where URUAN-EFIK peoples first arrived and settled after migrating from **IBOM** now renamed Arochukwu which had been their first primary cradle land and settlement since their departure centuries ago from their original cradle land of URUAN AKPE in what is now Western Cameroun where the present **Idombi** is located. It is from the **AKANI OBIO URUAN** settlement that some of them further moved to the various parts that make up **URUAN LOCAL GOVERNMENT AREA** today. It is also in Akani Obio Uruan is located the shrine - **Iso Atakpo** of the deity that their forefathers worshipped.

In 1962, Rev. Joseph P. Ekarika (now Rt. Rev. Msgr. J. P. Ekarika) a seasoned and trained School Head Teacher and College Tutor, then a seminarian on Apostolic Work addressed both the Catholic Faithful and citizens of Uruan on the challenges and consequences of worshipping Atakpo deity instead of the Almighty God. Touched by this message a joint meeting of the Catholic Parishes in Uruan at that time namely, St. Lawrence's Parish, Eman Uruan, Assumption Parish, Ndon Ebom and St. Joseph's Parish, Central Uruan was convened. A unanimous decision was taken to open a Church at Akani Obio Uruan to be sited close to the precincts of **ISO ATAKPO**, the shrine of Atakpo Deity. Wide consultations were made and the then Paramount Ruler the Nsomm, HRM Edidem Nyong Essien, other prominent Chiefs and Traditional Rulers including their Royal Highnesses Chief Placid O. Akpan, Chief Okon Udo Ndok, Chief Essien U. Ekong etc. all Clan Heads and Mbong Ikpa Isong in Uruan were also contacted. Uruan Traditional Council of Chiefs also accepted the opening of the Church and School with the sure hope that it would end the constant boundary disputes between the Efik and Uruan at the settlement. In the same year with Rev. Francis O. Mbaba, in attendance, the Church was established and named St. Peter's Catholic Church Akani Obio Uruan with Very Rev. Fr. Daniel Dolan, SPS then Manager Schools as Father In-Charge of the School and REV. FR. Henry Keough (SPS as Parish Priest. This was the first school ever to be established on the coast of the Lower Cross River with Mr. Cuthbert Asuquo Effiong as the first Administrative Head teacher approved by the Ministry of Education, then of the Eastern Region with Headquarters at Enugu.

ST. PETER'S SCHOOL AKANI OBIO URUAN, AN INNOVATIVE EXPERIMENT

The very idea of establishing a school solely for riverine peoples who spend most of their time in the creeks was a very novel idea. The Ministry of Education over the years could not imagine how such a school could function especially as the School Authorities mostly expatriates were familiar only with the Grammar School system of education and administration. How would the beneficiaries, namely the pupils/students be engaged in a formal Grammar curriculum which had set schedules, time tables and lectures/lessons running from 8am to 1pm with intervening evening classes for extracurricular activities like Bible lessons, sports, etc? Considering the environment with water everywhere and all over the place all the year round? How would the pupils/students be brought to school especially the little boys and girls? These and many more problems agitated the minds of the Inspectors of Education and for years the application for the establishment of the school there and elsewhere on the creeks was always turned down especially after conducting feasibility studies of the area. I had to explain with unbelief on the part of the Ministry of Education Authorities of the need for and the workability of such a venture having studied the "Principles and Practices of Education" regarding alternative Curricula for itinerant and nomadic peoples. As a native, I was to be given the benefit of the doubt and granted the "Authority to Open" (ATO) in December 1962. That was how St. Peter's School became a reality on 9th January 1962 when Schools were to normally re-open throughout the Eastern Region. Before this. Mr. Bernard A. Asuquo of Ekpene Ukim had to be stationed there as Teacher/Catechist. We had also started some years back as School Teacher/Tutor then, during the school holidays to experiment the trial running of the School each time we had school holidays viz. Easter, July/August and the December/Christmas holidays making up the three terms in the school Calendar.

HOW THE SCHOOL WAS OPERATED

First it was possible to bring in pupils from neighbouring towns and villages around the area from Idu, Ikot Inyang Esuk, Nna Enin, Nung Oku Uruan etc. some of whom with the permission of their parents and the willingness of the children themselves were to be those who would make the first batch and part of the school roll call. I had reasoned that the idea of starting the school with the 1st Year Kindergarten pupils alone would discourage those to whom the school was targeted in the first place as most of them were already teenagers and there were such categories pupils of course in the regular schools on the Mainland. It was also to be argued that starting from the scratch would not benefit the majority of those to be enrolled because they were mainly those who were already used to water including those who could row and swim by themselves. It wasn't to be exactly the type of school system the Ministry of Education Authorities were familiar with. It was to be an entirely new idea and practice. Hence with this sort of arrangement in mind, the school started with a minimum of hiccups. Children of school age were expected to be ready for school by 9am having rowed in themselves or being ferried down by their parents, guardians and sponsors. As a mixed school, due attention was to be given to the girl-child some of whom were already as versatile as the boys. They would all come with raw or cooked luncheon packs and the School attendants mostly women would be on hand to collect the food stuffs and prepare for the school lunch by noon. This too was a novel idea brought in to save time and offer jobs in the bargain as everybody was expected to be back home in the fore noon for fear of high sea storms and other unexpected sea problems because AKWA AKPA being very close to the Atlantic is ever unpredictable and afternoon storms could be very violent and precarious especially for those living on the opposite side of the river from the school who would have to cross yonder.

PRACTICAL PROGRAMMES & SCHOOL CURRICULUM

Lessons/lectures in the morning session were to be on the 3Rs of Mathematics, Language and Writing/Dictation spiced with story-telling and Literature. These were considered most profitable when practicals would be demanded with a good dose of writing by the pupils/students. Sports and other games

were Indoor games of Ludo, Cards, Scrabble, Draughts and various forms of **Nsa** games as also Physical Training/Breathing Exercises using the newly introduced P T. Manual written by a colonial Education expert, Sir N.C. Kay, then Chief Inspector of Education at Headquarters Enugu. Everybody was also expected to run round the school yard close to and usually around the veranda of the main school blocks because everywhere else could be muddy and slippery. The evening sessions were for the entire riverine communities both children and adults in tow who could manage it, some of whom never had the benefit of formal education. This was a sort of Adult Education Programme running its own Government approved Curriculum with emphasis on the 3Rs, Rural Science, History and Geography since the school was staffed with well qualified teachers. It also operated on a Government Grants-in-Aid Scheme. Most of them including the beneficiaries were very enthusiastic because they both would have completed their days' work including domestic chores and the teachers in particular would have free time for other pre-occupations to augment their salaries while the adults instead of listening to **EKPRI AKATA** and folk tales and getting to bed before 8pm, would be engaged in school work and learning.

Evening classes kicked off at 6pm when most workers except perhaps fishermen engaged in fish smoking and drying would already be home after completing whatever they were doing during the day. They too brought along supper packs and other uncooked items and those calling in late shared a handsome portion of whatever they hauled in. They would be seen rowing in with plenty of goody goodies and stuffs such that there was always enough food for everybody, the number of whom could mount up to over 500. Another factor that catapulted the school population was the fact that some of the women (mothers) could now settle with their children on the coast with their husbands while they do a bit of farming/gardening and other chores while the children go to the coastal school instead of them working at home and the children going to their various schools upland. In the evenings they would then join in the Adult Education Programme. This meant that it was no longer going to be the norm whereby women and children would remain at home in the villages while their men go to the seaside to eke a living but only to come back home for short breaks at Easter or Christmas. Tilley and Aladdin lamps were always handy both inside and outside the school building to provide light especially for those coming in a little bit late. Sometimes two or three women or girls as already scheduled in the day-to-day brochure would be seen briefly sneaking out and coming in from behind the school building to overseer the kitchen works aided by the school attendants. Evening Lectures/lessons lasted from 6pm - 9pm and the curricula and subjects consisted of History, Geography, Business Studies Social and Elementary Sciences since these needed mostly paying attention in class, listening and the taking down notes. Most evenings were often considered to be optimal for such subjects and programmes. Those who stayed for the night would be treated to dances, folk tales etc. until they were able to dose off later after “lights out”. When it was time for meals, these would be organized in an amazingly interesting and admirable manner and to the satisfaction of all.

Another advantage in this programme was the disciplined and cultured manner with which the exercise was carried out since all the school teachers and administrators on board were themselves students of boarding programmes in their various colleges and Universities. People had not to worry about running home to prepare supper as almost the entire community was present at 9pm when lessons/lectures would end, those especially women and children who had to row for an hour or more back home slept over at the school and scurriedly rowed home at cockcrow when the sea would be calm to prepare for the day's proceedings while the fishermen of course would have sneaked out for their nocturnal business. It was novel and practical but such a well thought out programme which suited all concerned.

WHAT ABOUT DISCIPLINE AND OTHER ASPECTS OF THE PROGRAMME?

Since everybody including children were always so enthusiastic about the whole project, only very few would toy with the opportunity. Some could even be seen arriving an hour before the time as they were always time conscious and pro-active on matters. Nobody would want to miss out and fail their examinations because all knew they were following the same school syllabus as those on the Mainland and they were being prepared for the same public /government examinations. By 1966/67 the school and

that I had also established at Abana now Bakassi scored A+ in the Grading of the Ministry of Education, Enugu until the civil war disrupted the ABANA School till this day. The reason was not far to seek. Everybody was disciplined, most of the candidates were from adolescent brackets upwards, the few children of normal age were always eager to be groomed because all the teachers were resident and people had no business worrying about the next meal or homework. Everything could be carried out in the school. One outcome in the establishments of these two schools for which posterity and all in URUAN/EFIK who knew about all this always remained grateful and thankful to God was the Secondment Programme I introduced while the civil war lasted. Most of the teachers from Arochukwu Area and Annang territory bordering what is now Abia State and the teachers from Nkoro, Unyeada, Ngo now in Rivers State were seconded to these two schools and their salaries were paid directly as I used to row down to meet all those who did not fear water. Most of these remained and settled all over the place in both Calabar up to Akpet and environs. The others were seconded to schools in old Uyo province as most of Annang country was in Biafran territory.

ST. PIUS(X) PARISH, ESSIEN ITIABA

(a) ORIGIN: The advent of Catholicism to Ibiaku Nsit, now Essien Itiaba could be traced to the arrival of Bishop Shanahan then residing in Onitsha in the early part of 20th century. From Onitsha the Missionary landed at Calabar and the faith spread to Anua and other places in the South-East of Nigeria. So it was with the people of Essien Itiaba when the first Missionary Rev. Fr. Kraft arrived at Ikot Itie Udung on 14th August 1914. History has it that Fr. Kraft said the first Mass at Chief Akpadiaha Ekot's square on the 21st day of August 1914. The first Church building was erected at the market square (Urua Esien) which was an open space then. That Church building also served as the first Catholic Primary School; St. Pius X RCM School. The Primary School was relocated in 1950 to its permanent site with the completion of the first permanent building. The Catholic faith was embraced by many and continued to spread to neighbouring villages such as Ndon Ikot Itie Udung in 1921, Ikot Asua in 1921, and Ikot Obong in 1934. In 1950 Assumption Parish, Ndon Ebom was created from Anua Parish and all these Mission Stations viz. Ikot Itie Udung, Ndon Ikot Itie Udung, Ikot Asua, Ikot Obong, Idikpa and Ndon Omum reverted to Ndon Ebom Parish as its Out-Stations. The stations then came under the administration of Rev. Fathers E. Knaebel, Paul Biechy, T. Mahoney, T. Greenan, Patrick Scanlon, D. Dolan, etc. In 1969, Ndon Ebom was administered by the first indigenous Priest, Rev. Fr. Joseph P. Ekarika (now Monsignor). He created sections in Ndon Ebom Parish and all the Out Stations of Nsit extraction were named Nsit Section. Other Sections were Nung Ikono Section, Nung Oku Section, Ibiaku Issiet Section and of course, Ndon Ebom Section. All these have now become autonomous Parish Centres. For administrative convenience the following persons were elected as the Sectional Executive Heads; they were: Chief Dominic Bassey Effiong as the Chairman, Knight Columbus Nyong, Vice Chairman, Knight Ignatius B. Ekpenyong, Secretary, Knight Cyrinus O. Effiong, Treasurer and Chief Augustine Okon Chairman, Ikot Asua Section, Chief Donatus Ekwere PRO. Nsit section existed under Ndon Ebom Parish for a period of sixteen (16) years before the breaking news of its excision to form an autonomous Parish on March 27th

1986 by the then Archbishop of Calabar, Most Rev. Dr. Brian D. Usanga. During this period, Knight Chrysanthus E. Nyong of Nsit Section was the Pastoral Council Chairman of Assumption Parish, Ndon Ebom whose contribution for the creation and growth of Essien Itiaba remains evergreen in the memories of members. The administrative structure of the section led by Chief Dominic Bassey Effiong therefore transformed into the Parish Executive Council after the creation of St. Pius X Parish, Essien Itiaba.

The Parish has also undertaken the renovation of station Churches and construction of 3 new ones as also a magnificent Parish Church building. The Parish is a member of Uruan Essien Itiaba Inter-Parish Council.

ST. PIUS (X) CATHOLIC CHURCH, IKOT ITIE IDUNG

(a) ORIGIN: Catholicism arrived here from St. Joseph's Mission Anua in 1914 with Rev. Fr. Kraft. As at then, it was a community of Ikot Itie Udung villages in Nsit Atai/Eastern Nsit. At the instance of Late Chief Felix Ekpenyong Okoko of Ikot Itie Udung, Daniel Mkpap of Ikot Uyo Nsit and Benedict A. Udosen Inyang who were the 1st converts, other chiefs like Effiong Okudo, Assian Akpan, and Gregory Effiong Archibong were invited for a meeting by Rev. Fr. Kraft. They all embraced the Catholic religion and got baptized. From there an approval was given for the establishment of the Catholic Church at Ikot Itie Udung. Land was donated and everybody was interested and involved. Thus, the Catholic Church was the 1st ever Christian religion to land here and spread to other stations of Essien Itiaba community and Eastern Nsit now Nsit Atai. It then spread to places like Ikot Uyo, Ikot Asua, Ndon Ikot Itie Udung, Ikot Obong, Unyehe and others. Accordingly, this station continued to grow and other stations were established at Ndon Ikot Itie Udung by Late Patrick Eyo Udo, Ikot Obong by Late Joseph E. Akpan, and Ikot Asua by Augustine Okon Akpan. With the creation of Idikpa Ikot Ntuen Village, Late Christopher E. Nyoho took over Ikot Itie Udung with others such as the late Chief Dominic Etim Ekpo, Michael Vincent Etim, Ephraim Odiong Okudo, Valence Nyong, Gabriel E. Ekpo, Chief Ibuot, Jerome I. Bernard and those still living like Donatus Eyo Akpan, Ignatius I. Effiong, Benedict Udo Akpan, Linus Etim Inyang and others. Since the Church has grown with the establishment of other stations since the creations of Essien Itiaba Parish with Ikot Itie Udung as Parish Headquarters.

(b) 1ST MASS: Holy Mass was first celebrated at Ikot Itie Udung village square by Rev. Fr. Kraft in 1914 to mark the official arrival of Catholicism in Essien Itiaba in particular and Nsit Atai Local Government Area in general.

(c) CHURCH BUILDING: The first building was thatched. It was replaced with a permanent one started during the Leadership of Late Christopher Ekere Nyoho and with the maximum cooperation of all members it was successfully completed. Ikot Itie Udung station has grown beyond the rank of a station to that of a parish church status. The Church building was started by Very Rev. Fr. Felix Ekong and completed by a very hard working Parish Priest Rev. Fr. Patrick Udotai**.**

(d) 1ST CATCHIEST/TEACHER: The first official Catechist/teacher was Mr. Gregory Effiong Archibong in 1930.

SACRED HEART CATHOLIC CHURCH, NDON IKOT ITIE UDUNG

(a) **ORIGIN:** The Catholic Church in Ndon Ikot Itie Udung was established in the year 1921 by Rev. Fr. Biechy who came in through St. Pius Catholic Church, Ikot Itie Udung. At its inception the church was located at Chief Ikpa Ntak Inyang's compound who was the head of the village then. The Church was headed by Chief Patrick Eyo Udo. From the available records the first person to be baptized was Thomas Etim Essien on the 23rd June 1926 by Rev. Fr. E. Knaebel. The Baptism of young Thomas inspired his family, Nung Obong Utan to donate a parcel of land where the Church is now located. As the village/community embraced the Catholic Faith, 31 members were baptized on the 19th November 1926 and two persons wedded on that day too. From 1921 to-date, the Church is blessed with 2 permanent buildings. In May 1997, the indigenous Priest by name Rev. Fr. Charles O. Etim was ordained by the Catholic Bishop of Calabar, Most Rev. Dr. B. D. Usanga of blessed memory. To God be the glory.

(b) 1ST MASS/SERVICE: History has it that the first Holy Mass was celebrated at Chief Ikpa Ntak Inyang's compound in a thatched building. It is on record that the first priest who conducted the Mass/Service was Fr. Edward Knaebel (CSSP) assisted by Catechist Charles Eyo Ita from Calabar.

(c) CHURCH BUILDING: The Church is blessed with a capacity new Church that can accommodate more than 550 worshippers. The new building was completed in the early part of 1993. The former old one building which was completed and consecrated in 1954 has now been abandoned but it can be used as Church Assembly Hall. These two buildings lie side by side where the Station is located at the main junction of the town. The first building is now serve as Church Hall.

ST. DOMINIC'S CATHOLIC CHURCH, IKOT UYO NSIT

(a) ORIGIN: In 1926 three men each representing the then three families in Ikot Uyo namely, Chief Daniel Effiong Mkpap (Nung Uyo family) the father of George Daniel, Chief Etukudo Ekaete (Nung Okporo) and Chief Ekwere Nwa Udo Ekpok (Nung Abasi Akpan) were mandated to visit Anua Parish and invite the Catholic Missionaries to Ikot Uyo Nsit. On their return, the three men reported back to the then Village Head, Obong Adiaha Umoh Etok in his compound while Chief Daniel Effiong Mkpap prayed the Holy Rosary. This subsequently led to the establishment of the Catholic Church in the village. At the beginning, St. Dominic's Catholic Church was under Anua Parish was later moved to St. Mark's Oron and afterwards to St. Theresa's Ikot Edibon. Then with the creation of St. Pius Ikot Itie Udung since 1988, the Station is now its Out-Station.

(b) 1ST MASS/ SERVICE: The first Mass was celebrated in 1926 in a thatched building belonging to Chief Daniel Effiong Mkpap.

(c) CHURCH BUILDING: Chief Daniel Effiong Mkpap donated a plot of land to the Church for the Church building. Thereafter the Infants' School was attached and the Church was moved to a new site on the land donated by the Village Council of Chiefs. It was a thatched house then. Between 1955 and 1957 and from this thatch Church, mud blocks were made to remodel the new Church. Then a permanent structure was started in 1967 by the direction of Fr. Joseph P. Ekarika and was completed by Fr. Aloysius N. Ebong.

(d) 1ST CATECHIST/TEACHER: The first Catechist/teacher was Chief Daniel Effiong Mkpap.

ST. AGNES'S CATHOLIC CHURCH, UNYEHE NSIT

(a) ORIGIN: In 1927, these early Christians Etubom Bernard Akpan, Mr. Gregory Henshaw Bassey, Mr. William Etuk Udo, Mr. John Akpan Ibanga, Madam Gertrude Mandue Akpan, Madam Rosaline Akpan Obong and Madam Victoria Obot Bassey among others went and begged the Holy Ghost Missionaries at Anua to establish the Catholic Church in Unyehe Nsit. The Church was named St. Agnes Catholic Church. The Church at its inception was under Anua Parish and Priests often came from Anua to celebrate Mass there. Later the Out Station was placed under St. Theresa's Parish Ikot Edibon. On 4th April 2004 which was Palm Sunday, the Church was then enlisted under St. Pius (X) Parish, Essien Itiaba as its Out-Station.

(b) 1ST MASS/SERVICE: 1927

(c) CHURCH BUILDING: According to records, the early Christians contributed money and built the first place of worship. That site is still where the present permanent Church building is located today.

ST. JOSEPH'S CATHOLIC CHURCH, IKOT OTU

(a) ORIGIN: When the good news that Ikot Akpabio in Nsit Ubium had accepted Christ and permission also granted them to build the Catholic Church in the Village, this gave Chief Solomon Iyot the then Village head of the village the impetus to set up a committee to visit Ikot Akpabio and arrange for the establishment of the same Church in Ikot Otu. In 1921 St. Joseph's Catholic Church Ikot Otu was established through the effort of the entire Ikot Otu Village as there was no other Church by then in the community. The station at inception was under Anua Parish and later on was ceded to St. Mark's Parish, Esin Ufot Oron. These two Parish Headquarters were very far from the station. Hence in 1949 as a result of the creation of St. Theresa's Parish, Ikot Edibon the Church became one of its Out-Stations. By the year

1986, St. Pius (X) Parish Essien Itiaba was established and in 1988 St. Joseph's Catholic Church, Ikot Otu was enlisted under Essien Itiaba Parish.
(b) 1ST MASS/SERVICE: This was celebrated in an open square in the Village in 1921 by Rev. Fr. Antoine Steigler CSSP).

© CHURCH BUILDING: The Church started at an open square in the village and later moved to a rented thatch building. Through the efforts and contributions of Mr. Boniface O. Adam, Mr. Bernard Etim Iyot and Mr. Gabriel Etim Utong, work on the permanent Church building was started and completed.

ST. JOSEPH'S CATHOLIC CHURCH, IKOT OBONG NSIT

(a) ORIGIN: Ikot Obong and Ikot Itie Udung co-existed from history as an autonomous community. Because of this co-existence whatever happened in Ikot Itie Udung also touched the people of Ikot Obong. In 1914 when the Catholic faith was embraced and established in Ikot Itie Udung, Ikot Obong people also embraced the faith but worshiped at Ikot Itie Udung. In 1934 five members of the Church from Ikot Obong namely: Joseph Ekpenyong Akpan, Michael Eyo Akpan, Raymond Udo Inyang, Michael Edet Akpan and Nestor Etim Udoh, met with the Parish Priest at Anua to seek permission to start a station Church at Ikot Obong. Towards the end of that year (1934) the then Parish Priest, Rev. Fr. Thomas McGettrick arrived Ikot Obong and met with the then village Chiefs viz. Chiefs Essiet Abasi Obong Asia, Udat Akpan Ayang Ekoi, Essien Adiaha Akpan Ndem and Ubom Ekpa. He then advised them to designate a site for the building of a Church. Then they whole heartedly donated a piece of land which the Rev. Father blessed the land and then appointed the Church Headman with the permission to commence the Church construction and granting him authority to oversee the activities of the Church in Ikot Obong.

(b) 1ST MASS/SERVICE: The first Mass was celebrated in 1935.
(c) CHURCH BUILDING: When approval was given for the commencement of Church Services in the Station by Rev. Fr. Thomas McGettrick, the Catholic faithful began to worship at Joseph Ekpenyong Akpan's compound. Through the effort and sacrifice of those early members earlier mentioned and others, the Church building and a Catechist's residence were erected on a land donated by the Village Chiefs a few years after the establishment of the Church in Ikot Obong.

The Church is now wearing a new look through the effort of the present Headman, Obong (Otuekong) Raphael Bassey with the co-operation of the entire members of the Church.

(d) 1ST CATECHIST/TEACHER: Catechist Philip Umoh Ita was the first Catechist/Teacher.

ST. MICHAEL'S CATHOLIC CHURCH, NDON OMUM

(a) ORIGIN: The people of St. Michael's Catholic Church Ndon Omum first worshiped at Sacred Heart, Ndon Ikot Itie Udung and after a very long time the members withdrew to establish and worship in their village, Ndon Omum. The establishment of this station Church began in 1948 in a thatched house before the Primary School structure was built and members also began to use it for worship and other Church activities. From available records the early Christians embraced Catholicism long before 1926, when about four members from Ndon Omum were baptized on 19th November, 1926 alongside members of Sacred Heart Church, Ndon Ikot Itie Udung. Worthy of mention as the strong contributors towards the establishment of the Church were Lawrence Edet Akpan Udoh, Raymond Okon Essien, Jacob Effiong Okon, then Village Head, Chief Paul Etim Udoetong and some others all of blessed memory.

(b) 1ST MASS/SERVICE: 1948

(c) CHURCH BUILDING: In 1948 or thereabout the Church began in a thatched building. Then in 1950 the school hall of St. Michael's RCM was used for worship. In 1969 the present Church building was erected through the help of Ndon Ebom Parish during the administration of Rev. Fr. J. P. Ekarika the Parish Priest of Ndon Ebom when Ndon Omum was a station in Nsit Section of the Parish.

ST. ANTHONY'S CATHOLIC CHURCH, IDIKPA IKOT NTUEN

(a) ORIGIN: Idikpa Ikot Ntuen before being made a Village in the early sixties was a unit in Ikot Itie Udung and thereby embraced Catholic Faith alongside Ikot Itie Udung in 1914.

Early in 1970, Chief Lawrence Etim Ekpenyong the mover and Pilot for the Creation of Idikpa Ikot Ntuen who was also the Village Head thought it wise to write the then Parish Priest of Ndon Ebom, Rev. Fr. Joseph P. Ekarika to come and celebrate Holy Mass for them. This spectacular event accorded the Village God's blessings and recognition. On 17th February 1970, Holy Mass was celebrated as requested marking the establishment of Catholic Church in Idikpa Ikot Ntuen Village.

(b) 1ST MASS/SERVICE: was celebrated by Rev. Fr. Joseph P. Ekarika (now Rt. Rev. Monsignor) on 17th February 1970 at the Village Hall. After the Mass the Church was named St. Anthony's Catholic Church since this day was St. Anthony's Feast day.

(c) CHURCH BUILDING: The Catholic Faithful of Idikpa Ikot Ntuen started worshipping in the Village Hall until work on the permanent Church building was completed.

(d) 1ST CATECHIST/TEACHER: Mr. Bernard Eyo was the first Catechist while Mr. Joseph E. J. Etim was the first teacher.

S T. PATRICK'S CHURCH-NDA NSIT

(a) ORIGIN: The Catholic Church started in the year 1963 with his family in the Veranda of Patrick Okon Offiong house since there was no other person to attend as members from the village. The village is dominated then by Protestant Churches. Patrick Okon Offiong decided to set up a small building and the Church was named after his Patron Saint, St. Patrick's Catholic Church, Nda Nsit. Formerly, the Church was under Ikot Edibon Parish in Nsit Ubium L.G.A. In 1988 the entire Church in collaboration with the Bishop of the then Calabar Diocese, Archbishop Brian D. Usanga approved and allowed the Church to return to their Nsit Atai land in St. Pius X Parish, Essien Itiaba under the Umbrella of Rev. Fr. Anthony Akwaowo. The Church has since grown with four families. With the present members, a parcel of land had been acquired through the assistance of a non-Catholic, Hon. Emmanuel Jack Bassey for the Church's permanent site. On the 28th February 2012 Rev. Fr. Gabriel Ekong celebrated the 1st Mass at the permanent Church with the entire Parishioners in attendance during a combined Service for Nda Nsit Station. The Mass was celebrated under Palm trees shade and canopies. On August 2012, Rev. Father John Bosco Ezekoli laid the foundation stone of the Church and now the permanent structure of the Church the roofing stage and near completion.

(b) 1ST MASS: The first Mass was celebrated by Rev. Fr. Kevin Longworth in 1963.
(c) CHURCH BUILDING: The Church building today is under construction and is nearing completion.

SS PETER AND PAUL'S CATHOLIC CHURCH, IKOT AKPAN IKE

(a) ORIGIN: The people of Ikot Akpan Ike embraced the Catholic faith through Ndon Ikot Itie Udung and Ikot Mkpo during the early part of 20th Century. That Catholic Church actually collapsed before 1945. However, on Pentecost Sunday of 1993 the faith was revived by Rev. Fr. Christopher Inyang through Mr. Felix Udo (KSM) who was also the then Grand Knight of Kano Sub-Council when he visited the town. Members of SS. Peter and St. Paul's Catholic Church, Ikot Akpan Ike at inception consisted of five families of Kgt. Felix Udo, Mr. Joseph Jimmy Etim, Mr. Pius Joseph Akpan (a school teacher) and others. Now the Church is sustained by three married families namely; Mr. Joseph Etim and family, Mr. Paul Akaninyene and family and Mr. Patrick Ossom and family. Another devout member is Mrs. Francisca Uwa. This later Church was started by the Grand Knight of Kano State in the person of Brother Felix Udo as stated above. He together with his family alongside the family of Bertha Joseph Etim constituted the first members of the revived Church. In 1996, the first Mass was said by Rev. Father Chris Inyang, the Priest in-charge of St. Pius X Parish, Essien Itiaba then.
(b) 1ST MASS/SERVICE: Holy Mass was first celebrated on the Pentecost Sunday of 1993 by Rev. Fr. Christopher Inyang at Kgt. Felix Udoh's Compound.
(c) CHURCH BUILDING: The building has been brought up to the wall plate and still needs help for the purchase of wood and zinc for the roof. The work is ongoing and will soon be completed in God's own Time.

ST. MICHAEL'S CATHOLIC CHURCH, ODOT

(a) ORIGIN: The Church was first established during the Biafran War and first Mass said in the Primary School, Odot by Rev. Fr. J. P. Ekarika in 1968. The majority of worshipers then were Catholic Army

Officers camped at Ikot Nkpene during the Nigerian Civil War while some of them lived at Odot. Some years after the war, there was no trace of Catholic Church here because the worshipers were itinerant worshippers who came in and out of the area and more so the entire area had been effectively in Protestant hands then. The Catholic Church at Odot was re-established in 1994 when Rev. Fr. Christopher Inyang was appointed the Parish Priest of St. Pius X, Ikot Itie Udung. This second coming of the Catholic Church as it were, also collapsed this time again even as some of the members tried to regroup themselves to build a strong and virile Church. They were unsuccessful because they were out of touch with either their counterparts at St. Theresa's Ikot Edibon or St. Pius ((X) Essien Itiaba being so far away from both. It was by divine Providence that during the posting of Rev. Fr. Patrick Udotai in 2004 as the new Parish Priest to St. Pius X coupled with the presence of Catholic Corpers who were posted to the area that Service Year that the move to re-establish the Church in Odot was brought about. The move to build a Catholic Church at Odot became a reality on the 18th January, 2004 as the whole Parish (St. Pius X) trooped out and organized a rally of sorts during which Holy Mass was said at Odot and the Church thereafter was named after St. Michael, the Arch-angel the conqueror. The Church started with 21 members. The third set of leaders appointed after the collapse of the second Church regime were Mr. Andrew Edem Michael as the Headman/Catechist, Lady Pauline F. Udo, Matron/Treasurer and Monday Edet Okon as PRO.

Today, the Church in its 15th year the of third re-establishment is growing with more members. The Church has bought a piece of land for its permanent site. The work of evangelization is growing to the glory of God. The Church would have experienced even greater growth and attracted more members, but for the unfortunate fact that there is yet to be completed a permanent building at the site for worship God there.

(b) 1ST MASS/SERVICE: The first Mass took place at Methodist Central School, Odot in 1968 while the 1st Holy Mass at the new site was celebrated under a canopy on the 25th October, 2009 by Rev. Fr. Gabriel C. Ekong, the then Parish Priest of St. Pius X Essien Itiaba.

(c) CHURCH BUILDING: The Church has acquired land and the building of the permanent Church is in progress.

ST. GABRIEL'S PARISH, NUNG OKU URUAN

(a) ORIGIN: St. Gabriel's Parish Nung Oku Uruan embraced the Catholic Faith in the year 1914 when Rev. Fr. E. Knaebel (CSSP) arrived the town through the untiring effort of Chief James Archibong Edet. Until then, it was under St. Joseph's Parish, Anua for 33 years. With the creation of Ndon Ebom Parish from Anua in 1950, Nung Oku community was ceded to join Assumption Parish, Ndon Ebom and was given a Sectional status in 1969 by Rev. Fr. J. P. Ekarika who later donated the Church Bell from Germany in 1972 when Mr. Nicholas Okokon initiated the building of the permanent Church.

Until recently Nung Oku Uruan Section remained under the Assumption Parish, Ndon Ebom for fifty years before becoming a Parish. A pragmatic approach to the realization of the Parish was initiated by Etubom Sebastian A. Udoh in 1994 and St. Anthony's Guild, Nung Oku. In 1995 the Association together with Etubom Sebastian started the building of the Rev. Father's house. This development motivated the then Sectional Council Executive under the leadership of Mr. Aloysius B. Efanga to levy all the Parish faithful. On the 25th April 1998 the Council sent a formal application to the then Bishop of Uyo Diocese. Most Rev. Dr. Joseph E. Ekuwem now Archbishop of Calabar for the creation of the Parish.

On the 15th day of August, 2000, Feast of the Assumption, St. Gabriel's Parish, Nung Oku Uruan was created and announced an autonomous Parish by the Bishop of Uyo Diocese, His Lordship Most Rev. Dr. Joseph Ekuwem. The first Mass of the new Parish was celebrated on 28th August 2000 by Very Rev. Fr. Anthony Akwaowo, the then Priest In-charge of Assumption Parish, Ndon Ebom, who was asked to administer the Parish until a Resident Priest was posted to Nung Oku Uruan.

(b) INAUGURAL MASS/ SERVICE: This was celebrated on the 7th January, 2001 at the Parish Church by His Lordship, Most Rev. Dr. Joseph E. Ekuwem.

(c) NUMBER OF STATIONS: The Parish is blessed with eight stations namely:

ST. GABRIEL'S CATHOLIC CHURCH, NUNG OKU URUAN

(a) ORIGIN: Before the establishment of the Catholic Church in Nung Oku, a few indigenes had embraced the faith and had to worship at Ikot Inyang Idung now in Etoi Clan, a neighbouring village where the Catholic Church had earlier been established. In the year 1914, spearheaded by Chief James Archibong Edet, the Catholic Priest in-charge of Anua Parish, Rev. Fr. Edward Knaebel (CSSP) was invited to come and establish the Catholic Church in Nung Oku Uruan.

(b) 1ST MASS/ SERVICE: 1914

(c) CHURCH BUILDING: At inception, the village hall was used for services and other Church activities. In 1924 as a result of the migration of Nung Oku Uruan people to a new settlement, the Church was relocated to Chief Etim Ubon's compound. In 1930 as a result of influx of pupils in the school, the village donated the present land for building of the Church and School. A thatched house was built to serve as Church and School. In 1953 inspired by Rev. Fr. D. Dolan, then Parish Priest of Assumption Parish, Ndon Ebom, work started on the concrete Church/School building. In 1972 work started on the present permanent Church building and Rev. Fr. J. P. Ekarika donated a giant Church bell from Germany.

ST. SIMON'S CATHOLIC CHURCH - IKOT INYANG ESUK

(a) ORIGIN: These two gentlemen, Chief Patrick Essien Asuquo and Mr. Asuquo Essien Udo both Fishermen and traders, while trading on the creeks of Cross River came in contact with Chief Bassey Obot Inyang Umoren of Use Uruan Village who introduced them to Catholic denomination at Calabar.

They had to write Application letters for seventeen years before they were able to bring the Holy Ghost Missionaries to establish the Catholic Church at Ikot Inyang Esuk in 1920. The event took so long, because the Missionaries who settled at Calabar, had to come across a lengthy River and many Creeks infested with mosquitoes and crocodiles to the place in a canoe paddled by at least 3 or 4 men. The journey took them weeks before they could get to Use Uruan Village which was the first town where the

Missionaries often settled while coming on bush trek from Calabar to the area. The Missionaries' visits to these places were few and far between. In 1920 the two gentlemen Chief Patrick Essien Asuquo and Chief Asuquo Essien Udo were introduced to Rev. Fr. Kraft and Rev. Fr. Leon Lena who were the Catholic Missionary Priests at Use Uruan Village. Their meeting was successful when on September 15th 1920, the two Priests in the company of two converts paid a visit to Ikot Inyang Esuk Village and thereby established the Catholic Church. The Pioneer Church was established at Chief Essien Asuquo's compound while Chief Patrick Essien Asuquo was chosen as the first Catechist for the station.

In 1921 the two Priests had to come back to the Village to baptize over one hundred converts after they had celebrated the First Mass for the people that same year. That same number of people also later received First Holy Communion.

(b) 1ST MASS/ SERVICE: The First Mass Service was celebrated in 1926 by Rev. Fr. E. Knaebel at the new Church centre.

(c) CHURCH BUILDING: Due to the growing number of converts, the Church authorities were mandated to appeal to the Village Council to donate land for the building of the Church and the request was granted. A thatch-roofed Church was built on the same spot where the present Church is now located.

In 1963, the thatched Church was demolished and a permanent structure was put in place. This was made possible through the initiative of Chief Patrick Essien Asuquo. With the help of Rev. Fr. P. McCormack, The Church building progressed under the Chairmanship of Chief Basil Asuquo Ekoriko.

The Church has in the meantime produced two indigenous Priests in the persons of Very Rev. Fr. Emmanuel Effiok Effiong and Rev. Fr. Emmanuel Kufre-Abasi Okon. The Church is also blessed with a Senior Seminarian in the person of Rev. Mr. John Cosmas David.

ST. JOHN'S CATHOLIC CHURCH, NNA ENIN

(a) ORIGIN: Through the pioneering efforts of Chief Moses Effiong Peter (Alias Ette Father) of Ikot Inyang Esuk and Mr. John Edet Etim from Nung Oku Uruan, the Catholic Church was established on the 29th September 1998 at Nna Enin by Rev. Fr. Leo Effiong Etim, the Parish Priest of Ndon Ebom. Actually before now and during the time of the early Catholic Missionaries, several attempts were made to establish the Catholic Church in Nna Enin but the then Chiefs rejected it and were opposed to the establishment because the Methodist Church was there already.
The second coming of the Church had the following as founding members:

CHIEF EMMANUEL OKON ESSIEN	MR. EMMANUEL EDEM EKPENYONG	MRS. CHRISTIANA OKON ESSIEN	MR. ASUQUO EDET ETIM
MRS. RITA EDET AKPAN	MRS. AUGUSTA ASUQUO EDET	MRS. MARY ENO EDEM	==========

(b) 1ST HOLY MASS / SERVICE: This was celebrated by Rev. Fr. Leo Effiong Etim on 29th September 1998. All the Stations within the then Nung Oku Section in Ndon Ebom Parish were in attendance.
(c) CHURCH BUILDING: The First Holy Mass was celebrated in Chief Effiok Essien Ekanem's Compound. As the Church grew, a portion of land was acquired by the Parish Council for the building of a permanent Church at Nna Enin. Work is in progress.
(d) 1ST CATECHIST /TEACHER: Mr. John Okon Etim from Ikot Inyang Esuk was the first Catechist/Teacher.

ST. JAMES CATHOLIC CHURCH, ADADIA URUAN

(a) ORIGIN: The Church was established in 1952 with the help of Rev. Father D. Dolan assisted by Rev. Fr. J. P. Kelly. The Church started in Afaha Ikot, at Mrs. Theresa Udo Akai's compound. Mr. Bartholomew Bassey from Anua Offot was appointed the Church leader and the first Church Catechist/Teacher. From Afaha Ikot, the Church was moved to Usung Idim Atai popularly called Ibuno Issiet in Uruan. The first Mass was celebrated by Rev. Father James Sharkey in 1959. The Church then moved from Usung Idim to Anwa Mbok beside Mma Inyang's compound. Because of pressure from the Village Council, the Church moved to Mr. Michael Okokon Akpan's compound. From there the Church moved again to Methodist Central School, Adadia. Rent was paid by Sir Patrick Ekpo for the use of the School. Within a short time, another pressure came in during the time Sir Patrick Ekpo went abroad and the Church moved back to Government School, Adadia/Ekim Enen. The Church was here within a short time and then moved to Chief Xavier Okon Asuquo's compound. By then, by Divine Providence, God gave us a Moses called Chief Okon Udo Abasi who sold his land for the Church building and later became an active member in the Church. In 1990, the Church moved to the new site and the permanent structure was built by the Parish under the auspices of the then Parish Priest, Rev. Fr. Gabriel Ekong.

(b) 1ST HOLY MASS / SERVICE: This was celebrated by Rev.Fr. Sharkey at the market square Issiet Uruan, Uruan Local Government Area in 1949.

ST. JEROME'S PARISH, NUNG IKONO UFOK

(a) ORIGIN: St. Jerome's Parish, Nung Ikono Ufok is located in the South South area of Uruan Local Government Area of Akwa Ibom State. It was created from Assumption Parish, Ndon Ebom on Saturday, 25th day of May, 2013 by His Lordship Most Rev. Dr. Joseph E. Ekuwem, Bishop of Uyo Diocese now, nominated His Grace and Archbishop-Elect of the Metropolitan Ecclesiastical Province of Calabar. This was the occasion when the faithful of Uyo Diocese decided to offer a Thanksgiving Mass and Farewell ceremony at the Pastoral Centre, Uyo for him. There and then he announced the erection of six new Parishes to be created in the Diocese on that occasion.
(b) 1ST PARISH PRIEST: Rev. Fr. Francis Ubong.

ST. JEROME'S CATHOLIC CHURCH, NUNG IKONO UFOK

(a) ORIGIN: The Catholic Church was established at Nung Ikono Ufok through two men who had received the Faith at Calabar. They were Chief Ekpo Udo Essien and Chief Onwok Udo. Both men and their households in January 1910 started a sort of house worship at Chief Onwok Udo's Compound. The Catholic Mission at Calabar was informed of this development and on the 15th May 1910 a young teacher was sent to Nung Ikono Ufok and later, First Mass was celebrated by Rev. Fr. Biechy at Chief Onwok Udo's Compound.
(b) 1ST MASS / SERVICE: This was celebrated by Rev. Fr. Biechy on the 30th September 1910 at Obong Onwok Udoh's Compound and this was also Saint Jerome's Feast Day hence the name of the Church.
© CHURCH BUILDING: Church activities started at Obong Onwok's compound and later moved to a place opposite the Customary Court. Since the plot of land could not accommodate both the School and the Church, it was moved to the present location of St. Jerome's School where a permanent structure was erected.
In 1974, as a result of population explosion in the Church, the people approached the Council of Chiefs for a place to build a new Church. In 1978 the Village gave the site called Iso Etefia ostensibly as a new Inculturation and baptizing of **NDEM ETEFIA** of IKONO KINGDOM to the Church. On 23rd March 1980 the foundation stone for the Church building was laid at the new site. On February 18, 1996, Rev. Fr. Leo E. Etim blessed and opened the Church with a personal donation of the 1st pew.

(d) 1ST CATCHIST / TEACHER: Mr. Charlie otherwise known and called by the people as "**Eyenowong Mission" – Mission boy,** was appointed on the 15th May 1910 as the first Catechist/Teacher.
(e) 1ST CHURCH HEADMEN: Chief Vincent Etim
(g) 1ST TO RECEIVE HOLY COMMUNION: Vincent Etim and Anna Affiong Udo
(h) 1ST WEDDED COUPLES/YEAR: Vincent Etim and Anna Affiong Udo on the 16th August 1926.

ST. CYPRIAN'S CATHOLIC CHURCH, IKOT AKAN

(a) ORIGIN: The arrival of Rev. Fr. Joseph Kraft and subsequent establishment of Catholic Church and School in Use Uruan aroused the interest of Ikot Akan people who earlier celebrated the event with Use Uruan people. On the 19th April 1909, Rev. Fr. Joseph Kraft arrived Ikot Akan Village through the help of Mr. Victor Akpan, Mr. Thomas Akpan, Mr. Gregory Bassey James and Mr. Okon Otu. The Priest was carried on an instrument called "**AMIK= Hammock**". They were received by the people amidst jubilation at the Village square.

(b) 1ST MASS: The first Mass was celebrated on the 19th April, 1909.

(c) CHURCH BUILDING: Before the arrival of Rev. Fr. Kraft, Chief Essien Ekanem popularly called "Cracky" had donated a plot of land for the building of the Mission house.

ST. PAUL'S CATHOLIC CHURCH, USE URUAN

(a) ORIGIN: Use Uruan according to records remains the basic community and cradle of the evangelization effort which brought about the establishment and spread of Catholic Faith in the whole of Akwa Ibom and hinterland. Places such as Ndon Ebom, Ekpene Ukim, Nung Ikono Ufok, Nung Ikono Obio, Ikot Akpa Ekang, Ikot Akan, Ibiaku Issiet, Ekeya Okobo, Use Offot, and Anua Offot both in Uyo were evangelized through Use Uruan. Others towns and villages evangelized were Nung Atte, Ikot Okure, Ikot Ambon all in Ibesikpo Asutan. Others included Abak and Urua Inyang in Abak District and Ifuho and Urua Akpan, all the in current Ikot Ekpene Diocese. From these places the Catholic faith then spread speedily to all nooks and crannies of Uyo and Ikot Ekpene Dioceses. This fact was confirmed in 1958 by His Lordship, Most Rev. Dr. James Moynagh the then Bishop of Calabar Diocese which comprised of the present Calabar, Uyo and Ikot Ekpene Catholic Dioceses during the Golden Jubilee Anniversary Mass celebration of the arrival of the first Holy Ghost Missionaries at St. Paul's Catholic Church, Use Uruan. In this part of the world, the Catholic faith was first embraced by Use Uruan people on the 27th December 1906 with the help of Chief (Catechist) Bassey Obot Inyang who embraced the faith at Calabar where he was doing business. After being made a Catechist by the Holy Ghost Missionaries at Calabar, he made his four male children viz. Joseph Edem Bassey, Augustine Offiong Bassey Peter Essien Bassey and Paul Edet Bassey to serve as "Mission Boys" to the Missionaries.

In December 1906, Joseph Edem Bassey one of the sons of Catechist Bassey Obot Inyang who served as a Mission Boy at Calabar visited Use, his home town and narrated their religious experiences at Calabar and the need for Use village to embrace the Catholic faith. The Chiefs accepted their suggestion and acted promptly by appointing able-bodied young men namely; James Jacob Edet Okon and Francis Asuquo Bassey Ene to accompany him as the Leader of the team to Calabar and bring the Catholic Missionaries to Use Uruan Village. They left Use Uruan on the 24th December 1906 and arrived at Calabar the following day. They then met with Rev. Fr. Josef L. Lena in the morning of 27th December 1906. These men and Rev. Fr. Joseph Kraft arrived at Use Uruan Village and were received with great Joy by the villagers. That day marked the beginning of the establishment of the Catholic Church in Use Uruan.

(b) 1ST MASS: This was celebrated in the evening of 27th December, 1906 by Rev. Fr. Joseph Kraft amidst rejoicing, dancing and fan-fare at a place now called **"Obot Mission"** in Use Uruan.

(c) CHURCH BUILDING: The Mission School formerly managed by the Methodist Mission was voluntarily handed over to the Catholic Mission as a result of the unanimous declaration of the intention by the entire Use Uruan indigenes to embrace the Catholic faith and their open-mindedness and resolve to denounce the Methodist faith. The Mission School served both as School and Church for liturgical worship and as a means of evangelization where Catechism was taught as part of the School curriculum. As a result of the increase in the number of the Catholic Faithful, the village donated a parcel of land to the Church where the permanent Church is located today.

(d) EVANGELISM AND SPREAD OF THE CATHOLIC CHURCH: Some years later the need arose for more Catholic Missionaries to assist and evangelize Use, Anua, Idu, Ifiayong, Use Offot, Ekeya, Eman Uruan environs and beyond. Rev. Fr. Kraft who was immediately requested for more Missionaries for the work came along and later some more Rev. Fathers accompanied by some Rev. Sisters who were dispatched to join Him. Prominent among the Rev. Sisters sent was Rev. Sister Mary Charles Walker who founded the Congregation of the Handmaids of the Holy Child Jesus (HHCJ). Her coming happily led to the formation of the following Special groups and Societies in the Church: The Handmaids of the Holy Child Jesus (HHCJ) the Legion of Mary, etc. These helped tremendously in evangelization and other aspects of work in the Church.

With the help of the new members in the Church at Use Uruan and from other villages and towns, the Missionaries were able to go into the orbit of their pastoral enterprises. They endeavoured to consolidate by establishing many Catholic communities and Out-Stations including Ndon Ebom, Nung Ikono Ufok, Ekpene Ukim, Nung Ikono Obio, Ikot Akpa Ekang, Ikot Akan, and Ibiaku Issiet. Besides, Rev. Fr. Kraft and his Missionary team visited Ekeya community in Okobo accompanied by an Ekeya son who resided in Use Uruan at that time. He was a staunch member of the Catholic Faith. With this team they successfully established the Catholic Church at Ekeya Okobo and environs.

There was a man called Asuquo Okon Ikpe from Use Offot in Uyo who was living at Use Offot at the time with his wife Charlotte Ikwo Udo Ekong, an indigene of Use Uruan. They were both converted into Catholicism while in Use Uruan. They took the evangelical team led by Joseph Edem Bassey, James Edet and Joseph Effiong Obot Inyang with the permission of the Missionaries to open the Catholic Church at Use Offot. After some weeks, the Catholic Church was established at Use Offot. The team also moved to Anua village and equally succeeded in establishing the Catholic Church at Anua. The Catholic Missionaries equally visited Anua and Use Offot villages to examine and strengthen the Church in these villages. During their visits they observed that Anua village was more centrally located at that time than Use Offot and was also very close to the colonial Administrative Headquarters at Uyo. Then they decided to make Anua the Headquarters of the Catholic Church for the entire Uyo Area and the Mainland which included the whole of Annang country. Thereafter, Mr. Asuquo Okon Ikpe and his wife Mrs. Charlotte Asuquo Ikpe were joined in the Sacrament of Matrimony and they became the first wedded Catholic couple in the whole of the Mainland Church of what is now known as Akwa Ibom State.

In another dimension, Mr. Gabriel Effiong Udo Ekong and Mr. Joseph Asuquo Edet took over the piloting of the spread of the Catholic Faith. They led the Catholic evangelical team to Nung Ette, Ikot Okure and Ikot Ambon in Ibesikpo and Asutan. In the end they succeeded in establishing the Catholic Church in these Villages with many converts. Chief James Edet and Chief Joseph Asuquo Edet were also the pioneers and founding fathers of the Catholic Faith at Abak and Urua Inyang respectively. Chief Joseph Effiong Obot Inyang graciously led the Catholic Crusade team to Ifuho and Urua Akpan and succeeded in establishing the Catholic Church in these places.

(e) 1ST CATECHIST/TEACHER: The first Catechist/Teacher was Joseph Edem Bassey.

ST. HENRY'S CATHOLIC CHURCH, NUNG IKONO OBIO

(a) ORIGIN: The Catholic faith came to Nung Ikono Obio through the efforts of Chief Etim Essien Akpa Udo who was an interpreter to the European traders at Calabar. Through his dealings with the Europeans he saw other communities, inviting the European Missionaries to their villages. In 1906 the village mandated Mr. Udo Eka Udo Ebo (later baptized as Paul) to accompany Chief Etim Essien Akpa Udo to Use Uruan to meet the Holy Ghost Missionaries. Rev. Fr. Josef Leon Lena first visited Nung Ikono Obio from Use Uruan. On the 12th of April 1912 ie. seven years later, Chief Etim Essien Akpa Udo who was still negotiating with the Missionaries visited Nung Ikono Obio from Calabar with Rev. Fr. Joseph Kraft who slept at the District Council Primary School which was a thatched house then. From there, they came to the village to say the first Holy Mass and establish the Catholic Church in the town.

(b) 1ST MASS/SERVICE: This was celebrated on the 13th July 1912 by Rev. Fr. Kraft in the District Council Primary School Hall.

(c) CHURCH BUILDING: After the 1st Mass on the 13th July 1912, the land which the Church is now located was donated by the village. The permanent Church Building was completed in 1954.

(f) ARTICLE FIVE: CHALLENGES OF THE INTER PARISHES COUNCIL: There is no successful story without challenges, ours is not different. Uruan/Essien Itiaba Inter-Parish Council is faced with numerous challenges among these are:

1. Lack of finance to execute the plans and projects of the council.
2. Misinterpretation of the aims and objectives of the Council.
3. Non identification and participation especially by the youths in the activities of this council.
4. Lack of representation by some Stations in the Council.

PROSPECTS OF URUAN-ESSIEN ITIABA PARISHES COUNCIL

1. Establishment of projects in all member Parishes of the Council to generate funds for the up-keep of Parishes.
2. Ability to continue to provide motor vehicles to new Priests of Uruan and Essien Itiaba communities.
3. Providing continuous aids and assistances to indigenous Religious.
4. Giving assistance and support to serving priests and Religious residing in member Parishes of the Council

C O N C L U S I O N

The life and times of the early Missionaries, Teachers and Lay faithful who sojourned with difficulties to establish Catholic Churches in our Communities as well as the Founding Fathers of Uruan/Essien Itiaba Inter-Parishes Council present to us an important lesson and for the present generation particularly at a time like this when there is the growing need for planting the Catholic Faith among our other African cities and towns. One can recall the thrilling narratives of the labours of those early Missionaries from Western Europe across the Atlantic Ocean and arriving at the black continent of Africa. They had to travel from the coast of Onitsha to Calabar through the mangroves and rivers infested with mosquitoes and crocodiles using hand-driven canoes to link up with the present Akwa Ibom State through the shores of Use Uruan as early as 1906. They left the comforts in their land on a crusade to spread the Good News of God's Salvation and Forgiveness to mankind. The labours of our illustrious men and women for the cause of the Faith within our communities has made it mandatory for the present generation of African Christians to read this book which can be subtitled a "Documentary of human achievement for God". This holds a lesson for us in our time as far as Christianity is concerned.

Though the events took place more than a century now, there may be some new revelations after the publication of this book, yet the document is still relevant to contemporary Christians. This Chapter of the Book therefore in its entirety is an update of the history of Stations and Parishes that constitute URUAN/EFIK as also the Catholic stations that make up Uruan/ Essien Itiaba Inter- Parishes Council. It is meant to present to the present generation the labours of our Missionaries and Founding Fathers. As this Chapter is being brought to its logical conclusion, we believe your articulate criticisms and contributions will form part of the 2nd Edition hopefully to be published in the near future even if I am no more. This implies that this Volume should be quickly available in every nook and cranny of our kingdoms. If that happens, then you will not have expended on the book in vain no less sparing your time in reading through the document. especially concerning: **ARCHDIOCESE OF CALABAR – PARISHES AND A HUNDRED YEARS OF CATHOLICISM IN URUAN/ESSIEN ITIABA COMMUNITIES" (1906-2006)**.

CHAPTER IX

URUAN/EFIK NATIONAL CONGRESS & RE-ORGANIZATION TOWARDS BRINGING URUAN/EFIK TOGETHER IN CONGRESS

The proposition of **URUAN/EFIK NATIONAL CONGRESS** now before us is that of recreating ancient **URUAN** whose people originally first settled at **USAHAEDET** a.k.a **EDIK AFAHA** before moving to and founding IBOM, the cradle of the nationalities now in AKWA IBOM STATE. This was the settlement which is now called **AROCHUKWU (INOKON)** and environs in recent BENDE/OHAFIA. This cradle land of URUAN/EFIK ancestors includes **ENIONG KINGDOM** which was the territory before their eventual settlement in **URUAN.** They had settled here for centuries before their later dispersal into the different abodes where they now find themselves, some in what is now **EFIK** kingdom in Cross River and others **URUAN** kingdom in Ibibio country which is now called **AKWA IBOM STATE OF NIGERIA.** It is going to be a convention to which everybody in **URUAN** nation and from all the kingdoms of **EFIK** land is to be recognized as a member thereof. Hence all the delegates from the above designated 12 tribes of **URUAN (OFRI ESSIEN URUAN)** and **AKPAKUP ESSIEN EFIK DUOPEBA** are expected to assemble with a view to restructuring a new chapter of **URUAN/EFIK** descent in the annals of our chequered history. It is going to be a Congress and Rally for a new **URUAN/EFIK NATIONAL DAY** in order to galvanize everybody towards the upliftment, growth, prosperity and progress of **URUAN/EFIK** and our nation **NIGERIA**, nay **AFRICA** and the world at large. Those who must promote this advocacy are of course all the people of **URUAN** descent who want to stand to be counted, ascribed and acknowledged as belonging to **URUAN/EFIK** ancestry which howbeit has been strongly contested in recent times. However, the components are already envisaged in the proposed **URUAN/EFIK UNION CONSTITUTION** Chapter III arts 1-5 and that has a meaning beyond mere social identity as it translates not just into ethnic traits and ancestry but to a people, to humanity and to all who wish to live together in harmony, progress and peace. It would therefore imply that the people of all the nationalities of **URUAN/EFIK** and in the Diaspora viz, the **AKPAKIP ARO**, **URUAN** neighbours and all those living and carrying on profitable, developmental and personal businesses within **URUAN/EFIK** borders as co-travelers and partners in progress first for the enhancement of the individual him/herself, their corporate enterprises and wellbeing as also the progress of **URUAN/EFIK** and our nation Nigeria for a better and greater tomorrow like the **YORUBAS, IGBOS** especially **ABIANS** - specifically the **NGWAS, OHAFIAS AND ABBIRIBAS**, as also the **HAUSAS**, **DELTANS, EDOLITES, GHANAIANS, TOGOLESE, CAMEROUNIANS,** etc. in our midst who must, needs be invited to such a Congregation. It is going to be a sort of inter-faith gathering as happened during the 30-day funereal ceremonies and obsequies of my late paternal grandfather, His Imperial Majesty, Edidem **EKARIKA EKPO** in 1945 and lately the legendary Biafran war-lord the IKEMBA of Nnewi, His Highness Odumegwu Ojukwu. It would also be expected that each group would feel free to come with giant size banners and Congress cakes, the like of Mount Zion for the event. As a prelude to this URUAN in the Diaspora would have had their own Congresses as preparations to this whereby there should be organized rallies with the leaders of the Union as supervises at first at Arochukwu, followed by Abriba and Ohafia. Then would follow similar rallies to galvanize the attendance of all AFAHA towns and Villages in Akwa Ibom at Afaha Offiong, thereafter at Ikot Osurua in Ikot Ekpene LGA for the Afaha groups of villages and the other towns and villages in Annang country. The main Congress and Grand Finale would then take place in CALABAR, the official Headquarters of the UNION. It is expected that after organizing all these Rallies, authentic leaders would emerge to take control of the UNION. This would inevitably leave no room for any upstarts no matter how well educated or endowed and coming from Jupiter whether, the USA, Europe, China or wherever from the big cities in Nigeria would be seen to highjag the UNION and pocket the people. Sequel to these then would be the organization and official inauguration of URUAN NATIONAL UNION with the adoption of

the Constitution at IDU, the Headquarters of URUAN. From the dawn of **URUAN** history, the path of their progress has dawned but now must be inscribed into the conduct and traditions which had made them despite personal ambitions, sectional preferences, politics and small-mindedness to heed the crying need and yearnings for a coming together. It is to be seen as that among those clans, kingdoms and groups of yester years; a people who once were considered the leading group in several aspects of community and social life, education, conduct of life and group administration in the country. It will be as if to say "this is a people who once were assertive of their identity, a people whose outlook had acquired the most respectable profile and honour". It was also the sponsorship of a near cohesiveness of a people whose desire was to acquire the feeling of sameness and a sense of common desire for excellence with the tendency not to be subservient to other groupings. Therefore, it should be the moment many people had been waiting for to usher in the occasion of their greatness ahead. Then coming on the heels of the prospects for the beginning of this unity that was once theirs, **URUAN/EFIK UNITY** and cohesion should emerge with that formidable structure of a people which had once sustained and symbolized the strength and resilience of ancient **URUAN** peoples. It should inexorably lead them to what they had been and stood for. This is probably going to be the first ever **PAN** – **URUAN/EFIK CONGRESS** in history, but I expect that before then we would start the build-up towards it from the bottom up. For instance, we could first begin with all the traditional Rulers Council or Council of Chiefs including mme MBONG IKPA ISONG, who are our fathers. These should obviously come together first and have their own Congress/Rally so as to use their fatherly influence to bring the other groups, kindreds and kingdoms together. If these fathers can come together, then the Elders can be prevailed upon by them to also kick-start and meet for their Congress; and then the elites, professionals, entrepreneurs and big-time business tycoons and money magnets, but still on the impetus and under the guidance of our fathers. Finally, it will be they who will convoke the large crowd for **PAN – URUAN/EFIK NATIONAL CONGRESS**. From there we can start to get all the aliens living among us, the friends of **URUAN/EFIK,** well-wishers and lovers of **URUAN/EFIK NATION** and **NIGERIA** to get together towards building up a new Nigerian nation of love, harmony, peace unity and progress in Africa and the world.

IDU EXAMPLE: A PARADIGM FOR URUAN/EFIK TOWNS & VILLAGES IDU NATIONAL UNION AND CONGRESS DAY

GUIDING PRINCIPLES & BLUE PRINT FOR IDU URUAN IN THE PRESENT DAY 21ST CENTURY

PREAMBLE: Today a new history of Idu is being made – a new chapter in the annals of our chequered history, to wit –this Congress Rally for a new IDU NATIONAL DAY to reassess whatever we have been saying and doing every 26th day of March popularly tagged IDU DAY after the not-to-be forgotten events of the Civil/Nigerian-Biafran War. But this time we want to emphasize the wisdom of the great Philosopher/Scientist, Albert Einstein **(AD 1879-1955)** who said "PROGRESS IS IMPOSSIBLE WITHOUT CHANGE AND CHANGE HAS POWER TO UPLIFT"**.** In other words, we must be willing and ready from this day forward for a Change and Revolution in all our programmes and life patterns for a new Idu/URUAN-EFIK and for its upliftment, growth, prosperity and progress. We must also remind ourselves that change requires planning. "If we fail to plan, then we are planning to fail." To do this sort of planning we need new and consistent IDEAS and IDEAS rule the world. Like all Rulers, our ideas can build in a definite positive way; or it can wreck and ruin everything past and present if we don't know how to plan very well. Our ideas can help, clarify, enlighten and facilitate all our plans and endeavours; though bad Ideas can hurt, annoy, confuse, scatter, delude or even impede and stifle progress. So I hope nobody is coming here with bad and evil ideas which can only destroy Idu/URUAN-EFIK and make her worse than she ever was. We call all these **NDUTIM (Ojei bab ndutim! bab Idu Obot Nkara! bab Uruan! bab uforo! bab eduek! bab nka-iso! o-o-o!)** God requires us to use wisdom, goodwill and determination to project and execute progressive programmes. We need wisdom for good planning and **ndutim** to do well, for if we fail to plan, we plan to fail. Our Elders say: **owo ada ndisime (unana ifiok ye unana ndutim)**

anyam urua, urua anyam enye. Today then the whole of Idu/Uruan Citizenry – both the Ruler and the ruled- we have come out with all our neighbours and friends and Idu sons and daughters to listen to this lesson of the value of those of us whose duty is teach us about the necessity of wisdom to understand and the vision to be able to plan, to reconstruct (i.e. restructure, reposition, & re-organize) a new Idu/Uruan of the 21st Century and so build on the foundation of our fore-fathers who had unanimity, purposefulness and love of planning in order to leave us that enviable heritage of order, good living and character, progress and well-being which we have destroyed and ruined but which today, we have come to revitalize and rebuild. This is because the very first step towards wisdom is the desire for discipline, and how should a man care for discipline without loving it, or love it without heeding its laws, or heed its laws without immortality, or win immortality without drawing near to God. A royal road therefore it is, this desire for wisdom that as you value throne and sceptre, you must hold wisdom in honour. **(Ojei bab ikemesit! ojei bab ima!)**.

> **Wisdom more avails than strength; for a man of prudence, the warrior is no match. Listen then kings and understand: Rulers of remotest lands, take warning; hear this, you who govern great populations, taking pride in your hosts of subject nations! For sovereignty is given to you by the Lord and power by the Most High, who will himself probe your acts and scrutinize your intentions…For wisdom begins with the desire for instruction, anxiety for instruction means loving her, loving her means keeping her laws, attention to her laws guarantees incorruptibility, and incorrupt ibility brings us near to God; the desire for Wisdom thus leads to sovereignty. (Cf. Wis. 6:1-3;17-21)**

CHANGING THE GOAL POSTS AND SOCIETAL VALUES TO ACCOMMODATE MODERN YOUTHS CIVILIZATION

I am saying this because both the old generation and their children, our forebears i.e. only his Highness here himself and Obong Mkparawa of yester-years Chief Justin Okon Udo Eka and all you new generation children will bear me witness that Idu of today is not Idu of the 1960s and beyond ie. Idu/Uruan of the ancient past. Idu of this generation is Idu of planlessness – Idu with no meetings - kindred or family, Idu with no programmes, no project, no vision. It is Idu/URUAN with no incentives or drives, neither hungry nor greedy, nor humiliated enough to exert themselves to do or become something in future and to leave a legacy behind for posterity. This is Idu whose sons and daughters are too addicted to instant self-enjoyment (**Ndia kada a nte nkutde mi, ndiaha ke uf?k owo, nduhe ke idak owo**), with no spirit of higher endeavours and standards, no enthusiasm for exploits and no spirit of sacrifice for tomorrow. Idu/URUAN has become a marginalized society, a kingdom and community of the downtrodden whose people exist as mere statistics; who have no opportunity to actualize themselves, where people are not carried along and where access to quality education and acquisition of knowledge which go with wealth do not fit into the mantra, which is the mantra of progress and development. Where are the societies and cultural outfits of yesterday; **mme Mbre/unek ye mme ido nda-mmana eset**? Where are the co-operative and lending outfits like **Nka ima, Nka Asian, Nka Iberedem, Nka Ikemesit, Nka Uf?n**, etc, by which both men and women assiduously generated wealth and embarked upon progressive enterprises in Agriculture, Fishing, Timber Industry (**Nka Usiak et, Nka uk? Iyak, Nka uwat-inyang,** etc.!) In any case, where are all those age-old past times like **Ekpe, ? b?n, Ti k?rik?, Nnab?**, **Mbre Ek?mbi, Ntimi, Ko koma, Eti e ye Akpan Mbre, Mbre Abang**? Also what about our kindred women Football League Matches, the Ukwa carnivals and other competitions etc? What we see today in Idu/URUAN is a generation held by mutual antagonisms, with a multiplicity of Church denominations engaging in loud and vociferous locutions, economic and non-social alleluia rantings which have brought no development not to talk of Industrialization. That is why most of those past issues and programmes mentioned above seem to be funny to present ears as fairy tales, but they were being practiced here in Idu to create wealth and prosperity in the recent past. Today, except those projects not beyond the level of outright sale of

patrimonial farmlands, estates and heritage, and the building of debased private houses and inadequate educational systems resulting in semi-illiterate denigrates & undisciplined immoral educated adults and Youths-Area boys and girls we do not see anything else from the so-called Nigerian public primary and secondary schools products. The so-called public schools built and maintained by the Government of Nigeria whose Education Ministers and Commissioners do not even know what the public classroom looks like until they come for inspection are simply white elephants with no equipments and materials for proper teaching and learning. The Governors who award contracts for the building and/or refurbishing of such schools in many states including Cross River and Akwa Ibom send their wards to top private schools abroad. Not even any government official from Level 07 who has a direct child (not maids) sends them to the public schools except perhaps to the public "magic schools" where they will score A and B points at the WAEC and NECO examinations because their money will do everything. Or do even the Head teachers, Principals or Inspectors risk having their wards attending the schools of which they are in-charge and/or Proprietors thereof. But these are the schools whose products are a generation attuned to early sex, indecent dressing, incestuous inclinations, examination mal-practices. They are schools producing those who are cheats, harlots, thieves and rogues. They are breeding grounds for armed mid-day rapists and murderers, gangsters, hostage-takers (kidnappers) and cultists of **Ekpo Ny?h?** which were alien to Uruan traditions and the heritage of our fore-fathers. Today we see men, women and children who seem never to have heard of any moral code or traditional ethics, who cannot distinguish between right and wrong. We see those addicted to squandermania and never making savings and productive investments; those claiming to have attained progress and development and deluding themselves just like a child that rubs its belly with water all morning thinking that he or she is taking a bath!!! What a shame to our generation. **(Text Zeph. 14:6-14)** This project is not per se about **IDU** or even **URUAN/EFIK** as a geographical entity or even as a community but about persons – the sons and daughters of **IDU, URUAN/EFIK** and beyond. An Italian politician was once quoted as saying, **'We have created Italy; let us now create the Italian'.** Even if we build sky-scrapers in IDU and erect superstructures with excellent infrastructure: roads, houses, markets, 5-Star hotels and other aspects of human endeavours, without the development of the persons living in IDU, it will amount to nothing. This project is about making the sons and daughters of **IDU**, nay **URUAN/EFIK** into a real calibre of civilized and noble human personalities. Ancient URUAN traditional society excelled in this aspect of building a world class human society where indigenes were taught right from childhood acceptable norms of civilized comportment and conduct. In this setting, elderly persons were the watch dogs of human conduct and extended the training of children beyond their immediate families. Once a child misbehaved, the question that followed was 'who is your father or mother?' Those who asked the question were at great liberty to apprehend the defaulting child and straight away apply appropriate punishment or sanction. Nobody complained because the society operated on a well-established but acceptable ethics and norms. Persons in the society lived pure, just and sanctimonious lives even as their intentions were noble and altruistic; contentment, patience and appreciation were the great attributes of ethical living. But today those great virtues have been thrown aboard and ignoble vices have taken over and are taken as virtues, among the greatest of them are hypocrisy, graft and greed. This is about people having many faces as circumstances change. It is about saying one thing and meaning another. As the tide blows in different directions those praised to high heavens as heroes soon become villains and vice versa. In the business or even political front partners and party members desert one another claiming one reason or another and worst of all begin to fraternize with the devil. In the family, hitherto close partners begin to disintegrate; either the husband is abandoning the wife feigning all sorts of obscene reasons and marrying a new one befitting his over bloated new status or the wife suddenly realizes she married a dullard or a dumb and clear reasoning becomes a casualty replaced by unreasonable excuses. This is the situation in which we find **IDU**, nay **URUAN/EFIK** today. So many issues have been raised already both in the Introduction, Preface and Foreword of this book as also the customs and traditions to be followed in Chapters III and X following. They are not worth repeating here. A word is sufficient for the wise.

CHAPTER X

URUAN/EFIK NATIONAL CONGRESS WITH IDU AS PARADIGM A TEN-POINT AGENDA & BLUE-PRINT TO MOVE IDU FORWARD 1. AIMS AND OBJECTIVES TOWARDS A NEW DIRECTION

Now, Idu/URUAN/EFIK citizens both as individuals and as a nation need to GO FORWARD, that is what God often told Moses and the prophets and kings of Israel. "Move on – move forward to the land I shall give you, a land flowing with milk and honey"; and that was Idu of Old. But for us to move forward there must be vision, faith, knowledge, perseverance, focus and a "we can do it" mind-set. In order to move on, we must possess the attributes of obedience, aggressive pursuit of purpose, hard work, determination, ability to pray, and holiness of life and intentions. From what we know of God Almighty, the moment He says, "Go" He also makes the provision needed for such a movement, because His presence, blessings and glory will be part and parcel of that package. He will take the responsibility to see us through, step by step, because "Go forward" or "Move on" is a defined action - word of God Almighty. It is a divine instruction and tolerates no other choice. It is a must to Idu and URUAN/EFIK from this day to "Go Forward" because as our Ancients say: **"K'ini mm? oro ekekade, nnyin ikitie ke uf?k itim idem, man nnyin ikpebe ika iso." (Ojei Bab Nka iso, emenyime!)** Here we shall pause and listen to God's divine command to Israel to go forward: **(Exd.33:12-17, 34: 10-14).** These are the tested principles we shall employ here for the new Idu and ŪRUAN/EFIK, for development, progress and prosperity. Secondly, like Moses of old leading the children of Israel, all Idu and URUAN/EFIK national Rulers, chiefs, leaders of thought, must from this day be prepared, willing and ready to showcase visionary leadership and in their performances try to move the nation forward and bring joy and hope to Idu and URUAN/EFIK children and generations yet unborn. They must endorse and join hands to promote, articulate and produce a workable master-plan and road-map for achieving the set goals proffered. Why? Because by now Idu and everybody in URUAN/EFIK who accepts these lofty ideas should know that our character and aims are for operational excellence and perfection and for performances with outstanding results as our focus. We have to do these things naturally and committedly not by force or persuasion but by conviction given the knowledge base so as to bring about hard work, honesty of purpose, forthrightness as a decisive way of pursuing what is good and noble (Phil. 4:8). Attaining such heights in all these means focusing our vision and articulating what needs to be done to move forward. That vision and desire must carry everybody along so that Idu and URUAN/EFIK can never look backwards when they are moving, like the River. They must never again be any of those old and primitive ways since we require massive innovation to make our results a dramatic, successful and also an outstanding world class one. We must be a "Forward Ever, Backward never" nation. To this end, this Congress shall articulate and promote sustainable developmental programmes and goals:

A. SOUND EDUCATION AND INFRASTRUCTURE: This is to be done by restructuring our educational institutions both primary and secondary to meet the status of Idu and putting in place suitable and imposing infrastructure befitting of Idu. We cannot just keep on putting up ramshackle structures for our Nursery/Primary and Secondary schools which are so demeaning, ridiculous and disdainful to the eyes of the public knowing that a good and imposing environment attracts and is conducive to teaching and learning. We must consciously search and tap exceptional talents for scholarship awards and incentives in order to produce the caliber of persons such as are needed ie. well educated sons and daughters for Idu and URUAN/EFIK in those specific fields of learning and manpower needs such as

lawyers, medical practitioners, doctors, engineers, architects, bankers, industrialists/ entrepreneurs and people for other important sectors. Our sons and daughters and other stake-holders must come and invest in building these structures for themselves and posterity. As every village and town should become a growing urban city and development city state (which every URUAN/EFIK village/town must aim at) we cannot waste our resources in the country side because people prefer to come to towns and cities to stay and do business.

B. BASIC HEALTH CARE DELIVERY AND HOSPITAL CENTRES
We need to put up and maintain a functional health centre both for out-patients and in-patients with wards in traditional and scientific medicines. Idu is ripe enough for at least a cottage or community hospital. This should also apply to all towns and villages in URUAN/EFIK.

C. AGRICULTURE WITH BOTH TRADITIONAL & MECHANIZED FARMING: All Idu and URUAN/EFIK people should wake up for massive food production. Idu as well as URUAN/EFIK have always been a land of plenty in organized community and kindred agriculture. But what have we now? A generation of lazy, lousy and unproductive rascals even among women folks! It is not possible to continue like this with our old systems of shifting cultivation especially as most of our fore-fathers' lands have already been taken by government and unbridled children who embark on whole-sale selling of patrimonial land holdings. We have to dedicate three sectors of our farmlands **(EKPENE)** as absolute secured farmlands and be ready to put these on intensive and extensive maximum cultivation in mechanized agriculture and animal husbandry eg. Cassava and Maize plantations.

D. HOUSING ESTATE AND COMMUNITY ROADS: We must make a definite housing scheme by building through co-operative and mortgage loan ventures storeyed buildings – to let, as a basic way of creating wealth as well, because public and business storeyed houses are to be preferred from now on. It is also to be seen as a must in order to conserve land for our children's children and generations yet unborn. A well-defined section of Idu (as also every town) should be set aside for this and every effort made to make the project succeed. This will also require constructing access road networks and streets as part of the enterprise. This is a project whereby outsiders can be invited as stake-holders and partners in progress with definite programmes for clientele.

E. INDUSTRIAL ESTABLISHMENTS: Sustainable industrial growth and wealth generation must be part of the programmes and blue-prints of this Congress. A trust fund must be established for this and should be the main focus of co-operative Unions and societies as well as corporate bodies, hence the need for "endowment levies" **per capita** and for all categories of all Idu/URUAN-EFIK citizens, corporate bodies, individuals and residents.

F. PROJECTS FOR SELF AND SUSTAINABLE EMPLOYMENT/INFRASTRUCTURE AND BASIC SERVICES: This should include (1) Civic Centers (2) Auditorium with Chapel (3) Pavilion/ Gallery (4) Cafeteria and Snacks shops (5) Ultra-modern Library (6) Palace for Village/Town Heads (7) Beach Markets (8) 3-Star Hotels & Duplexes and Arena or Village/Town Square as used to obtain all over URUAN/EFIK Towns and villages in the past. Nowadays every single space is being occupied with no plan for open spaces for children's play grounds and, market squares and A wa Mbre Obio. All these may seem outlandish and ambitious and may appear to some as out of tune with the present reality or even utopian. But we should remember that to maintain progress we require vision and motivation always to go forward and move on with unmistakable and unmitigated doggedness of "ever forward and backward never" matching on like onward soldiers on the match. Only dissenters will always fail – 'but Rome was

not build in a day,' yet gradually with God's direction and assistance a journey of 1000 miles has to start with the first mileage and within 5 – 10 years Idu/URUAN-EFIK will never be the same again. **(Ojei-ojei bab ndutum – bab ikemesit – bab uforo, o-o-o!)**

2. SOUND EDUCATIONAL INPUTS

"Education is the most powerful weapon which we must use for change". (Cf. Nelson Mandela, Address to South African;1994) It was the United Nations that promulgated the International Literacy day, for the 8th of September every year precisely to raise people's awareness and concern for literacy across the world. We know what Education means and can do to and for a people such as **IDU/URUAN-EFIK.** Education simply means the act of imparting and acquiring knowledge through teaching and learning, especially in schools and other similar institutions. The quality of education of any society or community like **URUAN/EFIK** can determine the economic, social, spiritual, political and the overall development and success of that community for it is Education that can promote development. If the education sector is fumbling and wobbling as is the case in **URUAN/EFIK,** no amount of policies and visions can guarantee its effort of meeting the social, moral, political, technological and infrastructural needs of its citizenry. Education as envisaged here should be of the highest quality and this implies the acquisition of skills and tools of communication and knowledge, which should be the quest of every **IDU/URUAN** citizen for sustainable self-development. Such education is destined to produce leaders who are to be the repository of knowledge to enable them know many things such that whatever they choose not to know must be manifestly useless or unimportant to **URUAN/EFIK.** Such state craft must have as its objective the development of and civilization of the citizens. Today only a few people in the nation have been able to make any headway in her search for sound education for her citizens and the reason is not too far to seek. The history of public education reform in Nigeria has adversely affected **URUAN/EFIK** because it has always been a process of tinkering towards utopia and nothing good can come from such a policy especially when we think we know better than what obtained in the colonial era or the period immediately following it in terms of education policies. Today our public schools can be comparatively compared to prisons. That is what anyone who has been to Nigerian public schools nowadays has felt; just too bad! This problem goes deeper than just the lack of buildings, pieces of equipment or even personnel, e.g. nowadays the minimum qualification for primary school teachers is the National Teachers' Certificate in Education, whereas before the 1970s it was the Teachers' Grade III and those with it performed marvelously well. The problem now involves quality; quality of teachers, quality of instruction, quality of curricula, quality of those to be taught, quality of output, quality of standards, commitment to duty and above all transparency with corresponding responsibility. There is also the problem of corruption within the entire strata and system. Whatever structure or resources provided should be able to meet the needs of future generations such that every school whether primary, secondary or even tertiary or in between, should be a place where people go in there to get empowerment, knowledge-wise, intellectually and morally in terms of skills to make their own contributions towards the advancement of **URUAN/EFIK** and the nation. This is the ideal structure and standard which will make learning possible and beneficial to all manner of people in the learning and teaching process, and this can make both students and teachers appreciate the essence of education. This also should be the aim and passion to reclaim the good old days of education in the country at large. Education can improve and raise people out of poverty, improve their living conditions, increase economic growth, increase civic awareness, responsibility and engagement, improve health, hygiene and health habits, prevent ill-health through information, enhance as well as improve cultural tolerance and cohesion. Education can do wonders for self-esteem, empowerment and so much more. It therefore means that Education and literacy can be veritable instruments to people's achievements of a range of capabilities concerning e.g. maintenance of good health and living longer, learning and reading for knowledge throughout life,

controlling reproductive behavior in family sexual acts, raising healthy children, and educating them to higher standards and wellbeing for a greater tomorrow. Literacy is therefore a fundamental human right and a necessity; it is the foundation for lifelong learning and eminently essential to social and human development in its ability to transform lives. **IDU/URUAN** needs to prepare our young including adults who failed to have education in their prime and to arm them with tools to become productive citizens. Out of the crop of the so-called educated elite in **IDU/URUAN**, where are those eminent architects, scientists, lawyers, engineers, bankers, industrialists, entrepreneurs, doctors, surgeons, nurses etc? That is why we are appealing to **IDU URUAN** sons and daughters and other stake-holders to come out and invest in this literacy campaign for them and for posterity. As a growing community towards urbanization we cannot waste our resources otherwise our children would be opting to go out to other towns and cities for non-existing jobs. This is my view for **URUAN/EFIK-ESSIEN DUOPEBA** towards our development as a nation state in Africa.

3.NEW DIRECTIONS AND CONSTITUTIONAL

REPOSITIONING OF IDU FOR A GREATER TOMORROW

As stated already in the preamble, the thrust of this Congress today is that 21st century Idu must be restructured, developed and highlighted for socio-economic and religious developmental aspirations towards the implementation of an effective order and for the process of creating wealth, generating self-employment and the re-orientation of Idu traditional values with well-coordinated strategies, plans and targets to achieve these ends. We must aim at establishing such ventures that will enable us invest and manage our socio-economic development in all its ramifications. This will be done through Co-operatives as a joint economic development (JED) framework so as to attract government support in the actualization of our social, economic, religious, political and educational advancement for the benefit of Idu citizens and beyond.

4. UNDERSTANDING THE PAST FOR A GREATER/BETTER TOMORROW

One of the greatest banes of progress is ignorance of the past. "A generation that forgets its past will never know its future" It is incumbent on every Idu son and daughter to trace back their History. We must know Uruan history, heritage and background through the ethnological ancestry. Idu destiny is not a matter of chance it is a matter of our collective choice. It is not something to be waited for; we have waited and agonized and nothing has happened nor will it ever happen because we have waited in vain. But rather Idu destiny as an urgent reality must set up something to be desired and striven for and we will achieve it if we know our roots. Every true son and daughter of Idu Uruan must go home with his/her cultural history and family tree to study and know Uruan History today.

5. RE-ORGANIZATIION OF IDU TOWN INTO MODERN STRUCTURE/AUTONOMOUS DEVELOPMENT VILLAGES

As already designated in Chapter VII above, with the understanding that our forebears had always recognized Idu as an entity but comprising of autonomous kindreds and communities and since these have grown and multiplied in their generations, Idu cannot in the present age still be regarded as only a single village but as a town of federated villages. [See Re-organization of villages above in Chapter VII].

The administration of Idu Town must now be organized according to their proper re-positioning in line with these autonomous federating villages with all their symbols, logos, insignias of village administrative structures and Authority. With the approbation of and ratifications by His Highness and

Chiefs in Council, the following administrative Heads: **N…Etubom…& and N…Chief Mrs./Lady…** have been appointed w.e.f today as Traditional Rulers, Village Heads and Women Leaders with all authority, jurisdictions and privileges appertaining and have been hereby empowered to take full control and administration of their Villages in accordance with the provisions of the law and Nigerian Statutes on Village Council Administration. Those installed today are expected to appoint / elect and form their own Councils of Kindred / Ward Heads, Etuboms & Chiefs and submit same to the Town Heads and Idu Administrative Council for ratification, recognition and accreditation. To this end and from today, all confusions about Ekang/Obiodo designations, demarcations and nomenclatures have come to end and cease to exist. Anyone who makes reference to these syllables of confusion and division in Idu let him be accursed since a house divided against itself can never stand but is doomed to fail. Idu will now be known by their designated and traditional names, viz Ikot Enam, Ikot Ekang etc with of course Obiodo Village as an autonomous entity demarcated by the Obiodo Assembly Council Hall '**koro ntak efre ntak ?t?h?**'. We must always allow issues to stand; otherwise the matter will be lost to posterity and forgotten.

6. ECONOMIC, SOCIAL, POLITICAL ANDFINANCIAL EMPOWERMENT STRATEGY FOR IDU VILLAGES

No village or town can call itself an autonomous entity without a concrete and sustainable economic base and strategy to create wealth and empower its people. To this end, a Development Authority (Town Planning Council) has been set up both for the entire Idu Town and for the federating autonomous villages both within the town headquarters and the riverian villages now in vogue. This is a destiny Idu must pursue because according to the Scottish American philosopher economist, Andrew Carnegie, the duty of wealth creation is to set an example of modest, unostentatious living standards of enterprise among the people, shunning the display of extravagance and providing adequately for the legitimate wants of those members of the community and their dependents in a manner best calculated to produce the most beneficial results for individual members in the community. With the federal government organ of the National Poverty Eradication Programme (NAPEP) in place, Idu development authority (IDA) has to rise to the challenge and seek out ways and avenues of attracting the attention of the **URUAN LGAs** and **A/K** State Agencies of the establishment with a view to setting up and coordinating these programmes in Idu Villages. For Idu, at least 5 key areas should be identified and implemented. In each case, allotment is to be made to a beneficiary following the general principles of the programmes, which by lot must fall into each of the villages for sustainable development and economic progress in Idu as a whole.

A. Fishing projects and the reorganization of Idu Beach Markets/ Towns: viz Esuk Idu, Esuk Ikot Etuong, Esuk Ada Ita, Esuk Edik Ikpa, Ufak Effiong, Esuk Urua Anakpa and Riverian transportations

.

B. Agriculture: Both intensive and extensive farming with a demarcation of at least three farming areas **(EKPENE IKOT)** since it is no longer reasonable to farm with the old-age shifting cultivation programmes on account of land exploitations and acquisitions by government and other factors impinging on farm lands. The new cassava Industry should be our main thrust and land allotted for this specifically.

C. Co-operative/ trading Merchandise: In building materials, beach sand, timber, crushed rocks and people ferrying by watercraft and land. (also cargo trains when these will be possible, God willing)

D. Foods and Beach Marketing: In fish, garri, yams, beans, rice from Northern Cross River, Ibuno, Efiat, Ikang, and environs with the mobilization of other Uruan Beaches of Ikpa, Adadia, Oron, Eket, etc.

E. Housing Scheme and Industrial Enterprises Supermarkets/Transports Sectors: These projects are capital intensive requiring substantial financial outlays from entrepreneurs, investors and clientele who are both Idu Sons and daughters in Diaspora as well as resident Uruan citizens, Esop Iberedem Ndit? Uruan, Lagos Union, Calabar Union etc., and industrialists who genuinely are well connected, trustworthy and hungry to invest in sustainable ventures in developing towns and cities such as Idu.

7. CIVIL AND ECONOMIC REPOSITIONING/RE-ORGANIZATION

In order to obtain maximum utilization of Resources, Idu Town (with the highest land holdings and forests of over 1000 sq. km (one of the largest in all CRS & AKS – land and water) has today been re-organized and repositioned into the following Zones and Wards: This civil structure will empower Idu citizens and all Uruan people and neighbours occupying these territories & towns to meet the Millennium Development Goals for sustainable development ventures, projections, economic growth and residual power base each with her development, Authority and Officials of Administration, including their insignia, regalia and Staff of Authority/Office

IDU NORTH: Comprising all the geographical areas along Nsukara axis to the West i.e. all of Ikot Enam, Ekim, Obiodo and Ikot Ewok etc. Villages stretching to Eman Ikot Ebo with available land both as residential and FARM LAND designated: EKPENE No. ONE" with another portion designated as G.R.A. with this and as in other territories, there will be no more sales or exploitation of land in Idu henceforth except with due authorization and certificate from the Directorate of Idu Town planning which has been set up for Idu as the only Authority on land matters. By this, all wanton sales and appropriation of land must cease to keep Idu Land holdings for sustainable development and acquisition for generations yet unborn. No Idu citizen should become an alien or refugee in Idu/URUAN because of selfish sales and transfer of patrimonial lands and holdings by this generation of insatiable and unbridled Idu citizens.

IDU WEST: Comprising Ikot-Ekang, Usu Etoi villages etc. and the geographical areas and communities along LGA/ Mbak Etoi Road to the West and adjacent **Obot Idim Inwa , Afa Abad** bordering on Ikot Osurua territory etc. with designated farmlands for sustainable Agricultural projects as **EKPENE No. 2.**

IDU CENTRAL: Comprising all of Ikot Osurua village covering Usu Idim Inwa , Nting, Adaita and Ikot Ntiaidem Villages etc. communities extending to and including NEPA LINE and Main Road (Idu – Ifiayong) to LGA Annex up to Adaita, ? w?k Eb?k stretching to Okong/Anakpa axis with sustainable farmlands for Agricultural projects as **EKPENE No. 3.**

IDU EAST: Comprising of **DEMOCRACY LAY-OUT,** (Mobil, Usu Ifiayong/Nwaniba, A wa Mbakara, Amadung, Esuk Ikot Etuong (Efak Anyanya) geographical areas designated **BEACH TOWN:** for sustainable Housing Estates, Industrial lay-out, **Residential areas and streets** structures. This peculiar sector and terrain must be reclaimed with zest and effort geared towards building it up as available **Residential highbrow town** to attract investors and stake holders for development and creation of wealth in those enterprises of competitive progressive endeavours of excellence as in yester-years, both with a Railway terminal and Beach port – **MARINA –** for sustainable residential enterprises. There are still Idu residents of Ekpo Essiet ancestry with land holdings and other lands like Jerusalem of the post-exilic Babylonian captivity era. The task of repopulating this Zone is a task that must be accomplished for Timber markets, fish, yam, rice & beans markets and swimming Beaches. **(Ezra 24:1-5/ Neh.11:1-3, Ex. 10:7-12)**.

IDU SOUTH-IBONDA IDU: Comprising the riverian sectors of Edik Ikpa, Ufak Effiong and Urua Anakpa up to Akwa Akpa Uruan villages and towns bordering Northern Uruan up to Akpa Mfri-ukim/Isong Inyang communities and Ikot Offiong Riverine town up to the borders of Ikon Eto, Mbiabo Ikot Offiong & Creek Town in Odukpani CRS. It is worthy of note that already Idu has taken cognizance of this territory and has appointed **protem** warrant Chiefs/Elders and civil Administrators for the area. Those associated with the Equatorial forests and sea experts in Idu should mobilize others in Uruan and its environs viz: Okobo, Oron, Ibeno and Eket neighbours to embark on sustainable maritime ventures in order to bring back the age-old "UWAT-INYANG" ENTERPRISE AND ECONOMIC BOOM OF YESTER-YEARS. Two areas of growth and progress are envisaged in this analysis: Therefore, back to land in Agriculture and to Industrial and Housing Enterprises.

8. MEANS AND ENDS FOR ATTAINING THESE OBJECTIVES

What is the employment of our **Local Economic Empowerment Development Strategy (LEEDS)** for? As a pilot scheme, this conception should bring about the key factors that will affect Idu and URUAN/EFIK sons and daughters to acquire wealth and benefits from these enterprises. The scheme also should be directed to focus on creating opportunities in terms of availability of resources for job creation and expansion of commercial, industrial and agricultural ventures in addition to the provision of sustainable and effective infrastructural facilities and utilities for all Idu children. Both individuals and groups/associations must aim at reactivating and forming co-operatives. Young Farmers Clubs, Osusu Fraternities, Entrepreneurial and Banking Securities etc. are to be organized to attract both Government Aid as well as stake holders for action and assistance. The Directorate of NAPEP in the State through Uruan L.G.A Co-coordinator should think it fit to obtain soft loans of at least N5m-N10m each for the persons/groups in the afore-mentioned units in Idu for a systematic and calculated take-off of the programmes as a matter of grave urgency. There has been so much lethargy for long from Uruan LGA Administration regarding Idu as the HQ and Centre of Excellence in Uruan even to the point of exasperation and taxing of Idu patience. But beneficiaries must know that any such loan in a matter of business can attract downright **Deposit up-front** before taking them serious and they should be prepared for it: "**Oyom akwa kp?-?k? ?. mba ena** " - and such loans should not attract more than 5% - 8% Interest to cover administrative expenses and the capital payable in 5 years with one year of moratorium and no collaterals should be attached to the security except of course the guarantor's signature/surety. But this is easier said than done. All developmental efforts in Idu/URUAN in recent years have met with deterioration and retrogression on account of increasing level of poverty and crime, lawlessness, laziness and decreasing standard in education and youth delinquency. We must revive our adult education up to university level no matter how old in years Idu people think they are as many Idu citizens do not have access to basic education. The Education Commission should set up a machinery to work out details of the programme to stamp out illiteracy in Idu starting with organizing comprehensive education centres at St. Andrew's/ RCM centres for men and women with a compulsory agenda for all to register and begin classes

9. SOCIO-POLITICAL EMANCIPATION, GOVERNANCE AND EMPOWERMENT

When we look back at the political and social structure in Idu/URUAN of yester-years our heart bleats over the complete absence and dearth in political will & social life and practices of Idu/URUAN/EFIK citizens young and old. Men and women just continue to live as sheep and goats. Nobody has any political fire, drive and action; There are no social manifestations at any season of the year in the rank and file of an average Idu child or adult. Everybody seems to be alive and dead at the same time like what the holy prophet Zechariah described about the people of Israel. There are no big time politicians, educationists, lawyers, medical and

Para-medical officers, money and business barons etc. of note whether as players or actors - no games, no past times, no cultic and traditional societies like **Ekpe**, ancient **Ekpo Ny?h?** and **Ek? kemba** organizations all of which today are moribund and must be re-activated in the life of Idu for future generations. But Ekpo and other masquerades should only be played in Idu as Carnival and festival entertainments at National or Christian Celebrations vi. Independence /Democracy Day, Christmas, Easter etc. except when they can be used to enforce the rule of law and order. Yes, we must go back and resuscitate our age-old games and past-times as well as political structures and activities whether as joiners or as players or as king-makers and leaders in contesting and winning elections in viable/governmental political parties at the State and at the National levels. Games and socio-cultural outfits like Ekpe, Obon, Ukwa, Regatta, Obio-?kp?, Mbre Eko , Mbre Ekpri Akata, Mbre Abang, Ekombi, Ko koma, Ase and Carnivals for sustainable past times and recreations etc. must be revived and re-organized as URUAN/EFIK authentic patterns for sustainable healthy and physical growth of Idu citizens and not like those of pagan cults and practices. Idu must go back to a robust Agenda of our age-old growth and practices as well as political activities altogether as joiners and players or as king-makers and power brokers.

To do all these, responsible men and women including mature intelligent youths of integrity who can understand capacity building for the development of a nation so long out of touch with progress and modernity must be elected or appointed to important key decision duty posts and offices. Talking about the imperatives of integrity in governance and administration of public goods and services, I mean activities and behaviours in the ways and means these men, women and youths as public officials and agencies both in themselves and in the eyes of Idu, nay all **URUAN/EFIK** peoples must carry out their day to day duties of state and in their various assignments and destinations. Integrity also implies what these people must acquire in the exercise of the power/mandate and authority in the provision of goods and services to Idu public. Governance in our context here should be the process through which Idu society and indeed all our communities and kingdoms can be so managed by these so-to-speak representatives of the people through their policy decisions and implementations for the overall good of all the people concerned. A situation where people have to be "appreciated first and or their palms greased" before they do anything is not governance or carrying out responsibilities with due integrity. Sometimes it may not be these very officials and representatives of the people themselves but their pay-roll agents whom they certainly know are doing these dubious and wicked things, but they just look the other way and allow area boys and girls - mostly aliens and children of slaves, thugs and their political jobbers and agents who play foul to do their dirty/business for their eventful "winning" of elections. But they always excuse themselves saying it is their "Ogas and Madams" that send them, or that they are making revenue for the "Government", but which government, one may ask? It is this dirty and foul play in governance that stands integrity on the head. These loafers go about terrorizing and harassing people all over the place. They are fraudsters who maim, rape and commit all sorts of aberrations under the guise of working for "Government" especially the third tier governments known in Nigeria as Local Government Authorities/Areas. One just needs to spend a few minutes on our public roads watching these dare devil touts and young men and girls of the underworld who in their high-handedness carry on this dastardly, ignoble and dishnourable business for "Government". They take tolls, high-jack vehicles, dash into people's homes, beat up people, ransack houses and carry away household good like radios, Tvs, wall clocks, sewing machines etc. as mortgages for failure to pay the so-called tenement rates. They rape women in broad daylight, snatch their hand bags, assault and surcharge motorists, defraud people collecting all sorts of dues in exchange for God knows what sort of "receipts and papers". They drag people about and commit all sorts of brigandage and atrocities under the pretext of taking their victims to the Council Headquarters if they do not play ball. What sort of Local Government Chairmen, Mayors, and Councilors etc. are we breeding in Nigeria today?

Governance should be practised with integrity for the promotion of economic, political and administrative authority in order to manage the affairs of **URUAN/EFIK** and by implication IDU through the administrative prowess and technical know-how of Council Chairman and Councilors at all levels because these are

institutions set up by policy and the Constitutions whereby the exercise of economic and socio-political power can be carried out. There are organizational rules, formal/informal laws, routines and regulations that go to shape and fire the incentives of these public policy makers, overseers and public service providers. But do we find them in the carryings-on of the so-called government authorities? If not now, then when are they going to do it for the benefit of the rank and file of the people? People including even the so-called "civil servants" just stay wherever they are gallivanting and minding their own business. They could not just care a damn! All they do is go to the Council Headquarters at month-ends to collect and share their allowances and salaries with nothing to show as having carried out their constitutional duties of state. Most of these Council premises are eye-sores with mountains of garbage and pot holes dotting the entire land scape. People just wade through day after day and month after month pulling up their trousers and skirts not minding the stench! More often than not the premises apart from being so littered are camps for fraudsters, sheep and goats because the officials including cleaners and messengers are not simply there except at weekends when they either go for their **Isi-ewu** or **Uka ekporoko** to "wash down" with all sorts of canned drinks. But this is the type of governance we see despite the often mouthed mantra of millennium developments goals (MDGs) and Transformation Agenda. Therefore, through this project both in IDU as also the kingdoms, nay all over Nigeria, we want that these government institutions and processes are operated upon by qualified, trusted and tested men and women of expected integrity. We also urge that they make bold to drive the institutions, processes and policies of government in such a way that these governmental institutions viz. the LGAs, security outfits, village criers etc. including **Ekpe, Ekpo Ny?h?, Ek? kemba, Iban Is? , Mme nsio-nsio ka ke Obio**, are afforded ample opportunities in goods and services so that all citizens and groups can articulate their interests, exercise their legal rights as well as meet their day to day obligations whether as parents, teachers, farmers, carpenters in the mediation of their different positions and callings in life. It just happens that people do not see neither can they find anything to made them feel any impact of the so-called **government of the people by the people and for the people** anywhere in IDU and **URUAN/EFIK** as a whole. For our leaders to be effective in governance with integrity, they must exercise some influence since absence of influence implies absence of integrity as well; and certainly, this absence of integrity in governance inevitably leads to the loss of faith and lack of trust both in individuals, the officials themselves, in management as well as the very institutions such as industries, infrastructure, etc. IDU people have certainly lost faith in whatever you call it – Council Heads and Councilors, health providers, boards and parastatals etc. They have lost faith in Village Heads, Ward Heads, Etuboms, Clan Heads, government functionaries and officials of whatever coloration, in short all institutions - Banks, Health centres, Post offices, markets, electricity services; because they do not exist, and if they do, Idu people do derive any benefit from them except hardship, impositions and harassments. They need men and women imbued with integrity who are the building blocks of trust. We need men and women including youths of candour, consistency, reliability, competence and those who are ready and willing to do the right things. The 21st century IDU needs those people appointed or elected to places and positions of honour with steadfast adherence to strict moral and ethical norms who with fairness put the interest of these organizations whether civil or cultural above their own petty reputations and needs using their power and authority appropriately and always acting in the way that withstands the harshest scrutiny and reproach. They should above all be men and women with intelligence, energy and honour with such strength of character and steadfastness that will make them resolute, efficient, authentic and straight-forward in all their dealings and undertakings for and with the people they govern are working for. Above all, let them avoid corruption as a plague. Regarding individuals whether as their subordinates, collaborators or cronies as mentioned above or whether as Area boys/girls or Messengers, these elected /appointed men and women must refrain from looking the other way when such fellows commit all sorts of atrocities and high-handedness including defrauding the Government and regarding this as "compensation and payback business". All these thrive under their very noses but they say and do nothing about it simply because they think by so doing they can safeguard their integrity and honour. Which honour or integrity except they are playing fools otherwise it would have seemed a greater

honour to see evil trounced and uprooted so that good may triumph and …..including themselves. For this world is always a very dangerous place, not because of those who perpetuate evil but because of those who look on or even look the other way and do nothing **(Cf. Albert Einstein (AD 1879-1955)**. We see youths being groomed as thugs and they end up as armed robbers, kidnappers, militants and lay-abouts. Young girls are groomed for transactional sex and they become completely damaged and unable to make connection between normal relationships leading to meaningful marriage and exploitative relationships. Both the people and Government should always make sure they have a close look at those individuals who claim to have integrity before appointing or electing them to serve their people and in this case IDU.

10. IDU MUST RETURN TO GOD AND THE ONE TRUE CHURCH

After considering the proper factors for the generation of the new **IDU** & **URUAN/EFIK**, the question in everybody's lips should be what is the way forward? There is only one answer to this: All men and women, adult and child today, this very day must return to God- to the pristine Religion & Church of our ancestors because many of our generation have lost faith and apostatized bringing into Idu so many churches and religious practices unknown to our forefathers. We must like the Israelites of old under Joshua return to the Lord our God in spirit and in truth under **ONE CHURCH** and one fellowship and say with the people of Israel "the Lord our God we will serve and His voice we will obey" **(Joshua 24:24).** This is a new IDEA in the present generation and politics of freedom of worship but this is also a new era and foundation of the new Idu Policy-**GOING FORWARD,** never looking back and this is a TKO to win - no kid gloves- **IT IS AN ALL OR NOTHING,** hence all IDU citizens must be ready and willing to accept and embrace the new **IDEA,** because at the end of the day nobody, nothing **can stop an IDEA whose time has finally come (Cf. Victor Hugo, 1802 - 1885).** When God's time has come it has come, and we are only instruments in His might hands! Today is that TIME. IDU must return to God under one banner, under one sheepfold, under one Church and under one S**hepherd and Lord Jesus Christ** who founded only one Church when He said **"Thou art Peter (the rock) and upon this rock I WILL BUILD MY CHURCH" not churches, because the Lord Jesus had emphasized: "And I have other sheep, that are not of this fold; I must bring them also. So there shall be one flock, one Shepherd" (Jn. 10:15-16;)** The only church that Idu ever knew in this world was **CATHOLIC** which was erected in Ikot Ekang Village which still stands there as a rock till today and will remain so for all generations as the mother Church. The other Church Missionary Societies – CMS (Anglican Church) which is now, under the banner of African Church Mission came to Idu under a revolt and controversy as we well know, and was installed in Nting-Ikot Enam Land. The premier secessionist church from hence forth ceases to exist and will convert to pristine Church as the new Pro-Cathedral Church of Idu as from today in Jesus most holy name! All hands must be on deck to give it a new face- lift befitting its status as a Cathedral. To this end, a special board and central planning Commission is to be set up mandated and empowered to raise funds/Levies/duties. Appeals from Idu citizens- adults and children, aliens and neighbors, stake holders and entrepreneurs, friends etc. all men and women of good will from far and near, at home and abroad; (of not less than N100 per head even to millions according to means and the love of God). All must come to the redemption of this Church and Cathedral named after the first disciple and Apostle of our Lord Jesus Christ, **ST. ANDREW** yes-o **ST. ANDREW'S PRO CATHEDRAL** and must be made number **ONE CHURCH** in architectural design, magnificence and splendor **TO GOD BE THE GLORY! (Ojei bap Edisana Uf?k Abasi ofri ekondo! Bab ndit? Abasi, bab ima Abasi o-o-o!)**. The other churches will revert to the Town council administration from today either as public utility, school or recreation centres, super market, Town hall etc., except the **APOSTOLIC FAITH CHURCH** which will convert to **Catholic Church no.3.** The Idu developmental Council shall arrange and put to proper use with refurbishing. All the mushroom churches scattered far and wide in Idu with the privileges appertaining while due process in compensations shall be made to all affected beneficiaries after fulfilling all legal provisions of the National Act of Incorporation and Due process of the corporate Affairs Commission of the Federal Republic of Nigeria. No body and more so, no citizen of Idu

should presume to be greater than Idu and URUAN/EFIK nation which owns and bears him/her. Anybody can and is free to worship whatever he/she likes and whatever, but not in Idu land and territory which owns us. **(Ojei Bab Idu Obot Nkara! Bab Eka nnyin isong! Bab uforo! Bab nkop item! Bab ukpono! Bab odudu! o-o-o)**

This congress today is all about designing the most appropriate and relevant mechanism to open new boundaries and opportunities of evolving a new Political, Educational, Economic, Social and Religious Order and processes of advancement in Idu. It is not about **rebellion, opposition or arguments** but about a **New Idu today and tomorrow** from generation to generation because **"a family & people that prays together stays together for peace, brotherhood, progress and wellbeing".** Christ Jesus came and died for us that we may have life and have it abundantly (Jn. 10:10). Once again this **IDEA AND OPTION** for today and posterity is not one of **DISSENT nor a NEW DEBATE and CONFRONTATION WITH IDU OUR MOTHER,** but one of **COMPLIANCE AND OBEDIENCE** whereas St. Paul had warned the Ephesians in 2: 1- 4 for the blessings promised to the children of Israel because they were ready to keep faith **(Deut. 28:1-12)** "And today then I promise you – ALL IDU SONS AND DAUGHTERS & all men and women of goodwill residing in Idu as well as aliens and well-wishers of Idu/URUAN, an everlasting reward that even within our generation (5-10 years) the Lord will bless and prosper you (Idu) and set you on high before all the nations of the earth as He did in the days of Solomon and after the exile, in the days of Ezra and Nehemiah; from this day forward and for everlasting glory. Therefore, once again with St. Paul **(Eph. 4:1-6, 14-19)** let all foreign churches in IDU be decreed banned. Let any dissent be treated as a Rebellion against God and against the fatherland and heritage. In the interim, all the banned churches will serve as Educational Centres for all grades – children and adults, primary and secondary and even higher classes to a College of Education. So be it! However, let all be careful to **act on all the words of this Congress** that you – all **IDU** and **URUAN/EFIK** - even aliens and neighbours **"living in your midst may prosper in all that you do."** You stand this day, all of you before the Lord – the Heads of your kindreds, the Elders and Administrators – all the men and women of Idu/URUAN and friends, the little ones and all, to accept and abide by the Covenant of this Congress so that the Lord may **establish** you as a new Idu/URUAN – as His people to serve Him in His Son and the Holy Spirit now, forever and ever.

A PRAYER FOR URUAN/EFIK CONGRESSES

(To be inserted into the Congress programme of that year and recited as Opening prayer by all present led by the Obong of Calabar/Nsomm of URUAN – in English and Vernacular):

O Lord God Almighty, All-powerful Lord of Heaven and earth, Ruler over all nations and the universe, You are the God of Justice, Love and Peace; we present our URUAN/EFIK nation before you on this occasion of our gathering in Congress today. You, O Father of your Blessed Child our Lord Jesus Christ, through whom we have received knowledge of You as God of the Angels and of the human race and of the righteous who live in your sight. We bless you and magnify your holy Name this day as the Lord in whose hand lies every human heart and rights of peoples. We thank you for the gift of our land and nation which you have richly endowed as a people. Come and remain with us as we celebrate this year of our Congress, and make us effective instruments of propagating your kingdom here below and of the one to come, ever conscious of your abiding presence and guidance of our nation. We continue to glorify you O Lord, whose Spirit at the beginning of creation was moving over the abyss. W implore You to help us in our time to understand that the exclusion of you in our lives as our God and Provider can lead to the loss of our way in the desert of ignorance and even lead us into a world of hopelessness, weariness and want. Therefore, we implore You today and always to make our nation one with human dignity, where prosperity and freedom; peace and justice will continue to flourish in every hamlet, in every village and clan as also in the Diaspora. Lord God,

Ruler and Guide of Your people, You who care for Your peoples with gentleness and power, receive the prayers we pour out to You today for our nation and our leaders. Graciously endow URUAN/EFIK rulers, chiefs and kings, to whom you have handed on authority to rule and govern the people and bestow on them the spirit of wisdom and gentleness according to Your wonderful designs. Grant wisdom, integrity, justice and honesty to all the citizens so that harmony and lasting prosperity and progress may endure in our land. O God to whom all human power is subject, guide the rulers and leaders to be God-fearing. We pray that they may be men and women who speak to God on behalf of themselves and of URUAN/EFIK peoples and make them humble, honest and courageous in serving the people well so that they may witness to eternity in our time, travelling on in the paths of history and ever faithful to their commitments with zeal; doing good to all manner of people and those living in our midst. Let them be mirrors of their own dignity and integrity walking in sobriety, kindness, justice and humaneness to all.

O Ruler and guardian of Your people, give to these servants of the people, the spirit of truth so that they may strive with all their heart to know the right and do what is worthy and pleasing to you and good for the people. You have given origin to the people of URUAN/EFIK and willed to gather them into one family and nation, enkindle in them true and just advancement of progress, prosperity and knowledge through the good things which you have so graciously bestowed on our lands. Dispel from them every spirit of division, bigotry and ignorance so that equity, justice and goodness may be established in the society to enable them recoil at the evil of bribery, corruption, oppression and greed. Let them overcome rancor and selfishness and make the people continue to remain as one family unencumbered by economic, political and moral problems and disasters.

Listen Lord to the cries of your people formed in your image and likeness who now confidently turn to you. Be merciful to us by your infinite goodness and continue to fructify and spare the nation from chaos, anarchy and doom. Establish us as a nation and kingdom of your justice, love and peace through your Son and our Saviour Jesus Christ. Amen.

B. INDICATIONS FOR URUAN PAN NATIONAL CONGRESS

What URUAN/EFIK citizens & the Diaspora should know/do concerning the Congress:

The triennial Pan URUAN/EFIK NATIONAL CONGRESS is the Celebration of URUAN/EFIK unity to present an opportunity for all URUAN citizens, the Diaspora, friends and neighbours to show case the legacy, initiative and commemorative events of URUAN nation from the days of yore in order to launch into the next Congress with renewed determination, hope and expectations of a greater tomorrow for pan-URUAN, nay Nigeria and the world. It should celebrate the dexterity, the resilience, the pains and sorrows as well as the blessings of URUAN nation with a view to promoting goodwill, unity, wealth and job creation, empowerment, sports, cultural artifacts, environmental/sanitation awareness, continued faith and trust in God our Father, but most importantly URUAN national image and prestige. Positively defined, the CONGRESS is to promote a progressive, cultural welfare association able to protect URUAN kith and kin as a group against insult, abuse and oppression for a high policy of educational advancement and socio-political changes and the integration of the various segments envisaged in URUAN/EFIK NATIOAL UNION. It is also the aim of the CONGRESS that once this unity is achieved, it will be possible to destroy old prejudices, suspicion, mistrust and antagonism so as to make co-operation easy and attainable. There should be a theme to reinforce the aspirations, the progress and expectations of **URUAN/EFIK** at every subsequent Congress in order to inspire the people and to express their shared hopes and values, to strengthen their consciousness and patriotism as a people of promise and to institute lasting legacies for generations yet unborn. This should confirm whatever options, motives and programmes of the Congress. It is recommended that the Congresses should be rotational to drive the initiatives of competition, unity,

appreciation, giving opportunities to one another. As envisaged here, the Congress should bed constituted in 6 zones, viz. (i) **EFIK KINGDOM**, (ii) **IKPA IBOM** of Ikot Abasi and Mkpat Enin LGAs, (iii) **IKONO IBOM** of Ikono, INI and Ikono in Uyo LGA including Afaha villages in Uyo and Etinan LGAs, etc. (iv) The colonial divisions of **NORTHERN**, (v) **CENTRAL** and (vi) **SOUTHERN URUAN** including **AKWA AKPA URUAN** and other areas of the riverine kingdoms including AKPAKIP ARO. To this end an advocacy for the establishment Unity squares with sports facilities or even stadia in the above capitals or headquarters should be pursued. There should be another one for our Diaspora **AROCHUKWU,** etc. as a rallying point and focus for all the scattered groups of villages in **ANNANG COUNTRY** viz. Ifuho, Ikot Osurua, Abiakpo Ntak Inyang, Ekpemiong, Nkap, Obio Akpa, Ikpe Ikot Nkon, Afaha in Central Annang etc. This implies that each of the groups can arrange their individual Congresses to which **URUAN/EFIK** nation and others may be invited. There should be a logo for each Congress held. What all these imply is that from now on, a hand of fellowship, unity and goodwill should be extended to all the clans, peoples and groups concerned in order to set the ball rolling through publicity, lottery and media programmes. These will also provide opportunities for mobilization, information and alerts to the people towards inclusiveness, supplementary funding and voluntary donations to drive the Congresses home.

New projects concerning the building of enviable infrastructure across the nooks and crannies of **URUAN/EFIK** in conjunction with relevant LGAs and State Authorities with good roads to drive agricultural inputs, modern libraries, medical and Diagnostic centres, should form part of the aims of these Congresses. Exhibitions, children, youth and women-related programmes, scholarships, beauty pageants, cultural shows, entertainments and sports should form the core programmes during which honorary/recognition Awards can be given as the driving force and strategy of all Congresses with **IDU NATIONAL CONGRESS** as the key paradigm. This is a clarion call for rolling out drums to sound the unitive call for a new Nation of promise and those in the Diaspora, which celebration should offer a unique and golden opportunity to focus global attention on URUAN/EFIK history and heritage and to also project a united, vibrant progressive and respected people eager to take their place and if possible lead in Nigerian, nay world affairs. Time was when everything and anything, worthy of prestige and progress were concentrated in the city centres thus inviting an exodus of the citizenry to the towns and cities at a great disadvantage to the rural kingdoms and clans. There was nothing at all for the communities. They were left only to wallow in ignorance, disease, destitution, penury and want on account of the localization of everything within the same town or city. The result was a lopsided governance with a high concentration of everything and the good life in the cities with the distractions and evil concomitants of unemployment, wickedness, prostitution with all sorts of evil manners and abominations committed all over the place. The Congresses are to put a stop to these so as to bring about civilization and the good things of life to all the nooks and crannies in **URUAN/EFIK.** However, these have already started as many communities have begun to provide electricity, pipe-borne water etc. in their arrears beginning with Idu Uruan.

PROGRAMME OF THE PAN-URUAN/EFIK CONGRES

As we count our blessings for the last three years, since the Congress is envisaged to take place triennially, and look forward to this to imbue the citizens with requisite patriotism, **URUAN/EFIK** as a people should celebrate their resilience as a nation, and all the citizens and aliens living or residing in **URUAN/EFIK**, our neighbours and friends should resolve to contribute their quota and efforts towards launching into a better and greater tomorrow. The theme song should indicate what to expect from the Congress. There should be a Symposium the evening before followed by the Carnival of all the clans, the Diaspora and other nationalities invited to take part. There should be a topical Essay Competition, the finals of **URUAN/EFIK** national football match, fashion show, musical show, beauty pageant, arts and crafts exhibition, and awards among other events which would also resonate with all our visitors in tow who are expected to help chart the path for the nation's greatness.

CHAPTER XI

URUAN/EFIK ESSIEN DUOPEBA: THE DEVELOPMENT OF A CITY STATE IN AFRICA

PREAMBLE: Taking a cue from E.B. White, I am inclined to be very pessimistic about the present **URUAN/EFIK** race because it is too ingenious and inauspicious for her own good. Our approach to the nature of things and by implication everything concerning URUAN/**EFIK** in recent times is to beat her into submission. We should stand to a better chance of survival if we accommodated to this planet, nay to those nations of the world whose citizens and peoples who know how and what to do at any particular situation and circumstance and acquiesce to that which matters most in the situation we find ourselves and therefore view appropriately instead of skeptically and dictatorially. Why? Because we have come to accept the new Nigerian factor of graft and greed, selfishness and self-aggrandizement and have become morally vacuous and want to do anything and everything for money, prestige and adulation thereby leaving the generality to grope and wallow in disease, penury, disgrace and want. At some point it should dawn on all **URUAN/EFIK** citizens including aliens living among them that nature in all her magnificence has always been very benign in all her bounties to us as a nation. I can often recall with nostalgia that some time ago and not in the far distant past, **URUAN/EFIK** used to be the melting pot of the nationalities in Nigeria, the most sought after for maximizing wealth and they came from all corners of this our great country falling upon each other as it were –from the West and Mid –West, even from the North. We had a sizable number of Yoruba nationals here, we had the Edolites, Deltans; from the North we had Hausa/ Fulanis, Tivs, Biroms and Yunguns, etc; not to talk of our immediate brothers and neighbours from the South East, the Igbos – you name them – it seemed as if one were at Aba or Onitsha markets of today. Where are all these people now? There is nothing here to attract anybody whether as merchants or entrepreneurs or even as the ubiquitous contractors! It was Prof Saburi Biobaku who said **"great men appear now and then to help them shape human history.**" The history of their lives does not of itself amount to the totality of the history of man. It nevertheless serves to illuminate that history and unravel the course of human events. Unless the people of URUAN/EFIK are ready to wake up and stand up to be counted in their readiness to shake off apathy and complaisance, the nation shall continue to stagnate.

There is hardly anything visible to give maintenance and sustainability. But who gets this warning sign, and does it permeate to the appropriate areas and her nearby services? No wonder then that **URUAN/EFIK** has failed to act in a way that will help the society – her citizens and others who sojourn in their midst. Education, training and trade had a purpose and pride of place in her culture of yester years but now most of the people seem to be ok; they can just do anything for money and prestige and the understanding is that with money they can get anything: buy titles, academic achievements and certificates, posts, offices etc. Corruption and living on the fast lanes are the vogue because they have failed to live up to their moral codes and traditions. The result is even more manifest as they now seem to celebrate rubbish and incompetence as technological sophistication has taken over and civility has become too gross for digestion! For those who still ask as to why there appears to be a stasis in **URUAN/EFIK** today, the very seeds of incapacity and shambolism have been foisted on those so-called elites and politicians on account of the near absence of true patriotism in them coupled with the degeneracy of '**can do**' spirit and poor administration in **URUAN. URUAN/EFIK** could achieve anything when and if fired by this **'can do spirit'** with the maxim '**nothing is impossible to the willing heart**'s they say: '**where there is a will, there is a way**' to do it. Waffling between deception and graft, the elites and politicians find it difficult to deliver on good, progressive governance and organization as well as aiming for the upliftment of the people. All they do now is displaying their ill - gotten wealth and

affluence in the midst of such grinding poverty among the populace. They have no drive for both capacity building and investment in massive infrastructure, agriculture, industries, etc. let alone the capacity for an equally intensive process of community development and involvement as very many communities in URUAN/EFIK never seem to have heard of **DEVELOPMENT UNIONS** which are found everywhere especially in the South Eastern States of Nigeria today. If History is anything to go by, it is not political actors a.k.a politicians and civilian elites that do create the right structures for the progressive development of the society. To achieve positive and sustainable transformation inside-out and not rebranding outside-in, the nation cannot continue in this way. **URUAN/EFIK** must institute Steering Committees representative of all sectors and clans, because the more we talk about these problems, their solutions and the way forward, the more we learn to understand one another and our various problems and the less likely we can jump into conclusions about each other's intentions or ambitions. And the more often we try to do this, the more likely it is for us to become a more united, progressive, wealthy and prosperous people, contented, fulfilled and living together as brethren in as much as is humanly possible. That is my prayer and hope in writing this treatise. We must restructure our society and go back to recognize community and neighbourhood organizations with the traditional authority not cash and carry politician traditional rulers of course viz. village heads, town union leaders, paramount rulers, etc. calling the shots as formerly. That is the way to go.

TOWARDS DEFINING THE OBJECT OF URUAN/EFIK MISSION

A. ORGANIZATION OF TOWNS/VILLAGES IN URUAN AS A CITY STATE

I have taken pains to re-assemble all the towns and villages in URUAN/EFIK following the pattern already documented in Chapter seven. There will be need for an update soon after this book has got into the hands of every law-abiding and patriotic citizen of the kingdoms and everybody should be fired with enthusiasm to see his town, village or kindred on the map plan following the IDU example outlined in Chapter ten for all communities in URUAN/EFIK no matter how insignificant or well exposed. To this end, every Village/ Kindred Head should see to it that town unions are established to galvanize and mobilize the people to wake up and be patriotic enough to map out certain projects and programmes for their Development Authorities on course. There is need therefore to get the registration of all citizens irrespective of status off the ground as already outlined elsewhere in this book. Therefore, to succeed in any Organization or business **URUAN/EFIK** must learn to define the objectives of the mission at hand and then bring it to life. There are two sides to this: the technical know-how regarding what this project of re-organization entails as also the **OPERATIONAL** aspect ie. the running of this project viz. URUAN/EFIK development as a modern city state in Africa and beyond. It should involve the day to day managerial aspects which will require a team and all those who may be involved in a sort of field and on-the-spot work for the success of this programme, namely all those listed to run URUAN/EFIK NATIONAL ASSEMBLY and clan/district or town Unions as envisaged in the Constitution. It is not enough to have the technical competency; the managerial aspect is also vital. This is not playing politics because men and women engaged in politics, the so-called "the political class" can never bring change in order to build the nation, only men and women of ideals mentioned above can do it. They are the people that can build a nation that would outlast them, that would possess elasticity to accommodate all the citizens of later generations. Thinking about future generations requires people with imagination and with dreams and visions to visualize a society where everyone is a stake holder and has a sense of belonging in the development of the community. Today URUAN/EFIK has not got such men and women of integrity and forthrightness with fire and drive to provide a fashionable society of our dreams. It also requires a great leap with a reference point towards growth and wealth.

This agenda is therefore aimed at creating a new order by way of the Constitution set forth herein with a view to galvanizing what the EFIK kingdom has already set forth. It is therefore set to augment but not to replace it except where there are conflicts of interests in their concepts of values, in which case what is optimal in the circumstances is to be preferred. This programme is not meant for interest groups and the political class, as they are the ones that have kept URUAN/EFIK prostrate. They are those who cannot

lead this nation to the land of promise. There must be a vision and only that can guarantee harmony and unity not ideological homogeneity. That is why I am advocating the development of a robust intellectual content for a proper grasp of the history and culture of URUAN/EFIK embedded in these pages. This is also a call to all men and women of good will to rise to the challenge. Too many of our people who think they are at the top are totally ignorant about the complexity of the history of ancient URUAN/EFIK society over which they are now presiding. It is reminiscent of the measure of the poor quality and content of intelligence, tactics of betrayal, arrogance, greed, and selfishness. Our URUAN/EFIK politicians including some of those in the civil society have made life so nasty and miserable for the citizens because they cannot provide any road map of high hopes for the people. URUAN/EFIK national character must change. The challenge lies in how the people of these kingdoms specifically through the so-called leaders can be disposed to plan for the future of our teeming youth now engrossed in disorientation, laziness, bewilderment and disarray. It is the duty of a leader to solve the problems that may crop in the polity – problems of security, problems of daily living and welfare of the citizens, problems of peace and peace and good order; economic, social, educational, religious and political problems. In order to do this the leader SHOULD and even MUST involve all the people who matter – the Elders, stake holders, technocrats, leaders of thought, market women leaders, youth leaders etc. and he should also consult them so whatever problems or issues there are in the community, they will analyze and deal with them, "**koro ? b? itiehe ikp? ib? ".** No successful leader can sit down and say he is solving problems by himself without consulting the people he is leading, because there are many things the followers know that the leaders DO NOT KNOW. If the leader does not consult with them, the people won't go to him and the leader will continue to have difficulty in solving these problems. This book should be in the hands of all URUAN/EFIK citizens especially the Elders as it is their duty to create an enabling environment to trap the energies of the youth and to channel these towards sustenance and national development. Youth dreams, visions and idealism should be properly and effectively impaneled here. Although there is always the talk about the government creating jobs and more jobs as if jobs can be created from a vacuum **ex nihilo**. Participation and benefitting from jobs require some levels of education, goodwill and **can do** attitude towards manual labour as there are no slaves to do the spade work. Mere gestures of tokenism and birth rights cannot suffice here. Government cannot create jobs for anybody. What it can do is to create the enabling environment for the citizens to create jobs and wealth for themselves. That is why I have advocated elsewhere for example, that the Federal Government should consider it a priority to open up the maritime business once again and more especially boost up the construction of the Railway system and rail quays all over the country including building a railway terminal at Nwaniba – IDU which is only five minutes and less than ten kilometres from Uyo, the Akwa Ibom State Capital. This is the strategy that can more easily and readily fast-track economic, growth and development in URUAN/EFIK There should be rail roads running through Umuahia, Ogoja, etc. then pronto, millions of job opportunities will be made available for Nigerians to eke out their living. This venture will also open up a new roadmap towards regional and inter-state cooperation and also enhance rapid growth industrialization of the area. The easy and fast movement of goods, materials and people can only be effectively undertaken when a functional modern rail and water transportation system is put in place, hence my pleas and advocacy for these to be considered for URUAN/EFIK with Idu/Calabar as base. Road transportation is fraught so many risks and safety hazards. All these will require bracing up and taking tough but right decisions so that we can have a better tomorrow. Beyond grandstanding, manipulation of scarce resources etc. the sensibilities and gullibility of youth will not solve the poverty situation, rather it will culminate in their addiction to criminal rings, violence, drugs, insurgencies, and gangsterisms to which many a youth are prone. Rather they should be looking for new platforms to enable our young people and **ndit? emana,** some of whom whether as area boys and girls, learn about their culture, artifacts and traditions. This book is to stem the tide and drift because for the youths to imbibe the culture of engagement a good knowledge and appreciation of history matter a lot because they will only be jeopardizing their future without proper understanding of the past which will enable them courageously join in building their nation of the future through combined task forces devoid of partisan interests.

B. POLITICS, GREED AND PARTY PATRONAGE AS BANE OF CHANGE AND DEVELOPMENT

There must be a conscientious change of attitude in the mindset of our people especially the politicians. Today there is no synergy in working for the common good and even in the area of assisting compatriots to rise up and to succeed. In achieving anything except perhaps those of their immediate households or those with party affiliations, people are scheming for political cleavages with Machiavellian inclinations and calculations for what my friend, Professor Douglas Anele of the University of Lagos often regards as "***agbata ?k??***" – **"you chop , I chop"** syndrome as captured in the mantra of Nigerian politics by politicians who lack every degree of self-discipline and emotional intelligence required to run a democratic system for good governance. Ethnicity, partisanship, "god-fatherism" primitive acquisition and personal aggrandizement are militating against the ethos of progress and socio-political change. The result is that nothing works and there is not going to be any change in the foreseeable future because of the inexplicable opulence in public office at the highest level of government. This has made the public holders seemingly incapable of having any feelings and understanding about the plight and excruciating pains of poverty, destitution, unemployment and hopelessness among the masses. Thus they have no qualms about the direct existential grim situation their fellow URUAN/EFIK people are facing. This is not a pessimist outlook, but the reality of corruption on ground. In both government circles and the civil society these leaders and politicians keep on recycling themselves; the same people who do not have any value to add to progress and development in the society. It is always the same players changing positions and parties, doing the same old things. They live on opportunism. This explains why top public officers and politicians – Senators and what have you prefer to float from one party to another and from one position to another. Then after having tasted the honey pot of politics, power, authority and wellbeing, they never want to leave the scene preferring to float from one position to another – from Governor to Senator and when they grow old from senator to Traditional Ruler, etc. in order to continue to live large. They maneuver and change positions and goal posts - going on and on as if the new generation never existed. The Councilors in the Local Government Councils turn up at the next elections rooting to become Members of the Houses of State Assemblies. Then the next elections see them bulldoze others on their way towards becoming Senators or Members in the House of Representatives or in the case of the political potentates and juggernauts of this world. Others want to become Heads of Council, Governors or even the President if not the Party boss. Governors move on to become Senators or the President and the re-cycling continues with same players all over the place. They want to be seen always as the people that matter; it is just about self-glorification, influence and power. The same scenario plays out with career politicians especially those of the so-called "ruling party". Once their party loses an election there is a bandwagon movement of members to the winning "opposition party" in order to continue to be relevant. Or in the alternative, for those who want to retire and still become relevant and money magnets, they juggle figures, re-fix their birthdays to coincide well over the date they left secondary school and beyond. They also go to the extent of giving themselves several bogus severance allowances to carry them through and their posterity for generations to come.

They now begin to bamboozle everybody and impose themselves on the people to brain wash and entice them with peanuts, spraying them with ? 50, 00 Notes, with rice and salt in tow, just because they have now become the richest, the most powerful and the most influential people in the society. The poor and gullible masses therefore acquiesce to all these by accepting them as those who matter in their lives; and therefore the only cocks who should crow in the land. To round up the cycle they may as often happens at their advancing age, come home to their towns and villages to vie to become Chiefs and Etubom because Chieftaincy, traditional title and rulership favour the oldest in the land. They do everything using their influence and ill-gotten wealth to impose themselves as the rightful contenders to the throne of the ancestors so as to be crowned Royal Fathers. I want to say it loud and clear that it is our modern day politicians who are causing a lot of pain and problems in the land and bringing the masses to their knees. They are the ones emasculating the people as also pulling down the customs and traditions

towards the eventual collapse of socio-political and economic transformation and wellbeing of the people. For how can the young people have any chance of survival or there be any vacancy for whatever post or position in the land for the up-coming generation? Why should there not be embargo on employment particularly the situation of restiveness and unemployed gentry including university graduates roaming the streets and becoming malefactors – drug addicts, kidnappers, armed robbers etc. everywhere? The process of recruitment or giving employment to new qualified applicants into where there should be vacant positions in any set up in Nigeria today is far from being transparent and just since god-fatherism and partisanship are the order of the day. What else can be corruption incorporated? Corruption is not limited to money which applicants are extorted to pay anyway whether they get the job or not. It is corruption when a properly constituted system like employment is jettisoned and the country is more of politicians than intellectuals, technocrats or anything else, and only card carrying party members, their children, relations, friends and indigenes can ever get employment in favour of qualified applicants. It is corruption when appointments are politicized and when undue pressure is applied in order to favour a select few or even when unions and officials are used to undermine due process and legality. Then in due time the mantra of creating jobs avails nothing because the masses of qualified unemployed youths have no chance at all till thy kingdom come. That is why the gullible and wretched masses root for these Nigerian gods to get there and as the best to happen in those places. It is simply that leading to the orgy and spectre like that of motor park touts as also unending litigations in the case of "after elections" including even cases of chieftaincy affairs for the rightful possessors of Royal thrones - an issue unheard of in URUAN/EFIK through the generations. This singular situation and type of corruption gives the impression that there is no future anymore for up-coming generations. Small wonder then the disparity in the gap between the few rich and the unfathomable poor always giving rise to this current "do and die affair politics" as also cut-throat pursuit of wealth whereby everybody is clamouring to be politicians and party head wigs. This is the situation turning elections into theatres of war and violence. With this scenario there is bound to be desecration among politicians as the largesse for holding office is the benchmark. Then politicians can do anything to win elections including arming the lazy docile youths to enable them achieve their goal and thus heighten their greed, hooliganism, brigandage which often result in election malpractices leading to insurgencies and mayhem. All these are clear invitations to crises. When then are we going to stop all these and learn to use decorum and honour in our political and socio-cultural practices? When will URUAN/EFK rise up to eradicate this malaise and canker worm in the land and stop oiling the wheels of their terminators by continuing to entrust their collective patrimony of URUAN/EFIK in the hands of these miscreants and thugs? These questions are begging for answers if this generation will hearken to the clarion call and my lamentation for the synergy to jump start now with a purposeful and stoic resolve for a change.

C TODAY'S IRRELIGION AND ANTI-SOCIETAL PRACTIICES OF YIOUTHS

Another most poignant issue arises from these religious practices of modern youths with prosperity and breakthroughs preachments of lazy pastors who think they can change the fortunes of these lazy and lousy youths and thugs. These Pentecostal Christian followers and adherents have become blinded if not by the neaveau riche politicians who hypnotize them with peanuts but also by pastors of wonders and religious creeds that have made religion a limitation to their progress in life. It is not uncommon to hear them exclaiming "it is not my portion OR it will not be your portion" Which portion are they screaming about? Is it the portion and capacity of Nigerian youths, most of them jobless graduates from tertiary institutions who flog to these churches for deliverance and breakthroughs? Instead of preaching messages of miracles, blessings and breakthroughs, why cannot their so-called wonder pastors whose preachments defy logic and common sense preach on virtues of hard work, creativity, dedication, commitment and responsibility! Whereas Scripture says, "he who does not work, let him not eat" **(2Thess3:10)**. Our youths and indeed most Nigerians need to be delivered from religious superstitions, laziness and half-truths because no matter how loud the vibrations of miracle promises, they will never compel God to fulfill their wishes. Nigerian youth can only have breakthroughs by practising principles of production,

planning, critical thinking, system building and market analysis for the production of goods and services because God cannot reward laziness and mediocrity. The Scriptures always admonishes that the practice of hard work, dedication, diligence and perseverance "because by the labour of your hand, you shall eat"/ yes this was the injunction at the Garden of Eden (Gen 3:). Instant success that debases the dignity of labour through Yahoo sowing seeds to pastors to become millionaire practices, Bank robbery, kidnapping, pen robbery, thuggery, embezzlement, MMM scamming cannot be the logical conclusion to breakthroughs, they are an illusion. These have created a generation of jobless youths and day dreaming Nigerians who only want to see instant results, immediate reliefs and painless profits. These can never be the natural course of nature and normal ways of doing things. When Nigerians continue to allow the politicians to ride on them and see these sort of religious messages of success and wonder stories as the sure proof of breakthroughs, then our society will ever keep going down. Our youths, nay Nigerians must know that politics is not governance neither is Christianity or any other religion magic.

This is why I have advocated the restructuring of URUAN/EFIK society of our dream in order to rebuild every ethnic group and clan in URUAN/EFIK nation. It is high time now that those in elective positions become truly accountable to those who under rain or sunshine had lined to vote them into power. Our political leaders in particular must come to terms that leadership is not about perpetuating themselves in office for the benefit of their pockets, for their families, political associates, Yes, and because this has been an era whereby whenever a platform has been created and a governor or whatever is being elected using that platform, then nobody else will ever smell any appointment or patronage whatsoever. Once a person who is neither a relation of a governor, chairman of council, a senator nor party associate nor one with links to the so-called "ruling party" applies for any putative vacant position, therefore, there is sure to be no vacancy. There will be no award of contracts or any patronage whatever for anybody else. Surely this must not be allowed to go on. It also high time we did away with this sort of thinking that elected posts are a license to amassing wealth and emptying the treasuries for the benefiociaries and their families to continue perpetuating themselves in office. This is nothing but "high-profile lunacy and corruption incorporated". Then, it will also be high time for governors, chairmen of councils and others elected to higher political positions, senators, MHRs, MHAs, etc. to realize that the time is up, because even the electorate have now come to understand what is going on and around them.

D YOUTH EMPOWERMENT AND SOCIO-POLITICAL ORDER

The type of empowerment I envisage here is youth empowerment whereby in every village/town in URUAN/EFIK, a group of mature and patriotic youths wired by love of progressive change and good governance can organize town hall meetings to conscientize their fellow citizens especially the youths on the new initiative of socio-political reorganization agenda of our communities. This should cut across all the clans /districts and LGAs in URUAN/EFIK. It therefore means that all village/clan Heads, Traditional Rulers and other Title Holders **– mme Mbong Ntinya** – in the kingdoms and the Diaspora will get involved by giving the youth groups their blessings regarding their implied cooperation and guidance. The entire programme will invariably include lecture series and seminars, m mobilizations, enrolments and registration of all the citizens including residents and aliens in the area. All this will inevitably be geared to prepare the ground for the eventual take off URUAN/EFIK NATIONAL CONGRESS. It will also involve the launching of this book where has not yet taken place as part and parcel of the resource agenda and mobilization of the people to rise up for the new challenges that are unfolding. This will enable URUAN/ EFIK realize that they have to begin to look up for a new option and not expect angels to help them or manna from heaven. Then leadership in all its categories will invariably evolve to change the shape of traditional/political rulership negating the hitherto leadership in terms of political patronage as maters of families, friends and "man know man" because the citizenry can no longer be taken for granted. Integrity, simplicity, accountability among others will determine the new generational leadership to correct the decadence, ineptitude and aggrandizement of the past.

Both traditional and political leaders in URUAN/EFIK must through this advocacy Willy Nilly, change this mindset of the **"winner takes all"** and "**power is might"** impunities. Today both political

power and royal leadership have degenerated into "cash and carry "with the monetization of even traditional institutions leaving the people in the wilderness of poverty, misery and wretchedness. The pity of it is that the masses have been left with no other choice than the worship of those in money and power with politics taking the centre stage. Because the masses are thereby pauperized and over-awed by the sudden opulence of the gentry, they are ready to lick the boots of the neaveau riche politicians and government paid royal fathers who have now become overlords and mistresses of the manor. Our present executive system of government of executive presidents, executive governors and even executive chairmen of Local Government Areas is certainly one imbued with a military ethos and in-built immunity clauses whereby security and financial matters can be abused with reckless abandon without accountability simply because it has become so institutionalized that a person – president governor or whoever as head of governance or authority personalizes him/her rule or administration without seeking contributions or deliberations from anybody or sources. He just decides what is to be done and how as if nobody else or anything maters. He is the be all and end all and decides who succeeds him/her as Governor, chairman, or who wins an election to go to the Senate or House of Assembly etc. Elections and the general good are subverted and purchased as is evident in Nigeria today. Today the politicians have become the elites. Small wonder then why political office has become a do or die affair and why there is impunity in the rank and file on account of this mindset of governance with the rent-seeking elites taking the centre stage with intrigues of power play almost always at play by these self-political preservation seekers perpetuating and recycling themselves in power.

The youths in particular now behave like slaves becoming docile and indolent, dirty and aimless behaving like cowards before the proud, superrich and egoistic politicians and their so-called community leaders. Most of URUAN/EFIK towns and villages terminate in the river, but hardly do the boys and girls ever care to know or find out where the river is talkless of availing themselves of the resources thereof. They have no shame nor do they have any sense of collective purpose to take up the challenge of their situation. It is only the womenfolk who are toiling day and night as bread winners feed the family, pick the bills and pay the children's school fees in most cases. Because they are lazy and docile, the youths are becoming more vulnerable always ready to pick the pittances and petty inducements from politicians and even their stingy community leaders. They are ever ready to gossip and ridicule those who show signs of maturity and potential greatness and industry among them and to the point of destroying them – the ever **pull him down** mentality**.** Some of them in the villages with an inferior sense of morals have resorted to voodoo, witchcraft, black magic and juju to hopelessly better their lot. Examples abound of manifest taking of pleasure in shaming, bullying and destroying one another by this and becoming so averse to good morals and religious practices of their parents and forbears and in so doing get demonically wired with wicked and malevolent intentions against their betters. They are those who take delight in constantly promoting evil thus celebrating compromise and mediocrity because they are ready to settle for anything. This inevitably stifles progress and change in their various communities. But with the publication of this book the wind of change has come and URUAN/EFIK must rise up to find the required strength and courage which will make them rise as a people to where we belong and become what Divine Providence has destined us.

E. PARAMETERS FOR THE ENVISAGED PROGRESSIVE CHANGE IN AFRICA

There must therefore be seen as a measure of urgency and need, a technical aspect in this agenda and advocacy; and this requires vision, focus and commitment from all those either sitting on the stool of governance whether as the President or Governor or Chairman of LGA (Administrator/DO), the Village Head or Paramount Ruler etc. He must be ready to act as the **PRINCIPAL** and acquire or have this vision in abundance. The same principle must be applied in redefining URUAN/EFIK mission in the process of defining the progress and development of the nation. Some of the fundamental requirements towards the success of such a venture should embody the operational, personnel and financial issues. But it is important that those in authority whether as the President, Governor, high ranking political leader eg. Chairman, Board of Trustees vis-à-vis Church or Traditional leaders/Managers of URUAN/EFIK viz.

Village/ Clan Heads, the Obong/Nsomm or as even those in politics whether as Councilors and Chairmen or personnels of Local Government Councils in any section of URUAN/EFIK aim at acquiring these organizational qualities, provided they were properly and justly elected into power. He should have such qualities and be a kind person, learned, considerate and compassionate imbued/. Besides he should be a kind of person with the ability to inspire his subjects and followers and others as well. He/she should very competent, very knowledgeable but at the same time firm, businesslike yet perspicacious and able to understand issues also able to reduce very complex matters whether socio-economic, political or religious to a very simple set of propositions that are easily actionable as well. They should carry themselves in the operation of the instruments of governance just as the MANAGING **DIRECTOR (MDs), CHIEF EXECUTIVE OFFICER** or BOARD CHAIRMAN (CEOs) of any organization or Institution would. They must endeavour to understand the system and organizational structures very clearly. They should now and always have in mind the operational structures of the system and make sure they appoint people of integrity and trust to keep on monitoring through those constitutional instruments set forth in this book. In effect, leadership must be seen as the final test of an individual that is in-charge in order to instill in the followers the conviction and the will to carry all along in which case, he must be a wise man on whom all other qualities redound just as King Solomon was endowed. "**A leader should be able to take people where they want to go. But a great leader should be able to take people where they don't necessarily want to go, but ought to go."** To be filled with wisdom is to be endowed with plenitude of Grace which encompasses all the other Virtues. Standing with Plato it is only the wisest who are adorned with such eminent qualities to guaranty them the authority to lead others for the greatest benefit of all. Perhaps it would be beneficial to list out some qualities and attributes which the wise leader MUST possess in order to embark on positive progressive change:

QUALITIES OF WISE AND PUROSEFUL LEADERSHIP IN AFRICA

CHARACTER	ATTITUDE	CHARISMA	DISCERNMENT	FOCUS	ATTITUDE	COMMITMENT	COMPETENCE	COURAGE	HUMILITY
CREATIVITY	INITIATIVE	INTEGRITY	COMMUNICATION	VISION	LOYALTY	CONFIDENCE	GENEROSITY	PASSION	SERVICE
MANAGEMENT	LISTENING	THINKING	RELATIONSHIP	RISK - TAKING		PREPARATION	PERSEVERANCE	PROBLEM -SOLVING	
RESOURCEFULNESS		MEMORY	RESPONSIBILITY	FOLLOWERSHIP		MOTIVATION	ABILITY	TEACHABILITY	MORALITY

This book is not about me. It is only about my concern for URUAN/EFIK towards progress and the upliftment as other nations, tribes and communities are trying to help themselves get out of the morass that has overtaken the land. The real issue is that URUAN/EFIK citizens in general more often than not do ascribe some greatness to themselves and this should not be displaced or befuddled by jingoistic posturing as some are trying to do these days. I have poured out my heart and soul into this project which I now come to feel much let down and betrayed by some of our URUAN/EFIK citizens who I thought have the most to benefit from this project especially our Traditional Rulers and the political class. But as it appears, most of them now seem to be rooting for this project to fail by their commissions but most obviously by their omissions and utterances. This is because there are so many issues that have been raised already both in the Introduction, Preface and Foreword of this book. They do not need repeating and do not require further analysis or elaboration. Any discerning reader cannot afford to or miss reading them in the first instance.

CHAPTER XII

THE PROPOSED CONSTITUTION FOR URUAN/EFIK NATIONAL UNION

INTRODUCTION: At a Youth Rally at Mbiaya early in 1959 which Idu Youth Association (IYA) members also attended, and to which all the notables in URUAN were invited including the money magnets at the time, like Chief Effiong Umanah of Ibiaku Uruan Augustine Etim Okon - alias Okro of Idu etc. HRH the Hon. Nsomm Nyong Essien publicly castigated and denounced delegates from Ituk Mbang and threatened to ostracize her people thenceforth from all URUAN Assemblies. The reason for this was not far to seek because some **Ekpe** stalwarts from the town tried to disgrace him when in **Idem Ekpe**, he was passing through Ituk Mbang for an important **Ekpe** Assembly despite his being the **Iyamba** after the writer's father, Prince Mark Bassey A. Inyang (alias Mkpang). People therefore had to intervene. The elders and chiefs intervened and prostrated before him. The 'almighty' His Highness, Etinnyin A. E. Otu, Village Head of Ituk Mbang also prostrated; ditto His Royal Majesty Okon Udoh Ndok, Clan Head of Central Uruan, His Royal Highnesses Etinnyin Henry Inyang, High Chief of Use Uruan and HRM Etinnyin Placid O. Akpan, Clan Head of Southern Uruan respectively likewise prostrated. His Royal Majesty of Mbiaya and Clan Head of Northern Uruan being indisposed was unavoidably absent, but had sent a representative in the person of Mr. B. E. Bassey, a high ranking Government Administrator who was the first ever Uruan son to become a District Officer (DO) and at the time before the civil war, then Resident of old Eket Division. He later became the Chairman of the whole of Uyo old Division. He also became the Chairman of Uruan during the reign of Nsomm HRM Edidem J. U. Afia. That was long before the present dispensation, and today he has become the Clan Head of Northern Uruan. Whereas when it was his turn, he also but reluctantly tried to prostrate, HRH Edidem Atakpor Nyong Essien the substantive Nsomm of Uruan stopped him because he was the leader of the insurgency. It was also at this meeting during Matters Arising when the final motion concerning the proposition for the Constitution of URUAN NATIONAL ASSEMBLY in anticipation of the Elections into the First Republic was debated. It was a motion to the effect that the National Assembly Council should be sited at Idu National Headquarters that the proposal was stood down. This was obviously because Mr. Akpan as the representative of his Northern Uruan Clan Head was among those in the opposition who vehemently opposed where to site the URUAN NATIONAL ASSEMBLY. In particular, they had wanted it to be sited at Mbiaya, the headquarters of Northern Uruan. In this and in other matters, URUAN had often in times past behaved untowardly. They had all along obviously had failed to see, to understand and try to think ahead by ignoring and refusing to do things proactively. That meeting adjourned sine die. And since Nyong Essien died till today, there has been no further talk about URUAN NATIONAL ASSEMBLY again let alone the Constitution thereof. That means it had been dead and buried, but we can resurrect it and that is precisely what this book and project is destined to accomplish, let us then hope it will.

In that 1959 that was before the above event, while the country was gearing up towards preparations for the celebration of Nigeria's Independence which had been fixed for October 1, 1960, **URUAN** National Council meeting which was held at the premises of the Central School Ibiaku Uruan proposed among other things the drawing up of the Constitution to guide the organization and day to day events in the built-up towards the birth of a truly integrated Uruan National Assembly to wit **URUAN/EFIK UNION ASSEMBLY.** Five teachers including one of the most forthright Headmasters viz. H/M S.S. Okono from Northern **URUAN** (Ibiaku Uruan) as Co-coordinator, Mr. Celestine Bassey from Southern **URUAN** (Ekpene Ibia) and Messrs Denis O. Ben, George O. Obot and the author, Mr. Joseph P. Ekarika - all from Central **URUAN.** Idu was to be the venue for the meetings of the Draft

Constitution. Sir George Okon Bassey K.S.M. of Nung Oku Uruan, then Snr. Tutor at Holy Family College Abak, was mandated to supervise the Draft constitution. It is the recollection of this singular event at the very dawn of Nigeria's checkered history that has informed the 12th and final Chapter of this book. People often wonder why my humble self could have been chosen to be one of the members of such a momentous Committee to write the Constitution for URUAN/EFIK NATIONAL UNION at this time. That was almost sixty years ago when my co-travelers in that Committee have all returned to their Maker. It obviously implied they were all men of vision, experience and of note in **URUAN/EFIK.** In the history, culture and traditions, these were men of learning, integrity and acumen, coupled with exposure and wisdom in the affairs of Nigeria and nation building. Well, it all was and is still amazing, thanks to Divine Providence and God's kindness to sinful man whom He created but in His image and likeness. For after my Higher School and while studying at the then famous St. Thomas' College, Ogoja, the inimitable Catholic counter-part of the great Hope Waddell Training Institute of the Presbyterian Church Calabar, established in the late 19th century, precisely in 1895 – a Polytechnic of sorts of yester-years, which had produced such notable Nationalists like the great Zik of Africa, Sir Francis Akanu Ibiam, Hon Festus Okotie-Eboh to mention but a few; I stumbled upon the Constitution of – I cannot remember now of which Organization or locale it was. I became deeply enthused and perused it from cover to cover. CONSTITUTION! What is that? Surely not many Nigerians nay Africans at the time must have heard of that word, let alone comprehend its import. At the time when that meeting was held, I was a tutor and later the House Master of now the defunct famous St Augustine's T.T.C. Urua Inyang now in Etim Ekpo LGA, a Monotechnic Branch of St. Thomas Institute at Ogoja, specializing in Education and Teacher Training. For years I was also a member of the defunct Sacred Heart Association Idu Youth wing in the late 1950s, and later elected its President; ditto of Idu National Youth Development Union and successor as President to the one who later became the Monarch and Traditional Ruler of Idu Group of Villages, His Royal Highness Etinnyin N. E. Ufeh. I was also instrumental to the writing of their Constitutions. All these were not lost to URUAN stalwarts as also that august rally of URUAN NATIONAL UNION ASSEMBLY convoked by the Nsomm himself in 1959. Small wonder then those Idu elements most of whom formed the core members of the Committee for the Draft Constitution of URUAN/EFIK NATIONAL UNION with my humble self as member thereof.

PREAMBLE: We, the people of URUIAN/EFIK ESSIEN DUOPEBA **i**n order to appreciate the goals and general thrust especially of the need for embarking on the formation of URUAN/EFIK NATIONAL UNION where every son and daughter including settlers in URUAN/EFIK kingdoms will live happily as free citizens, having firmly and solemnly resolved to provide this Constitution for the purpose of promoting the good governance and welfare of all persons in all **URUAN/EFIK** communities on the principles of freedom, equality and justice, and for the purpose of consolidating on the unity and peace of our people, do hereby make, enact and give to ourselves the following Constitution to guide the day to day lifestyle and ways of URUAN/EFIK peoples for a better tomorrow. The Constitution is motivated by nothing else other than the need that URUAN/EFIK citizens in particular and other citizens of Nigeria and aliens in general residing in URUAN/EFIK can live in a free community and environment which they can call their own and in this case ancient URUAN, where their children and generations yet unborn will not end up as tenants and or worse still, as refuges in the land which Providence has bestowed on us and for posterity but as free born citizens in their own native land of abode of their ancestors. Even if some of the aims and objectives of the UNION seem ambitious, idealistic or unrealistic in the situation in which URUAN/EFIK finds herself in a colonized situation, shall include the following and others besides. The Objectives of this constitution will touch upon practically every facet of human endeavours and desires to include the unity and co-operation among the various ethnic groups and communities in Nigeria at large and for the educational advancement, economic progress, general development and the preservation of URUAN/ EFIK culture and traditional systems.

ARTICLE I

THE INSTITUTION/ORGANIZATION

This institution or Organization shall be known and called the **URUAN/EFIK NATIONAL UNION.**

ARTICLE II

AIMS AND OBJECTIVES

The URUAN/EFIK NATIONAL UNION shall have for its aims and objectives the following: -1. To endeavour to conserve and to preserve, as well as promote, reform and update wherever necessary the national culture and the ancient Institutions, traditions and laws and customs of URUAN/EFIK which in the opinion of the said Supreme Council deserve preservation and reformation in order to edify URUAN/EFIK name and so enhance the reputation of Nigeria and Africa in the culture of the world and comity of nations. 2. To endeavour to promote the social, cultural and economic wellbeing of URUAN/EFIK citizens and if/wherever possible, to provide or cause to be provided medical and economic facilities in the remote and riverian areas of URUAN/EFIK including giving financial aid to genuine and honest entrepreneurs of proven business acumen, integrity and fidelity to empower them to attain greater heights. 3. To foster humanitarian co-operation, unity, good-will, and self-help among **URUAN/EFIK** citizens.4. To promote and encourage cooperation among the citizens themselves and other ethnic groups in Nigeria and to assist the Government of the day in effective administration of URUAN/EFIK in particular and the Nigerian State in general by means of among other things, constructive representations on and effective and active participation of URUAN/EFIK in matters affecting the welfare of URUAN citizens. To co-operate also with private agencies including the Churches and other Institutions operating in URUAN/EFIK, and which in the opinion of the **UNION** deserve co-operation and are also demonstratively co-operating with the UNION.

5. To encourage and advance education and learning generally among the URUAN/EFIK citizens, and as a means of realizing this objective, to plan for improved educational standards and facilities, to encourage the pursuit of higher as well as elementary education and to award or to cause to be awarded scholarships to deserving URUAN/EFIK youths from time to time and to establish or cause to be established higher educational institutions at various centres in URUAN/EFIK.

6. To promote the study of original URUAN language and by implication the present authentic URUAN/EFIK language and culture of yesteryears with a view to bringing about the integration and fusion of the various URUAN/EFIK including URUAN elements and communities everywhere and in the Diaspora. **NB.** The EFIK in particular have already embarked on this in the Institution of ASSOCIATION FOR THE PROMOTION AND OF EFIK LANGUAGE AND CULURE (APPELAC) of which the author is a bona fide member)7. To protect the family and the kindred, the autonomous village structures and village-groups in their traditional Constitutions and Authority in URUAN/EFIK, which are captured in the schedule in Chapter 8 and sanctioned by this CONSTITUTION as adequately recognized as indispensable to the welfare of all citizens and the well ordering of URUAN/EFIK nation and kingdoms.8. To set up a high powered 10-man Commission of talented and seasoned technocrats of probity, intuition and honour versed in **URUAN/EFIK** Trado-cultural affairs to streamline and overseer all Chieftaincy, politics, cultural cum cult organizations like **Ekpe** and other Administrative affairs in all the villages, kindreds, districts/clans in the entire territory with the purpose of integrating them for effective governance and administration. 9. To make **URUAN/EFIK** citizens rise uprightly and stand

with the status of greatness that is commensurate with our enormous endowments with all hands on deck to lift ourselves up from the doldrums of the past which hitherto have been crippling us for so long and gladly work to build a nation where integrity, excellence and equity are vales to be promoted, defended, applauded, rewarded and nurtured. A nation where the weak and vulnerable are protected in every segment the territory, where fraudsters, rapist's kidnappers etc. and lay-abouts would be too shamed to operate. A new **URUAN/EFIK** where citizens and aliens living among us are encouraged to think and work for the benefit of our collectivity and everybody is welcome everywhere as fellow Nigerians.10. To empower the traditional Rulers and Elders to galvanize the age-old system of thrift and economic organizations of the past re-align the religious, the political and neaveau riche class for **URUAN/EFIK** national upliftment to ensure that there will be no more crookedness, greed, building blocks and grandstanding to browbeat and bamboozle the rest of the citizenry again, but rather be ready to accept and stand by the wisdom of the elders in the new re-structuring of the nation for a greater tomorrow.

ARTICLE III: MEMBERSHIP

1. Every URUAN/EFIK citizen wherever resident, and every family in the villages, district/clans and/or territory wherever they find themselves shall be a member of the URUAN/EFIK NATIONAL UNION provided that for the purpose of effective administration of the UNION shall be organized in accordance with the principles hereafter to be provided by this Constitution. Every alien resident in any of the above territories of URUAN/EFIK ready and willing to abide by the provisions of this Constitution shall be admitted into membership of the UNION or otherwise remain merely as a visitor and an alien and cannot vote or be voted for in matters affecting URUAN/EFIK citizens. The UNION shall therefore be an all-encompassing organization such that every child, man and woman of every age, every family, quarter/compound and every village, hamlet and clan are collectively considered members of the NATIONAL UNION, provided that members shall be requiring to pay enrolment, membership and subscription fees periodically as at and when due. Branches of the UNION scattered all over Nigeria and abroad can make their own arrangements depending on their individual needs and locales. 6. URUAN/EFIK WELFARE COMMISION which shall report to the National Assembly in view of the expected good governance on the infrastructural, educational, socio-cultural and welfare programmes envisaged by the UNION for every citizen in all the communities in URUAN/EFIK**.**

ARTICLE V GENERAL

ELECTIONS

1. Subject to any provisions as to the election herein before contained there shall be a general election to the URUAN/EFIK NATIONAL UNION to be held and conducted by the Clans and groups. Such general election shall take place not later than two months after the dissolutions of the NATIONAL UNION, that is, not later than two months next after the Annual National Conference at which the terms of three years, that is, the duration of the NATIONAL UNION was declared to have expired.
2. The Executive officers and the National Executive Committee shall be elected at this Annual Conference.
3. Election to Executive offices including the National Executive Committee shall be conducted in

accordance with URUAN traditional and ancient methods of conducting election to public offices or by means of secret ballot whichever shall be considered by the National Executive to be more expeditious, and more likely to give accurate interpretation of the real intentions of URUAN/EFIK citizens ie. the voters.

4. Two business meetings or sessions before the close of the Annual Conference, all Executive offices with exception of the offices of the National President, the National Under-Secretary, the National Field Secretary and Accounting Secretary, shall be declared vacant by the National President, and the election of officers other than those officers whose offices have not been declared vacant shall be proceeded with immediately in accordance with the provisions contained in section 3 of this article. Provided that before the election shall take place, all the officers of the NATIONAL UNION in offices responsible for submitting their reports or accounts to the Union shall have done so.

   Provided further that the results of the election shall be declared and the newly elected officers enter into their respective offices, at least one business meeting or session before the final meeting or session of the Annual Conference. Provided further that the office of the National President shall be among the offices to be declared vacant as provided in this article where the National President shall have already completed his term of office in terms of article iv section 2 sub-section 3 of this Constitution.

5. Immediately one of the offices of the NATIONAL UNION having been declared vacant, the Annual Conference shall proceed to appoint a special Committee to be called the election Committee comprising at least one representative from each clan in URUAN/EFIK. One member among the members so appointed shall be appointed as chairman. Provided that at an election at which the National President is not a candidate for office the National President shall automatically act as ex-officio chairman of the election Committee.

6. Every officer of the Union and every accredited representative of the Clan and Branch Unions, including the members of the National Assembly and all those persons specially invited to participate actively in the business of the Annual Conference shall be entitled to and shall only be allowed to cast one vote only in respect of election to any office. No voting by proxy shall be allowed.

7. Immediately on having been elected and before entering upon their respective offices, all officers elected at the Annual Conference shall publicly subscribe to a declaration in accordance with native customs, the said declaration to be formulated by the National Executive.

8. Before any officer elected at the Annual Conference can assume his appointment and take his seat in the National Assembly or at the Conference table or at any other meeting whatsoever of the URUAN/EFIK NATIONAL UNION there shall be administered unto him the customary Oath of good faith and loyalty by the Nsomm/Obong of URUAN/CALABAR**.**

9. The general election of Clan/District and Branch Union representatives shall be held and conducted by their respective Clans/Districts and Branches which for this purpose and in this connection shall be regarded as electoral colleges. The election shall be conducted according to the ancient methods of conducting election to public offices or by secret ballot or by any other method which the Clan Union considers more just, expeditious and expedient.

10. For the election of Clan and Branch representatives every URUAN/EFIK citizen without distinction of sex or religion who is an active member of the Clan Union and has reached the age of twenty-one and who is not in any other way disqualified but complies with the rules and practices of the NATIONAL UNION relating to the election of Clan and Branch representatives to the National Assembly, shall have the right of voice and vote at an election of Clan/District and Branch representatives.

ARTICLE VI

OFFICERS OF THE UNION, THEIR FUNCTIONS & POWERS

1. (i) The officers of URUAN/EFIK NATIONAL UNION in order of precedence shall consist of the following:(a) The President, who shall be designated and hereinafter called the National President. (b)Two Vice-Presidents, who shall be designated and hereinafter called the First and Second National Vice-Presidents each from **URUAN** and **EFIK** kingdoms. (c)Two Legal Advisers (d)The Chief Secretary who shall be designated and hereinafter called The National Chief Secretary. (e) The General Secretary who shall be designated and hereinafter called the National Under-Secretary provided that each shall act alternating either from **URUAN** or **EFIK** at the next elections. ARTICLE XVI

THE NSOMM/OBONG, CHIEFS, LGA CHAIRMEN MHAs, SENATORS, ETC. IN POLITICAL & CIVIL ORDERS

1. The **Nsomm URUAN/Obong EFIK** together with any Executive Chairman of the 19 LGAs in URUAN/EFIK provided crowned and or sworn in, shall be guided, directed, bound and governed by the supreme traditional provisions, norms, conduct and customs of ancient URUAN ancestral Native Administration through the ages which have been hitherto recognized in **URUAN/EFIK** land.

2. The Nsomm/Obong in Council are the fathers of URUAN/EFIK nation, custodian and interpreter of

ancient URUAN culture, customs and traditions in the domain of our civil organization and political order. Together with their Councils they shall govern and direct URUAN/EFIK in all civil matters and hear/decide on the public complaints/petitions of URUAN/EFIK people and residents.3. Similarly, the Village Heads, Titled Rulers **(Mbong Ntinya/Ikpa Isong/Etuboms)** as well as Clan Heads are the Royal Fathers of their various Kindreds, Villages, Towns, Clans and Communities as also custodians of the traditions, cultures and customs of the various communities in URUAN/EFIK and in the Diaspora. They shall be similarly guided, directed and bound by the traditions of ancient URUAN customary Native Administration. Whatever applies to the Nsomm/Obong in terms of election/ selection or appointment as well as the customary crowning and Oath of allegiance to **URUAN/EFIK** laws and traditions as contained in this Constitution shall apply to them in each case.

4. The Nsomm/Obong are both the spiritual and civil leaders of URUAN/EFIK nation and the Trustees Sole of URUAN/EFIK artifacts and norms; therefore, there shall be no other Authority to override their authority and of the Council of Chiefs'/Etuboms' decisions. (a) They are God's vicegerent on earth and are elected/appointed by the sovereign will of all URUAN/EFIK citizens and bona fide residents in URUAN/EFIK. All sovereignty resides in them. (b) The Nsomm/Obong shall reign for life by the good will of the nation and by God's supreme Authority and Providence.

5. The Nsomm of URUAN shall be selected by the unanimous consent and consensus of **URUAN** Traditional Rulers, titled chiefs, Clan and Village Heads from URUAN Edere, Usuk URUAN, URUAN Edem Inya and Esin-Uf?t URUAN; while the Obong Efik shall be selected/elected/appointed by the revised laws governing the election of the Obong of Calabar to wit: by the unanimous decision whether by voting or consensus of the Etuboms in Council provided it shall fall due for the Royal House following the norms of succession in a particular order of the Royal Houses deemed qualified to produce an Obong when an election falls due. (a)The stool of the Nsomm/Obong shall be rotational in accordance with the traditional age-old provisions of Nsomm/Obongship accession and succession in URUAN/EFIK land. (b) Nobody shall be elected/appointed to the exalted office of the Nsomm/Obong provided he is a descendant from the ancestral Royal family or root of a blue-blooded possessor of the insignia and in the case of URUAN, the **Ub? Ekuriku**. (b) The Nsomm/Obong designate shall normally have been previously elected/appointed either as an ETUBOM or Village Head or Clan Head in URUAN/EFIK. (c) No Nsomm/Obong designate shall be so declared unless his position falls due and the clan or Royal House from which he is elected/appointed can vouch to his suitability, integrity and qualifications requiring of such a high office and exalted position in URUAN/EFIK. (d) Nobody shall be crowned the Nsomm/Obong provided he has gone through the UDAK traditional and customary investiture and the visit to EFE ASAB? Efik /ISO Atakpor URUAN respectively. (e) The UDAK ceremony shall by the proclamation of this Constitution become the norm and the condition sine qua non to be undergone by every duly elected/appointed Nsomm/Obong or Village/Town and Clan Head in URUAN/EFIK. (f) It is also envisaged in this Constitution that the UDAK ceremony shall apply both to the Obong/Nsomm designate in due course. (i) Meanwhile the ceremony shall consist of a select ETUBOMs' /Village Heads' convoy with the Obong-elect for the Udak ceremony at EFE ASAB? rites OR in the case of URUAN, a regatta to ISO ATAKPOR through AKWA AKPA URUAN, the ancestral homeland of all URUAN citizens now consecrated and designated as St. Peter's Church Akani Obio URUAN, in a fleet of boats including those of the religious officials so designated, those of ETUBOMS, titled Chiefs and King makers in URUAN/EFIK nation, Village or Clan heads, as also those personnel officially appointed and declared by and loyal to the Nsomm-elect if he so chooses in order to forestall wranglings, manipulations, sabotage or blackmail provided that the investiture with **UDAK** in URUAN/EFIK shall remain sacrosanct and neither a bastard nor impostor nor the wicked nor witch nor those with blood in his

hands as the acclaimed vicegerent of God Almighty can be a Royal designate. No one who has been imputed with any manner of evil may dare go present himself as Nsomm/Obong-elect at Iso Atakpor as contained herein in the provisions for the crowning of URUAN/EFIK Royal Fathers. (ii) After the customary and traditional UDAK ceremonies and rituals the Obong/Nsomm-elect is automatically declared the successor to the stool of the Obong/Nsomm in URUAN/EFIK. (iii) The investiture with the **Udak Ubong** URUAN/EFIK shall be followed by a Christian Service of either the Holy Mass in the case of a Catholic Royal designate or a non-Denominational Service for any other Royal designate which should normally take place at Sacred Heart Cathedral OR Duke Town Church in the case of an Obong designate; and at St Joseph's Church Central URUAN in the case of the Nsomm designate. (iii) The ceremony shall customarily take place on the Sunday after Christmas: **Ederi Edisana Ubon (Feast of the Holy Family),** or whenever this occurs during Christmas following the designate's formal declaration by the Council of Chiefs in the case of URUAN and the ETUBOMs Council in the case of EFIK kingdom.

6. The Executive Chairman of any URUAN/EFIK LGA as number ONE political citizen shall be the Political Leader acting as the vicegerent of the Nsomm/Obong in Council since he is elected by the sovereign will of all URUAN/EFIK citizens and bona fide residents. Provided that (i) Bona fide residents in URUAN/EFIK as recognized by this Constitution shall include either the **iman, ukot** or **eyeyen** of URUAN/EFIK OR as registered residents adopted/admitted by and attending the meetings of Houses/ **Uf?k/Nnu** of their admission in the communities where they have residence. (ii)Provided also that they own landed/immovable property and pay their dues, levies and contributions as requiring of every indigene of URUAN/EFIK in accordance with the statutes as obtained in the communities where they reside. (iii)They can build and own personal houses in URUAN. (iv)They shall be registered members of URUAN NATIONAL UNION. (v) They shall together with the Chairman and Councilors take the oath of allegiance to be law-abiding, patriotic, speak URUAN/EFIK language and be initiated in at least ONE of the various cultural societies in URUAN. They shall not be initiated into any of the **Ekpe** Globes except those with special distinctions who may be initiated into **Ekpe** Ebongko and ? b?n.

7. The Chairman shall be either a blue-blooded son or daughter of URUAN/EFIK ancestry or a bona fide indigene/resident recognized by the traditional and ancestral provisions of the NATIONAL UNION and this Constitution. Provided that (i)The Chairman of any of URUAN/EFIK LGA as a pragmatic and visionary leader who has been so elected shall be subject to the sovereign Authority and good pleasure of the Nsomm/Obong. (ii) The office and functions of the LGA Chairman shall not be in conflict or in any way or manner detrimental to the Sovereignty, progress and aspirations of URUAN/EFIK nation. (iii)Together with the Councilors, he shall always co-operate and act as the catalyst agent to drive the aspirations and programmes of the NATIONAL ASSEMBLY towards the progress and wellbeing of the nation. (iv) To this end he /they shall at all times seek the opinion of the Nsomm/Obong in Council in all matters relating to his/their proposals/ programmes as also policy decisions of the Administration. The simple reason is that public policy always produces both winners and losers and this is at the very heart of governance. It is not value free but value driven deciding who to benefit and who pays the price. (v)The Executive Chairman in any of URUAN /EFIK LGA shall always act in conjunction with the Privy/ETUBOM's Council and the NATIONAL ASSEMBLY.

8. All elected Councilors of the LGAs shall be either indigenes of URUAN/EFIK ancestry or bona fide residents in accordance with the provisions of the NATIONAL UNION and the Constitution. (a) All LGA Councilors as URUAN/EFIK citizens and bona fide residents shall carry out their constitutional functions in accordance with the provisions of the NATIONAL UNION/ ASSSEMBLY in liaison with

the Officers of similar Commissions/ Committees of the UNION. (b)Together with the Chairman, they shall at all times uphold the sanctity and integrity of the Nsomm/Obong stool, the symbol of URUAN/EFIK nation and strive in all their endeavours and aspirations in the exercise of their preferred functions not to undermine or violate the sovereignty and progressive ordering of the URUAN/EFIK nation. They shall always adjust their lenses when tempted to do so. (c) They shall be visionary and patriotic always guided by the fact that the people may seem to be conservative and difficult to please, however they should be careful of those of the political class some of whom have been benefitting from their old retrogressive primordial systems and these can always protest and try to challenge their agenda of transformation for the promotion of change and progress in URUAN/EFIK nation. Let them have their say, but the citizens of URUAN/EFIK must always have their way.

9. The Senators, Members of either the National or Houses of Assemblies, Chairmen of Councils and Councilors as acclaimed members of the political class in URUAN/EFIK shall exhibit excellent traits of heroism, patriotism, collaboration and leadership in their various Constituencies, communities and wards. (a)They must not be tyrannical with the **brusai** of the **neaveau riche,** raw strength and daring bravado rather they shall be leaders not rulers and carry their people along and leading by example, ever ready to stand by them. (b) They shall be role models and political mentors for the up-coming youths and not play the emergency contractor/leaders such that no amount of money inducements, no amount of power and no amount of officialdom shall move them from the trodden path of clean politics and service to the nation.

10. Together with the Nsomm/Obong, all the Senators, Members of both the National/State Houses of Assembly, Chairmen of Councils and Councilors, provided they have won their tickets at the primaries for their preferred and chosen positions and offices shall prior to the elections as **a conditio sine qua non** in turns or re preferred, together pay the customary visit to the ISO Atakpor **k'uka idem** to be sanctified by the hallowed ancestral waters of **AKWA AKPA URUAN** as well as take the oath of integrity and allegiance to the customs and traditions of URUAN/EFIK at the St. Peter's Church thereat. (a)This voyage shall be a pilgrimage of sorts not a jamboree.(b) It is a momentous event of dire consequences and is neither for the chicken hearted nor the Lilly livered who may attempt claiming immunity to desecrate the sanctified waters of Iso Atakpor without incurring the wrath of the **Atabrinya** .(c) It is for the men and women of integrity, accountability, and transparency and honour whose word is their bond and who are self-disciplined and ready/willing to uphold the rule of law and the sanctity of the married bed and the sacred laws and traditions of URUAN/EFIK. (d) The Laws and Traditions are sacrosanct, both retroactive and proactive and shall visit transgressors with maximum effects and sanctions even those who committed crimes with impunity or glorified in business as usual, profligacy, greed/graft/fraud, nepotism maladministration, self-perpetuation tendencies etc. before, during and after, once they have assumed offices or positions in URUAN/EFIK having now passed before ISO Atakpor URUAN. It shall not simply suffice for one to emerge as a leader, go into office, achieve nothing and walk away unscathed. (e) Political Office shall not be deemed accessible to those who have blood in their hands and filled with wickedness and rapine; it shall not be open for those who play God, take bribes, aid and abate corruption and thuggery; neither is it for upstarts, impostors; cultists, fraudsters, embezzlers nor for those who are cheats and unfit to lead a decent and civilized society. Provided that (i) They may opt to arrange their individual regatta in conjunction with the tenets and provisional arrangements of their various Constituencies, Communities and Wards, they can equally present themselves at the ISO Atakpor. (ii)They shall similarly present themselves in turns both individually and collectively according to their various groups, positions and offices before the Nsomm/Obong and take the oath of allegiance, loyalty and submission at the sanctified stool of the Nsomm/Obong. (iii) They shall at all times defer to their

Traditional Rulers as their subjects and Vicerents in all matters pertaining to their preferred programmes and projects for the upliftment of their Constituencies, Communities and Wards. (iv)They shall at all times inject, exert and project certain ideas and ideals in their lifestyles to sustain the nerve/verve, progress and viability of the nation and not override, undermine or contradict the laid down traditions and customs of URUAN/EFIK nation through the generations.

APPENDIX I - PROVERBS

WORLD PROVERBS/WISE SAYINGS IN URUAN /EFIK HISTORY&HERITAGE

MME MBUFI? K-IK? YE TI -NIM NKE URUAN/EFIK YE IK? EKEN

Proverbs as also wise sayings, adages idioms, axioms, maxims, mottos of African as also world philosophy and language presented here depict the depth and profundity of African wisdom precisely in the use of symbolisms, myths, adages wise sayings and idiomatic expressions often wrapped up in the sayings and usages by our African ancestors and Elders the underlying meanings of which are drawn from the day-to-day happenings within the cultural milieu of the people. For **URUAN/EFIK,** they are those ancient **" ti -nnim ke"** - wise sayings which have been passed through the generations to teach historical lessons, highlight good morals, and instill social values in the people. The use of these Proverbs by young persons in the presence of Elders is obviously prohibited except perhaps when authorized and with their prior permission to do so. For the **IGBO**s, proverbs are simply like the palm oil with which the yam is eaten. **Mman? e ji eri okwu;** but for **URUAN/EFIK** they are the okro soup which makes the foo-foo balls roll into the stomach as they are often quoted to say: **Kop efere ye usu ke it? nyr?k**; hence in the FRCN-Radio Nigeria jingles to the effect that these proverbs are the "words of our Elders (which) are in effect, words of wisdom". Proverbs also express the moods, circumstances and needs of both the speakers as also the hearers. Like all other figures of speech, they are **'coloured languages'** and so call for concentrated attention and imaginative power. Being able to understand what any proverb means calls for careful and thoughtful reading or listening provoking the reader or listener to ponder as to what the writer or speaker has in mind as also the particular lesson to be learnt there from. Today most of our elites and youngsters seemingly look down on or should I say, underrate the value of folklores including proverbs as part of the patrimony they should treasure from the wisdom and traditions of our forebears. This therefore keeps the mother tongue drier, duller or even useless whereas our Elders would never make any serious statement without punctuating it with innuendos, sarcasms, idioms and in short witty proverbs to stamp their authority on what they would be saying. Proverbs indeed, everywhere and at any time, help to enliven and add colour and flavour to our expressions because they are the spices that give taste to and vivify any living language because they are the embodiment of the beauty and imagery of language and also encourage intellectual exercise when grappling with the imageries involved. **Proverbs and Parallels** are wise sayings or compositions intended to give credence and intelligent support to assertions and discussions. They are often used to check the cultural excesses of a group. They also aim to advice, rebuke or suggest. Proverbs relate to the day-day lives of the people who produce and use them for aspiration, morality, religion, history, thinking, expectation. In short they are everything about people's world views. The use of proverbs is therefore is to be seen in the total life pattern of people from entertainment to games as well as very serious issues. What is worth noting though, is that the images that are presented in proverbs are culturally defined and they may differ from culture to culture, society to society and sometimes from generations to generations. Generally, proverbs tend to add colour to the linguistic process of a speaker. This is why most proverbs have particular situations in which they are most appropriately used. A situation may be appropriate for more than one proverb, which brings us to the issue of parallel proverbs especially in Hausa.

Parallels are elements of equal importance which are expressed in similar grammatical forms could also become the "connection between two things" or things that are very similar. Viewed thus, one could deduce that parallel proverbs are proverbs that are similar to each other in context, meaning or situations. It is in this context that comes to mind as with some peculiar proverbs in Igbo, URUAN/EFK. Ijaw but most especially Hausa as we shall find in the display and anthology of some parallel proverbs with a view to annotating them as literarily as possible. For the

Hausa-Fulani, etc. they are literary tools which foster the development of deep reasoning power, observation of critical minds and giving insights into the type of social life, resources, natural wisdom, spirit of fair play etc. of the people concerned. According to Professor Asabe Kabir Usman, Ph.D. a professor of Oral and African Literatures, Department of Modern European Languages & Linguistics, Usmanu dan Fodiyo University, proverbs which are described as short paltry but useful sayings have been accepted into current speeches and writings and are meant to express either moral truths, embodying precepts or useful moral or didactic lessons. Proverbs have also served as a medium for the expression of commonly accepted views. The Hausa term for proverbs is **"Karin Magana"** and they are one of the oldest and most important genres of folklore which form part and parcel of Hausa culture. These wise sayings form a very important aspect of the ways of life of the people who use them. They are capable of a variety of meanings depending on the way the speakers and listeners understand them. The effect of proverbs on the populace depends on the aptness with which they are employed in a given situation and on the themes, styles, and forms of words with which they are dressed. Proverbs are capable of a variety of meanings according to how and when they are used and the fact that a proverb occurs under a particular heading, but this is not in itself the reason for limiting the application of that proverb to that theme alone.

Proverbs demand considerations on the part of those who use and hear them as also a judgment on whether a particular proverb has been used correctly and effectively. It is this interactive effort involving sharp-witted analysis and judgment, which can make a proverb in the mouth of a skilled proverbist a verbal art of great fitness. Therefore in considering the effective use of proverbs we believe that a situation may be appropriate for more than one proverb. The same proverb can also be used under different situations. Thus two or more proverbs that are similar in context can be used for the same situation at a given time or place. It is therefore necessary to annotate a set of parallels eg. some Hausa proverbs with the hope of analyzing their meaning in context and the situation in which they are applicable, research areas/interests, oral literature etc. Indeed they are the garment of African literature, folklore studies, popular cultures, creative writings and women studies.

For the URUAN/EFIK, Hausa, Ibibio, Annang and even such profound cultured peoples as the Romans, French, Italians including Germans, **PROVERBS** are words depicting the wisdom of Elders because for them Elders are the wise men who narrate the events of the past applying them to contemporary situations. They "excavate useful narratives from the reservoir of their memory and from the marrow of societal bones" with such meanings that can be applied not only for the society of here and now, but also for generations yet unborn in order to teach, exhort, rebuke and also reward. They are also meant especially to the Annangs the "untapped Wisdom and Energy; the salt and pepper with which they can eat their roasted plantain with oil" and for the Igbos "roasted yam with oil". For recounting one of their wisdom narratives, once upon a time an Annang Paramount Ruler was quoted to have sat in the traditional Court of justice to settle a case against one of the community's Elders caught red-handed by the youths for stealing a cock. At the tribunal the Paramount ruler simply asked the assembled Elders of the clan to file out one by one and look into the bag which the accused chief was said to have carried the stolen cock. They all filed out to look and each reported that no cock was found in the bag. He therefore acquitted and discharged the suspect "thieving chief"; while the young men were reprimanded for daring to accuse an Elder of a serious misdemeanor and heinous crime as serious as theft. However when all the chiefs met again in Council, the Paramount Ruler punished the "thieving chieftain" according to tradition for trying to bring the Chieftaincy Institution into disrepute because "while an elder cries of hunger, then the young ones will go a-stealing". The implication in all this is that an Annang Elder and indeed every Elder/adult is expected to be wise. He/she is not expected to see everything that should be seen or to comment on everything that offers itself for comments. He should keep his/her mouth short because "silence is golden."

Like every African philosophy, the wisdom of our ancient African fathers and mothers stopped short of their ancient philosophical counterparts and quite unlike the ancient Greeks, Egyptians, Babylonians, Indians, Romans, etc. who had well developed world-class "wisdom" in Philosophy which was also to be communicated in writing of which we all are the proud beneficiaries today. But God in his infinite wisdom and providence did not keep our forebears completely flat-footed in wisdom and philosophical thought at that, they also developed ideas through '**folk philosophy**' to stimulate their hearers to think and apply them in their daily lives and to popularize their speeches and languages. This is the "**ethno philosophy**" we are talking about here which according to Pauline Hountondji is a

kind of "thought pattern which concerns itself with collective worldviews of the various African tribes and tongues as a unified form of wisdom."

It is hoped that the pieces presented here will enhance the knowledge and understanding of our African cultures and traditions especially through the spoken word. Most of the proverbs are collections from the already published works of eminent sons and daughters as also writers of African literature and philosophy. Some are those I have in time personally garnered. I wish hereby to acknowledge the contributions of Rev Fathers Dominic S. Umoh: **ANNANG**; F.O.F. Onwudufor: IGBO, Michael U. Offiong **EFIK** who published from the collections of the legendary icon Dr. E.N. Amaku, Professor Asabe Kabir Usman **HAUSA** and Rev. K.O. Offa: **DEGEMA**, etc. **URUAN/EFIK** has four classes of wise Sayings, Proverbs and Rhymes. **URUAN/EFIK** Proverbs can be grouped into 1. **Ata ? ke** ie. Mme ? ke emi ewakde nditi : Direct OR Common or generally used proverbs. Eg. **? fi?k se ?fi?k ufi?kke mkpa:** You may think you know everything but not about death; **Abak afa eyere mbara usenub?k:** He who sets out too early through the bush path should be ready to get wet by the morning dew. 2. **Mme ? ke Edikabare:** Indirect Proverbs which require wise re-interpretation eg. **Ek? ? ke-e-e! ? ke Ek? Abasi! Ntem ntem mben usu kpi ebot ?kp?**: Ans. **Ndia udia uf?k owo ntre utom ndinam** ie. Like a beggar, I always eat and drink on my benefactor's account, without compensating him by helping out in his farm or even with the house chores. Here only the second segment of the Proverb is usually important to wit; the interpretation of the first stanza which is always a rhyme or verse in Literature. Eg. Medical Ethics/Family Planning: "A pill a day/takes the child away."OR **Shakespeare** OR **Hymn**: **Alert at thy command to go/And everywhere the Word to sow; Now in their heavenly homeland dwell/With Christ whom here they served so well Eg.EFIK: ? du?k nt? ke nt? etiene**: Ans. 2nd. Stanza: **Ans. = Asua eke owo inyeneke esie**…He who hates/despises another's good fortune may never get his own. Interpretation: Anyone who is envious of another's progress, wellbeing or good fortune will never see progress or own that thing he is envious of. **3. Mbume ? ke ie. Mme ? ke ? du ?re Ikike/Ifi?k OR Nkari ye mbufi?k Ik?**: Posers or Riddles eg. **Nsidi ?d? akpan ama edi ikemeke ndimen mbiom?** Ans.= Uf?k/house. What is it that fills his hampers with everything but cannot carry it? Ans.= A house OR building.OR **Nsidi anyan unam okoneyo?** Ans.=**Uruk ik?t**.What is the long animal which crawls at night? Ans. =A **snake**. 4. **EKWADO ie. Mme Ekp?h? Ik? ye Nduti :** Echoes in the form of Gossips, Ridicules, Sarcasms, Innuendos, Reprimands, Satires etc. which are used in order to correct, blame, direct unto rectitude, cast aspersions on someone usually children, young girls or even adults who misbehave or are silly, indolent, indifferent, uninteresting, stupid, disgraceful, etc. eg. These are sometimes made with exclamations like "**Ih", "Ukpoi"…! Afo**, or simply, **Owo/nwan oro** or **eyen oro**…! Directed whether to a boy or girl or woman or simply saying derisively "you stupid man/thief" etc! = '**Onye ishi**'…in Igbo = that thief! OR to say "**eb?n?"** to someone who is too slow and lazy; OR **uw?k /ebua** ie. Philander or "call girl"; OR unam ikot/ **owo i wa** namely someone who is behaving like a beast or a fellow from the "bush" or country side. Or even **Ekpat nya-nya** = "You are fat and lazy like a big immovable log of wood" when said to a young girl/lady who is too slow and always lying down like a lazy drone or log of wood and only dragging herself to get up to be about. **5. Mme Nke Unam/ creatures in the animal kingdom** viz. tortoise, elephant, ant, snake etc. The Ibibios, Igbos, Yorubas and Annangs etc. also have many of such proverbs.eg.1. **Ekik? unen minyeneke se ?n?de uman unen enye ?n? unek**: "When the cock has nothing to offer the hen it starts dancing": implying someone that is frivolous or a joker. 2. **Afia isimumke unam iba inikiet: "**No trap has ever caught two animals at once". 3. **Asabo enyene isim, abak isim**: "A python has a tail but dreads it". 4. **Okukim er? ?k?d?h? im? ituaha eyet in? eren nte im?**: "The he-sheep says it cannot weep/bow before any male creature like himself". 6."You can say I have shot/killed the elephant in the bush, but if so bring it out to the road/village square". That gives the lie to it**.Motop enin edi akpanik?, edi mmemen nw?r? ?kp? usu edi nsu. NB.** I have chosen to give the English rendering/interpretation of the Proverbs first before giving the actual Proverbs specifically to enable the reader notice and pick out the relevant Proverb/s that capture/s his/her fancy as it were since it could take some time to discover it from the original language rendering. Eg**. ITALIAN/FRENCH:** "Anyone who can train/govern a woman can govern/ train a kingdom/nation: **Qui peut gouverner une femme peut gouverner une nation**." OR

IGBO: Let the kite perch and let the eagle perch; if anyone says the other should not perch, let its wings clip off: **? gb? b?r?, ? g? b?r?; nkesi ?beya ?b?l? ? k? kwaya**. "Let /allow the two birds to perch." But listen to URUAN/EFIK: No two monkeys can ever eat together OR No two cocks can ever crow on the same roof together. The implications in all these should not be lost to us: The Igbos are the most dedicated, industrious and prosperous people on earth because they can always team up with whatever resources at their disposal. But it is very difficult to get URUAN/EFIK agree to pull their resources together to work and come out with anything worthwhile once their being derogatorily tagged as an "atomistic society perpetually at war with each other"**.** The story of URUAN/EFIK in the first Chapter is enough to explain what I mean, hence my agonizing to write this book for the **NDIT? EMANA** of new generations yet unborn.

211. Gabriel said to me: 'Daniel you see me; I have come down to teach you how to understand. When your pleading began a word was uttered, and I have come to tell you what it is. You are a man specially chosen **(Dan 9:12-13).**

212. I am Raphael, one of the seven angels who stand ever ready to enter the presence o the glory of the Lord. My presence was not by any decision of mine but by the will o God; it is he whom you must bless throughout your days. It is he that you must praise. Now bless the Lord on earth and give thanks to God **(Tob 12:15, 18-20).**

213. Out of the depths I cry to you O Lord, Lord hear my voice! O let my ears be attentive to my pleading. My soul is waiting for the Lord; I count on his word **(Ps 130:1, 3).**

214. Grace and peace be yours from God who is, who was, and who is to come, and from the seven spirits in front of his throne, and from Jesus Christ the faithful witness the first-born who was raised from death, who is also the ruler of the kings of the earth. He loves us and by his death he has freed us from our sin **(Apoc/Rev 1:4-5).**

215. All scripture is inspired by God and can be profitable for instruction and for teaching men to be holy. This how the man who is dedicated to God becomes fully equipped and ready for any good work **(2Tim3:16-17).**

216. A discerning son is he who keeps the law **(Prov 28:7).**

217. The Lord is king let the earth rejoice, let all the coastlands be glad. Cloud and darkness are his raiment; his throne justice and right. The Lord loves those who hate evil: he guards the souls of his saints; he sets them free from the wicked **(Ps 97:1, 7).**

218. When the appointed time came God sent is son, born of a woman, born a subject of the Law, to redeem the subjects of the Law and to enable us be adopted as sons **(Gal 4:4-5).**

219. Father, Lord of heaven and earth, I thank you because you have shown to the unlearned what you have hidden from the wise and learned **(Mt 11:25-26).**

220. I am not ashamed of the Gospel. It is the saving power of God but everyone who has faith – the Jew first, but the Greek also – because here is revealed God's way of righting wrong, a way that starts from faith and ends in faith; as scripture says, he shall gain life who is justified through faith **(1Thes 2:2-4).**

221. Don't be afraid of your enemies; always be courageous and this will prove to them that they will lose, and that you will win because it is God who gives the victory. Don't do anything from selfish ambition or from a cheap desire to boast; but in humility count others as better than yourselves. Let each of you look not only to his own interests but also to the interest of others **(Phl 1:28,2:3-4).**

222. Thus says the Lord, apart from me you can do nothing **(Jn 15:5).**

223. Pray that the God of peace may make you read to do his will in every kind of action, and may he transform you all into whatever is acceptable to himself through Jesus Christ **(Heb 13:20-21).**

224. For the love of Christ I count everything as loss, because of the surpassing worth of knowing Christ Jesus my Lord so that I may gain him. It is him I want to know, and the power of his resurrection, and what I means to share his sufferings molded into the pattern of his death **(Phl 3:8, 10).**

225. In the name of the Lord I warn you not to go on living like aimless pagans, but do the best you can for one another and for the community, because this is what God expects you to do in Christ Jesus **(Eph 4:17).**

226. I am quite content with weakness and hardship for the sake of Christ. I know what it is to be in need and what t is to t have more than enough. But I am content whether I am poor or hungry, whether I have too much or too little. I have the strength to face anything through the power that Christ gave me **(2Cor 12:10; Phl 4:12-13).**

227. Life and death are in the gift of the tongue, those who indulge in it must eat the fruit it yields/He who is kind to the poor lends to the Lord, and He will repay him for his deeds **(Prov 18:22/19:17).**

228. From the dust he lifts up the lowly, from his misery he raises the poor to set him in the company of princes, yes, with princes of his people. To the childless wife he gives home and gladdens her heart with children **(Ps 113:4).**

229. By speaking the truth in the spirit of love we must grow up in every way to Christ who is the head. Under his control all the different parts of the body fit together, and the whole body is held together by every joint **(Eph 4:15-16).**

230. We must never become tired of doing good because if we give up the struggle we shall reap our harvest in due course. While opportunity offers we must do good to all. A man reaps what he sows **(Gal 6:8-10).**

231. I marvel that you are so soon deserting him who called you to the Grace of Christ and turning to a different gospel – but even if we or an angel from heaven should preach to you a gospel contrary to that which we preached to you, let him be accursed **(Gal 1:6,8).**

232. Listen O Israel and take note of the laws and customs which I am teaching you. You must add nothing to what I command you, and take nothing away from it. The words that I have spoken to you are spirit, and they are life **(Deut 4:1-2; Jn 6:63).**

233. Live your whole life in Christ Jesus our Lord according to the tradition you have received of him.(**Col 2:6-7).**

234. My God, my God why have you forsaken me? You are far from my plea and the cry of my distress. O my God, I call by day and you give no reply; I call by night and I find no peace. You are my praise in the great assembly. My vows I will pay before those who fear him **(Ps 22: 1-2, 19).**

235. Do not worry about your life and what you are to eat, nor about your body how you are to clothe it. Surely, life means more than food and the body more than clothing. As long as we have some food and clothing, let us be content with that **(Mt 2:25;1Tim 6:8).**

236. This is what you are to teach them to believe and persuade them to do. Anyone who teaches anything different, and does not keep to the sound teaching which is in accordance with true religion, is simply ignorant and must be full of self-conceit-with a craze of questioning everything and arguing about words. All that can come of this is jealous, contention, abuse and wicked mistrust and unending disputes **(1Tim 6:3-6).**

237. You are part of the building that has the Apostles and prophets for its foundation, and Christ Jesus himself for its main cornerstone. In him you also are being built into a house where God lives in the Spirit. In him, the whole building is bonded together and grows into a holy temple of the Lord.**(Eph 2:20-22**).

238. The faults o some people are obvious long before anyone make any complaint about them, while others have faults that are not discovered until afterwards. In the same way, the good that people do can be obvious; but even when it is not, it cannot be hidden forever **(1Tim5:24-25).**

239. God called you through the gospel we brought, so that you may possess as your own the splendor o our Lord Jesus Christ. Stand firm them and hold fast to the traditions which you have learned from us. The Lord hates ever kind of vice; you cannot love and still fear him **(2Thes 2:14-15; Ecclus/Sir 15:13).**

240. The usefulness of spirituality is unlimited since it holds out the reward of life. The point of all our toiling and battling is that we have put your own trust in the living God. We have been persecuted but never deserted, assaulted but never killed **(1Tim 4:8, 10; 2 Cor 4:9).**

241. O that I had wing like a dove to fly away and be at rest, I should escape far away and take refuge in the desert. The world with all its craves for is coming to an end; but anyone who does the will of God remains forever **(Ps55:7-8; Jn2:17).**

242. Grace and peace be yours from God who is, who was, and who is to come, and from the seven spirits in front of his throne, and from Jesus Christ, the faithful witness, the first-born Son who was raised from death, who is also the Ruler of the kings of the earth. He loves us, and by his death he has freed us from our sins **(Apoc/Rev 1:4-5).**

243. I thank you Lord all my heart, you have heard the words of my mouth. In the presence of the angels I will bless you, I shall adore before your holy people. The Lord is high yet looks on the lowly and the haughty he knows from afar. Though I walk in the midst of affliction you give me life and frustrates my foes **(Ps138:1-2;7-8).**

244. Keep watch over the flock over which the Holy Spirit has given you charge, as shepherds of the Church of God, which he won for himself by the blood of his own Son. Stewards are expected to show themselves trustworthy **(Acts 20:28; 1Cor 4:2).**

245. Brothers, I want to remind you of the gospel I preached to you, the gospel that you received and in which

you are firmly established, because the gospel will save you.(1Cor15:1-2) Our God gave us the courage to tell you the Good News that comes from him, even though there was much opposition. For the appeal we make to you is not base on error or impure motives, nor do we try to trick anyone. Instead we always speak as God wants us to, because he approve us and entrusted the Good News to us, We do not try to please men, but to please God, who tests our motives **(1 Thes2:2-4).**

246. Take you share of suffering for the sake of the gospel, in the strength that comes from God. It is on you today he ho brought us salvation and called us to a dedicated life, not for an merit of ours but of his own purpose and his own grace which was granted to us in Christ Jesus **(2Tim 4:8-9).**

247. We always give thanks to God the Father of our Lord Jesus Christ, when we pray for you. For we have heard of your faith in Christ Jesus and of your love for all God's people. When the true message, the Good News first came to you, you heard of the hope it offers. So you faith and love are based on what you hope for, which is kept safe for you in heaven **(Gal 1:3-5).**

248. Through faith the saints overthrew kingdoms established justice, saw God's promises fulfilled, and grew powerful in war. These, one and all, are commemorated for their faith **(Heb 33-34, 39).**

249. Do not remain silent when you should speak, and do not hide your wisdom; for wisdom is recognized in speech, and it is the tongue that gives good counsel. Proclaim the message, welcome or unwelcome, insist on it. Refute falsehood, correct error, call to obedience – but do all with the patience that the work of teaching requires **(Ecclus/Sir 4:23-24; 2Tim4:2**).

250. Sing a new song to the Lord for he has worked wonders. His right hand and holy arm have brought salvation. All the ends of the earth have seen the salvation of our God. Shout to the Lord all the earth, ring out you joy **(Ps 98:1-2, 4-5).**

251. If a man was rich enough in this world's goods saw that one of his brothers was in need, but closed his heart to him, how could the love of God be living in him? My children, our love is not to be just words or mere talk, but something real and active **(1Jn 3:17-18).**

252. AS the rain and the snow come down from the heavens and do not return without watering the earth, making it yield and giving growth to provide seed for the sower and bread for the eating, so the word that goes from my mouth does not return to me empty, without carrying out my will and succeeding in what it was sent to do **(Is 55:10-11).**

253. This law that I enjoin on you today is not beyond your strength or beyond your reach. No, the Word is very near to you, it I n your mouth and it is for your observance **(Deut 30:11, 14).**

254. May Christ's message in all its richness live in your hearts. Teach and instruct each other with all wisdom, Sing psalms hymns and sacred canticles. Sing to God with thanksgiving in your hearts **(Col 3:16).**

255. Worthy are you our Lord an God, to receive glory and honour and power, for you created all things, and by you will they existed and were created. You have made u a kingdom and rests to our God, from every tribe and tongue and people and nation… to receive power and wealth, and wisdom and might, and honour and glory and blessing **(Cant /Rev 4:11; 59:10,12).**

256. I will greatly rejoice in the Lord, my soul shall exult in my God; for he has clothed me with the garments of salvation, he has covered me with the robe of righteousness **(Is 61:10-13).**

257. Whatever you do, work at it with all your heart, as though you were working for the Lord, and not for men. Remember that the Lord will reward you; you will receive what he has kept for his people. For Christ is the real Master you serve **(Col 3:23-24).**

258. We can be sure that we know God only by keeping his commandments. Anyone who says 'I know him', and does not keep his commandments is a liar refusing to admit the truth **(1 Jn 2:3-4).**

259. Give thanks to the Lord for h I good, for his love endures forever. The stone which the builders rejected has become the corner stone. This is the work of the Lord, a marvel in our eyes. This day was made by the Lord, we rejoice and are glad **(Ps118:1, 17).**

260. I consider that the sufferings of this present time are not worth comparing with the glory that is to be revealed to us. For the creation awaits with eager longing for the revealing of the sons of God, for creation was subjected to futility, not of its own will…because creation itself will be set free from its bondage to decay and obtain the glorious liberty of the children of God **(Rom 8:18-21).**

261. No man can come to me unless he is drawn by the Father who sent me, and everyone who has listened to the Father and learned from him comes to menthe prophets have written: 'they shall be taught by God' (Jn 6**:44-**

45).

APPENDIX III - EPILOGUE

Now that by God's inscrutable ways I see myself concluding this task that I began writing starry-eyed and head-in-the-clouds in 2010, I want to thank the Good Lord of Providence and my Maker because there is nothing more fulfilling and gracious than to complete a task that had kept one on one's toes all the time like an infinity, ever praying for when it would be done. "If it were done when it were done, it were well, it were done quickly", so thought the legendary William Shakespeare **(Cf. William Shakespeare in Macbeth; 1546 - 1616).** I remember that Dominic Cardinal Ekandem started right during the Holy Year he prominently participated in 1950 to dream about founding a Religious Congregation of Nigerian Priests, and that never materialized but in the 1980s. But this never happened to me. It was frustration, tears of joy and sadness, anxiety, sickness, festic wounds, sleepless nights bordering on despair and worry but with a great dose of prayer and wakefulness. Personally, I had contemplated writing A History Book on the Mission Stations and Parishes of Old Calabar Diocese, but look at when it has come to pass, and even then, very very incomplete at that. I understand Archbishop Joseph Ekuwem has collected life-photos of Churches in the Archdiocese of Calabar, yet nobody knows when these will make any headway from the Archdiocesan Archives! Sometimes I take a long look at myself. I consider where I come from; my resources, my strengths, my weaknesses and above all my providential endowments and antecedents. I consider how far others more endowed and beter off than me have gone. I look at their endowments and successes, even their failures, if any. Sometimes I consider how the world no doubt, has become an oyster laced with pearls for them. But what about me? Then I look back at myself and reminisce how I feel the narrative of my life has been anything but bumpy and rough. But then I soon come to realize and learn from my journey of life that delay is not denial. I discover that sometimes things will come when they will come because nobody can hurry it along no matter how much anyone works, or plans or prays.

What we need is a great deal of patience, trust and resignation to God's Most Holy Will because for Him, there is no time limit. God has the most perfect timing for what is meant for each of us. He is certainly going to come through for us as long as we keep faith and refuse to give up but keep on working even harder. **Our Rev. Fathers taught us to keep faith and admonished us: "work as if everything depends on you; pray and trust as if everything depends on God."** Sometimes the delay is God's inscrutable way of preparing you for greatness beyond what you even envisioned because God didn't bring you this far to leave you behind, and you didn't bring yourself this far to give up. Hence I continue to increase my determination and pray in order to be able to do everything with all my might while at the same time exercising patience. I am talking particularly about this Book which has taken me almost ten years to accomplish. I can forget about other areas of my life for the moment. Nevertheless, l believe that God deposited lots of Graces and Virtues in me and l tried with all my best to ensure that l did not lose the focus.

My only worry is the neo-Nigerian system of governance and rule which have kept the Nigerian gentry and masses gaping, disillusioned and disconcerted. This is not exactly what those of us who in their twenty's, old enough and after finishing at High School, and even getting employed in some cases, expected Nigeria to be. Most importantly and especially after "wonderfully and enthusiastically" celebrating the Golden Age of Nigeria, to wit, Nigeria's Independence Celebration on October 1, 1960. Considering my humbleself as House Master and Tutor in a Higher School, life was full of promises.

Then certainly this is not the Nigeria we saw enfolding before us. But all that expectation has been dashed, flattened and completely annihilated if not disillusioned and abused. I therefore make bold to warn and at the same time admonish and exhort the handlers of this country who have put the gentry and the masses of this nation including even our revered age-old Traditional Rulers notably the Obong of Calabar, the Shehu of Borno, the Olu of Warri, the Oba of Benin, the Oni of Ife, the Obi of Onitsha – maybe and possibly the Sultan of Sokoto into their pockets, thus making themselves the owners of this blessed country of ours. How-be-it you can begin to argue, but please a MOMENT? Don't include the Sultan of Sokoto, the Oni of Ife, the Oba of Benin or the Obi of Onitsha! Well you can tell that to the marines for all they care. But I know, and I repeat: without the subjugation of the then Obong of Calabar by the British in the 1880 - 1890s, though they actually could not, and his signing the Treaty of **AMALGAMATION**, there would be no Nigeria for these crop of Nigerians today to pocket. Why? Because he was the only one holding the **LAST TRUMP CARD.** He alone could OUTMANEUVER **AMALGAMATION** and hold it firmly in his grip. Then nothing would have happened. The British even with their West African Frontier Force (**W.A.F.F.**) could do nothing and nothing could have happened to him. Because as **URUAN ATAKPO - EFIK EBURUTU** say, and I repeat: **"? kp? inamke Abasi Abriba ke Abriba**." **Ikponyu inamke, idinyu inamke: ? kakat itaha itiat; ibuot ik? ke Ekpe"**. Watch the TV when these Royal Fathers and guys are on telecast and show whether you will notice the **OBONG OF CALABAR** and the **AMANYANABO** of Rivers/Bayelsa there in any recent Nigerian Celebrations. They are completely blacked out and ignored if not sequestered and insulted.

I want the political class cum military brass of this country who have hijacked the Nigerian State and made her their possession to take note of this that doom's day may be awaiting this country if we continue like this. They have made the Nigeria of our dream a seeming circuit of sorts. You can fool some of the people some of the time and even all the time; but you cannot fool or take all the Nigerian citizens for a ride all the time. When the citizens, the good people of Nigeria will say: "**ENOUGH IS ENOUGH**", let them not take the next available plane in flight in whatsoever guise or guile. It will be like unto Sodom and Gomorrah in the days of Lot. Remember Lot's wife **(Cf. Gen. 19: 1-29)**. Let all also try and read this:

GOVERNANCE BY THE CABALS: COUPS AGAINST NIGERIAN CITIZENS

At this juncture it may be profitable if not absolutely necessary to pause a little and point out that both the masses and the citizenry in African nations but most especially here in Nigeria, will never get it even if only peanuts when the Potentates and Rulers continue to take this dammed nation of ours as their portion. The political mantra or slogan in politics and in the African mentality of '**governance and rule**' is about **"who gets what"?** Nobody talks about legacies because there is so much cynicism between those who govern and the governed. And those in power whether of the military or civilian brands will always lord it over the masses including even the gentry of this nation. Only just a handful of the cabal will subjugate the masses and keep them prostate for all you care by amassing all the wealth and good things belonging to this nation and keeping the Commonwealth for themselves, their families, cronies and stooges for eternity. This is because they have no conscience and do not care a damn for the masses. But why"? Because did not the Lord Jesus say it to the consternation and bewilderment of His adoring crowds: **"And He said to them, 'You know that the Rulers of the Gentiles lord it over them and their great men exercise authority over them to make their authority felt and to be called 'Benefactors' (Cf. Mtt. 20:25-26; Mk. 10: 42 – 43; Lk. 2225-26).** Yes, **BENEFACTORS** simply **FOR THE PEANUTS AND DREGS OR STOMACH INFRASTRUCTURE WHICH ARE SURRENDERED AS HAND-OUTS TO THE MASSES TO PICK UP AS SCAVENGERS. OH, POOR NIGERIANS!** These are our so-called political class and big wigs with dirty money and acquired wealth of filthy **lucre** which sources nobody cares to find out. These are our Politicians, Religious Leaders and Preachers of the

Gospel of Affluence, Prosperity, and Breakthroughs, but most especially our rich industrialists, ex-military generals, business tycoons, money magnates, moguls and entrepreneurs of commerce, the military elites, the rich oil barons and the Bill Gates, the Dangotes, the Otedolas and the Adenugas of this world who never want the goods and resources to trickle down to the masses.

Governance is not about charity or stomach infrastructure, even if it is, those who want to govern must have the conscience, the moral principle and character; the competence and vision-driven aptitude and "**sense of leadership with service and humanity".** They have to also be imbued with a good dose of good intentions to serve for the benefit, upliftment and progress of their suffering masses whom they have brought forth on their hands through their actions and inactions. "Poor masses" in any country of Africa are as a result of the system of governance and rule they are operating. They should know that inequality in the sharing, distribution and amassing of the goods of this world is evil. Whatever they have amassed, whatever comes forth from whatever name called system of Governance, belongs to the people and must be for the benefit of all – the real owners of the Commonwealth and Nation vis-à-vis Nigeria.

But who are they? They are mostly the men – military and civilian, who after running their home States as Governors, Senators, MHRs, etc. promote themselves to the Senate or even when as Senators and Hon MHRs return home as they age, to become Monarchs of the Regnum to thereafter hand - over to their sons and cronies to lord over the masses and keep them forever and ever marginalized and pauperized. Can there be any hope or future for the Masses of Africa, nay the Nigerian masses to ever get there or to even get the crumps that fall from the table of the masters? The masses will never get such a chance, rather it will so happen that 99% of the goods and services of this country will be in the hands of the cabal 1% while the remaining 99% of the population will always go hungry, angry and confused and reduced to living at less than a $1 per day. Unless, and until there is governance in complete sync with our African version of governance and rule ie. between the Military/Political class, the Religious Leaders and the Civil Class with absolute natural Traditional Rulers carrying their people along, then forget about it. Call it the reconstructed and reformed version of the **INDIRECT RULE** which recognized the triumvirate or tripartite system of governance whereby everybody/ie. every class of the citizenry had a stake in government and rule.

It should come to where nobody lords it over another and where the total goods and services of the nation are controlled by the citizens of this country. Then Africa nay Nigeria is certainly heading towards anarchy and doom. God forbid! You cannot do it better than the Colonial guys and those seemly and decorous godly British Potentates who discovered to their shame and confusion that they could not "impose" whatever **"civilized form of government/rule"** on the already well-structured and organized pagan African societies of yore, without running the entire system aground. And that is what our African Potentates in whatever category or school of thought/ mentality are trying out and very unsuccessfully too, if not wickedly and maliciously trying to do so, and without any qualms, without conscience and principle. My take on **"RESTRUCTURED INDIRECT RULE"** is that considering the developed and advanced economies like the USA, China, Japan, etc. these practice a sort of participatory economy whereby everybody including as in our case, market women, palm wine tappers, groundnut sellers, roadside food vendors etc. are seen as part and parcel of those growing the economy of this country, and not just the money magnets. **Market-Moni, Trader Moni, etc.** should not be practised because they look like **HAND-OUTS,** and only very few can participate. Everything should be set on motion to enable every citizen practise his/her trade. Cash and carry Royal Politicians including those who had been Senators, Governors etc. should not be elected Village/Clan Heads or Paramount Rulers anywhere. They are **NOT** original, and certainly not natural Rulers or God's Vicerents on earth. Authentic and natural

Paramount Rulers only should be appointed as Heads of LGAs with seasoned career civil servants and technocrats of ranks not lower than DGs and Permanent Secretaries appointed also as Heads of Service and Administrators of LGAs in-charge of supervising and administering the funds accruing to Local Governments nationwide. No Royal Father should handle Government revenue but should be well mobilized, remunerated and motivated with necessary instruments and means to execute and accomplish their legitimate functions among the people.

In fact, as a kid in the 1940s, I often noticed the Colonial D.O. coming to our compound to meet HRM, my granddad who was the Paramount Ruler of the entire **UYO PROVINCE**. During the meetings, they talked about money and some infrastructures to be carried out in the N/A Areas. After that the D.O. would bring out some papers for my granddad to sign ie. by appending his right thumb on it. Usually there were three copies each: ie. for the D.O. himself, for my granddad and for N/As Presidents. After which my grand dad would promptly dispatch them to the different N/As in the Province. This scenario was not lost to me as I was growing up and taking up responsibilities especially when I was the R.C.M. Education Secretary in -charge of Catholic Schools in Calabar and what is now Akwa Ibom State. This meant accountability and transparency. Of course, trust the British Colonials with integrity, and the name of the British Crown to protect! Afterwards the D.O. would bring out a small brown envelope for my granddad because in those days, Royal Fathers of any Grade whether as Village or Clan Heads were not on any salary. Yes, this is the only brand of governance I consider good enough for Africans as proffered in those pages above, viz. a triumvirate whereby the unadulterated and apolitical traditional Leaders direct the governance and their people in the Local Government Authority Areas, especially in rural communities. It will also be profitable as a resumé to summarize the Reviews of this Book you are holding in your hands.

A SUMMARY OF THIS BOOK REVIEW

I have come to the conclusion and consider it necessary for the benefit of readers of this Book to give a brief summary of the comments of those who have made what can be considered an appraisal of this book by way of Book Review. Those who have made the Book Review notably, Lady Eno-Abasi Urua, Professor of Linguistics in the Department of Linguistics and Nigerian Languages University of Uyo, Dr. Ubong Umoh who is Senior Lecturer in Military History in the Department of History and International Studies, University of Uyo as also Very Rev. Fr. Dr. Francis O. Essien Sr. Lecturer and H O D in the Department of Missiology a.k.a Theology of Missions in St. Joseph's Major Seminary Ikot Ekpene, Akwa Ibom State of Nigeria. According to them this monumental twelve Chapter book with over 1400 pages sets out to reconstruct the evolution and development of what it terms "URUAN/EFIK" as a model melting pot for national and continental unity. Very early in the book, any reader would be seduced to the author's confidence in the "melting pot thesis" rather than the "salad bowl model" as an ace for unity, peace and progress in Nigeria. The book has twelve Chapters, 58 preliminary pages (in Roman figures) and 1378 pages (Arabic figures) of the main work including bibliography and index. Not much justice can be done to a book of this volume by summarizing it in a few pages and within such a limited time. However, we will give in a resume the contents of each chapter for the sake of brevity.

The book does not seek to establish an empire but rather to build a consciousness, identity, and solidarity of URUAN/EFIK ethnic nationality which has often been confused if not wholesomely distorted leaving to the minds of those seeking the truth often gravely agitated. Furthermore, the book does not advocate political irredentism but rather a rallying point for unity. This is analyzed from four connected levels of analysis: the individual, group/domestic, interstate/systemic and continental levels. It harps on the overall integration and general development of the ethnic nationalities in Nigeria with URUAN/EFIK setting the pace. The book is an intellectual extension and historiographical improvement upon the attempts of earlier scholars on the thematic area of discourse such as G. I. Jones, M. D. Jeffreys, E. J. Alagoa, K. Nair, E. O. Erim, M. E. Noah, Okon Essien, M. B. Abasiattai, E. U. Aye, E. O. Akak, among others. The preliminary vortex of the book places the setting of an extensive lamentation thus: "It appears the generation which epitomized the URUAN/EFIK ancient laws and traditions is rapidly disintegrating and accordingly a new generation, mostly of the elite that hastily cast off most valued traditional norms and customs have emerged adopting Western ideas and cultures thereby eroding the African heritage (Cf p. 103).

The book resents the wholesale disintegration of order in Nigeria as a consequence of a rather successful and continuous challenge on an existing order which predates Christianity and Colonial Rule in the geographical space that later became Nigeria. It represents it as a conflict between tradition and modernity in three forms. The first is the conflict between the old people and the youth, the second between the natural rulers and politicians, and the third between Orthodox and Pentecostal Churches. The conflict is identified by the Author as a loss of continuity. Consequently, the author progresses on a dialectics, making a strong case for a return to the "ancient regime" or the "old order", precisely what has been now mouthed in the mantra of the **"RESTRUCTURING OF A NEW NIGERIA"** with a New Dispensation and Constitution in tow. However, in his submission, this should be done in such a way as to accommodate and not mindlessly embrace contemporary disorder. It highlights contemporary disorders as deviation from the original which has resulted in the struggle between the old (thesis) and new (antithesis) awaiting a **SYNTHESIS**. Such a synthesis is expected to contain more of the old than the new, making more for continuity rather than change. He submits that the crisis in Nigeria is arguably a

neglect of continuity. The Author also maintains strongly that the contemporary problems of socio-economic and political development that traverse many of our Nationalities cannot be holistically addressed except within their historical and cultural contexts – quoting an age-old and venerable URUAN/EFIK adage: **"ema efre ntak, ntak ?t?h?"**, one of the many proverbs he employs to add profundity and colour to the book.

To this end, the author cautions the youth against being misguided into further distortion and dispersal of our age old historical, social values and traditions and goes on to link traditional institutions to the cosmos of the people. The energy of youths should interlock with the wisdom of the Elders. This explains his peculiar emphasis on the Chieftaincy/Traditional Institution as a moral institution that should be tapped for the development of Nigeria and a rallying point for governance and legitimacy **(Cf. p.426)** and insists that on no account should it be traded to the highest bidder and to cash and carry politician Chieftaincy /Traditional Rulership seekers. The Author has confidently provided a tonic for good governance by separating politics and governance arguing that "governance should be a shared responsibility between the politicians and the Natural Rulers" **(Cf. p.440)**.

The book vents upon laziness, identifying distinguished selfless service and integrity as the basis for appointment into offices. However, this is overshadowed by ignorance which has challenged progress and change. He equally identifies a clear weakness in collective inability to reciprocate our national forbears who were known to be industrious, courageous, highly talented and purposed. Hence a total departure from the expectations of our illustrious ancestors into the criminality, chaos, poverty, ignorance, lethargy and underdevelopment among the modern youths. He also argues further that new developments in the plurality of religious sects and the quality of "new" churches appear to have scrambled the possibility of high moral values, hard work and patriotic spirit in communities, leading to lack of unity, crisis of value and the absence of collective development. Consequently, although Nigeria is blessed with abundant human capacity to succeed, it appears to be halted because it has not exploited its ethnic inter-connectedness and natural inheritance to ensure the future and prosperity of the nation.

The book sends out strong currents of an inside out perspective on the ethnic nationalities in Nigeria with particular reference to **URUAN/EFIK**. However, it appears that the Author in his proposed "New Ideas" did not take into account the predominant Islamic Religion of Northern Nigeria in his clarion call to a return to God under "**ONE CHURCH**". But elsewhere and knowing where the Author is coming from, he had advocated that it was not a mere wish, but that the Lord Jesus Himself had emphasized about the need for unity in his Church including Islam and others "outside the fold: **"And I have other sheep, that are not of this fold; I must bring them also. So there shall be one flock, one Shepherd" (Cf. Chapter VIII pg. 758: Jn. 10:15-16).** Besides, the title of the Book appears elastic and hazy. Although the Author argues on keeping the book in one volume, it would have encouraged greater readership if the font size was increased. Otherwise a multi-volume approach would be ideal barring astronomical publication costs!

In all, the book serves as a proposal and advocacy for **'nation building,'** using the ancient values of **URUAN-EFIK** as case study. Proverbs, idioms, satires, anecdotes and even sarcasms of some ethnic groups in Nigeria have been exhumed to show what is peculiar and what connects, thus strengthening the central theme of the book which intends to show our inherent interconnectedness. It is an interdisciplinary **MAGNUM OPUS** which bestrides linguistic relations, social anthropological matrix, gender relations, religious and cultural studies, migration history among others, supported with photographs. The 1133-page book has a page for everyone depending on class, gender, age, status and

exposure. This makes it a deep penetrating book and arguably, a "One **size fits all"** kind of book. Beyond these, the Author projects **URUAN-EFIK** culture through its plays and dances, and topping the list pride of place is given to **EKPE** and understandably so. **EKPE** is the society which the Author goes on to explain the foundations, functions, and the different masks in detail. It is indeed a study of the rich cultural heritage of **URUAN-EFIK** peoples which the people should always be proud of and therefore promote and sustain.

It is practically impossible to review a book of this magnitude in two or three months. It is not even possible to digest the book within such a period of time talkless of writing a meaningful review. What we have done is merely to present this review in very broad strokes, scratch the surface, tempt and entice the reading public with sufficient baits to invite them to taste the vision of the Author and the richness of this book! The Author has bequeathed an enviable legacy to the UFRUAN-EFIK peoples, to the envy of other nationalities in Nigeria. No one has done what the Author has for us Nigerians as a people – spiritually, historically, culturally, socially and politically. Prior to now. Today we can hold our heads high anywhere in Nigeria and beyond. As the Author himself has pointed out, we have a generation of young people who are not interested in reading books. Therefore, to make this effort worthwhile, our educationists must endeavour to extract the relevant potions of the book into a reader - friendly text that our young people, whom the Author is targeting, would want to read. This should also be taught in the schools especially in **URUAN-EFIK** and should be seen in every home. The Author from this book and the Interview he grated the Reviewers of this Book, is passionate about the re-unification of URUAN-EFIK peoples and understanding of where the rain as Chinua Achebe wrote," started beating us so that we know how to forge ahead". The Author also reveals the interconnectedness of the different ethnic nationalities in Nigeria which should then be mobilized to forge group and national unity. Our diversities have arisen simply because from a common history and should not be a source of division and as the Author puts it: **"Idibi ke ete – ke ete idige odusat"** ie. coming from the different cultural groups just like children from different brothers/sisters of one and the same parents should not be a source of disunity and division or going in separate directions.

Finally, the Author has shown uncommon courage in delving into issues of our history that are sometimes outrageous, controversial, unfounded and leading to divisiveness and uncertainty. Of course, the debate has not ended and the Author's colossal contribution can be seen as an important reference and resource book and the platform for a take-off of the debates. He has also made enormous personal sacrifices of time, in human and material resources to produce this legacy, which calls for all of us whether as URUAN-EFIK, or simply as citizens of the Nigerian nation state, to support this effort. We therefore wholeheartedly recommend this edifice to our dear readers!

Specifically, the Book Presentation and Review of this Book by Rev. Fr. Francis Essien also needs special mention here because as he puts it, "of all his works, the Author Monsignor J. P. Ekarika describes this as **My OPUSCULUM."** Indeed, it is his greatest work written at his retirement. It is a clear indication of one who is not tired of writing and we congratulate him that even at his age his memory is still lucid.

METHODOLOGY: As the work is very voluminous and vast in contents, the author uses Deductive method, inductive method and didactic method of objective evidence. In some cases, competent people were interviewed. Oral traditions embedded in epic narratives, legends and cultural practices have also formed the sources of information in the course of writing this book. In the introduction, he explains the difficulty that one would encounter while setting out to write a pre-history account and events of "non-literate societies" with precision when historical facts were transmitted through oral tradition and

archeological findings. The readers of this Book should therefore not be surprised to find therein some controversial issues, doubtful claims, disputed facts and dates. However, before the author puts them down he was reasonably sure of his facts.

The book is historical; it traces the origin of some tribes to biblical roots. The main means of transport then was by water and the Author has shown how some groups had voyaged to settle in their present day locations. Not basing strictly on Genesis account of creation, the author attempts to show a common ancestral origin of peoples—the oneness of humanity as Christ prayed Father may they be one. His account brings out vividly the privileged position of URUAN/EFIK peoples and distinguished personalities from this part of the world. For instance, Calabar was the first capital of Nigeria in 1893, the then Headquarters of Oil River Protectorate. Hope Waddell Training Institute was the first Higher Institution founded in 1895. This institution had produced great men in Africa and Nigeria in particular the likes of Chief Nyong Essien, E. N. Amaku, Zik of Africa, Sir Festus Okotie Eboh, Sir Francis Akanu Ibiam, Denis Osadebe and later on Cmdr. Okoh Ebitu Ukiwe (rtd). Of the 15 people that represented Nigeria in 1947 at the London Pre-Independence Conference, 8 were ex-students of this College. The first Nigerian Professor, Professor Eyo Ita came from here so too was Hogan Bassey the 1st Nigerian Boxing World Champion in 1957. Mr. Foot Ball first FIFA Representative, Etubom Oyo Orok Oyo-Ita, the first Nigerian Inspector General of Police, Sir Louis Edet, the first Photographic and Phototropic Studios in West Africa all had their origin from Calabar. The first ever private institute - the West African People's Institute (WAPI) was founded by Professor Eyo Ita here in Calabar. All these are to remind us of URUAN/EFIK greatness in the past. It is also to enable us all know where we were then and where we are now most importantly where we should be henceforth.

This Book to be presented to you the general public is its second edition and articulates those other Nigerian Nationalities that were not treated in the first Edition. But altogether in both editions, URUAN-EFIK, Annang, Eket, Ibibio, Aba, Tiv, Idoma, Ijaw, Igbo, Yakurr, Igala, Hausa-Fulani, Yoruba, Ikom, Boki, Bekwarra, Fernando Poo, Cameroun, Ekoi, Qua, Efuts, Okoyong, etc. are included herein and the beginnings of the Catholic Church in Eastern Nigeria, particularly Old Calabar/Ogoja Missions as they were called.

The fundamental Thesis of the Book is in the FOREWORD, where the author maintains that all the arguments written and un-written about the EFIK, URUAN and ORON even the ANNANGs, IBIBIOs, EKET etc. indicate they all come from a common stock and Tribe. EFIK, URUAN and ORON being a single unique sub-tribe with all their peculiarities, features and cultural traits which have only one ancestral root. For this, reason, they should be united and strong as one single nationality.

The book is divided into twelve chapters including some wise sayings - Proverbs from other races and tribes in Nigeria and elsewhere in the world including Latin, German, Italian English and French garnered from those who were ready and willing to contribute as well as a Glossary for easy elucidation of foreign words and references to materials which needed re-occurrence. **Chapter I** deals with the culture and ethnographic history of ancient **URUAN** including the evolution of the great **EFIK** kingdom and URUAN-EFIK in the Diaspora. **Chapter II** treats **URUAN-EFIK** Traditional and political structures with demographical and sub-tribal dimensions. **Chapter III** treats Cultic Organizations especially the great **Ekpe** mystical cults including **Idem Ek? kemba, Ekpo Ny?h?, Akata**, etc. while **Chapter IV** takes on the whole issue of **URUAN/EFIK** Religion in all its ramifications including world religious practices and artifacts. **Chapter V** deals with **URUAN-EFIK** socio-cultural and moral institutions together with a synthesis for crime detection and their penalties. **Chapter VI** treats the complex

structures on marriage, both pre-Christian and modern with emphasis on crimes against the Marriage Institution, while **Chapter VII** concentrates on Chieftaincy Affairs and their Institutions. **Chapter VIII** gets back to Religion and particular churches as also denominations with specific reference to the Council of Churches, Inter-Religious Dialogue, Ecumenism, etc. The story of the Catholic Church in particular detailing the origins of the Church both in some stations and villages caps the Chapter. **Chapter IX** treats the new re-organization of **URUAN-EFIK** in her clans and villages with reference to the rebuilding of the **URUAN-EFIK** nation. **Chapter X** deals with URUAN-EFIK National Congress with IDU as paradigm. **Chapter XI** brings back the reader to the main title of the book viz. the re-building of **URUAN-EFIK** as a progressive city vis-à-vis the NIGERIAN nation in Africa. **Chapter XII** completes the book and presents the yet to be implemented Constitution and Bye-laws for URUAN-EFIK nation which was proposed since the 1950's with the Author as one of the prominent members of that Constitution Committee. The Author also took time to supply readers with some age-old Proverbs and Wise Sayings to enable readers avail themselves of the ancient language of our ancestors worldwide especially from their speeches and writings since these will also be beneficial even for those who preach the Gospel of Love, Tolerance, Initiative and Goodwill in our churches because they will add flavour to and vivify their expressions, homilies and talks. These are figurative expressions which constitute the spices that give taste to the language of the living which also encourage intellectual exercise.

ADVOCACY: The Author strongly recommends Nigeria's return to a new manageable viable six Regions as formerly with the 3/4 before the Nigerian civil war for authentic fiscal and political federation of NIGERIA. This advocacy seems to be in line with the restructuring mantra bombarding the Nigerian media-space because the economy of the regions especially in terms of trade in goods and services catapulted into millions of Pounds – viz. billions and trillions of Naira in our clime. It also involved millions of traders and other personnel within the regions and the Federation. True, the foray of the military into the Nigerian political space signaled the death of regionalism in Nigeria when General Aguyi-Ironsi on February 21, 1966 announced its obituary with his famous Broadcast:

> **It has become apparent to all Nigerians that rigid adherence to "regionalism" … no doubt the country would welcome a clean break with the deficiencies of the system of government to which the country has been subjected in the recent past.**

With this Obituary General Yakubu Gowon later made the Obsequies when he created the "Twelve States" to which were added another 7 by General Muritala Muhammed to make it 19 States followed by General Ibrahim B. Babangida 11 thus making Nigeria a nation of 30 States; and lastly 6 created by General Abacha to complete the 36 States we now have. By this action the Military had thereby invariably transferred all the powers of the Regions to the centre. Since then, here we are. The advocacy for a return to regionalism by the Author has to go with due recognition and proper transfer of appropriate powers to the Traditional Rulers or Royal Fathers as well as giving them their due God-given respect, authority and prominence as the Nigerian Colonial Government and Administrators did.

The Author further emphasizes that this is specifically in order to tackle the hydra-dead problems of insecurity in kidnapping, armed robbery, violence, insurgency, rapes, cattle rustling etc. The British Colonial Government for example tried with all their might using the West African Frontier Force to destroy the Oba of Benin, Nnana of Itsekeri, Jaja of Opobo, and the Obong of Calabar but could not. They equally tried to destroy the Long Juju and Man Leopard insurgencies but failed woefully. It was to the Traditional Rulers the British Colonial Masters appealed, and pronto Slave Trade ceased, ditto the **EKPE-IkpaUkot-Man Leopard** and the **Long Juju**. Traditional Rulers are the Almighty God's

Vicerents on earth; let our neo-Nigerian Politicians leave them alone to do their God-given duties for the good people of Nigeria and Africa. For if you create leadership without authority you destroy the society and by implication, the Nation. The Author makes a clear distinction between "Traditional Rulers" of yester-years and our modern "politician and **cash 'n carry** traditional rulers". On the part of the Royal Fathers, the author pleads with them to avoid cash and carry politics, bribery and corruption and alerts the citizenry to rise up as one and purge evil rulers from the land by deposing such personae **non gratae.** They are those who make Nigeria a theatre of sorts before the international community. Unfortunately, many of them want to march in with the extravagant and materialistic life style of today and compromise their positions in favour of corrupt political policies. Nigerians should not worry much about such. God will feed them and cloth them; in His divine providence, He will always take care of them and their needs. The book is quite voluminous, the scope is wide and tends to confuse one on what direction the Author is really moving—Sacred Scripture, culture, politics, ethical conducts, Missiology and ethnic sentiments and rivalry are all discussed in the work. Having them in different volumes would probably have spelt out their uniqueness but the Author explains management of specific Volumes has always proved unwieldy, awkward cumbersome, and tricky if not complicated and problematic especially trying to find out whether the issue at hand is in Volume One, or three or seven. It is difficult to carry all the Volumes along and this has been tried already.

Finally, according to Prof (Very Rev. Fr.) Evarestus Igwe, "my job in this task of **BOOK REVIEW & RESENTATION** is simply to present a summary Review of this BOOK to the public and by implication all would-be readers of the Book. It is not going to be a long winding Book Review because you have and are going to and will likely get a copy into your hands". This Book is titled: **NIGERIA: URUAN-EFIK ESSIEN DUOPEBA – AKWA IBOM EVOLUTION,** which is of course the original title of the Book as also the Revised Edition. The addition which the Author has inserted into the Title of the Book is simply: **"AND ORIGINS/PRE-HISTORY OF THE OTHER ETHNIC NATIONALITIES – SPOTLIGHT ON THE ARCHDIOCESE OF CALABAR AND DIOCESE OF OGOJA**" simply to articulate those other nationalities not treated in the first Edition. Altogether URUAN-EFIK, Annang, Eket, Ibibio, Aba, Tiv, Idoma, Ijaw, Igbo, Yakurr, Igala, Hausa-Fulani, Yoruba, Ikom, Boki, Bekwarra, Fernando Poo, Cameroun, Ekoi, Qua, the Efuts, Okoyong, etc. were included in the first edition herein and the beginnings of the Catholic Church in Eastern Nigeria, particularly Old Calabar/Ogoja.

My views on the Book are in line with the FOREWORD which have also ON being a single unique sub-tribe with all their peculiarities, features and cultural traits appertaining.

The book includes some wise sayings - Proverbs from other races and tribes in Nigeria and elsewhere in the world including Latin, German, Italian and French garnered from those who were ready and willing to contribute as well as a Glossary for easy elucidation of foreign words and references to materials which needed re-occurrence. **Chapter I** deals with the culture and ethnographic history of ancient **URUAN** including the evolution of the great **EFIK** kingdom and URUAN-EFIK in the Diaspora eg. Ikot Osurua, Ifuho, Nkap, Abiakpo, Ikpe Ikot Nkon, Ibesit, Ikot Ibritam, Afaha Group of Villages, etc. **Chapter II** treats **URUAN/EFIK** Traditional and political structures with demographical and sub-tribal dimensions. Chapter III treats Cultic Organizations especially of the great **Ekpe** mystical cults including **Idem Ek?**

kemba, Ekpo Ny?h?, Akata, etc. while **Chapter IV** takes on the whole issue of **URUAN/EFIK** Religion in all its ramifications including world religious practices and artifacts. **Chapter V** deals with **URUAN/EFIK** socio-cultural and moral institutions together with a synthesis for crime detection and their penalties. **Chapter VI** treats the whole structures on Marriage, both pre-Christian and modern with emphasis on crimes against the Marriage Institution, while **Chapter VII** concentrates on Chieftaincy

Affairs and their Institutions. **Chapter VIII** gets back to Religion and particular churches as also denominations with specific reference to the Council of Churches, Inter-Religious Dialogue, Ecumenism, etc. The story of the Catholic Church in particular detailing the origins of the Church both in some stations and villages in the Archdiocese of Calabar, Uyo and Ogoja Diocese. **Chapter IX** captures the new re-organization of **URUAN/EFIK** in her clans and villages with reference to the rebuilding of the URUAN-EFIK nation. **Chapter X** deals with URUAN/EFIK National Congress with IDU as paradigm. **Chapter XI** brings the reader back to the main title of the book viz. the re-building of **URUAN/EFIK** as a progressive city vis-à-vis the NIGERIAN nation and Africa. **Chapter XII** completes the book and presents the yet to be implemented Constitution and Bye-laws for URUAN/EFIK nation which was proposed since the 1950's with the Author as one of the prominent members of that Constitution Drafting Committee. The Author also took time to supply readers with some age-old Proverbs and Wise Sayings to enable readers avail themselves of the ancient language of our ancestors worldwide especially from their speeches and writings since these will also be beneficial even for those who preach the Gospel of Love, Tolerance, Initiative and Goodwill in our churches because they will add flavour to and vivify their expressions, homilies and talks. These are figurative expressions which constitute the spices that give taste to the language of the living which also encourage intellectual exercise.

As has been well articulated by the Editors of the Book to the effect that all the arguments written and unwritten about the EFIK, URUAN and ORON even the ANNANGs, IBIBIOs, EKET etc., all of them are seen come from a common stock and Tribe but the EFIK, URUAN and ORON in particular, come from the one and same group. However, the author strongly recommends Nigeria's return to the manageable viable six Regions as formerly before the war for authentic fiscal and political federation of NIGERIA with the Traditional Rulers OR Royal Fathers given their due God-given respect, authority and prominence as the Nigerian Colonial Government did in order to tackle the hydra-dead problems of kidnapping, armed robbery, violence, insurgency, rapes, cattle rustling etc. The Colonial Government for example tried with all their might using the West African Frontier Force to destroy the Oba of Benin, Nnana of Itsekeri, Jaja of Opobo, the Obong of Calabar but could not; they tried to destroy the Long Juju and Man Leopard but failed woefully. It was to the Traditional Rulers they appealed, and pronto Slave Trade ceased, ditto the **EKPE IKPA-UKOT, Man Leopard**. Traditional Rulers are the Almighty God's Vicerents on earth; let our neo-Nigerian Politicians leave them alone to do their God-given duties for the good people of Nigeria and Africa. On the part of the Royal Fathers, the Author pleads with them to avoid cash and carry politics and Bribery & Corruption. God will feed them through their people and always take care of them and their needs. Let them allow politicians to do their work but let all play their roles together. As for URUAN-EFIK the author pleads with them to implement the **CONSTITUTION** w.e.f. 2018 and in sync with the Diaspora for a greater tomorrow and a return to URUAN-EFIK mother tongue.

CONCLUSION: URUAN-EFIK in the past were not behind in education, politics, sports and arts. Monsignor Ekarika's book is out to remind us of our greatness in the past and to challenge us to rise up again and shine as ever before. Most of our land holdings have been sold out by the younger generation not remembering to ask if their forebears had done such what would have remained for them for outright sales of patrimonial lands? Most of the beautiful buildings in our localities are now owned by non-indigenes. We are challenged to ask where did we go wrong? Our spirit of patriotism is thereby challenged. If we sell out all our lands today where will our children build their houses tomorrow? Where shall we cultivate food to feed the coming generations? If things keep on going the way we see, we are an endangered species and we will soon go extinct. These pertinent questions should be asked in our political and ethnic gatherings. It is not the place of a royal Father to canvas for votes to deliver our wards, our villages or clans to one special political party but thereafter return to worse situations after elections. This

book is a clarion call for genuine patriotism. From the history, we are matching backward in our political aspiration. There seems to be no ambition to become great again rather we feel proud in our intellectual and physical laziness and irredentism. This accounts for our political backwardness and the sit-tight lazy lords' (**leaders'**) attitude; always expecting strangers to do things for us. Irresponsible leaders like these could be opportunistic with abject shortsightedness. It is simply the devil's alternative and some of our so-called leaders are simply devils within. They do not seem to have any sobriety for community/national governance. This explains more poignantly why we are rapidly falling into deepening poverty and behind in every index of progress and in human development. No, we must do for ourselves what strangers may and will never do for us.

Let our traditional rulers and politicians lead us to a brighter future; each acting well his part with sincerity, integrity, honour and patriotic commitments. As each and everyone plays his roles well, the Author pleads with URUAN-EFIK people to implement the **CONSTITUTION** with effect from 2018 and in sync with the Diaspora for a greater tomorrow and a return to URUAN-EFIK mother tongue—our pride and heritage.

Udo-Ema A.J. Our Chieftaincy, in "The Nigerian Chronicle", Cross River Stat Pres, Calabar, 1969.

Msgr Joseph Ekarika is a Nigerian and hails from IDU in URUAN, the capital city of URUAN kingdom at the lower Cross River. He holds a PhD in Moral and Divinity from the Pontifical Universities of the Lateran and the Urbanania, all in Rome. He also holds a MSc. Degree in Philosophy and Social Sciences from the Angelicum University, Rome. He was a foundation member and lecturer of Philosophy, Religion and Church History in the Department of Religious Studies and Philosophy, University of Calabar and now a Lecturer and Chaplain in the Theology Dept. of St. Joseph's Regional Major Seminary, Ikot Ekpene. The Author of many books, Monographs and "Series", Msgr. Ekarika is a priest of the Archdiocese of Calabar and was the former Director of Religious Education and General Manager of Schools & Colleges as also Chairman of the Ecclesiastical Court, Marriage Tribunal and Canon Law in the Archdiocese of Calabar, CRS.
I have sanctioned and authorized the writing and publication of this book and therefore recommend it to be read by every son and daughter of URUAN/EFIK and by citizens of Nigeria, Africa and the entire world. **His Eminence, Edidem Ekpo Okon Abasi Otu V. The Obong of Calabar & Patriarch of Efik Eburutu Kingdom and in the Diaspora.**

I have lived in the old Calabar Province for 50 years. From Ekang town, border of the Cameroun Republic to Ikot Umo Essien village, bordrer with Abia State is a mosaic of diverse cultures, but there is one common denominator; the stranger is totally accepted by all. Msgr. Ekarika's book is meant to replicate this mosaic in perspective. As a priest I find it difficult to imagine a more interesting and fulfilling scenario. All I can say is, I am grateful to the Lord for leading me here. **Very Rev. Fr. Jim Kelleher, Director of SPS Mission & Promotions, African Region.**

My Rev. Msgr Ekarika has included among other things in his book some of our revered and cherished Cultural and Traditional Organizations in URUAN/EFIK. This has made it possible for the often misconstrued nature and cosmology of **Ekpe Confraternity** in particular as recondite and esoteric to become an interesting and easily assimilated piece. **Ekpe** it was that controlled our very existence and norms including the soaring socio-cultural, political, religious and traditional issues of life which have made us what we are till today. I recommend this book to all lovers of African cultures and traditions worldwide. **Etinnyin (Engr) B. E. Bassey (Former Commissioner for Education Old CRS**)

Re-writing the Ethnographic History of a prehistoric people and everything in between, URUAN/EFIK ESSIEN DUOPEBA IN PRE-HISTORY AND HERITAGE should be one of the best selling Cultural and biographical histories of the past two centuries of our era and a mainstay for scholars, students, citizens and others looking for an accessible history of URUAN/EFIK vis-a-vis Africans. I commend the authoritative and thorough approach of the Author from such topics of fury, dissent and distortions to sound advocacy of renewal embedded in the book. **Engr. Prince (Chief) Joseph P.Akpan, son of HRH Okuku Placid O.Akpan erstwhile Paramount Ruler of URUAN SOUTH).**

Uruan/Efik History and Perspectives is a masterpiece. The analysis is quite revealing and illuminating. **Rev. Fr. Dr. Israel Ekpo, Rector Magnificus & Ete-Idung I of St. Joseph's Regional Seminary- Ikot Ekpene, Nigeria.**

Msgr Ekarika's book deals in a most commendable manner with the history of URUAN/EFIK. It is a timely, forceful and curious reminder of the patrimony of the EFIK culture to the African continent.
DR. Kekong Bisong; Editor: Nigerian Journal of Theology.

Msgr. Ekarika is our son and his book is marked by a rare combination of technicality, and simplicity. He has also broadened the horizon of our knowledge by bringing in new perspectives to the understanding of our culture and traditions in its religious, political and socio-cultural dimensions. I want all the citizens of URUAN INYANG ATAKPOR to avail themselves of the contents in this book about us and the world, for to be ignorant of one's cultural history is to be ignorant of tomorrow.

His Royal Highness, Edidem Atakpor Nicholas E. Ukpong, Paramount Ruler, URUAN CENTRAL.
This book now being published is at the request and yearnings of all of us and the true sons and daughters of URUAN/EFIK, but it is also for all men and women of good will worldwide especially those who love the Truth, togetherness, and co-operation for a good cause both for themselves and for humanity. **His Royal Majesty, Edidem E.B.A.Ekanem - Paramount Ruler & Grand Patriarch of Uruan Kingdom.**
